rarely do indian environmental discourses examine nature through the lens of caste whereas nature is considered as universal and inherent caste is understood as a constructed historical and social entity mukul sharma shows how caste and nature are intimately connected he compares dalit meanings of environment to ideas and practices of neo brahmanism and certain mainstreams of environmental thought showing how dalit experiences of environment are ridden with metaphors of pollution impurity and dirt the author is able to bring forth new dimensions on both environment and dalits without valorizing the latter's standpoint rather than looking for a coherent understanding of their ecology the book explores the diverse and rich intellectual resources of dalits such as

movements songs myths memories and metaphors around nature these reveal their quest to define themselves in caste ridden nature and building a form of environmentalism free from the burdens of caste the dalits also pose a critical challenge to indian environmentalism which has until now marginalized such linkages between caste and nature

confluence of thought is the first book to demonstrate the way in which gandhi and king's socio political ideas converge in terms of their origins development and application

humanizing humanity is distinctively framed advocacy of the ways in which the concept of humanity has been defended by various ideologues of india like tagore gandhi and ambedkar by grounding itself in the epistemology of intellectual history the book delineates how these three major thinkers visualised the ways in which society can be better humanized such a process of humanization for these thinkers forms the bedrock of the trajectory in which

humanity may be preserved amidst intense authoritarianism and the violent quest for power by a small minority in the society the book is an attempt at exploring the strands of intertextuality that exist when tagore gandhi and ambedkar s thinking is situated in the ontic and epistemic context of a few humans tendency to destroy humanity and the efforts of another section to create conditions for its preservation bidyut chakrabarty does this by comparing the ways in which the federalist papers of the united states of america and the indian constitution manifest as quintessential texts that uphold the principles of liberty equality justice and the protection of the weaker sections of society from structured strands of domination and exploitation

during his campaign against racism in south africa and his involvement in the congress led nationalist struggle against british colonial rule in india mahatma gandhi developed a new form of political struggle based on the idea of satyagraha or non violent protest he ushered in a new era of nationalism in india by articulating the nationalist protest in the language of non violence or ahimsa that galvanized the masses into action focusing on the principles of satyagraha and non violence and their evolution in the context of anti imperial movements organized by gandhi this fascinating book looks at how these precepts underwent changes reflecting the ideological beliefs of the participants assessing gandhi and his ideology the text centres on the ways in which gandhi took into account the views of other leading personalities of the era whilst articulating his theory of action concentrating on gandhi's writings in harijan the weekly newspaper he founded this volume provides a unique contextualized study of an iconic man's social

and political ideas

on the morning of 14 october 1956 at a mass rally in the indian town of nagpur four hundred men and women turned their backs on a millennium of degradation and slavery finally renouncing hinduism with its cruel system of graded inequality they turned instead to buddhism in search of dignity hope and a path to self improvement over the coming months hindu india shook as hundreds of thousands more followed their example and as the buddha dhamma came back to life in the land of its birth the man solely responsible for this historic revival was dr bhimrao ramji ambedkar politician and educationalist india's first law minister chief architect of her constitution and lifelong champion of her downtrodden million

at present a nativist turn in indian political theory can be observed there is a general assumption that the indigenous thought to which researchers are supposed to be returning may somehow be immediately visible by ignoring the colonization of the mind and polity in such a conception of svaraj which can be translated as authentic autonomy the tradition to be returned to would be that of the indigenous elites in this book this concept of svaraj is defined as a thick conception which links it with exclusivist notions of spirituality profound anti modernity exceptionalistic moralism essentialistic nationalism and purism however post independence india has borne

witness to an alternative trajectory a thin svaraj the author puts forward a workable contemporary ideal of thin svaraj i.e. political and free of metaphysical commitment the model proposed is inspired by b r ambedkar s thoughts as opposed to the thick conception found in the works of m k gandhi kc bhattacharya and ramachandra gandhi the author argues that political theorists of indian politics continue to work with categories and concepts alien to the lived social and political experiences of india s common man or everyday people consequently he emphasises the need to decolonize indian political theory and rescue it from the grip of western theories and fascination with western modes of historical analysis the necessity to avoid both universalism and relativism and more importantly address the political predicaments of the people is the key objective of the book and a push for a reorientation of indian political theory an interesting new interpretation of a contemporary ideal of svaraj this analysis takes into account influences from other cultures and sources as well as eschews thick conceptions that stifle imaginations and

imaginaries this book will be of interest to academics in the fields of philosophy political science sociology literature and cultural studies in general and contemporary political theory south asian and indian politics and political theory in particular

this innovative work of historical anthropology explores how india s dalits or ex untouchables transformed themselves from stigmatized subjects into citizens anupama rao s account challenges standard thinking on caste as either a vestige of precolonial society or an artifact of colonial governance focusing on western india in the colonial and postcolonial periods she shines a light on south asian historiography and on ongoing caste discrimination to show how persons without rights came to possess them and how dalit struggles led to the transformation of such terms of colonial liberalism as rights equality and personhood extending into the present the ethnographic analyses of the caste question reveal the dynamics of an indian democracy distinguished not by overcoming caste but by new forms of violence and new means of regulating

