three years after the first mass protests of the arab spring senior scholars weigh in on how democracy is faring beginning in december 2010 a series of uprisings swept the arab world toppling four longtime leaders and creating an apparent political opening in a region long impervious to the third wave of democratization despite the initial euphoria the legacies of authoritarianism polarized societies politicized militaries state centric economies and pervasive clientelism have proven stubborn obstacles to the fashioning of new political and social contracts meanwhile the strong electoral performance of political islamists and the ensuing backlash in egypt have rekindled arguments about the compatibility of democracy and political islam even though progress toward democracy has been halting at best the region s political environment today bears little resemblance to what it was before the uprisings in democratization and authoritarianism in the arab world leading scholars address the questions posed by this

how america s failed wars in afghanistan iraq libya syria have resulted in increased threats at home from jihadist terrorism to the rise of western ultra nationalism in the management of savagery max blumenthal excavates the real story behind america s dealings with the world and shows how the extremist forces that now threaten peace across the globe are the inevitable flowering of america s imperial designs washington s secret funding of the mujahedin provoked the russian invasion of afghanistan in 1979 with guns and money the united states has ever since sustained the extremists including osama bin laden who have become its enemies the pentagon has trained and armed jihadist elements in afghanistan syria and libya it has launched military interventions to change regimes in the middle east in doing so it created fertile ground for the islamic state and brought foreign conflicts home to american soil these failed wars abroad have made the united states more vulnerable to both terrorism as well as native ultra nationalism the trump presidency is the inevitable consequence of neoconservative imperialism in the post cold war age trump s dealings in the middle east are likely only to

bleeding hearts from
passionate activism to
violent insurgency in egypt
examines the wave of
violence that broke out in
egypt in the aftermath of
the 2013 military takeover
against the country s first
democratically elected
president abdallah
hendawy sheds light on
stories of several political
activists who abandoned
their commitment to
nonviolence and took up
arms against the state
through multiple interviews
ethnographic observations
field work and qualitative
data analysis hendawy
challenges the dominant
theoretical paradigms on
radicalization that often
attribute this complex
phenomenon to
ideological or religious

thoroughly examines the
tumultuous events that
followed the 2013 military
takeover and the journey
of several radicalized
individuals he
demonstrates how and
why select egyptian
activists turned to violent
tactics in the course of
their political engagement
the book ultimately
concludes that repressive
political environments
particularly the systematic
authoritarian practices by
state security agencies
against political activists
are largely responsible for
radicalization abusive
state practices
traumatized the activists

and created a litany of
unsettled grievances
without recourse giving
rise to a formidable desire
for revenge against those
who violated them both
individuals and the
institutions they represent
why does nothing make
sense how can there be a
climate emergency when
the climate has not
changed noticeably during
my lifetime how can we
fight a war on drugs for
fifty years and the drug
problem gets worse how
can we fight a war on
terror for two decades yet
there s more terror than
ever how could there be a
worldwide pandemic when
there were no excess
deaths anywhere in 2020
why is the answer to every
problem more power and
control for governments
yet they never solve the
problems why is it that the
real power doesn t seem
to be in elected
governments at all every
government in the world
seems to be taking its
marching orders from the
world economic forum
what the hell is going on
what s the connection
between all these things is
it all just an accident these
events seem to be planned
but even if they aren t it
doesn t matter like
pregnancy planned or
unplanned the result is the
same whether by accident
or conspiracy we are on
the road to totalitarian
slavery it s not hard to
understand but it s hard to

believe it is unbelievable
you have to see the
evidence to believe it that
what this book is about
evidence donald lee pulls
together evidence from a
dozen disciplines to
connect the dots on a web
of fraud that is leading
inexorably to a one world
totalitarian tyranny that s
the path we re on but we
can still get on a different
path we re in world war iii
it s a 5th generation war
so it doesn t even seem
like war at its root it is a
spiritual war and spiritual
wars are fought within my
favorite line from the book
is in this spiritual war our
strategy is love our tactic
is forgiveness our weapon
is non violent non
cooperation i couldn t
agree more karen kan m d
in what the hell is going on
spiritual author donald lee
takes you on a journey of
unfolding enlightenment
he shows you how to
perceive differently so you
can perceive what is really
going on the marxist
philosophy of death has
slowly marched through
the institutions and culture
of the western world the
tactics of communist
subversion have
overwhelmed our society
and nobody noticed mass
formation psychosis has
blinded people to reality
making them immune to
reason and common sense
in every fraud we still have
the structure of
democracy in the western
world but all governance is
really functioning as a

