If you ally need such a referred **Egyptian Navy Launches Assault Gaza Fishermen** ebook that will meet the expense of you worth, get the completely best seller from us currently from several preferred authors. If you desire to comical books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released. You may not be perplexed to enjoy every ebook collections Egyptian Navy Launches Assault Gaza Fishermen that we will unquestionably offer. It is not roughly speaking the costs. Its about what you compulsion currently. This Egyptian Navy Launches Assault Gaza Fishermen, as one of the most in force sellers here will enormously be in the middle of the best options to review.

The diversity of genres available on free ebook sites ensures there's something for everyone.

ManyBooks offers a large selection of free ebooks in various genres. The site is user-friendly

and offers books in multiple formats.

In summary, free ebook sites offer an incredible opportunity to access a wide range of books without the financial burden. They are invaluable resources for readers of all ages and interests, providing educational materials, entertainment, and accessibility features. So why not explore these sites and discover the wealth of knowledge they offer?

Text-to-speech features can convert written text into audio, providing an alternative way to enjoy books.

Despite the benefits, free ebook sites come with challenges and limitations.

Ebook sites often come with features that enhance accessibility.

Parents and teachers can find a plethora of children's books, from picture books to young adult novels.

Downloading ebooks safely is crucial to avoid pirated content and protect your devices.

Sites like Project Gutenberg and Open Library offer numerous academic resources, including textbooks and scholarly articles.

Moreover, the variety of choices available is astounding. From classic literature to contemporary novels, academic texts to children's books, free ebook sites cover all genres and interests.

Efforts to expand internet access globally will help more people benefit from free ebook sites.

You can also find books on various skills, from cooking to programming, making these sites great for personal development.

Project Gutenberg is a pioneer in offering free ebooks. With over 60,000 titles, this site provides a wealth of classic literature in the public domain.

As educational resources become more digitized, free ebook sites will play an increasingly vital role in learning.

First and foremost, they save you money. Buying books can be expensive, especially if you're an avid reader. Free ebook sites allow you to access a vast array of books without spending a dime.

Not all books are available for free, and sometimes the quality of the digital copy can be poor.

Always use antivirus software and keep your devices updated to protect against malware that can be hidden in downloaded files.

Google Books allows users to search and preview millions of books from libraries and publishers worldwide. While not all books are available for free, many are.

Many sites offer audiobooks, which are great for those who prefer listening to reading.

Use tools and apps to organize your ebook collection, making it easy to find and access your favorite titles.

Whether it's a tablet, an e-reader, or a smartphone, choose a device that offers a comfortable reading experience for you.

Improvements in technology will likely make accessing and reading ebooks even more seamless and enjoyable.

BookBoon specializes in free textbooks and business books, making it an excellent resource for students and professionals.

Accessing and downloading ebooks requires an internet connection, which can be a limitation in areas with poor connectivity.

Open Library aims to have a webpage for every book ever published. It offers millions of free ebooks, making it a fantastic resource for readers.

From timeless classics to contemporary bestsellers, the fiction section is brimming with options.

Many ebook platforms allow you to sync your library across multiple devices, so you can pick up right where you left off, no matter which device you're using.

Students can access textbooks on a wide range of subjects, helping reduce the financial burden of education.

DRM can restrict how you use the ebooks you download, limiting sharing and transferring between devices.

Free ebook sites are invaluable for educational purposes.

You can adjust the font size to suit your reading comfort, making it easier for those with visual impairments.

These sites also enhance accessibility. Whether you're at home, on the go, or halfway around the world, you can access your favorite titles anytime, anywhere, provided you have an internet connection.

Stick to reputable sites to ensure you're not downloading pirated content. Pirated ebooks not

only harm authors and publishers but can also pose security risks.

To make the most out of your ebook reading experience, consider these tips.

The future looks promising for free ebook sites as technology continues to advance.

There are countless free ebook sites, but a few stand out for their quality and range of offerings.

