more solid grounding for ethics in human affairs and for feminist thought in this volume christine pierce s important essays including the celebrated natural law language and women expand reflect and refine this central controversy reaching back to aristotle and aquinas and drawing on modern papal encyclicals and supreme court cases pierce demonstrates that the natural law tradition with its doctrine of a supposed hierarchy of natural purpose has served to mystify women s nature and thereby justify restricting women to a predetermined social stratum addressing issues that concern not only feminism but legal theory as well she defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on aristotelian notions of friendship and trust through tightly constructed arguments presented in engaging prose pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes

on such issues as aids gay marriage animal liberation and feminist separatism she combats the prevailing view of plato as sexist and explores sartre s views of holes and slime she also examines the work of contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in thomism with natural law concepts now in fashion with many conservatives and even some supreme court justices pierce s essays offer a necessary perspective on where current legal and ethical thinking is headed immovable laws irresistible rights is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them

pre university paper from the year 2012 in the subject didactics for the subject english miscellaneous grade sehr gut minus 13 punkte language english abstract the dream of an america with boundless possibilities has shaped the american society

over centuries as the historian james truslow adams defined the phrase the american dream in 1931 it is the dream of a land in that life should be better and richer and fuller for everyone with the opportunity for each according to ability or achievement and in that everyone should be recognized by others for what they are regardless of the fortuitous circumstances of birth or position the idea of the american dream is rooted in the united states declaration of independence which declares that all men are created equal that they are endowed by their creator with certain inalienable rights that among these are life liberty and the pursuit of happiness however there are issues like homosexuality and same sex marriage that with regard to the ban on same sex marriage present in most of the united states seem to be contrary to the notion of the american dream thus one has to ask don't gays lesbians deserve the pursuit of happiness and the same rights as heterosexuals does marriage fit in as an inalienable right or quite simply does denying same

as americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion in response legal scholar richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance

and conscience that underpin these often heated debates the distillation of richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives he places in context two key supreme court cases the 1986 bowers v hardwick decision and the 2003 lawrence v texas decision which overturned it drawing upon his own experiences as a gay man richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every american enjoys from publisher description
