who among us has not at some point asked what is the meaning of life in this extraordinary book an eminent social scientist looks at the big picture and explores what empirical studies from diverse fields tell us about the human condition meanings of life draws together evidence from psychology history anthropology and sociology integrating copious research findings into a clear and conclusive discussion of how people attempt to make sense of their lives in a lively and accessible style

emphasizing facts over theories baumeister explores why people desire meaning in their lives how these meanings function what forms they take and what happens when life loses meaning it is the most comprehensive examination of the topic to date

a remarkable fact to reflect on you are perfect what we do in action and what we consider in thought remain vulnerable to imperfection it is for this reason that we often find ourselves living in a confused state of contradiction whereby we strangely possess the capacity to surrender to the dangerous and ungrounded assumption that would say we are simply a representation of our flawed character or that we are not good enough similarly that we need more the alternative and more appealing by far is to consider our lives as being securely rooted in the grounded wisdom of having a perfected identity the key to confidence is living from perfected identity jesus perfects our identity while our character remains vulnerable to imperfection being flawsome explores the tension between flawed character and perfected identity and advocates a life of living imperfectly perfect

the social construction of crime is often out of proportion to the threat posed the media and advocacy groups shine a spotlight on some crimes and ignore others street crime is highlighted as putting everyone at risk of victimization while the greater social harms from corporate malfeasance receive far less attention social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior interest groups promote their agendas by appealing to public fears justifications often have no basis in fact but the public accepts the

exaggerations and blames the targeted offenders the net widening effect of more laws and more punishment catches those least able to defend themselves this innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system kappeler and potter dissect popular images of crimes and criminals in a cogent compelling and engaging manner they trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs the authors encourage skepticism about commonly accepted beliefs offer readers a fresh perspective and urge them to analyze important issues from novel vantage points

ann scholl revises the traditional understanding of the role of imagination and sensory perception in descartes s meditations traditionally cartesian scholars have focused primarily on sensory perception as the more significant of the two special modes of thought in this work ann scholl describes how a better understanding of descartes s skepticism and his arguments for dualism are reached when imagination instead is understood as the more primary of the two special modes of thought the result is a fresh reading and interpretation of descartes s most influential work

this book reveals what happens to applications for post conviction review when those in england wales and northern ireland who believe they are wrongfully convicted apply to the criminal cases review commission the only body that can refer a case back to the court of appeal once appellants

opportunities for direct appeal are exhausted while the court is obliged to hear all such referrals the commission can only refer a case where it believes there is a real possibility that the court will quash the conviction the first empirical study of all stages of decision making within the commission this book starts from the premise that the test applied by the commission the real possibility test is not inflexible though created by statute and refined through case law it must be determined on a case by case basis drawing too on cultural and structural variables alongside fresh evidence gathered by the commission through in depth analysis of case files and interviews hoyle and sato scrutinize the commissions operational practices its working rules and assumptions considering how these influence its understanding of the real possibility test situating their rich empirical data within a framework of the commissions social organizational and legal contexts this book demonstrates that in its open ended investigations there is considerable scope for discretion for thorough exploration of all possible avenues or for choosing a more superficial consideration of a case it emerges that while structured internal guidance drawing heavily on court jurisprudence shapes decision making creating consistency in approach there remains some variability across cases over time that can be accounted for by the different professional backgrounds and personalities of commission staff

this report makes several recommendations to the secretary of agriculture to correct data quality problems in the 1987 88 nationwide food consumption survey and to improve methodology and contracting procedures in future surveys

digital technologies should be making life easier and to a large degree they are transforming everyday tasks of work consumption communication travel and play but they are also accelerating and fragmenting our lives affecting our well being and exposing us to extensive data extraction and profiling that helps determine our life chances initially the covid 19 pandemic lockdown seemed to create new opportunities for people to practice slow computing but it quickly became clear that it was as difficult if not more so than during normal times is it then possible to experience the joy and benefits of computing but to do so in a way that asserts individual and collective autonomy over our time and data drawing on the ideas of the slow movement slow computing sets out numerous practical and political means to take back control and counter the more pernicious effects of living digital lives

all serious environmental threats are now international in scope and more than one thousand international environmental agreements already exist yet the prospects for international cooperation leading to the management of impacts on the planet remain grim the global environment meets the need for an authoritative assessment of the state of international environmental institutions laws and policies at the end of the 20th century the book examines disagreements over the meaning of sustainable development problems inherent in implementing environmental policies and the conflict over the exclusion of developing countries from the kyoto protocol it discusses the profound trade offs that may be required the role of international financial interests in promoting incompatible forms of development and analyses international environmental institutions law and policy and sustainable development