Be aware of the legal considerations when downloading ebooks. Ensure the site has the right to distribute the book and that you're not violating copyright laws.

Non-fiction enthusiasts can find biographies, self-help books, historical texts, and more.

For homeschooling parents, free ebook sites provide a wealth of educational materials for different grade levels and subjects.

palestinians have used the language of human rights to articulate their struggle against the israeli occupation and internationalise the injustices they face palestinian young people learning about human rights at school experience a dissonance between the aspirational and internationalised framework of those norms and the layers

of injustice of their own lived experience drawing on research in the occupied west bank this book explores the three layers of marginalisation faced by palestinian young people the israeli occupation that denies them their humanity the palestinian pseudo state that denies them a voice and patriarchal structures that deny them agency to show how these barriers influence their understanding of and scepticism towards human rights influenced by decolonial theories this book illuminates how space needs to be created for the counter narratives of the oppressed in human rights discourse which may not align with more conventional representations of human rights it contends that human rights and by extension human rights education in the palestinian context and beyond needs to be critiqued decolonised and ultimately transformed

this report was researched and written by bill van esveld acknowledgments

a land with a people began as a storytelling project of jewish voice for peace new york city and subsequently transformed into a theater project performed

throughout the new york city area a land with a people elevates rarely heard palestinian and jewish voices and visions it brings us the narratives of secular muslim christian and lgbtq palestinians who endure the particular brand of settler colonialism known as zionism it relays the transformational journeys of ashkenazi mizrahi palestinian and lgbtq jews who have come to reject the received zionist narrative unflinching in their confrontation of the power dynamics that underlie their transformation process these writers find the courage to face what has happened to historic palestine and to their own families as a result stories touch hearts open minds and transform our understanding of the other as well as comprehension of our own roles and responsibilities a land with a people emerges from this reckoning contextualized by a detailed historical introduction and timeline charting 150 years of palestinian and jewish resistance to zionism this collection will stir emotions provoke fresh thinking and point to a more hopeful loving future one in which palestine israel is seen for what it is in its entirety as well as for what it can be

the greatest existential threat to judaism in 2 000 years is coming from the west on october 7th hamas launched the deadliest attack on the jewish nation since the holocaust yet neither hamas nor iran have the capabilities to eradicate judaism the west does the assault on judaism ushers readers through the astonishing ideological attack from the west that followed october 7th and shows how it presents an imminent danger to the survival of judaism drawing on the lessons of previous large scale assaults the book then offers a revolutionary approach to countering the threat the assault on judaism from the west is rapidly turning into a threat to us national security and to global stability yet so far it has been all but ignored this book offers a paradigm shift that can protect judaism and benefit the world groundbreaking book brilliant analysis of the existential threat to judaism and danger to global stability that followed october 7th this is the original thinking the world needs to address our era s geopolitical challenges col richard kemp former commander of british forces in iraq and afghanistan

journey through a mammoth

timeline richly illustrated with over 1500 photos maps and illustrations written in association with the esteemed smithsonian museum a beautiful visual reference book with key events of world history written in an elementary language for budding historians take chronological steps through human history starting long before we even began to write learn about significant global events like the rise of different societies revolutions invasions and new discoveries meet the most memorable people from history books including charismatic leaders brutal dictators influential thinkers and innovative scientists written with kids ages 9 to 12 in mind this book uses unpretentious language and gives straightforward fun facts the child of the time feature encourages young people to imagine themselves in the past and lets them know that children had a place in history older readers will love this engaging educational book too dive in and explore the parts of the past you haven t yet discovered the multitude of photos maps and graphics make reading about history simple and enjoyable this visual reference guide

far from being solely a terrorist organization hamas is a heterogeneous movement that uses both violence and political participation to achieve its main objective which is to stay in power and

