How fitting it is that after some thirty five years since the appearance of his original Anchor Bible Commentary on Hebrews Professor George Wesley Buchanan again turns

his hand to this challenging document of early Christianity now as an intertextual commentary here he further elaborates upon his novel thesis that Hebrews 12 is a midrashic sermon based on Psalm 110 giving special attention throughout to its frequent use of scripture the commentary in a way represents vintage Buchanan it is at once fresh bold provocative suggestive learned and filled with helpful insight Buchanan is equally conversant with ancient sources and modern scholarship including recent archaeology his masterful knowledge of Judaism displayed in many publications over the years pays rich dividends in the commentary Buchanan is never dull never predictable never does one have the feeling that one is getting things second hand on the contrary it is continually evident that one is reading the result of a direct fresh encounter with the text above all Buchanan does what he also asks his readers to do think for yourself knowledge after all will not progress if one accepts only traditional and settled opinions on everything this is anything but just another commentary on Hebrews it will engage and challenge readers as very few commentaries do therefore I am happy to recommend it Donald A Hagner George Eldon Ladd Professor of New Testament Fuller Theological Seminary

this ongoing series published under the auspices of the faculty of law and the institute of criminology and criminal law of tel aviv university documents the changes taking place in the field of criminology and the new undercurrents continually surfacing the editor shows that criminological research has become emeshed in two issues first research has become increasingly bifurcated into action oriented research and etiological theorizing the so called new criminology has

caused some ripples especially among radically oriented students second most current approaches to the study and prevention of crime and deviance are being undertaken from a multidisciplinary but undisciplined position efforts are being made to promote an interdisciplinary approach to criminology the idea is to break the semantic barriers among the various disciplines and ultimately to synchronize the various levels of analysis into a continuous homogeneous model

this three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise criminology and criminal justice no longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others the three volume encyclopedia of criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work more than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource the pivotal concepts

Ira Lipman Marvin Wolfgang was the greatest criminologist in the United States of America in the last half of the 20th century, if not the entire century. We first met on March 3, 1977, in Philadelphia. I sought him out after his work with Edwin Newman's NBC reports on violence in America. He was a tender, loving, caring individual who loved excellence, whether it be an intellectual challenge, the arts, or any other pursuit. It is a great privilege to take part in honoring Marvin Wolfgang, a great American. Our approaches to the subject of crime came from different perspectives: one as a researcher and the other as the founder of one of the world's largest security services companies. We both wanted to understand the causes of crime

and our discussions began a more than 21-year friendship based on mutual respect and shared values. Dr. Wolfgang's scholarship aimed for the goal of promoting a safer, more prosperous society, one in which economic opportunity replaced criminal enterprise. He never saw crime in isolation but as part of a complex web of social relations. Only by understanding the causes and patterns of crime can society find ways to prevent it. Only through scholarship can the criminal justice community influence policy makers to encourage the innovative scholarship that marked Marvin's career. Guardsmark established the Lipman Criminology Library at the University of Pennsylvania at his request and created a national criminology award in his name, the Wolfgang Award for Distinguished Achievement in Criminology.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide.

The freedom in the world political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region. In conducting their research, the methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

This annually updated volume of the World Today series is designed to place in context the passionate controversies and emotional attachments of the two billion people who live, study, work, and die in the Middle East and South Asia. Despite room for optimism in some areas, many parts of the Middle East and South Asia continue to face extraordinary challenges and difficult outlooks. Much of this has to do with conflict across the region, which extends well beyond atrocities perpetrated by the Islamic State and the Assad regime in Syria. This volume depicts a region where hundreds of millions seek

dignity as humans and respect from their governments this volume helps the general reader understand recent and past developments from these countries

gaza in crisis is noam chomsky's and ilan papp's clear sighted analysis of an area in a desperate impasse from the targeting of schools and hospitals to the indiscriminate use of white phosphorus israel's conduct in operation cast lead has rattled even some of its most strident supporters in gaza in crisis noam chomsky and ilan papp survey the fallout from that devastation and place the massacre in gaza in the context of israel's long standing war against the palestinians it is

a rigorous historically informed and much needed analysis of the situation and will be welcomed by all those eager for Chomsky's and Papp's insights into yet another political catastrophe. Noam Chomsky is a global phenomenon; he may be the most widely read American voice on foreign policy on the planet today. the first book to speak out against the pervasive influence of the American Israeli Public Affairs Committee (AIPAC) on American politics, policy, and institutions resonates today as never before. With careful documentation and specific case histories, former congressman Paul Findley demonstrates how the Israel lobby helps to shape important aspects of U.S. foreign policy and influences congressional, senatorial, and even presidential elections. Described are the undue influence AIPAC exerts in the Senate and the House and the pressure AIPAC brings to bear on university professors and journalists who seem too sympathetic to Arab and Islamic states and too critical of Israel and its policies. Along with many longtime outspoken critics, new voices speaking out include former President Jimmy Carter, U.S. Representative Cynthia McKinney, Senator Robert Byrd, prominent Arab American Dr.

Ziad Asali, Rabbi Michael Lerner, and journalist Charles Reese. In addition, the lack of open debate among politicians with regard to the U.S. policy in the Middle East is lamented, and AIPAC is blamed in part for this censorship. Connections are drawn between America's unconditional support of Israel and the raging anti-American passions around the world and ultimately the tragic events of 9/11. This replaces 1556520735

originally published in 1970, this title was intended to describe a wide and complex network of historical, social, psychological, and medical issues. It starts with an overview of Israel as a society and how it is similar yet differs from that the reader may be familiar with. Divided into three parts, the first looks at the basic fabric and main patterns of social and psychological issues in Israel and provides the background for specific mental health problems. The second part deals with selected groups of population or problem areas which are of special interest from the viewpoint of mental health issues and that receive special attention by the society itself. This includes the child outside his family, the immigrant child absorbed by the program of youth aliyah, socially deprived or vulnerable children, those with disabilities, and delinquency. The final part deals with ways and means of providing service and care for those who eventually need

attention. This includes descriptions of the mental health professions, the available psychiatric services, the role of voluntary agencies in providing care, and finally a discussion of issues in planning and research. Today it can be read in its historical context.

Teen gangs are a hot issue in the United States. This volume shows the international scope of the phenomenon. Today, gang activity in 14 countries, including the United States, is discussed within the larger framework of social and economic conditions. Each chapter explains the nature of the gang activity in that country, touches on the causes such as poverty, marginalization, and self-identity problems, and heavily emphasizes the responses, including education and community-based intervention. Students and researchers will find a wealth of current information on teen gangs to mine and use for comparisons.