preparing for an investment banking interview involves understanding both technical and behavioural questions below are common categories of questions you may face along with sample answers to guide your preparation 1 basic finance concepts q what are the three main financial statements and how do they relate to each other a the three main financial statements are the income statement balance sheet and cash flow statement the income statement shows a company s revenues expenses and profits over a period the balance sheet shows a company s assets liabilities and shareholders equity at a specific point in time the cash flow statement reconciles the beginning and ending cash balances by outlining cash inflows and outflows from operating investing and financing activities these statements are interconnected for example net income from the income statement feeds into the shareholders equity section of the balance sheet retained earnings and it also flows into the top line of the cash flow statement starting point for operating cash flows 2 valuation techniques q walk me through a discounted cash flow dcf analysis a in a dcf we project a company s free cash flows over a period typically 5 10 years discount them to the present value using the company s weighted average cost of capital wacc and then calculate the terminal value the two components discounted free cash flows and terminal value give the

enterprise value ev steps project free cash flows for a set period determine the terminal value using either the gordon growth model or exit multiple method discount both the projected cash flows and the terminal value back to present value using wacc add the discounted cash flows and terminal value to determine the company s enterprise value q what are some other methods to value a company a besides dcf common methods include comparable companies analysis comps comparing valuation multiples of similar public companies precedent transactions analysis looking at valuation multiples paid in similar historical transactions leveraged buyout lbo analysis estimating what a private equity firm would pay leveraging a large portion of the purchase with debt 3 market and industry questions q what s happening in the market right now a stay updated with current events like interest rate changes m a trends or economic reports e g inflation rates gdp for instance if interest rates are rising it might affect valuation by increasing the cost of debt and reducing dcf valuation be prepared to discuss specific industries relevant to the firm you re interviewing with 4 accounting knowledge q how does depreciation affect the financial statements a depreciation affects all three financial statements income statement it reduces taxable income as an expense lowering net income balance sheet it reduces the value of fixed assets pp e and is reflected in accumulated depreciation a contra asset account cash flow statement depreciation is added back to operating cash flow because it is a non cash expense q what is goodwill and how is it treated in financial statements a goodwill arises when a company acquires another company for more than its fair value it is an intangible asset on the balance sheet goodwill is not amortized but is tested for impairment annually if impaired the loss is recorded on the income statement

reducing net income and assets 5 behavioural and fit questions q why do you want to work in investment banking a highlight a passion for finance analytical challenges and deal making example i m drawn to investment banking because it offers a unique combination of strategic thinking and analytical rigor the fast paced environment and exposure to large transactions align with my long term goals of learning the intricacies of corporate finance and working on complex deals q tell me about a time you worked in a team under pressure a use the star method situation task action result example during my internship my team was tasked with completing a valuation for a client s acquisition target under a tight deadline i took the initiative to create detailed financial models dividing the tasks among the team and ensured we communicated effectively we delivered the analysis ahead of schedule impressing both the client and senior leadership 6 technical questions q what is ebitda and why is it important a ebitda earnings before interest taxes depreciation and amortization is a proxy for a company s cash flow from operations it s important because it removes the impact of non cash items depreciation and amortization and financing decisions interest and taxes allowing investors to compare operational performance across companies q how would you value a company with negative earnings a when a company has negative earnings methods like dcf and comparable multiples based on earnings may not be appropriate instead you can use revenue multiples ev revenue adjusted ebitda multiples if the company has positive cash flow before interest taxes depreciation and amortization asset based valuation particularly in distressed situations 7 brain teasers problem solving q how many gas stations are there in the u s a this question is testing your ability to think logically example approach u s population is roughly 330 million

estimate there s 1 car for every 2 people 165 million cars each car needs gas about once per week assume a gas station serves 2 000 cars per week divide 165 million by 2 000 around 82 500 gas stations by preparing answers that demonstrate strong technical skills awareness of current market conditions and teamwork abilities you ll be ready to tackle both the technical and behavioural parts of your investment banking interview

this groundbreaking study brings together economic globalization and the environment as never before gabriela kütting argues for an eco holistic approach that merges social political economic and environmental analysis so that a globalizing political economy may be understood in relation to environmental and social concerns key to this merging are the historical dimension of environmental societal relations the concept of consumption and the concept of equity to illustrate the utility of the eco holistic approach kütting draws out the linkages between social and environmental degradation in west africa environmental and economic policies in the north and the shopping habits of individual consumers using cotton agriculture and the globalizing political economy of textiles as a case study

this book represents a significant contribution to the highly contested debate surrounding how allegations of child sexual abuse should be evaluated despite decades of substantial research in this sensitive area professional consensus remains elusive a particular source of contention is the sensitivity vs specificity debate whether evaluators should aim to reduce the number of true allegations that are labelled false or to reduce

the number of false allegations that are labelled true this edited collection aims to address directly and offer new insights into this debate it responds directly to kuehnle and connell s edited volume the evaluation of child sexual abuse allegations a comprehensive guide to assessment and testimony 2009 which included chapters which advocated strong specificity positions at the expense of sensitivity the chapters in this collection feature both challenges to and replies by the authors in kuehnle and connell s book making this an essential resource that moves the debate forward this book was originally published as a special issue of the journal of child sexual abuse
