Free ebook sites are invaluable for educational purposes.

Efforts to expand internet access globally will help more people benefit from free ebook sites.

These sites also enhance accessibility. Whether you're at home, on the go, or halfway around the world, you can access your favorite titles anytime, anywhere, provided you have an internet connection.

BookBoon specializes in free textbooks and business books, making it an excellent resource for students and professionals.

Parents and teachers can find a plethora of children's books, from picture books to young adult novels.

Google Books allows users to search and preview millions of books from libraries and publishers worldwide. While not all books are available for free, many are.

Non-fiction enthusiasts can find biographies, self-help books, historical texts, and more.

Improvements in technology will likely make accessing and reading ebooks even more seamless and enjoyable.

Accessing and downloading ebooks requires an internet connection, which can be a limitation in areas with poor connectivity.

Students can access textbooks on a wide range of subjects, helping reduce the financial burden of education.

Whether it's a tablet, an e-reader, or a smartphone, choose a device that offers a comfortable reading experience for you.

Use tools and apps to organize your ebook collection, making it easy to find and access your favorite titles.

Many ebook platforms allow you to sync your library across multiple devices, so you can pick up right where you left off, no matter which device you're using.

Open Library aims to have a webpage for every book ever published. It offers millions of free ebooks, making it a fantastic resource for readers.

DRM can restrict how you use the ebooks you download, limiting sharing and transferring between devices.

Text-to-speech features can convert written text into audio, providing an alternative way to enjoy books.

Downloading ebooks safely is crucial to avoid pirated content and protect your devices.

Be aware of the legal considerations when downloading ebooks. Ensure the site has the right to distribute the book and that you're not violating copyright laws.

Stick to reputable sites to ensure you're not downloading pirated content. Pirated ebooks not only harm authors and publishers but can also pose security risks.

Project Gutenberg is a pioneer in offering free ebooks. With over 60,000 titles, this site provides a wealth of classic literature in the public domain.

First and foremost, they save you money. Buying books can be expensive, especially if you're an avid reader. Free ebook sites allow you to access a vast array of books without spending a dime.

The future looks promising for free ebook sites as technology continues to advance.

Ebook sites often come with features that enhance accessibility.

There are countless free ebook sites, but a few stand out for their quality and range of offerings.

You can also find books on various skills, from cooking to programming, making these sites great for personal development.

For homeschooling parents, free ebook sites provide a wealth of educational materials for different grade levels and subjects.

To make the most out of your ebook reading experience, consider these tips.

Always use antivirus software and keep your devices updated to protect against malware that can be hidden in downloaded files.

From timeless classics to contemporary bestsellers, the fiction section is brimming with options.

The diversity of genres available on free ebook sites ensures there's something for everyone.

Not all books are available for free, and sometimes the quality of the digital copy can be poor.

Many sites offer audiobooks, which are great for those who prefer listening to reading.

In summary, free ebook sites offer an incredible opportunity to access a wide range of books without the financial burden. They are invaluable resources for readers of all ages and interests, providing educational materials, entertainment, and accessibility features. So why not explore these sites and discover the wealth of knowledge they offer?

Sites like Project Gutenberg and Open Library offer numerous academic resources, including textbooks and scholarly articles.

As educational resources become more digitized, free ebook sites will play an increasingly vital role in learning.

Moreover, the variety of choices available is astounding. From classic literature to contemporary novels, academic texts to children's books, free ebook sites cover all genres and interests.

Despite the benefits, free ebook sites come with challenges and limitations.

You can adjust the font size to suit your reading comfort, making it easier for those with visual impairments.