dictatorship the policy hierarchy the central bank digital currencies about to be unleashed on the world will trap everyone in the iron grip of a greater slavery than the world has ever known and from which there will be no escape the time to escape is now it is already late if we delay much longer all hope will be lost you must act now to turn back the totalitarianism and bring a new rebirth of freedom turning back to democracy means turning back to god means exposing the lies and uncovering the truth particularly the truth of who you really are an eternal child of god a being of light and love you will be surprised maybe horrified but you won't emerge with the same set of conclusions you went in with christopher a shaw ph d this might be the most important book you read this decade buy it now

the republic of the sudan was long the largest country in africa and according to the general consensus also one of the least successful in many ways this was not entirely its fault since it lay along the fault line between muslim and christian africa and between the Nile valley civilizations and african sudanic cultures this partly explains the long and bloody warfare waged by the southerners to achieve independence

which they did in July 2011 so this hefty book actually covers not one but two states this fourth edition of the historical dictionary of the sudan does so first through a lengthy and detailed chronology tracing its relatively few successes and numerous failures the introductory essay does an admirable job of putting it all in perspective but the most informative part is the dictionary with now over 700 entries for this fourth edition they deal with important personalities politics the economy society culture religion and inevitably the civil war there are also appendixes and an extensive bibliography

the arab spring triggered paradigmatic shifts but despite these changes much in the euro mediterranean region remains the same utilising logics of action an innovative theoretical framework designed to capture the complexity of political interaction in one of the fastest changing regions in the world this book discusses developments in the region before and after the arab spring that can be characterised by a continuation of the norm expert contributors identify patterns of interaction between governmental institutions economic entrepreneurs religious groups and other diverse

actors that withstood these historical changes and explore why these relationships have proved so robust connecting a unique sample of case studies on changing and persistent logics of action within the euro mediterranean space this book provides a pivotal contribution to our understanding of political interaction between north africa the middle east and the european union offering a completely new perspective on the events of the arab spring it identifies something that seems paradoxical at first sight persistence in times of radical change

the presented book has been prepared keeping the candidates in mind in which the syllabus useful for the examination has been included through this book we will be helped in understanding various aspects related to the subject edugorilla publications a reputed education technology organization has created a comprehensive book general studies with the personal guidance of rohit manglik ceo of the organization it provides a structured and excellent approach to exam preparation and helps you build a strong foundation in key concepts and topics

this lively and invigorating book explores the complex relationship between globalization and

citizenship from cairo to beijing campaigns for civil rights and democracy around the world are intensifying and speeding up in the digital media age and public recognition of global interdependence continues to rise at the same time many national governments are tightening border controls and further limiting access to citizenship in a climate of high public anxiety and economic uncertainty although globalization continues to open up many new opportunities for citizens to enter the international arena and make their voices heard as schattle shows the institution of national citizenship remains highly resilient

douglas kellner elaborates upon his well known theory which explores how media spectacle can be used as a key to interpreting contemporary culture and politics grounded in both cultural and communication theory kellner argues that politics war news and information media events like terrorist attacks or royal weddings and now democratic uprisings are currently organized around media spectacles and demonstrates how and why this has occurred rooting the discussions within key events of 2011 including the war in libya the arab uprisings the wedding of william windsor

to kate middleton the killing of osama bin laden and the occupy movements media spectacle and insurrection 2011 makes a highly relevant contribution to the field of media and communication studies it offers a fresh perspective on the theme of contemporary media spectacle and politics by adopting an approach that is based around critical social and cultural theory this series gives students a strong critical grounding from which to examine new media

this book presents new and original insights into the political social and economic development of today s egypt the case study of kamshish a small village in the heart of the delta sheds light on the recent social history of egypt and the evolving relations between egyptian rulers and people highlighted is the kamshish affair during which the village appeared to be at the threshold of a socialist revolution destined to engulf the whole country if not the entire region kamshish became the mecca of the left to which such luminaries as che guevara jean paul sartre and simone de beauvoir paid homage when the expected revolution failed to materialize the state stepped in with a new beginning whose conservatism stands in

sharp contrast to the radicalist trends of the 1960s

narrated by dozens of activists and everyday individuals this book documents the unprecedented events that led to the collapse of dictatorial regimes in tunisia egypt libya and yemen beginning in 2011 these stories offer unique access to the message that inspired citizens to act their experiences during revolt and the lessons they learned from some of the most dramatic changes and appalling events to occur in the history of the arab world the riveting revealing and sometimes heartbreaking stories in this volume also include voices from syria featuring participants from a variety of social and educational backgrounds and political commitments these personal stories of action represent the arab spring s united and broad social movements collective identities and youthful character for years the volume s participants lived under regimes that brutally suppressed free expression and protest their testimony speaks to the multifaceted emotional psychological and cultural factors that motivated citizens to join together to struggle against their oppressors

