there is no region more central to the ancient greek romance novel than the thousand or so miles stretching from alexandria to ancient ethiopia that comprise the Nile river valley yet for all its importance egypt ethiopia and the greek novel between representation and resistance is the first book length study of how this region is depicted in a literary genre whose fictional tales of love travel separation and reunion flourished during the roman imperial period employing approaches from literary studies classics and egyptology robert cioffi explores the Nile river valley in the ancient greek romance novel through two fundamentally related concepts representation and resistance on the one hand these novels develop an image of egypt and ethiopia that is in close dialogue with the greco roman ethnographic tradition characterized by extraordinary marvels such as grand cities ancient religious rites and a dizzying array of animals some real some imaginary and some so incredible as to seem make believe on the other hand this depiction often figures egypt and ethiopia as sites of resistance revolt and rebellion against or political cultural and religious alternatives to an array of dominant imperial powers in the region from the persians to the romans this dual reading enriches our understanding of these texts relationship with the real and imagined frontiers of roman political military and intellectual power it also raises a broader set of questions some literary some cultural historical about the interrelation of humans their environment and the topographies of cultural identity in the roman empire

this volume deals with the development and the characteristics of the literature of ancient egypt over a period of more than two millennia from the monumental origins of autobiography at the end of the old kingdom ca 2150 bce down to the latest literary compositions in demotic during the graeco roman period 300 bce 200 ce this book the result of an international co operation among more than twenty scholars is divided into sections devoted to the definition of literary discourse in ancient egypt the history and genres of these texts their linguistic and stylistic features and the image of ancient egypt as displayed in later literary traditions of the mediterranean world greek coptic arabic with over thirty chapters this volume provides an interdisciplinary account of current research in one of the methodologically most advanced fields of egyptology

this book brings together a vast amount of information pertaining to the society economy and culture of a province important to understanding the entire eastern part of the later roman empire focusing on egypt from the accession of diocletian in 284 to the middle of the fifth century roger bagnall draws his evidence mainly from documentary and archaeological sources including the papyri that have been published over the last thirty years

the authors examine the emergence of nationalism among the egyptian middle class during the 1930s and 1940s and its growing awareness of an arab and muslim identity previously egypt did not define itself in these terms but adopted a territorial and isolationist outlook it is the revolutionary transformation in egyptian self understanding which took place during this period that provides the focus of this study the authors demonstrate how the growth of an urban middle class combined with economic and political failures in the 1930s eroded the foundations of the earlier order alongside domestic events the momentum of arabism abroad and the impact of events in palestine necessitated egyptian regional involvement egypt s present position as a major player in arab muslim and third world affairs has its roots in the fundamental transition of egyptian national identity at this time

each book in this series is a guide for using a well known piece of literature in the classroom included are sample plans author information vocabulary building ideas and cross curricular activities at the intermediate and challenging levels sectional activities and quizzes unit tests and ideas for culminating and extending the novel are also included

the sage scientist and sorcerer hermes trismegistus was the culture hero of hellenistic and roman egypt a human according to some who had lived about the time of moses but now indisputably a god he was credited with the authorship of a whole library of books on magic and the supernatural alchemy astrology theology and philosophy starting from the complex fusions and tensions that moulded graeco egyptian culture and in particular hermetism in the centuries after alexander dr fowden goes on to argue that the technical and philosophical hermetica apparently so different might be seen as aspects of a single way of hermes that led the initiate from knowledge of the world through knowledge of the self to knowledge of god the focus and conclusion of the book is an assault on the problem of the social milieu of hermetism by looking at the mythological facade of the texts themselves and deploying the numerous allusions to be found in other sources of the period

appealing to monster theory and the ancient near eastern motif of chaoskampf safwat marzouk argues that the paradoxical character of the category of the monster is what prompts the portrayal of egypt as a monster in the book of ezekiel while on the surface the monster seems to embody utter difference underlying its otherness there is a disturbing sameness though the monster may be defeated and its body dismembered it is never completely annihilated egypt is portrayed as a monster in the book of ezekiel because egypt represents the threat of religious assimilation although initially the monstrosity of egypt is constructed because of the shared elements of identity between egypt and israel the prophet flips this imagery of monster in order to embody egypt as a monstrous other in a combat myth yhwh defeats the monster and dismembers its body despite its near annihilation egypt in ezekiel s rhetoric is not entirely obliterated rather it is kept at bay hovering at the periphery questioning israel s identity