ManyBooks offers a large selection of free ebooks in various genres. The site is user-friendly and offers books in multiple formats.

the eruption of the anti assad revolution in syria has had many unintended consequences among which is the opportunity it offered sunni jihadists to establish a foothold in the heart of the middle east that syria s ongoing civil war is so brutal and protracted has only compounded the situation as have developments in iraq and lebanon ranging across the battlefields and international borders have been dozens of jihadi islamist fighting groups of which some coalesced into significant factions such as jabhat al nusra and the islamic state this book assesses and explains the emergence since 2011 of sunni jihadist organizations in syria s fledgling insurgency charts their evolution and situates them within the global islamist project unprecedented numbers of foreign fighters have joined such groups who will almost certainly continue to host them thus external factors in their emergence are scrutinized including the strategic and tactical lessons learned from other jihadist conflict zones and the complex interplay between al qaeda and the islamic state and how it has influenced the jihadist sphere in syria tensions between and conflict within such groups also feature in this indispensable volume

disrupting dismantling and ultimately defeating al qaeda based and inspired terrorism is a declared policy of the u s government three key strategic objectives have been identified for accomplishing this attacking al qaeda s terror network undermining

radicalization and recruitment and hardening homeland defense the present monograph proposes a distinct jihad realist approach for undermining radicalization and recruitment to al qaeda first a brief discussion of six means for ending terrorist organizations is provided second the premises of a jihad realist approach are described third a jihad realist shari a case against al qaeda s terrorism is presented in conclusion key assertions are summarized and several specific policy recommendations offered for national security personnel charged with formulating and executing counterterrorist messaging strategy

in this thesis first of all the relation between language and media will be outlined i e the linguistics of newswriting will be explained by providing a general analysis of the processes that produce the language of the news furthermore this chapter will also deal with discourse and ideology in the press in order to demonstrate that newspaper coverage of world events is not unbiased and to show what the linguist consequently has to pay attention to when compiling a newspaper corpus

the events of 9 11 and subsequent acts of jihadist terrorism together with the failures of intelligence agencies over iraq s weapons of mass destruction have arguably heralded a new age of intelligence for some this takes the form of a crisis of legitimacy for others the threat of cataclysmic terrorism involving chemical biological radiological or nuclear attack gives added poignancy to the academic contention that intelligence failure is inevitable many of the challenges facing intelligence appear to be both new and deeply worrying in response intelligence has clearly taken on new forms and new agendas how these various developments are viewed depends upon the historical normative and political frameworks in which they are analysed this book addresses fundamental questions arising in this new age the central aim of the collection is to identify key issues and questions and subject them to interrogation from different methodological perspectives using internationally acclaimed experts in the field a key focus in the collection is on british and north american perspectives recent trends and debates about the organisation and conduct of intelligence provide key themes for exploration underpinning several contributions is the recognition that intelligence faces a conflict of ideas as much as practices and threats this book was published as a special issue of intelligence and national security

this volume examines the rationale effectiveness and consequences of counter terrorism practices from a range of perspectives and cases the book critically interrogates contemporary counter terrorism powers from military campaigns and repression through to the prosecution of terrorist suspects counter terrorism policing counter radicalisation programmes and the proscription of terrorist organisations drawing on a range of timely and important case studies from around the world including the uk sri lanka spain canada australia and the usa its chapters explore the impacts of counter terrorism on individuals communities and political processes the book focuses on three questions of vital importance to any assessment of counter terrorism first what do counter terrorism strategies seek to achieve second what are the consequences of different counter terrorism campaigns and how are these measured and third how and why do changes to counter terrorism occur this volume will be of much interest to students of counter terrorism critical terrorism studies criminology security studies and ir in general

the future of religious minorities in the middle east addresses the domestic and international politics that have created conditions for contemporary religious cleansing in the middle east it provides a platform for a host of distinguished scholars journalists human rights activists and political practitioners the contributors come from diverse political cultural and religious backgrounds each one drawing on a deep wellspring of scholarship experience sobriety and passion collectively they make a major contribution to understanding the dynamics of the mortal threat to the social pluralism upon which the survival of religious minorities depends

examines al qaida s crisis of support and tensions with regional affiliates of its global jihad fills a gap in the literature by focusing on takfir and the random violence it justifies against other muslims author is a recognised expert in this field will be of much interest to students of al qaida global jihadism terrorism islamism middle eastern studies asian studies intelligence security studies and ir in general

this book analyses the islamic state is within a comparative framework of past sunni jihadist movements it argues jihadist failure to