political speeches and public rhetoric paint the phenomena of terrorism

with a black and white brush presenting it as a clear cut battle between evildoers and heroes with the achille lauro hijacking michael k bohn who watched the incident unfold from the white house situation room uses one of the most infamous terrorist incidents of the past twenty five years to illuminate the folly of such oversimplified jingoisms the 1985 hijacking of the italian cruise ship the amazing capture of the terrorists and a previously untold story of american bigotry come together in this book as a case study in the complex forces that shape both terrorism and the responses that it triggers in october 1985 four palestinian men hijacked an italian cruise ship achille lauro holding hundreds hostage for two days the hijackers killed a partially disabled sixty nine year old jewish american leon klinghoffer and threw his body into the sea many remember klinghoffer's death but few know of the other murder associated with the hijacking that of alex odeh odeh defended on television yasser arafatas apparent role in defusing the hijacking he was killed the next day by a terrorists bomb which exploded as he opened the door of his los angeles office the american arab anti discrimination committee palestinians killed klinghoffer because he was jewish yet jewish

extremists killed odeh because he was a palestinian the klinghoffer family's long crusade to bring the hijacking mastermind abu abbas to justice was partially satisfied with his april 2003 capture in iraq the odeh family still waits for charges to be brought against alexas murderers a particularly disheartening situation as israel america's friend and ally refuses to extradite two suspects these two deaths pale in comparison to the atrocities of september 11 2001 yet understanding both the achille lauro incident and the extraordinary sequence of events that followed will help americans better understand the threat of terrorism terrorism is not an enemy it is a tactic chosen by some to further political goals terrorism is not just about crime and punishment it is about violence power politics prejudice hatred land religion greed money and a host of venal factors that influence human society all of these forces are present in the achille lauro hijacking and its aftermath with more in depth coverage of current political controversies than any other reference guide political handbook of the world 2012 is the most authoritative source for finding complete facts and analysis on each country's

governmental and political makeup this work explains elite behaviour in authoritarian systems and proposes why elites withdraw their support for the incumbent when faced with popular uprisings building upon foundations drawn from institutional authoritarianism and synthesised with local context from the substantial scholarship on the middle east and north africa the book argues that the elite supporting autocrats come from three distinct cadres the military the single party and the personalist each of these cadres possesses its own distinct institutional interests and preferences towards regime change drawing on these interests the study constructs a theoretical framework that is assessed through testing it against three variables utilising an analytic narrative the research finds that the withdrawal of elite support is the consequence of long term processes that see distinct cadres marginalised first increased incumbent preference for personalist elements destabilises regimes as the military and single party cadres reconsider their positions second neoliberal economic policies implemented via structural adjustment accelerated this personalisation as the state's withdrawal from

the economy this in turn affected the ability of the military and single party elites to access patronage finally the degree of military involvement in the formal political sphere contributes to shaping the nature of the system that replaced the incumbent regime under examination building upon a wide range of literature the book argues that interest realisation determines whether or not elite actors support regime change in authoritarian systems the volume will be of interest to scholars researching politics social sciences and the middle east

this book provides an insightful and comprehensive look at the issues regarding the use of the internet and social media by activists in more than 30 countries and how many governments in these countries are trying to blunt these efforts to promote freedom the innovators who created social media might never have imagined the possibility that activists living in countries where oppressive conditions are the norm would use social media to call for changes to bring greater freedom opportunity and justice to the masses the attributes of social media that make it so powerful for casual socializing the ability to connect with nearly limitless numbers of like minded individuals

instantaneously enables political activists to recruit communicate and organize like never before this book examines three aspects of the use of social media for political activism the degrees of media freedom practiced in countries around the world the methods by which governments attempt to block access to information and the various ways in which activists use the media especially social media to advance their cause of greater freedoms readers will learn how these political uprisings came from the grassroots efforts of oppressed and unhappy citizens desperate to make better lives for themselves and others like them and how the digital age is allowing them to protest and call attention to their plights in unprecedented ways

as egyptian society stands at a point of extreme polarization this book about the egyptian revolution makes an important contribution to current debates about the arab uprisings by bringing together theoretical and practitioner s perspectives the clear aim of this edited volume of the series contemporary studies on the mena region is not to construct a singular narrative about the revolution but rather to highlight the multiplicity and complexity of

perspectives and theoretical lenses consequently this book brings together authors from diverse academic and cultural backgrounds from the middle east and the global north to raise their voices this publication addresses scholars of the social sciences peace and conflict research as well as anyone interested in developing a better understanding of the political situation in egypt it is rather easy to say no to a dictator a ruler or a political system but it is exhausting to build a new society this requires the constant effort of dedicated generations this book embraces not a master plan for a better future but it reflects from where this splendid young generation has to start anyway the thorny challenges that are waiting for them on their path the uncertainty of social or political reward professor ddr wolfgang dietrich director unesco chair for peace studies university of innsbruck adham hamed is a cairo based peace and conflict researcher in his work he focuses on transrational peace philosophy and elicitive conflict transformation as it has been developed at the innsbruck school of peace studies
