the oldest islamic biography of muhammad written in the mid eighth century relates that the prophet died at medina in 632 while earlier and more numerous jewish christian samaritan and even islamic sources indicate that muhammad survived to lead the conquest of palestine beginning in 634 35 although this discrepancy has been known for several decades stephen j shoemaker here writes the first systematic study of the various traditions using methods and perspectives borrowed from biblical studies shoemaker concludes that these reports of muhammad s leadership during the palestinian invasion likely preserve an early islamic tradition that was later revised to meet the needs of a changing islamic self identity muhammad and his followers appear to have expected the world to end in the immediate future perhaps even in their own lifetimes shoemaker contends when the eschatological hour failed to arrive on schedule and continued to be deferred to an ever more distant point the meaning of muhammad s message and the faith that he established needed to be fundamentally rethought by his early followers the larger purpose of the death of a prophet exceeds the mere possibility of adjusting the date of muhammad s death by a few years far more important to shoemaker are questions about the manner in which islamic origins should be studied the difference in the early sources affords an important opening through which to explore the nature of primitive islam more broadly arguing for greater methodological unity between the study of christian and islamic origins shoemaker emphasizes the potential value of non islamic sources for reconstructing the history of formative islam

modern iraq is under threat from every quarter politics play havoc with ordinary lives sanctions cut deep however today s rare visitors are met with a broad hospitality that belies years of deprivation

richly illustrated with 12 maps and 46 photos the lightning campaign that toppled the saddam hussein regime in iraq in the spring of 2003 seemed to herald the arrival of a new way of war as germany s blitzkrieg had done at the beginning of world war ii but the initial victory soon devolved into a persistent counterinsurgency conflict reminiscent of the long u s effort to pacify the philippines after the rapid defeat of spain in 1898 in iraq american soldiers and their coalition partners had merely traded one fairly weak and generally conventional opponent for a more deadly diverse and determined foe relying on the tactics of the guerrilla and the terrorist this volume focuses on that second and longer campaign but rather than a narrative of the overall course of the conflict it provides a soldier s eye view of the war by focusing on detailed accounts of selected engagements each illustrates the everyday challenges that america s soldiers faced in a difficult struggle against an inventive and often elusive enemy weapons doctrine and procedures developed to fight a conventional campaign against a similar opposing force had to be adapted to fit a different type of conflict the u s army s combat and support forces brought both resourcefulness and resilience to this task while continuing to demonstrate the same courage shown by previous generations fighting the nation s battles these stories not only symbolize the tip of the spear formed by units in contact but they also represent the contributions of all american men and women who have served their country in operation iraqi freedom taken together these accounts will provide our deploying leaders and soldiers a better understanding of the environment that they will encounter and prepare them for the work that must be done