overthrow muslim apostate states has led to a progressive radicalization of violent islamist terror networks this outcome has contributed over time to more brutal jihadist doctrines and tactics contributing to a total war doctrine strategy targeting muslim apostate states the near enemy non muslim civilizations the far enemy and sectarian minorities heterodox muslims and christians these extremist tendencies have been building for over a generation and have reached their culmination in the rise and fall of the islamic state s caliphate given past tendencies the emergence of yet even more radical sunni jihadist movement is probable

dealing with radical islamist ideologies successfully is one of the big challenges of our time this book is analyzing major causes of the ideology of al qaeda and of iran both often described as evil it offers solutions to mitigate the violence of radical islamist ideologies and eventually to dissolve them it shows that the ideology of al qaeda is very much rooted in the israeli palestinian conflict with respect to iran it highlights the fact that the event of the overthrow of the democratically elected prime minister of iran mohammad mossadegh and the destruction of the young iranian democracy by the cia in 1953 is the most important reason for the severe mistrust and the hostilities of iran towards the united states this book concludes among others that a comprehensive peace between israel and the palestinians is a requirement to significantly mitigate the violence of radical islamist ideologies this needs to go hand in hand with strengthening the condemnation of the distorted religious ideology of al qaeda and isil by religious authorities of islam

the rapid rise of the islamic state in iraq and greater syria was almost like a fairy tale a group that was unheard of in early 2013 captured territories as big as great britain by 2014 june effectively erasing the border between iraq and syria it announced a caliphate drew in thousands of fighters and supporters from across the world including india launched attacks in nations from brussels to bangladesh and earned loyalties of local militant groups in conflict ridden states such as nigeria libya afghanistan and pakistan by the end of 2014 isis had transformed itself into a global force of terror isis caliphate tells the story of this phenomenon based on primary sources and interviews the book explores the geopolitical organisational and ideological roots of isis and narrates

how the group has spread its wings from its core in Iraq and Syria to the peripheries of India and Pakistan

this book compares the conflicting and consequential interpretations of jihad offered by mainstream Muslim scholars, violent Muslim radicals and new atheists

this handbook brings together leading scholars and practitioners to examine the prolific body of international laws governing terrorism. It exhaustively covers the global response to terrorism in transnational criminal law, the international law on the

on the morning of September 11, 2001, the entire world was introduced to al Qaeda and its enigmatic leader Osama bin Laden. But the organization that changed the face of terrorism forever and unleashed a whirlwind of counterterrorism activity and two major wars had been on the scene long before that eventful morning. In al Qaeda, the Islamic State, and the Global Jihadist Movement, what everyone needs to know, Daniel I. Byman, an eminent scholar of Middle East terrorism and international security who served on the 9/11 Commission, provides a sharp and concise overview of al Qaeda from its humble origins in the mountains of Afghanistan to the present, explaining its perseverance and adaptation since 9/11 and the limits of U.S. and allied counterterrorism efforts. The organization that would come to be known as al Qaeda traces its roots to the anti-Soviet jihad in Afghanistan in the 1980s. Founded as the Soviets withdrew from Afghanistan, al Qaeda achieved a degree of international notoriety with a series of spectacular attacks in the 1990s. However, it was the dramatic assaults on the World Trade Center and the Pentagon on 9/11 that truly launched al Qaeda onto the global stage. The attacks endowed the organization with world historical importance and provoked an overwhelming counterattack by the United States and other Western countries. Within a year of 9/11, the core of al Qaeda had been chased out of Afghanistan and into a variety of refuges across the Muslim world. Splinter groups and franchised offshoots were active in the 2000s in countries like Pakistan, Iraq, and Yemen. But by early 2011, after more than a decade of relentless counterterrorism efforts by the United States and other Western military and intelligence services, most felt that al Qaeda's moment had passed with the death of

osama bin laden in may of that year many predicted that al qaeda was in its death throes shockingly al qaeda has staged a remarkable comeback in the last few years in almost every conflict in the muslim world from portions of the xanjing region in northwest china to the african subcontinent al qaeda franchises or like minded groups have played a role al qaeda s extreme salafist ideology continues to appeal to radicalized sunni muslims throughout the world and it has successfully altered its organizational structure so that it can both weather america s enduring full spectrum assault and tailor its message to specific audiences authoritative and highly readable byman s account offers readers insightful and penetrating answers to the fundamental questions about al qaeda who they are where they came from where they re going and perhaps most critically what we can do about it what everyone needs to know is a registered trademark of oxford university press

