importance of cross religious understanding and moral leadership in an increasingly polarized world driven by religious and political fanaticism it is a celebration of religious diversity against the odds and a fascinating glimpse into the character of al khalil s bombastic larger than life leader father paolo dall oglio

born in 1945 the united nations came to life in the arab world it was there that the un dealt with early diplomatic challenges that helped shape its institutions such as peacekeeping and political mediation it was also there that the un found itself trapped in and sometimes part of confounding geopolitical tensions in key international conflicts in the cold war and post cold war periods such as hostilities between palestine and iraq and between libya and syria much has changed over the past seven decades but what has not changed is the central role played by the un this book s claim is that the un is a constant site of struggle in the arab world and equally that the arab world serves as a location for the un to define itself against the shifting politics of its age looking at the un from the standpoint of the arab world this volume collects some of the finest scholars and practitioners writing about the potential and the problems of a un that is framed by both the promises of its charter and the contradictions of its member states this is a landmark book a close and informed study of the un in the region that taught the organization how to do its many jobs

for more than 4 000 years the land known as syria was marched over sacked and occupied by soldiers of many empires of the world in 1516 syria became part of the vast ottoman empire of the turks after the ottomans defeat in world war i syria came under the authority of france in 1946 syria gained its independence but began several decades of unstable government that ended with the election of hafez assad as president in 1970 his son bashar assad became his unlikely successor in 2000 and is credited with bringing his country into the 21st century today syria has been criticized for its influence in lebanese affairs and for its suspected terrorist funding

the syrian war the 21st century s most protracted and second deadliest conflict has driven 5 6 million refugees and 6 6 million internally displaced into flight as the civil war draws to a close an autopsy of this historic and unprecedented refugee episode becomes feasible why did the war generate so many refugees how did so many of them get to europe who are these people and why did they leave from whom were they fleeing and why did european policymakers alleviate or aggravate the refugee crisis the syrian refugee crisis argues that syrian forced migration has been deeply misunderstood against conventional wisdom it suggests that refugees engaged smugglers not just as traffickers or criminal exploiters but as natural allies and means to affirm asylum rights that the politicization of refugees according to major actors foreign policy priorities obfuscated the role of us and european foreign policy in generating massive displacement and that restrictionist border policies on the balkan route were inhumane incoherent and counter productive relying on extensive rare fieldwork data from five countries comprising the balkan route jordan turkey greece serbia and germany this book sheds light on the understudied counter intuitive and often misunderstood dynamics of forced migration refugee agency border restrictionism anti smuggling policy and migrant decision making in the 21st century

in the aftermath of world war i syria paved a path towards democracy initially as part of the french mandate in the middle east and latterly as an independent republic syria put in place the instruments of democratic government that it was hoped would lead to a stable future this book tells the story of syria s formative years using previously unseen material from the personal papers of ahmad sharabati a prominent nationalist who served in different capacities during colonial times and early independence first as minister of defense and then as minister of education his experiences and those of others of his generation tell the story of syria s short lived democratic years up to the union with egypt as the united arab republic between 1958 and 1961

there are currently a record setting number of forcibly displaced persons in the world this number continues to rise as solutions to alleviate humanitarian catastrophes of large scale violence and displacement continue to fail the likelihood of the displaced returning to their homes is becoming increasingly unlikely in many cases their homes have been destroyed as the result of violence why are the homes of certain populations targeted for destruction what are the impacts of loss of home upon children adults families communities and societies if having a home is a fundamental human right then why is the destruction of home not viewed as a rights violation and punished accordingly from bureaucracy to bullets answers these questions and more by focusing on the violent practice of extreme domicile or the intentional destruction of the home as a central and overlooked human rights issue

this unique study pioneers a comparative analysis between two major jihadist entities the taliban and the islamic state focusing on their state building endeavors it highlights the taliban s historical state building efforts in the 1990s as a model for understanding similar initiatives by jihadist groups such as the islamic state departing from existing literature that often examines individual jihadist groups in isolation this study adopts a comparative approach

offering unique insights into the broader phenomenon of jihadist groups and their attempts at state making through detailed examinations of the taliban and the islamic state in afghanistan and elsewhere and the impacts of other regional actors the study sheds light on the resurgence of these movements even after apparent decline as witnessed with the resurgence of the taliban the book will be an invaluable reference for researchers scholars politicians and diplomats concerned with the region and with the aspirations of terror groups to engage in state building

turkey and russia are two of the most significant powerhouses in eurasia the foreign policies of two countries directly impact the regional dynamics in black sea central asia middle east eastern europe and the balkan regions the changes in the bilateral relations between the two countries go well beyond the black sea region in the past the russian empire played a significant role in the collapse of the ottoman empire and turkey took part in containing the ussr during the cold war by joining the nato in 1952 in the twenty first century however turkey and russia invested in bilateral trade and established significant partnerships in the strategic defense and energy sectors in the same period the competition between turkey and russia heightened giving way to military confrontation in multiple fronts this book argues that the changing balance of power in the region has triggered adjustments in the foreign policies of russia and turkey in the twenty first century the decline of the us influence in the region have brought about increased engagement between turkey and russia in the form of partnerships and competition for influence