quite distinct from the abundant literature available on mahatma gandhi this historical biography attempts to articulate the historiography of india s freedom struggle of which gandhi was undoubtedly the central figure relooking at key issues and themes that have been raised in the research conducted over the past few decades this is an interpretative essay that seeks to contextualize gandhi and his ideology of ahimsa and satyagraha instead of focusing merely on gandhi s personal life prof bidyut chakrabarty conceptualizes the evolution of his ideas in the context of anti colonial nationalism a nationalism of the mahatma that for the first time in the history of the independence struggle reached every village and taluk of the state a nationalism for a country and a society based on his principles of nai talim new education and sarvodaya upliftment of all but was it the right path and ideology for a new and emerging nation despite being gandhi centred the biography is thus imbued with questions which it attempts to answer through a unique study of one of the

most prominent personalities of the twentieth century it addresses areas of human concerns which will always remain universal in scope and content

one of the most far reaching of sangharakshita's contributions to modern buddhism was giving shape to the buddhist conversion movement begun by the great indian statesman and reformer dr b r ambedkar the first part tells the story of how ambedkar overcame the suffering and struggle of his early years to become the shaper of the indian constitution and the leader of his people to a new life the second part is a collection of 36 talks from sangharakshita's tour of the buddhist communities in india in 1981-2

first published in new delhi by navayana publishing

this book is a critical comparative study of jotirao phule and bhimrao ramji ambedkar modern india's two most prominent dalit leaders although they were not close contemporaries they came to construct a firm structure of not only dalit ideology but also dalit methodology to

emancipate the oppressed and depressed sections of society the book deals with their ideas in a new light highlighting aspects of convergence and contrast in their respective approach to philosophy religion society and culture it argues that deep down in his philosophic orientation phule was quintessentially closer to gandhi than to ambedkar the author also contends that the usage of the term dalit exclusively in the caste communitarian sense is essentially a product of post independence political appropriation rather than social evolution the book specifically brings to light the dynamics of humanism and nationalism on the one hand and that of communitarianism on the other in the context of twentieth century colonial india notably gandhi is brought in the narrative to complete the triumvirate comprehensive and deeply grounded in primary research this thought provoking book will be indispensable for students and researchers of modern indian history sociology political science political thought exclusion studies dalit and subaltern studies and south asian studies it will also appeal

to those interested in the writings of ambedkar and phule
dr bhimrao ramji ambedkar 1891 1956 popularly known as babasaheb stands out for his relentless battle against caste discrimination he was a voice for the marginalized of india s demography that remained peripheral due to well entrenched socio economic and political prejudices this book is an analytical account of how ambedkar s socio political ideas evolved as part of his wider politico ideological challenge against self motivated designs for exploitation of human beings by human beings the author contends that it was an ideological discourse that he built in a context when dominant nationalist viewpoints seem to have hardly left space for any other discourse to grow the book argues that ambedkar s socio political ideas were an outcome of his personal experiences of social atrocities which were justified as integral to the caste system the book comprises six substantial chapters which delve into the socio political ideas of br ambedkar concentrating on those sets of ideas through which he established his claim as an original thinker in opposition to the dominant

nationalist discourse unlike the most conventional studies of ambedkar s thoughts and ideas the book provides a new methodological tool to decipher their conceptual roots it is therefore argued that babasaheb s unique conceptualization of social justice was not just an outcome of his existential existence of being a dalit but an offshoot of his own understanding of liberalism as a mode of emancipating human beings from shackles of authority power and domination examining ambedkar s ideas the book charts and examines the growth and consolidation of constitutional democracy in india since it was inaugurated with the acceptance of the 1950 constitution it will be of interest to scholars in the fields of indian political theory south asian politics and history

told with clarity humour and insight from the frying pan into the fire lets us look into the turbulent history of zimbabwe through the eyes of a native zimbabwean educator born in a rural village in 1965 in what was then rhodesia young judith grew up in a large and extended family of subsistence farmers she remembers her early years as being carefree peaceful and close to nature and looks back fondly on village marriage celebrations music and dancing like most in her village she is unaware of the fomenting resentment against white minority rule which has seen the best farmland handed over to white settlers brought into the former british colony this heartfelt social history takes us behind the scenes to show how families were separated villages bombed and strafed people starved civilians massacred and indigenous sons forced into the rhodesian army it tells us about the barb wired compounds built and encircled with landmines to keep villagers from giving food or support to the freedom fighters this first hand account takes us into the horror of

the 15 year guerilla war that finally led to zimbabwean independence in april 1980 a war that ended judith s childhood and thrust her into the realities of a brutal 37 year dictatorship that would see rampant corruption and civil strife which is still widespread today teachers and students of african history will find a modern day orwellian animal farm in these pages one that shows no indications of democracy anytime soon

ambedkar s political philosophy is a critical exploration of the political theory of b r ambedkar the indian thinker and leader who championed the cause of the socially oppressed rodrigues examines the key concepts that ambedkar used to envision a new framework of public life that would overcome the problems of marginality degradation and domination this framework is based upon an idea of the human endowed with the attributes of reasoning moral capacity self respect and a unique dignity that collectively entitles human beings to a distinct consideration as moral equals despite other differences ambedkar deployed the idea of the human not merely to

contend against the social institutions of caste untouchability and other forms of marginalities but also to interrogate texts traditions and modes of social dominance in a democracy the representational constitutional and institutional architecture of state power is geared to sustain and reinforce itself such an architecture however may prove feeble unless shored up by the moral foundations of societies and backed by religious sanction in ambedkar s view only buddhism as a religion fits the bill in this book the author engages with ambedkar s primary works in both english and marathi and the debates around them and situates his ideas in the south asian context making it a comprehensive and insightful commentary on his political philosophy and its relevance for contemporary society