the world has seldom been as dangerous as it is now rogue regimes governments and groups that eschew diplomatic normality sponsor terrorism and proliferate nuclear weapons threaten the united states around the globe because sanctions and military action are so costly the american strategy of first resort is dialogue on the theory that it never hurts to talk to enemies seldom is conventional wisdom so wrong engagement with rogue regimes is not cost free as michael rubin demonstrates by tracing the history of american diplomacy with north korea iran iraq libya the taliban s afghanistan and pakistan further challenges to traditional diplomacy have come from terrorist groups such as the plo in the 1970s and 1980s or hamas and hezbollah in the last two decades the argument in favor of negotiation with terrorists is suffused with moral equivalence the idea that one man s terrorist is another man s freedom fighter rarely does the actual record of talking to terrorists come under serious examination while soldiers spend weeks developing lessons learned after every exercise diplomats generally do not reflect on why their strategy toward rogues has failed or consider whether their basic assumptions have been faulty rubin s analysis finds that rogue regimes all have one thing in common they pretend to be aggrieved in order to put western diplomats on the defensive whether in pyongyang tehran or islamabad rogue leaders understand that the west rewards bluster with incentives and that the u s state department too often values process more than results

unlock a deeper understanding of the intricate relationship between religion and politics with *Islamic State: A Key Volume in the Political Science Series*. This comprehensive guide explores Islamic states, their governance, legal frameworks, and global impact. Ideal for professionals, students, and enthusiasts, it provides advanced insights into this complex topic.

1. *Islamic State*: Explore the concept, characteristics, and historical models of an Islamic state.

Islamic State provides essential insights into Islamic governance and its global impact. Enhance your understanding of political Islam with this comprehensive guide.

The book analyzes how the administrations of Ronald Reagan, George H. W. Bush, Bill Clinton, and George W. Bush used force in response to incidents of international terrorism, providing comparison between each of the administrations as they grappled with the evolving nature and role of terrorism in the United States and abroad.

the rapid expansion of isis and its swathe of territorial gains across the middle east have been headline news since 2013 yet much media attention and analysis has been focussed upon the military exploits brutal tactics and radicalisation methods employed by the group while isis remains a relatively new phenomenon it is important to consider the historical and local dynamics that have shaped the emergence of the group in the past decade in this book simon mabon and stephen royle provide the reader with a comprehensive overview of the roots tactics and ideology of the group exploring the interactions of the various participants involved in the formative stages of isis based on original scholarly sources and first hand research in the region this book provides an authoritative and closely analysed look at the emergence of one of the defining forces of the early twenty first century

this book illustrates the role that private security companies psc with chinese characteristics play in protecting people and property associated with the belt and road initiative bri the revival of the ancient silk road economic belt combined with the 21st century sea lanes of communication known as the road is intended to enhance global connectivity and increase commercial activity however the socio political risks associated with chinese outbound direct investments are often overlooked terrorism separatism kidnapping and other risks are mostly new to chinese companies some of which are operating abroad for the first time economic globalization and the transnational exploitation of natural resources have increased the need for chinese owned pscs in spite of the disdain for the profession of a lance for hire due to peculiar geo strategic and geo economic features the belt from central asia to pakistan and the road from the somali coast to the strait of malacca are characterized by a high level of insecurity this book s focus on how the state s monopoly of force privatization can play a significant role in protecting the new silk road will be of interest to policymakers journalists and academics

challenges for america in the middle east offers a comprehensive and contemporary analysis of the foreign policy challenges the united states faces in the middle east it takes a close look at the critical policy dilemmas posed by radical islam the arab spring the shia crescent and israel palestine relations authors richard w mansbach and kirsten l taylor examine the issues from a historical

perspective and in the context of the current state of affairs and analyze options for future action throughout the text they emphasize the interplay of foreign and domestic issues in the united states and overseas and show how that interplay shapes american policy towards the region