preserve its identity two opinions about hamas are prevalent according to the first opinion hamas is a radical terrorist organization the policy implication of this opinion is simple hamas cannot be reformed and will continue to use violence until it is neutralized according to the second opinion hamas is a social movement that does not necessarily need to use violence this school of thought sees hamas as a movement that can learn to refrain from violence the policy implication of this opinion is that hamas participation in politics will help it transition into a nonviolent organization both perspectives emphasize only a particular part of hamas either its use of violence or its political development but hamas must be analyzed and understood by the complexity of its organization and the interdependency of its actions to internal and external influences therefore it is important to pose the following questions 1 what are the domestic international and internal organizational factors that shape hamas behavior and lead to either pragmatic nonviolent action or the use of violence and 2 is hamas ideological movement driven

by absolute religious principles that cannot be compromised or is it a pragmatic organization capable of justifying compromise even on a seemingly immutable doctrine this thesis asserts a middle position hamas decision to act depends on two factors its internal situation and the political and situational circumstances on the ground in palestine the middle position implies that the situation on the ground can be influenced in a way that gives hamas little or no incentive to use violence abstract of author s master s thesis

this csis report states that terrorism is no longer the leading international threat to the united states or its top defense priority but challenges related to violent extremism remain the threat from salafi jihadist groups such as al qaeda and the islamic state has declined and ethnonationalist threats are largely contained however a broader patchwork of violent far left extremist ideologies has become more prominent on the global stage

first published in 2015 this collection holds three volumes terrorism is a term

that defies easy definition and its meaning has also changed over the course of history because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence the encyclopedia is divided into six parts

this annual report on armed conflicts around the world provides detailed information on each conflict which occurred in 2014 the report sets out the conflicts classification applicable norms key actors methods of warfare and the number of casualties it also analyses key legal issues that arose in the context of these armed conflicts

what explains the peculiar intensity and evident intractability of the israeli palestinian conflict of all the hot spots in the world today the apparently endless clash between jews and arabs in the middle east seems unique in its longevity and resistance to resolution is this conflict really different from other ethnic and nationalist

confrontations and if so in what way in this fully revised and expanded fifth edition of his highly respected introductory text alan dowty demystifies the conflict by putting it in broad historical perspective identifying its roots and tracing its evolution up to the current impasse his account offers a clear analytic framework for understanding transformations over time and in doing so punctures the myths of an age old conflict with an unbridgeable gap between the two sides rather than simply reciting historical detail this book presents a clear overview that serves as a road map through the thicket of conflicting claims updated to include recent developments such as the recent israeli elections and the debate over the two state solution the new edition presents in full the opposed perspectives of the two sides leaving readers to make their own evaluations of the issues the book thus expresses fairly and objectively the concerns hopes fears and passions of both sides making it clear why this conflict is waged with such vehemence and how for all that the gap between the two sides has narrowed over time

this book offers a new

understanding of the nature of power seeking insurgent groups by empirically examining the use of violence by hamas in the palestinian israeli conflict though hamas has learned to ride the tides of popular support it remains suspended between its quest to achieve the values of its ardent supporters reclamation of land through force and the desire to grow popular support this tension is reflected in how and when the group exercises violent resistance the theoretical framework applied in this volume provides a simple construct to understand the dynamics that result in use and non use of violence under changing environmental conditions by hamas but could be applied more broadly to other power seeking insurgent groups including isil the book weaves together the dynamics between violent actions and internal and external influences on hamas including expressed values of the group palestinian popular support measures leaders personalities and innovation weapons and tactics israeli influence and targeted killings peace processes and conflicts in gaza syria iraq and egypt with newly assembled datasets on hamas violent

acts and public statements israeli targeted killings historical measures of popular support and extensive field interviews the book offers a fresh perspective on insurgent group violence by demonstrating under what conditions the group exercises violence or refrains from doing so this book will be of much interest to both policy makers and students of the arab israeli conflict political violence middle eastern politics security studies and international relations in general

this reference is essential reading for anyone attempting to understand modern terrorism by studying the arc of terrorism throughout history from anarchists to al qaeda isis and beyond as the rise of isis demonstrates terrorist groups continue to destabilize vital regions around the world this book features a series of introductory essays addressing how terrorism has evolved spanning centuries to focus ultimately on the advent of modern terrorism which has taken place from 1968 to the present it discusses the emerging challenges presented by the

