building on timothy mitchell s seminal 1991 exploration of the limits of the state this book brings together contributions on the state in the arab world from the past and present in an edited volume altered states views the state less as a matter of people and institutions and more as sets of practices regimes of truth and capabilities of power and the effects they have on those under their control through analysing case studies including tunisia syria lebanon egypt palestine uae rojova and the islamic state the concept of the state is applied and questioned this book examines the roots of policies that led to the uprisings focusing on how the authoritarian bargain which helped define arab politics broke down with the rise of neoliberalism it also assesses how boundaries between state and society have been redrawn as various dynamics have brought state forces into more open conflict with citizens and each other the rapid pace of change in the arab world has necessitated constant modification of themes and theoretical lens of analysis this book will therefore be of interest to practitioners graduate students and academics of the arab world statehood and political science

drawing on insights across clinical and forensic mental health as well as related fields in sociology and security this edited volume provides a diverse yet authoritative overview for those interested in better understanding the threats of lone actor terrorism and its professional response

this book discusses the role of political narratives in shaping perceptions of instability and conceptions of order in the middle east and north africa mena the authors illustrate how in times of socio political turmoil and outbursts of discontent such as the arab spring political entrepreneurs explain and justify their political agendas by complementing hard power solutions with attractive ideas and discursive constructions that appeal to domestic constituencies and geopolitical allies the book is divided into two parts the first focuses on non state actors such as confessional communities and ideological movements who aim to develop narratives that are convincing to their respective polities it also studies regional powers that seek to determine their positions in a competitive environment via distinctive narrations of order in part two the authors investigate the narratives of global players that aim to explain and justify their role in an evolving international order

this comprehensive book uses a rich array of case studies from cities in asia latin america africa southern europe and beyond to highlight the

intensifying global struggle over urban space and underline gentrification as a growing and important battleground in the contemporary world

when we observe protest marches striking workers on picket lines and insurgent movements in the world today a litany of objects routinely fill our field of vision some such objects are ubiquitous the world over like flags banners and placards others are situationally unique who could have anticipated the historical importance of a flower placed in the barrel of a gun a flaming torch a sea of umbrellas a motorist's yellow vest a feather headdress an ak 47 or a knitted pink hat this book explores the stuff at the heart of protests revolutions civil wars and other contentious political events with particular focus on those objects that have or acquire symbolic importance in the context of contentious politics disruptive political episodes where people try to change societies without going through institutions certain objects can divide and unite social groups tell stories make declarations spark controversy and even trigger violent upheavals this book draws together scholars from a variety of fields to discuss symbolic objects in contentious politics their meanings uses functions and social responses in bringing these phenomena together this book offers a serious distinctive and cohesive theoretical contribution that draws upon diverse scholarly work in order to form the building blocks for future inquiry in the field the aim is not merely to close the gap in the literature but to create space in the field for further and more fruitful inquiry

the middle east is often portrayed as oppressively patriarchal and homophobic yet in recent years the region has become a vibrant and important arena for feminist and lgbtq activism this book provides an insight into this emerging politics through a unique analysis of feminist and lgbtq social movements in the context of lebanon's postwar sectarian system resisting sectarianism argues that lgbtq and feminists social movements are powerful agents of political and social transformation in lebanon drawing on extensive ethnographic fieldwork the book takes the reader inside these movements to see how they attract members and construct campaigns forge alliances and the multiple ways in which they generate important forms of resistance to and change within the sectarian system the book also traces the strong obstacles that sectarian parties and religious authorities employ to weaken lgbtq and feminist activism

an economic way of thinking about the gender issues confronting women around the world gender matters in economics for even with today s technology fertility choices market opportunities and improved social norms economic outcomes for women remain markedly worse than for men