reconciliation after terrorism brings together scholars from the hitherto disparate fields of terrorism and reconciliation studies in order to examine whether reconciliation is a possible strategy for dealing with and ending a terrorist conflict although terrorist activities often play a role in situations of conflict and transition terrorists are generally not taken into consideration as active participants by researchers and practitioners in some cases the terrorists turn into political actors during the reconciliation process and their past is not an issue anymore as it was the case with the anc in south africa this book examines the notion of reconciliation with terrorists from a theoretical and empirical perspective the notion of engagement and reconciliation with terrorist groups is generally seen as problematic if not impossible this is somewhat surprising given that the idea of societal reconciliation has become a common response to state terror although not usually in situations of conflict with sub state terrorist actors similar to state terror sub state terrorism is a sign of a deep societal rift which reconciliation measures may help to overcome the text investigates the reconciliatory process further raising the central questions a what constitutes reconciliation as a process and an outcome and b how can reconciliation be facilitated in a situation of social conflict this book will be of much interest to students of terrorism studies transitional justice conflict resolution peace and conflict studies and ir in general reconciliation after terrorism was featured in the terrorism bookshelf top 150 books on terrorism and counterterrorism selected and reviewed by joshua sinai perspectives on terrorism vol 6 no 2 2012

this rich and engaging book looks at instances of sanctified violence the holy wars related to religion it covers it all from ancient to present day including examples of warfare among sikhs hindus and buddhists as well as christians jews and muslims it is a comprehensive and readable overview that provides a lively introduction to the subject of holy war in its broadest sense as

sanctified violence in the service of a god or ideology it is certain to be a useful companion in the classroom and a boon to anyone fascinated by the dark attraction of religion and violence mark juergensmeyer university of california santa barbara contents introduction what is holy war chapter 1 holy wars in mythic time holy wars as metaphor holy wars as ritualchapter 2 holy wars of conquest in the name of a deitychapter 3 holy wars in defense of the sacredchapter 4 holy wars in anticipation of the millennium epilogue holy wars today and tomorrow also included are a description of the critical themes in world history series preface index and suggestions for further reading

in march 2011 nato launched a mission hitherto entirely unthinkable to protect civilians against libya s ferocious regime solely from the air nato had never operated in north africa or without troops on the ground it also had never had to move as quickly as it did that spring it took seven months 25 000 air sorties 7 000 combat strike missions 3 100 maritime hailings and nearly 400 boardings for tripoli to fall this book tells for the first time the whole story of this international drama spanning the hallways of the united nations in new york nato headquarters in brussels and crucially the two operational epicentres the libyan battlefield and joint force command naples which was in charge of the mission weighill and gaub offer a comprehensive exploration of both the war s progression and the many challenges nato faced from its extremely rapid planning and limited understanding of libya and its forces to training shortfalls and the absence of post conflict planning theirs is a long awaited account of the libyan war one that truly considers all the actors involved

yemen is facing a unique confluence of crises a civil war in the north a secessionist movement in the south and a resurgence of al qaeda are unfolding against the background of economic collapse insufficient state capacity and governance and corruption issues the security challenges are the most important in the short run because economic and governance issues cannot be addressed without a minimum of stability this volume brings together analyses of the critical problems that have dragged yemen close to state failure it provides an assessment of yemen s major security challenges by recognized experts and it broadens the discussion of the

tools available to the international community to pull yemen back from the brink separate chapters examine the resurgence of al qaeda in the arabian peninsula the complex relationship between al qaeda and the yemini tribes the southern secessionist movement and the civil war in saada contents include yemen avoiding a downward spiral what comes next in yemen al qaeda the tribes and state building the political challenge of yemen s southern movement war in saada from local insurrection to national challenge instrumentalizing grievances al qaeda in the arabian peninsula contributors include sarah phillips centre for international security studies university of sydney stephen day rollins college and alistair harris rusi and former diplomat and un staff member