proliferation of violent non state actors including al qaeda and isis in addition it explores exactly what has motivated terrorists and speculates as to how terrorism may continue to evolve the core of terrorism the essential reference guide comprises a z entries on terrorist organizations major terrorist attacks and prominent terrorist leaders the work concludes with a carefully selected group of primary source documents essential to understanding the contemporary terrorist landscape and a detailed timeline that will help readers to place significant terrorism related events in their proper context

this is a comprehensive report on every armed conflict which took place during 2012 it is the first of a new series of annual reports on armed conflicts across the globe offering an unprecedented overview of the nature range and impact of these conflicts and the legal issues they create in part i the report describes its criteria for the identification and classification of armed conflicts under international law and the legal consequences that flow from this classification it sets out a

list of armed conflicts in 2012 categorising each as international non international or a military occupation with estimates of civilian and military casualties in part ii each of these conflicts are examined in more detail with an overview of the belligerents means and methods of warfare the applicable treaties and rules and any prosecutions for investigations into or robust allegations of war crimes part iii of the report provides detailed thematic analysis of key legal developments which arose in the context of these conflicts allowing for a more in depth reflection on cross cutting questions and controversies the topics under investigation in this report include drone strikes the use of explosive weapons small arms forced displacement of civilians detention at guantanamo bay and the enforcement of international humanitarian and criminal law in both national and international courts the report gives a full and accessible overview of armed conflicts in 2012 it should be the first port of call for everyone working in the field

hamas and palestine the contested road to statehood

analyses the palestinian islamist movement hamas between 2005 and 2017 the book expounds how hamas has employed a dual resistance strategy consisting of political and armed resistance as a mechanism to achieve maintain and defend its continued political viability hamas entered politics to transform the role of the palestinian authority from an administrative institution into one driving the palestinian quest for independence to achieve this the analysis explains how hamas implemented a process of soft islamisation in gaza this was intended to build the institutional capacity of the authority based on the bureaucratisation and professionalisation of key institutions while selectively increasing the role of islam in society the book provides a detailed explanation of key shifts in hamas s political behaviour as it adapts to the vagaries and vicissitudes of governing gaza despite the imposition of israel s political and economic siege employing the inclusion moderation theoretical framework the book traces hamas s transformation from a non state armed group into a legitimate actor in palestinian politics the book s

analysis also highlights the key role that hamas's national liberation agenda has on shifting its behaviour towards adopting more moderate and inclusive policy stances specifically the analysis demonstrates how hamas has made measurable shifts in its political behaviour towards accepting the primacy of the two state solution and its dealings with israel and the peace process the book provides a comprehensive assessment of hamas's time in government and its capacity to deal with the vicissitudes of governing it is a valuable resource for students and researchers interested in the israeli palestinian conflict and middle east politics

through sections containing overview essays and reference entries related to particular religions this resource explores the rise of religious violence hate crime and persecution around the world religious violence and persecution have been growing steadily both within the united states and around the world drawing on the expertise of a wide range of scholars this current and comprehensive reference helps readers understand the persecution of members of particular faiths as well as

violence committed by members of those faiths in doing so it promotes a greater understanding of the role of religion in global politics domestic and international terrorism and religious bigotry the book contains sections on particular religious traditions from around the world each section begins with an overview essay surveying violence related to that particular religion whether committed by or against members of that faith reference entries in each section then provide objective fundamental information about particular topics related to violence and the religion discussed the entries provide cross references and suggestions for further reading and the work closes with a bibliography of resources for further study

from bullets to ballots considers non state muslim organizations at different stages of abandoning violence and pursuing their goals some have successfully made the transition others are in mid stream some have tried but backtracked splintered or simply abandoned such efforts reverting to

