revolutionary changes among energy producers and dramatically altered patterns of energy consumption across the planet are having profound implications for american national security in general and the u s army specifically the u s army war college gathered experts from the policymaking community academia think tanks the private sector and the military services at the reserve officers association in washington dc in november 2013 to address first the major new realities both geographically and technologically and then the specific military implications the chapters of this compendium are based on the presentations delivered at that conference which was funded through the generous support of the u s army war college foundation publisher s web sit

enclosed by the suez canal and bordering gaza and israel egypt s rugged sinai peninsula has been the cornerstone of the egyptian israeli peace accords yet its internal politics and security have remained largely under media blackout while the international press descended on the capital cairo in january 2011 sinai s armed rebellion was ignored the regime lost control of the peninsula in a matter of days and since then unprecedented chaos has reigned and the islamist

insurgency has gathered pace in this crucial analysis mohannad sabry argues that egypt s shortsighted security approach has continually proven to be a failure decades of flawed policies have exacerbated immense social and economic problems and maintained a superficial stability under which arms trafficking the smuggling tunnels and militancy could silently thrive and finally prevail following the overthrow of mubarak sinai is vital reading for scholars journalists policy makers and all those concerned by the plunge of one of the middle east s most critical regions into turmoil

even though terrorism poses an increasing threat to multinational companies corporate leaders can thwart attacks by learning to navigate the complexities of foreign governments social unrest and cultural dissonance multinational corporations are on the front lines of terrorism and cyberattacks two of the world s biggest threats to global security how can corporate leaders mitigate their organizations risks and develop an infrastructure that detects and deters a security menace before it happens this timely reference lays out essential political context and historical background to help executives identify contemporary threats and understand the interconnections between threat dynamics in an increasingly dangerous international environment this compelling work is organized into seven chapters the beginning chapters profile the specific risks for multinational companies and detail which global and regional factors might propagate violence targeted at american based businesses next two historical case studies on terrorist assaults at tigantourine and mombasa illustrate how counterterrorism can successfully thwart potential attacks against business targets the final part describes industrial espionage and criminal activity and then outlines a corporate counterterror blueprint to combat the prospect of terrorism providing specific recommendations for preventative measures

all terrorist groups eventually end but how do they end the evidence since 1968 indicates that most groups have ended because 1 they joined the political process 43 percent or 2 local police

and intelligence agencies arrested or killed key members 40 percent military force has rarely been the primary reason for the end of terrorist groups and few groups within this time frame have achieved victory this has significant implications for dealing with al qa ida and suggests fundamentally rethinking post 9 11 u s counterterrorism strategy policymakers need to understand where to prioritize their efforts with limited resources and attention the authors report that religious terrorist groups take longer to eliminate than other groups and rarely achieve their objectives the largest groups achieve their goals more often and last longer than the smallest ones do finally groups from upper income countries are more likely to be left wing or nationalist and less likely to have religion as their motivation the authors conclude that policing and intelligence rather than military force should form the backbone of u s efforts against al qa ida and u s policymakers should end the use of the phrase war on terrorism since there is no battlefield solution to defeating al qa ida