drawing on insights from feminism postmodernism psychology evolutionary biology marxism and politics this textbook provides a rigorous economic look at issues confronting women throughout the world including nonmarket scenarios such as marriage family fertility choice and bargaining within households as well as market areas like those pertaining to labor and credit markets and globalization mukesh eswaran examines how women s behavioral responses in economic situations and their bargaining power within the household differ from those of men eswaran then delves into the far reaching consequences of these differences in both market and nonmarket domains the author considers how women may be discriminated against in labor and credit markets how their family and market circumstances interact and how globalization has influenced their lives eswaran also investigates how women have been empowered through access to education credit healthcare and birth control changes in ownership laws the acquisition of suffrage and political representation throughout eswaran applies sound economic analysis and new modeling approaches and each chapter concludes with exercises and discussion questions this textbook gives readers the necessary tools for thinking about gender from an economic perspective addresses economic issues for women throughout the world in both developed and developing countries looks at both market and nonmarket domains requires only a background in basic economic principles includes the most recent research on the economics of gender in a range of areas concludes each chapter with exercises and discussion questions

from the chairman of the u s house of representatives homeland security committee a gripping look at the most dangerous and unexpected threats to our national security and the actions needed to protect us america s inability to foresee the september 11 2001 attacks was deemed a collective failure of imagination our political leaders and intelligence professionals failed to anticipate the wide ranging and unorthodox threats to the nation s security nearly a decade and a half later imaginations in washington d c are still failing despite assurances from our leaders that america is safer today than it was before 9 11 the truth is we are still vulnerable congressman michael mccaull has spent years in washington watching the obama administration ignore or dangerously underestimate the most pressing threats to the country now in failures of imagination the deadliest threats to our homeland and how to thwart them the sitting chairman of the homeland security committee who receives daily intelligence about threats materializing against america depicts in real time the hazards that are closer than we realize from cyber warriors who can cripple the eastern seaboard to radicalized americans in league with islamic jihadists to invisible biological warfare many of the most pressing dangers are the ones we ve heard about the least and are doing the least about in this compelling and action packed narrative mccaull outlines realistic scenarios that could inflict more damage on the nation than any attack we ve yet faced he then explains how our vulnerabilities were created why our enemies are actively contemplating them and what we can do to solve them before it s too late failures of imagination offers a call to action for americans to address these very real and present

dangers and the need for the white house whoever its occupant will be to combat them with the seriousness and urgency they require

the pluralist turn in jurisprudence has led to a search for new ways of thinking about law the relationships between state law and other legal orders such as international customary transnational or indigenous law are particularly significant in this development collecting together new work by leading scholars in the field this volume considers the basic questions about what would be an appropriate theoretical response to this shift how precisely is it to be undertaken is it called for by developments in legal practice or are these adequately addressed by current legal theory what normative challenges are raised and what fresh promises might the pluralist turn hold what distinctive insights can it offer for theorising about law this book presents a rich variety of resources drawn from a number of theoretical approaches and demonstrates how they might be brought together to generate an increasingly important pluralist jurisprudence

vols for 1963 include as pt 2 of the jan issue medical subject headings

americans hate bureaucracy though they love the services it provides and demand that government run like a business hence today s privatization revolution jon michael shows how the fusion of politics and profits commercializes government and consolidates state power in ways the constitution s framers endeavored to disaggregate

shortlisted for the mcilvanney prize for crime writing 2018 this is as close to a city without crime as mankind has ever seen ciudad de cielo is the city in the sky a space station where hundreds of scientists and engineers work in earth s orbit building the colony ship that will one day take humanity to the stars when a mutilated body is found on the cdc the eyes of the world are watching top of the class investigator alice blake is sent from earth to team up with cdc s freeman a jaded cop with more reason than most to distrust such planetside interference as the death toll climbs and factions aboard the station become more and more fractious freeman and blake will discover clues to a conspiracy that threatens not only their own lives but the future of humanity itself excellent hardboiled noir absolutely gripping scifinow an ingenious crime story scotsman as smart as it is gripping this is a terrifically engaging story from start to nerve shredding finish big issue places in the darkness is another corker of a murder mystery brookmyre s new setting with which he s clearly having a whale of a time giving him the opportunity to wow us with an even twistier twist than usual guardian