pathological violence many groups could be case studies but phillips has selected the muslim brotherhood of egypt hamas hezbollah the kurdistan workers party the jammu and kashmir liberation front and the free aceh movement because they cover the spectrum this book deals with political strategies for moderating violent muslim movements by engaging them in the political process in strong criticism of the bush administration phillips notes that the push for democracy may have increased conflict by giving violent groups the ballot which they use to gain power focusing on non state muslim organizations from bullets to ballots considers the relationship between ideology and policy phillips discusses their origin ideology structure and leadership and examines financing activities and communications he assesses the groups commitment to elections and its acceptance of the responsibility that comes with governance from bullets to ballots draws on twenty years of phillips experience working democratization and conflict prevention in the middle east the balkans the caucasus and south asia his recommendations are

primarily directed to the united states because he believes the united states should be a leader in promoting democracy around the world at the same time he is convinced that the united states must tread softly or run the risk of fomenting further violence undermining future democratic development and setting back its own national interests this is a provocative informed and balanced analysis of the theories behind current policies

the britannica book of the year 2012 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world it is an accurate and comprehensive reference that you will reach for again and again

this extensive reference examines extreme political movements and the political cultural and economic conditions that breed them from the alt right in the united states to the houthi rebel movement in yemen and the question of taiwan s independence nationalism

today extreme political movements around the world is an authoritative guide for students and teachers who seek to understand nationalist movements across the globe the two volume work opens with essays that describe different types of nationalist movements extremist revisionist and separatist arranged by country the entries that follow provide the geographic cultural economic and political context for the development of nationalist movements the entries provide expert analysis of specific movements and lay the groundwork for comparison of the many different types of extreme political movements that are exerting themselves around the world today in addition easy to read tables give cultural economic and political facts and figures for each country a comprehensive scholarly bibliography of secondary sources rounds out the book

the twentieth and twenty first centuries have seen states engaged in long term conflicts with asymmetrically weaker non state actors nsa states aim to end these conflicts as quickly as possible by combining force and diplomacy to socialize these militants meaning give them the characteristics of states in order to make a credible bargain achievable the militant s characteristics determine the state s optimal strategy in times of conflict politicians and pundits often march out an oft cited phrase in support of negotiations if you want to make peace you don t talk to your friends you talk to your enemies this is only possible when the opponent is willing to make peace under acceptable terms and able to enforce abidance some opponents have an ideologically driven fundamental purpose that precludes renouncing violence under terms that a state could accept others have reasonable demands and are structured in a way that allows productive negotiations in other cases the non state militant is not yet the type that can be bargained with but can be

socialized into this type through a state s correct application of force and diplomacy i call this socialization logic i argue that optimally states tailor their strategy to socialize with their opponent to make it possible to successfully negotiate peace in practice the state s strategy is often distorted by its internal and external constraints socialization logic provides a novel typology of non state militants based on how well interstate conflict bargaining concepts can be applied to them it looks beyond tactics to systematize a framework for understanding how leaders tailor strategy towards non state opponents based on their characteristics socialization logic examines the nsa type as endogenous to the strategy that the state employs and provides a framework for leaders to design a strategy to end the conflict finally socialization logic synthesizes critical nsa attributes ideology leadership structure and governance function and the state s strategy distorted by constraints into in an interactive model through 41 interviews primary and secondary source data i analyze the united states russia s and israel s

asymmetric conflicts with militants and demonstrate that socialization logic most comprehensively explains their strategies throughout those conflicts

this volume is designed to place in context the passionate controversies and emotional attachments of the two billion people who live study work love and die in the middle east and south asia understanding these regions means more than annually updated details of the governments politics cultures and economies of the twenty four nations and assorted territories special chapters address significant issues of continuing international importance including access to water the role of oil and the 2011 arab spring both regions after all contain types

