the so called cedar revolution in lebanon triggered by the assassination of the former prime minister rafiq hariri in february 2005 brought to an end three decades of syrian military presence in the country here taku osoegawa challenges the commonly held claim that lebanon and its leaders were simple puppets of the syrian regime during the thirty years characterised as lebanon under syrian hegemony furthermore by investigating lebanon s own reasons for aligning itself with syria syria and lebanon aims to answer the following question which theories of international relations are most relevant or best suited to explain lebanon s relations particularly its bandwagoning with syria from 1970 when the asad regime was established to the present day by focusing on the actions and attitudes taken by lebanon s political leadership specifically the presidents and prime ministers towards syria osoegawa considers the applicability of the following theories simple realism complex realism constructivism and complex interdependence syria and lebanon also considers the ways in which the relationship between these two central states in the middle east has developed since the syrian withdrawal for example osoegawa looks at the reasoning behind syrian intransigence over the special tribunal for lebanon and hizbullah s weapons and the consequences of the turmoil and violence which syria has experienced since early 2011 this book s analysis is essential not only for the study of the relationship between lebanon and syria but also their impact on political stability in the wider middle east

the south lebanon conflict saw two decades of sustained resistance by the lebanese to the israeli occupation the lebanese media s role in achieving liberation over this period is significant through campaigns conducted to unify the lebanese people against their foreign occupier and in support of the lebanese resistance in south lebanon this book investigates the culture and performance of

lebanese journalism in this setting it is a story about journalism told by a journalist who is also using tools of scholarship and research to narrate her story and the story of her fellow journalists zahera harb is also presenting here an alternative interpretation of propaganda under conditions of foreign occupation and the struggle against that occupation she identifies the characteristics of liberation propaganda through the coverage and experience of the two lebanese tv stations tele liban and al manar within the historical cultural organisational and religious contexts in which they operated and how these elements shaped their professional practice and their news values

lebanon s significance to the middle east and the global arena is greater than its small size suggests bordering israel and syria it holds a geo strategic role as the playing field for their competition as well as for their allies america and iran this book examines how american diplomacy has responded to the intersection of local regional and international factors in lebanon david hale examines several key episodes in us diplomatic history with lebanon starting with the country s independence in 1943 up until the present moment crucial events such as the lebanese civil war the cedar revolution and more recently the spillover from the syrian civil war are examined within the context of the respective us government administrations of the time and their foreign policy strategies hale asks whether policy makers had realistic and compelling goals the right strategy sufficient means and capable diplomats in its diplomatic approaches towards lebanon through the years crucially this study focuses on how during these critical periods american diplomacy toward lebanon had consequences beyond the country itself and on the narrative lines and lessons for the broader conduct of american foreign policy

this study presents a comprehensive analysis of political developments in the aftermath of the lebanese civil war the author argues that despite the complexity of lebanese society and a host of

unresolved issues that triggered the civil war lebanese political discourse and political activity during the period under discussion 1990 2000 was dominated by a single issue economic reconstruction the author establishes the main reasons behind this and proceeds to render a penetrating analysis of the lebanese political setting as it impinges on the reconstruction process

the arab uprisings have put lebanon under increased strain while the revolutions in tunisia and egypt caused limited reverberations the war in syria echoed in the fine tuned political and confessional balance of lebanon over one million refugees equal to one quarter of lebanon s population have moved in from syria the country s economy and its already weak public infrastructure have been impacted heavily hizbullah s engagement in syria has posed questions about lebanon s disassociation policy terrorist attacks by isil and the growing risk of radicalization across the confessional spectrum have left the country at unease however lebanon s political elites have vowed to shield the country from regional turbulences lebanon recently saw a series of demonstrations because of the inability of the government to manage the garbage crisis but it has been far from witnessing a large scale citizen uprising similar to the 2005 cedar revolution or the revolts next door this book provides a comprehensive overview of the current situation in lebanon and a detailed assessment of the difficulties which the country is currently facing