this seminal work on modern terrorism is the one book to read in order to truly understand the reasons why radical muslims such as osama bin laden and his followers have declared war on america and the west in order to win the war against terrorism argues michael scheuer former head of the cia s bin laden unit we must first stop dismissing militant muslims as extremists or religious fanatics formulating a successful military strategy requires that we see the enemy as they perceive themselves highly trained and motivated soldiers who believe their cause is righteous this revised paperback edition provides a more extensive study of osama bin laden and the sources of his thought scheuer has added a good deal of bin laden s words focusing on those issues that have been most misunderstood or ignored and therefore are most in need of exposition these include bin laden s personality his early years as a nonviolent saudi dissident and reformer the causes motivating al qaeda and its allies especially their perception that u s foreign policy threatens islam s survival bin laden s long history of interest in and support for the palestinian cause against israel his evolutionary growth as an islamic hero and leader between 1996 and 2001 and the profound impact the afghan soviet war had and continues to have on bin laden al qaeda and worldwide sunni islamic militancy only by understanding these words can the west appreciate the threat it faces and formulate a strategy to defeat it

analyzes the u s and international efforts in afghanistan and offers detailed recommendations for dealing with the precarious situation leading up to the 2014 transition to afghan control and beyond

examines the recent rise in the united states use of preventive force more so than in the past the us is now embracing the logic of preventive force using military force to counter potential threats around the globe before they have fully materialized while popular with individuals who seek to avoid too many boots on the ground preventive force is controversial because of its potential for unnecessary collateral damage who decides what threats are imminent is there an international legal basis to kill or harm individuals who have a connection to that threat do the benefits of preventive force justify the costs and perhaps most importantly is the us setting a dangerous international precedent in preventive force editors kerstin fisk and jennifer ramos bring together legal scholars political scientists international relations scholars and prominent defense specialists to examine these questions whether in the context of full scale preventive war or preventive drone strikes in particular the volume highlights preventive drones strikes as they mark a complete transformation of how the us understands international norms regarding the use of force and could potentially lead to a slippery slope for the us and other nations in terms of engaging in preventive warfare as a matter of course a comprehensive resource that speaks to the contours of preventive force as a security strategy as well as to the practical legal and ethical considerations of its implementation preventive force is a useful guide for political scientists international relations scholars and policymakers who seek a thorough and current overview of this essential topic

how do militants rationalize violence and what are their motives how do time and space shape their destiny in violence and militants baris cayli explores these enduring questions by comparing violent episodes in towns and villages in the nineteenth century ottoman balkans with today s zones of conflict from afghanistan to the middle east placing history alongside the troubles of the present violence and militants reveals parallels between christian militants who rebelled against the ottoman empire and four jihadist organizations of today hezbollah hamas al qaeda and isis drawing on scholarship by political theorists historians sociologists anthropologists and philosophers cayli traces the root of dissent to a perceived deprivation that leads to aggressive protest and action he argues that the rationalization of violence functions independently of time and geographical location through a riveting narrative this book uncovers how militant groups use revenge ideals and confrontation to generate fear and terror in the name of

justice breaking new ground violence and militants is the first book to address this complex relationship across different periods of history

violent non state actors have become almost endemic to political movements in the middle east and the horn of africa this book examines why they play such a key role and the different ways in which they have developed placing them in the context of the region separate chapters cover the organizations that are currently active including the muslim brotherhood the islamic state in iraq and syria jabhat al nusra hamas hizbullah the pkk al shabab and the huthis the book shows that while these groups are a new phenomenon they also relate to other key factors including the unfinished business of the colonial and postcolonial eras and tacit encouragement of the wahhabi salafi jihadi da wa by some regional powers their diversity means violent non state actors elude simple classification ranging from national and transnational to religious and political movements however by examining their origins their supporters and their motivations this book helps explain their ubiquity in the region

as robert art makes clear in a groundbreaking conclusion those results have been mixed at best art dissects the uneven performance of coercive diplomacy and explains why it has sometimes worked and why it has more often failed book jacket

insurgencies are like the hydra the many headed beast of greek mythology once one begins the measures a government takes to eliminate militants to cut off the insurgency s head can provoke countless others to join the enemy ranks tactical victories often breed strategic de feats traditional search destroy and withdraw missions that rely on firepower to wipe out reb els frequently destroy the livelihoods and loved ones of innocent people caught in the cross fire u s troops have seen the pattern repeated as their initially successful offensives toppled enemy regimes in afghanistan and iraq but soon transformed into grueling guerrilla wars hearts minds and hydras outlines the reasons for these worsening situations the most crucial were self defeating decisions made by the george w bush administration whose neocon servatism and hubris rather than careful analysis of genuine threats national