of people misunderstood and often intensely disliked by others where religion intrudes on politics the afghan taliban oppose educating girls hindu fanatics rampage in india iranian militiamen shoot demonstrators islamic extremists impose sharia and jewish ultra orthodox send women to the back of the bus readers bombarded with superficial news bites and slanted reporting might never sense the other accomplishments of these same societies islamic charities and societies bring relief to the impoverished israel s scholars win nobel prizes and most indians cherish long standing religious toleration the author of this volume attempts to let the reader draw conclusions from the evidence

acclaimed israeli intelligence analyst avi melamed has spent more than thirty years interpreting middle east affairs his long awaited inside the middle east challenges widely accepted perceptions and provides a gripping and uniquely enlightening guide to make sense of the events unfolding in the region to answer how the arab world got to this point what is

currently happening what the ramifications will be how they will affect israel and what actions must immediately be undertaken including how western leaders need to respond melamed considers all the major power players in the middle east explains the underlying issues and creates a three dimensional picture an illustration that connects the dots and provides a fascinating roadmap he elucidates developments such as the arab spring the downfall of the muslim brotherhood the rise of isis the epic sunni shiite animosity the essence of the war in syria the role of the caliphate and jihad and the looming nuclear arms race he also provides a rare opportunity to journey into the psyche of arab society look through the lens of its leaders and its most ruthless terrorists see what makes them tick and what they want discover how they can be overtaken this unparalleled volume is a milestone in our understanding of the middle east it is the untold story of the struggles that will shape the region and the world for decades to come and a groundbreaking guide that will shake you to the core force you to reevaluate your outlook and give you tips to

navigate the future from author avi melamed the conflicts in the middle east grow more confusing and dangerous every day in my encounters with thousands of people from across the world from global leaders to high school students i know there is deep and intense thirst for knowledge because today understanding the middle east is not optional it s mandatory my new book inside the middle east making sense of the most dangerous and complicated region on earth is based on my decades of advisory counterterrorism education and intelligence positions as well as my intimate connections throughout the arab world the book also provides the building blocks and database to understand the contemporary middle east offers a unique insight into the arab world and is a gps to help you navigate the dramatically changing middle east in the book i also offer an out of the box idea that could lead to a positive breakthrough in the israeli palestinian conflict

the middle east can be bewildering which is why we need to connect the dots that pull together the political economic diplomatic military

cultural and religious pieces of the puzzle professor steven carol slashes through the confusion with a topical approach focusing on key issues such as the geographic features of the middle east demographics of the region the influence of islam political processes shifting alliances war in the region and the need for security he also takes a careful look at perpetual negotiations attempts to secure peace and the role that the media play in how we view the region his goal to clarify the confusing nature of middle east affairs and to combat the mistaken beliefs misrepresentations and outright fabrications about the region in a bid to reclaim the truth he shares basic principles relying on factual supporting evidence to prove their validity seventy eight maps and numerous tables make understanding complex topics easier whether you re a student educator bureaucrat or politician you ll find insights based on facts in understanding the volatile and dangerous middle east

with respect to the countries of the world this work addresses two basic questions how does religion affect politics in this country

and how does politics affect religion in this country although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends the present work does the latter contextualizing them within regional and national boundaries in so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology the work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s it is organized by global geographic regions including africa central and south america and the middle east and presents countries alphabetically within those sections each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region the work also includes an introduction sidebars and a bibliography

on the backbenches but still in the thick of it decline and fall runs from chris mullin s sacking as a minister by tony the man blair in 2005 to the fall of new labour in may 2010 here is politics as it really is entertaining encounters with constituents and conspirators tantalising glimpses behind the scenes at the courts of blair and brown all set against the background of the global financial crisis and the great expenses meltdown every bit as funny and insightful as his first volume a view from the foothills these new diaries provide a snapshot of life in the westminster village preparing to step down after twenty three years as an mp mullin wryly observes they say failed politicians make the best diarists in which case i am in with a chance

as one of the most enduring and bitter struggles we have seen in over 100 years the israeli palestinian conflict is a powder keg always on the verge of exploding and drawing in the wider region the international community at large and in particular the u s although the conflict is of far reaching importance among college students and the general public there is a dearth of knowledge about it many of the conversations in