find out what s going on any day of the year anywhere across the globe the world s date book since 1957 chase s is the definitive authoritative day by day resource of what the world is celebrating and commemorating from national days to celebrity birthdays from historical anniversaries to astronomical phenomena from award ceremonies and sporting events to religious festivals and carnivals chase s is the must have reference used by experts and professionals a one stop shop with 12 500 entries for everything that is happening now or is worth remembering from the past completely updated for 2020 chase s also features extensive appendices as well as a companion website that puts the power of chase s at the user s fingertips 2020 a leap year is packed with special events and observances including national days and public holidays of every nation on earth the total solar eclipse the 100th anniversary of us women s suffrage 19th amendment passed the 75th anniversary of the end of wwii and the atomic bombings of hiroshima and nagasaki the 250th birth anniversary of ludwig van beethoven the 100th birth anniversary of ray bradbury the 50th anniversary of the beatles break up the tokyo olympic games scores of new special days weeks and months such as international go kart week national goat yoga month or national catch and release day birthdays of new world leaders office holders and breakout stars and much more all from the reference book that publishers weekly calls one of the most impressive reference volumes in the world

this book gives an overall analysis of the current knowledge status about structures functions utilization for german baltic coast ecosystems the main focus of this book is on the aquatic area but land sea interactions as well as river outfalls are included as well characteristic for this book is the inclusion of social science aspects approximately one third of its extent will be about the ecosystem services in this segment the results of the last 6 years are presented in which a comprehensive quantification of the social relevance of ecosystems was carried out covering the entire area of the german baltic sea this part builds directly on the results of scientific investigations and are in relation to social ideals the assessment will not only be economically

and ethically but also the mechanisms that are used for the valorisation of the ecosystem services will be evaluated both sub areas the classic natural science part as well as the part of social science aspects deal with the changes caused by increasing anthropogenic influence and social including demographic changes this will be among others in the sense of an exemplary historical outline the final chapter of the synthesis therefore not only presents a summary of the level of knowledge gained and a deduction of the research needs it further contains a presentation of the application aspects resulting from the analysis of the social relevance gained from basic scientific research the book is aimed at scientists and students of natural life and social sciences analysing functioning and structures of coastal ecosystems with regard to sustainable use and nature protection including aspects of coastal protection besides it is thought to become a reference for all levels of decision makers and stakeholders in coastal and marine management of the baltic and north sea region providing also a blueprint for system analysis respecting for societal as well as biological aspects world wide

the philippines is located in a region called the coral triangle an area of exceptional importance as it is recognized as the global center for marine biodiversity within this region the philippines is also known as the center of this center the marine resources are made up of coral reefs seagrass beds seaweeds invertebrates fisheries and many others unfortunately the philippines is facing challenges to conserve its marine biodiversity due to overfishing destructive fishing practices and mariculture derived eutrophication and coastal acidification among others these human activities coupled with climate change pose serious threats and possible decimation of its marine biodiversity

outstanding title by choice magazine on the banks of the pacific northwest s greatest river lies the hanford nuclear reservation an industrial site that appears to be at odds with the surrounding vineyards and desert the 586 square mile compound on the columbia river is known both for its origins as part of the manhattan project which made the first atomic bombs and for the monumental effort now under way to clean up forty five years of waste from manufacturing plutonium for nuclear weapons hanford routinely makes the news as scientists litigants administrators and politicians argue over its past and its future it is easy to think about hanford as an expression of federal power a place apart from humanity and nature but that view distorts its history atomic frontier days looks through a wider lens telling a complex story of production community building politics and environmental sensibilities in brilliantly structured parallel stories the authors bridge the divisions that accompany hanford s headlines and offer perspective on today s controversies influenced as much by regional culture economics and politics as by war diplomacy and environmentalism hanford and the tri cities of richland pasco and kennewick illuminate the history of the modern american west