interests and reasonable options shaped its policies although the americans were eventually able to contain and diminish the insurgency in iraq the one in afghanistan not only steadily intensified but also spread into neighboring pakistan the near abandonment of the war in afghanistan and the neoconservative campaign in iraq were godsend for al qaeda and all other enemies of the united states then as america s position deteriorated in both wars the neoconservatives became even more determined to stay the course william nester analyzes some of the more prominent dilemmas haunting american policymakers now struggling to win in afghanistan fight terrorism in the united states and reshape their relationship with pakistan in doing so he reveals the nature of that all too real monster of insurgency what feeds it and how to starve it

indexes the times sunday times and magazine times literary supplement times educational supplement time educational supplement scotland and the times higher education supplement

this book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times it is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity it is this that makes the case even more persuasive all who are involved in counter terrorism strategy should consider carefully the arguments put forward global policy journal for more than 150 years nationalist populist marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result yet state after state falls into the trap that terrorists have set for them faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation this policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response drawing on a wealth of data from both historical and contemporary sources avoiding the terrorist trap addresses common misconceptions underpinning flawed counter terrorist policies

identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism

the general theme of this volume of the yearbook of international humanitarian law is armed groups and the challenges arising from the participation of such groups in contemporary armed conflicts it is elaborated upon in several chapters addressing the organisation criterion respect for and compliance with international humanitarian law and international human rights law targeted sanctions and accountability issues among other things besides these chapters that can be connected to the general theme the book also contains a chapter dedicated to the knock on the roof practice a year in review describing the most important events and legal developments that took place in 2016 as well as the final report from the IHL study group the conduct of hostilities under international humanitarian law challenges of 21st century warfare the yearbook of international humanitarian law is the world's only annual publication devoted to the study of the laws governing armed conflict it provides a truly international forum for high quality peer reviewed academic articles focusing on this crucial branch of international law distinguished by contemporary relevance the yearbook of international humanitarian law bridges the gap between theory and practice and serves as a useful reference tool for scholars practitioners military personnel civil servants diplomats human rights workers and students

against the backdrop of the ongoing rohingya crisis this book takes a close and detailed look at the rise of militant buddhism in sri lanka burma and thailand and especially at the issues of why and how around it we are well aware of christian fundamentalism militant judaism and islamist salafism jihadism extremist and violent buddhism however features only rarely in book length studies on religion and political violence somehow the very idea of buddhist monks as the archetypical world renouncers exhorting frenzied mobs to commit acts of violence against perceived enemies of the religion seems to be outright ludicrous recent events in myanmar burma but also in thailand and sri lanka however indicate that a militant strand of theravada buddhism is on the rise how can this

rise be explained and what role do monks play in that regard these are the two broad questions that this book explores

as western forces withdraw from afghanistan the islamic movement of uzbekistan imu and the islamic jihad union iju could become more dangerous to western and afghan interests both groups are active in the afghanistan pakistan theater and may use northern afghanistan as a springboard for extending the banner of sharia north of the amu darya river the natural boundary separating afghanistan from post soviet central asia

a concise exploration of globalization and its role in the contemporary era driven by technological advancements and global corporations more and more people are swept up by globalizing processes creating new winners and losers globalization the essentials explores the flows structures processes and consequences of globalization in the modern economic political and cultural landscape this comprehensive introduction offers balanced coverage of areas such as global economic and cultural flows environmental sustainability the impact of technology and racial economic and gender inequality providing readers with foundational knowledge of globalization extensively revised and updated this second edition includes expanded coverage of human trafficking and migration global climate change fake news and information wars and transnational social movements with increased emphasis on examples from central and south america africa and asia offers a straightforward approach to the multiple facets of globalization and their positive and negative influences on contemporary society employs unique metaphors and a coherent narrative structure to promote intuitive understanding of abstract concepts introduces cutting edge research updated statistics and real world examples in areas such as rising global populism social justice movements blockchain technology and cryptocurrencies provides an efficient and flexible pedagogical structure allowing integration with instructor s own course material emphasizing student comprehension a wide range of source material is incorporated including empirical research relevant theories newspaper and magazine articles and popular books and monographs examples of current research and recent global developments such as emerging economies and global health concerns encourage classroom discussion and promote independent study globalization the essentials a compact