these audiences are animated by ongoing myths and problematic talking points this book fills in the gaps of understanding while puncturing false dichotomies and tearing down walls of ideology or indifference it addresses perennial questions including when and why did the conflict start what exactly are the claims of the contending sides why does peace seem unattainable what is a likely long term outcome and how can it be brought about in a peaceful way doing justice to both sides finally this book maintains that historic palestine the land between the mediterranean and the jordan river must become a home for both palestinians and jews with equal standings for both and without exclusive claims for either for students scholars and citizens of the world this book provides a concise and level headed way to understand one of the most complex and vexing conflicts of our time

this volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of jews it documents the religious sociological political and economic contexts in which

antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the jews social status the volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism

although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups it is estimated that two thirds of violent conflicts being fought each year in every part of the globe including north america are ethnic conflicts unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post cold war world although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare more specifically handbook of ethnopolitical conflict

explores the function of ethnic religious and national identities in intergroup conflict in addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide

in nonhuman witnessing michael richardson argues that a radical rethinking of what counts as witnessing is central to building frameworks for justice in an era of endless war ecological catastrophe and technological capture dismantling the primacy and notion of traditional human based forms of witnessing richardson shows how ecological machinic and algorithmic forms of witnessing can help us better understand contemporary crises he examines the media specificity of nonhuman witnessing across an array of sites from nuclear testing on first nations land and autonomous drone warfare to deepfakes artificial intelligence and algorithmic investigative tools throughout he illuminates the ethical and political implications of witnessing in an age of profound instability by challenging readers to

rethink their understanding of witnessing testimony and trauma in the context of interconnected crises richardson reveals the complex entanglements between witnessing and violence and the human and the nonhuman

tours the most significant battle in history this is not a history book it is not unlikely that this book will get me killed and i would not dismiss the danger to its publishers if you have the courage to print and distribute it there is no doubt that it will be one of the all time best sellers in the world today tours the largest city in the centre region of france is the location of what was arguably the most significant battle in human history here in 732 charles the hammer martel stopped an invading army of sixty thousand muslims cold martel slaughtered every one of them and left their unholy bones to rot as a testament to god and all who passed since the birth of the so called prophet mohammed in 471 ad the crazed followers of allah rampaged throughout the middle east and invaded southern europe in an attempt to lay waste to all christian lands murdering pillaging and proselytizing the

spread of islam throughout the middle east was most certainly by and under the sword the egyptians were obviously not arabs or muslims until the armies of islam swept into their territories equally in every country that fell under the murdering hands of the muslims the people of those countries were subjugated and slaughtered forced to convert or die indeed no one can argue that islam is not a diseased cult spread by force staining human history with blood the story i wrote is about charles martel and how he came to be there on that fateful day at tours as the sole defender of the faith and all that stood against the muslim onslaught that had penetrated so deeply into europe i argue that had not martel been able to stop them it is highly likely that today all of us the entire christian world would have likely been destroyed and forced to convert or die the spires of the minarets would today have been in the thousands throughout europe and even into the new world it is highly probable that islam would have retained a dominant position throughout the world just as they do today in all lands that have fallen under their obscene rule with

their seeming worship and devotion of and to ignorance human civilization would have been stuck in the past we would have had no modernization no invention and no advancement mankind today would still be living in the dark ages under the cruel eyes of the mutawas thought police and vicious power hungry ayatollahs it would be centuries later during the ottoman empire that islam again threatened europe it is important to note that martel's victory at tours and his later campaigns prevented invasion of europe by the muslim caliphate martel preserved and protected christianity and western civilization as we know it gibbons called him the paramount prince of his age a strong argument can be made that gibbons was entirely correct the book describes the battle of tours as if it were happening today it recreates the movements of the armies the difficulties of provisioning such large numbers in those times and looks into the minds of the leaders and soldiers as they fought and died in that historic conflict the book shows us the motivations of the mad muslims who so desperately wanted to destroy western christianity and delves into

