i firmly declare that i am not an atheist but an advocate of advaita i e world is one and all of us are one atheists also call the world as an illusion but as an advaitist i do believe that all of us are god just veiled by senses as german mystic meister eckhart says the eye in which i see god is the same eye in which god sees me atheist denies the existence of god which could lead to immorality in our life though under illusion i do believe in contacting various levels of

energies available in the book that during the cycles of only but consciousness is not cosmos as per vedic shastras birth and death through the consciousness exists outside for various types and levels of illusory field there are various the body too but inside the happiness to live a good life degrees and levels of cosmic illusory field outside the body though it is illusion the cosmos power which does helps to there is no illusion illusion gets to me is an illusory field mitigate the illusory effects dissipated when the body no beyond the concept of cosmos and come out of the illusory longer exists totally with its lies the web wave field which field to merge with senses all senses pertain to is discussed extensively in this paramaatma i do make a illusion all our scope our book atheist defines the final distinction between sciences and philosophy power as infinite which has no consciousness and illusion particularly life death rebirth motive and thereby does not both are same but marginally beliefs pertains to the body grant human wishes whereas i different in consciousness one which gets the illusion because do believe in the infinite atman has the awareness whether the body is matter vedas and called as paramaatma which inside or outside the body adi shankar acharya call absorbs us in its web wave consciousness permits to have illusion as maya and field of pure bliss and never awareness outside the body it consciousness as prajnaa the again to give us the illusion of could have a motive but illusion has to be perfect for birth death cycles if one illusion exists inside a body all of us during the illusory life merges with it he escapes the and not necessarily outside the giving us the utmost happiness illusion of birth and death to body illusion is a particle that in all walks of this life the question of existence of pertains to the matter and its everything to us happens only god i had explained in this awareness is inside a body in illusion and so we must

evoke the divine power to be they feel real during their the drama of creating us and
happy in this illusion in the sojourn in this worldly life and what he wants to achieve
short life and thereafter free us they would like to feed their through our creation more
from this illusory world on this senses with pleasures one fully what is that cosmic code
score the invocation of divine would not gift his house to that is behind creation physics
or cosmic energies are charity because of the fact that describes it as fermions and
absolutely a must though it is everything is illusion as they bosons but it is more than that
easier to talk about illusion in find these philosophical talks it is illusion fermions and
theory in practical life it is not are not practically appealing bosons themselves come from
easy either everyone has their they feel they are living a real illusion particularly illusion of
daily routine to follow like life a life in which they own existence everything we feel
attending their work begetting and have to own properties joy see hear touch and smell is
children raising children children education as if they illusion this illusion defines an
getting them married owning are going to live for long the impartial god or infinities the
property engagement in idea to write this book came to illusion can alone define an
business or agriculture or me as i went through vedic impartial god many religions
profession and so on no one upanishad teachings whether have come out with answers
can quit these and gloat on the world we live is real or recently during the last 2200
illusion except for a very few illusory therefore the main idea years or so but i find the
no one would sacrifice of this book is to make an upanishads and other spiritual
anything or give up their rights honest attempt to investigate texts and teachers in india
based on a concept called who is behind our lives and if offer answers to this question
illusion or the illusory field so why is he required to play conforming to modern physics

and experiments this is what salvation for such person the evaluation what is the purpose
this book is all about an biggest irony is god also of god having such a character
inquiry into secret of human permits them to kill persons persons who are responsible in
life most of the religious texts who do not follow such writing these texts know very
describe god in human form religious teachings god treats well that unless you use the
the prophets or teachers are them as enemies the enemies name of god no one is going to
described as an incarnation or of god must be killed the tribes believe their own writings
children of god or to whom who are enemies of god can be every piece of their own
god revealed himself in a place killed well this is the irony advice has to be stated as if
at a time and handed over the when god must be all love one they come from the mouth of
words of wisdom the main fails to understand that such god himself for mankind to
purpose of all religious texts is god asks for killing when he believe their own opinions are
to tell humanity that there is a can kill them himself why seek stated as if they originated
super power who is watching the help of other humans to from god therefore god is a
us and he would guide us to kill fellow humans when he convenient tool this book goes
heaven where he lives if we can himself do the killing and into the semantics of the main
live our human lives again why should he kill after topic that cosmic code is
conforming to the teachings creation if so why create at all illusion and i have used
laid down by his messengers why create such evil persons at scientific philosophical
or prophets if such conformity all in this earth who steal or mathematical and vedic
is not accepted then we would cheat or commit adultery or teachings to prove clearly my
be doomed to hell or in other who murder others what is the conviction that the world we
terms there would be no purpose of such creation and live is only illusion it is not for

the sake of writing a book i to 1873 are recorded in the this chapter elaborates the
have written but it is out of my debates and proceedings in the human individual in terms of
own strong feeling that the congress of the united states the cosmic human who
universe has to be illusory to 1789 1824 the register of embodies the cosmos within
