this book discusses some rituals of justice such as public executions printed responses to the archbishop of canterbury s execution speech and king charles i s treason trial in early modern england focusing on the ways in which genres shape these events multiple voices i analyze the rituals genres and the diverse perspectives from which we must understand them the execution ritual like such cultural forms as plays and films is a collaborative production that can be understood only and only incompletely by being alert to the presence of its many participants and their contributions each of these participants brings a voice to the execution ritual whether it is the judge and jury or the victim executioner sheriff and other authorities spiritual counselors printer or spectators and readers and each has at least one role to play no matter how powerful some institutions and individuals may appear none has a monopoly over authority and how the events take shape on and beyond the scaffold the centerpiece of the mid seventeenth century s theatre of death was the condemned man s last dying utterance this study focuses on the words and contexts of many of those final speeches including king charles i s 1649 archbishop william laud s 1645 and the earl of strafford s 1641 as well as those of less well known royalists and regicides where we situate ourselves to view hear and comprehend a public execution through specific participants eyes ears and minds or accounts shapes our interpretation of the ritual it is impossible to achieve a singular carefully indoctrinated meaning of an event as complex as a state sponsored public execution along with the variety of voices and meanings the nature and purpose of the rituals of justice maintain a significant amount of consistency in a number of eras and cultural contexts whether the focus is on the trial and execution of the marian martyrs english

royalists in the 1640s and 1650s or the restoration's regicides the events draw on a set of cultural expectations or conventions because rituals of justice are shaped by diverse voices and agendas with the participants' scripts and counterscripts converging and colliding they are dramatic moments conveying profound meanings published by university of delaware press distributed worldwide by rutgers university press

when it originally appeared a new birth of freedom represented a milestone in lincoln studies the culmination of over a half a century of study and reflection

by one of america s foremost scholars of american politics now reissued on the centenary of jaffa s birth with a new foreword by the esteemed lincoln scholar allen guelzo this long awaited sequel to jaffa s earlier classic crisis of the house divided offers a piercing examination of the political thought of abraham lincoln and the themes of self government equality and statesmanship on the eve of the civil war four decades ago harry jaffa offered powerful insights on the lincoln douglas debates in his crisis of the house divided in this long awaited sequel he picks up the threads of that earlier study in this stimulating new interpretation of the showdown conflict between slavery and freedom in the election of 1860 and the secession crisis that followed every student of lincoln needs to read and ponder this book james m mcpherson princeton university a masterful synthesis and analysis of the contending political philosophies on the eve of the civil war a magisterial work that arrives after a lifetime of scholarship and reflection and earns our gratitude as well as our respect kirkus reviews the essence of jaffa s case meticulously laid out over nearly 500 pages is that the constitution is not as lincoln put it a free love arrangement held together by passing fancy it is an indissoluble compact in which all men consent to be governed by majority provided their inalienable rights are preserved bret stephens the wall street journal