their reasoning then and now tours is important because it was the first time a western christian army had defeated the marauding muslims and it set the stage for the retaliation that was to follow in the form of the crusades both the crusades and the attacks into europe by the muslims that preceded them laid the foundations for the humiliation anger and hatred that motivates the attacks on the west by the jihadists of today the skein of history in those times is thin the book does not rely on diaries and written accounts as one can in more recent battles

the congressional record is the official record of the proceedings and debates of the united states congress it is published daily when congress is in session the congressional record began publication in 1873 debates for sessions prior to 1873 are recorded in the debates and proceedings in the congress of the united states 1789 1824 the register of debates in congress 1824 1837 and the congressional globe 1833 1873

the ultimate comprehensive guide to country by country statistics around the world from afghanistan to

zimbabwe the cia world factbook 2018 2019 offers complete and up to date information on the world s nations this comprehensive guide is packed with data on the politics populations military expenditures and economics of 2018 for each country the cia world factbook 2018 2019 includes detailed maps with new geopolitical data statistics on the population of each country with details on literacy rates hiv prevalence and age structure new data on military expenditures and capabilities information on each country s climate and natural hazards details on prominent political parties and contact information for diplomatic consultation facts on transportation and communication infrastructure also included are appendixes with useful abbreviations international environmental agreements international organizations and groups weight and measure conversions and more originally intended for use by government officials this is a must have resource for students travelers journalists and business people with a desire to know more about their world

this book is an indispensable

resource for anyone looking to understand the muslim brotherhood qatar s role in promoting the group and the ideological social and religious factors that have led to its ultimate failure the book begins by looking at the birth of the muslim brotherhood mb in 1928 in egypt it then traces its ideology and expansion via the various affiliate organizations in the arab world as well as its international presence up to the present day throughout this historical analysis evidence is presented linking the mb again and again to political violence and a lack of a coherent policy the book weaves into this history the influence of qatari support a clarification of the division between true salafism and the mb s radical ideology an explanation of how jamal khashoggi was a living metaphor for this misunderstanding and the role the mb has played in various revolutionary movements throughout the middle east the book concludes with a current geopolitical outlook on the mb itself and the arab world in which it resides the book is extensively sourced with first hand primary source quotes from numerous exclusive

personal interviews conducted by the author with both experts on the subject and officials in the region

in the fourteenth edition of the middle east ellen lust brings important new coverage to this comprehensive balanced and superbly researched text in clear prose lust and her outstanding contributors explain the many complex changes taking place across the region new to this edition is a country profile chapter on sudan by fareed hassan all country chapters now address domestic and regional conflict more explicitly and all tables figures boxes and maps have been fully updated with the most recent data and information

the annual yearbook from project censored features the year's most underreported news stories striving to unmask censorship self

ensorship and propaganda in corporate controlled media outlets censored 2016 features the top 25 most underreported stories as voted by scholars journalists and activists across the country and around the world as well as chapters exploring timely issues from the previous year with more in depth analysis

the main theme of this volume of the yearbook of international humanitarian law is the 70th anniversary of the geneva conventions the evolution of these crucial treaties and international humanitarian law more generally comes back in six chapters addressing topics such as sieges compliance indiscriminate attacks and non state armed groups the second part of the book contains a chapter on the acquittal on appeal of jean pierre bamba gombo by the

international criminal court on the basis of command responsibility for war crimes as well as an extensive year in review describing the most important events and legal developments in the area of international humanitarian law that took place in 2019 the yearbook of international humanitarian law is the world's only annual publication devoted to the study of the laws governing armed conflict it provides a truly international forum for high quality peer reviewed academic articles focusing on this crucial branch of international law distinguished by contemporary relevance the yearbook of international humanitarian law bridges the gap between theory and practice and serves as a useful reference tool for scholars practitioners military personnel civil servants diplomats human rights workers and students