edition of the authors full sized textbook globalization a basic text provides concise coverage of the central concepts of this dynamic field offering a multidisciplinary approach this textbook is an invaluable primary or supplemental resource for undergraduate study in any social science field as well as coursework on economics migration inequality and stratification and politics

soldier repatriation from afghanistan has impacted debate about the war this study highlights this impact with particular focus on britain denmark and germany all three countries deployed soldiers soon after the 9 11 attacks yet their role in afghanistan and the casualty rates suffered have been vastly different this book looks at how their casualties influenced the framing of the war by analysing the political discourse about the casualties how the media covered the repatriation and the burials and how the dead were officially recognised and commemorated explaining how bodies count is not done exclusively by focusing on the political leadership and the media in the three countries the response from the men and women in afghanistan to the official framing of the war is given particular weight martinsen contributes to our understanding of european strategic culture by showing how countries respond to the same security challenges

in the aftermath of a terrorist attack political stakes are high legislators fear being seen as lenient or indifferent and often grant the executive broader authorities without thorough debate the judiciary s role too is restricted constitutional structure and cultural norms narrow the courts ability to check the executive at all but the margins the dominant security or freedom framework for evaluating counterterrorist law thus fails to capture an important characteristic increased executive power that shifts the balance between branches of government this book re calculates the cost of counterterrorist law to the united kingdom and the united states arguing that the damage caused is significantly greater than first appears donohue warns that the proliferation of biological and nuclear materials together with willingness on the part of extremists to sacrifice themselves may drive each country to take increasingly drastic measures with a resultant shift in the basic structure of both states

the world wide has become a ubiquitous global tool used for finding information communicating ideas carrying out distributed computation and conducting business learning and science the is highly dynamic in both the content and quantity of the information that it encompasses in order to fully exploit its enormous potential as a global repository of information we need to understand how its size topology and content are evolving this then allows the development of new techniques for locating and retrieving information that are better able to adapt and scale to its change and growth the s users are highly diverse and can access the from a variety of devices and interfaces at different places and times and for varying purposes we thus also need techniques for personalising the presentation and content of based information depending on how it is being accessed and on the specific user s requirements as well as being accessed by human users the is also accessed by applications new applications in areas such as e business sensor networks and mobile and ubiquitous computing need to be able to detect and react quickly to events and changes in based information traditional approaches using query based pull of information to find out if events or changes of interest have occurred may not be able to scale to the quantity and frequency of events and changes being generated and new push based techniques are needed

one of the most powerful islamic militant groups in africa al shabaab exerts taliban like rule over millions in somalia and poses a growing threat to stability in the horn of africa somalis risk retaliation or death if they oppose or fail to comply with al shabaab imposed restrictions on aspects of everyday life such as clothing media sports interpersonal relations and prayer inside al shabaab the secret history of al qaeda s most powerful ally recounts the rise fall and resurgence of this overlooked terrorist organization and provides an intimate understanding of its connections with al qaeda drawing from interviews with former al shabaab militants including high ranking officials military commanders police and foot soldiers authors harun maruf and dan joseph reveal the motivations of those who commit their lives to the group and its violent jihadist agenda a wealth of sources including us diplomatic cables released by wikileaks letters taken from the pakistani hideout of osama bin laden case files from the prosecution of american al shabaab members emails from hillary clinton s tenure as secretary of state and al shabaab s own statements and recruiting

videos inform maruf and joseph s investigation of the united states campaign against al shabaab and how the 2006 us backed ethiopian invasion of somalia gave the group the popular support it needed to radicalize ordinary citizens and become a powerful movement the audio book is narrated by nicholas smith produced by speechki in 2021