this book suggests a regional paradigm for understanding the development of the traditions about egypt and the exodus in the hebrew bible it offers fresh readings of the golden calf stories in 1 kgs 12 25 33 and exod 32 the balaam oracles in num 22 24 and the song of the sea in exod 15 1b 18 and from these paints a picture of the differing traditions about egypt that circulated in cisjordan israel transjordan israel and judah in the 8th century b c e and earlier in the north an exodus from egypt was celebrated in the bethel calf cult as a journey of israelites from egypt to cisjordan without a detour eastward to sinai this exodus was envisioned in military terms as suggested by the nature of the polemic in exod 32 and the attribution of the exodus to the warrior yahweh israel s own deity in the east a tradition of deliverance from egypt was celebrated rather than the idea of a journey and it was credited to el in the south egypt was recognized as a major enemy whom yahweh had defeated but the traditions there were not formulated in terms of an exodus while acknowledging the

reshaping of these traditions in response to the exile images of egypt argues that they originated in the pre exilic period and relate to syro palestinian history as it is otherwise known

throughout her career ann macy roth has regularly returned to well known ancient egyptian material and visual culture and shed new light on it by employing different approaches and methodologies in this way her research has led to new interpretations and readings of ancient egyptian beliefs and practices while illustrating the importance of and need for continual questioning and re examination within egyptology this volume brings together papers from around the world that follow her tradition of rethinking reassessing and innovating it is intended to honour roth s significant career as a scholar mentor and teacher and to celebrate and continue her dedication to analyzing ancient egypt from novel perspectives

by evaluating the internet s impact on key cultural issues of the day this book provides a comprehensive overview of the seismic technological and cultural shifts the internet has created in contemporary society books about internet culture usually focus on the people places sites and memes that constitute the cutting edge at the time the book is written that approach alas renders such volumes quickly obsolete this provocative work on the other hand focuses on overarching themes that will remain relevant for the long term the insights it shares will highlight the tremendous impact of the internet on modern civilization and individual lives well after specific players and sites have fallen out of favor content is presented in two volumes the first emphasizes the positive impact of internet culture for example 24 hour access to information music books merchandise employment opportunities and even romance the second discusses the internet s darker consequences such as a demand for instant news that often pushes journalists to prioritize being first over being right online scams and invasions of privacy that can affect anyone who banks shops pays bills or posts online readers of the set will clearly understand how the internet has revolutionized communications and redefined human interaction coming away with a unique appreciation of the realities of today s digital world for better and for worse

a useful work for all interested in the history of the alphabet hamilton shows a direct correspondence between the west semitic alphabet and its proposed egyptian counterparts following an examination of the various egyptian prototypes each grapheme of the various canaanite scripts is shown and described in exhaustive detail in terms of feature and stance subsequently each individual unit is augmented with a survey of the development of the names of letters and their vocalization with the author pointing to acrophony rhyming and clipping as factors in their nomenclature hamilton also provides summary charts of the ancient egyptian models and west semitic derivatives

to many readers the book of ezekiel is a hopeless riddle we may still find many features of the

man and his message difficult and sometimes even shocking or offensive the bizarre opening vision catches us off guard and tempts us to stop reading a persistent reader however who meditates long and hard on individual utterances and sign actions will discover that despite the strangeness of the man this is the most clearly organized of the major prophetic books individual prophecies are clearly marked by headings and often by conclusions the priestly prophet knew his audience something that is evident if one continues to delve deeper he recognized in Judah's rebellion against YHWH the underlying cause of the divine fury that resulted in the exile of his people and the fall of Jerusalem to the Babylonians in 586 BCE however he also recognized that YHWH's judgment could not be the last word his covenant is eternal and irrevocable a day of spiritual renewal and national restoration is anticipated this is the first of two volumes of essays on Ezekiel and his book the seven general essays and two studies of particular texts in this collection explore the times the message and the methods of the prophetic priest

Bible readers Sunday school teachers and study leaders have loved Kay Arthur's new inductive study series since 1994 and now 17 years and 1.4 million copies later the collection is complete as readers learn and practice the exciting principles of inductive Bible study they will discover for themselves the meaning and relevance of well known but seldom understood images from the book of Ezekiel including the wheel in the wheel the valley of dry bones and the watchman on the wall as they become adept at observing the text interpreting its meaning and applying it to their lives they will follow the story of Ezekiel from the heartbreak of the fall of Jerusalem and the Babylonian captivity to the inexpressible joy of worship in the heavenly tabernacle

The essays in this Oxford handbook rethink the modern history of one of the most important and influential countries in the Middle East Egypt for a country and region so often understood in terms of religion and violence this work explores environmental medical legal cultural and political histories it gives readers an excellent view of the current debates in Egyptian history

An exploration of military responses to revolutions and how to predict such reactions in the future we know that a revolution's success largely depends on the army's response to it but can we predict the military's reaction to an uprising how armies respond to revolutions and why argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the general's response to a domestic revolt if we know enough about the army the state it is supposed to serve the society in which it exists and the external environment that affects its actions through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and

the logic behind the variety of choices soldiers ultimately make barany offers tools in the form of questions to be asked and answered that enable analysts to provide the most informed assessment possible regarding an army s likely response to a revolution and ultimately the probable fate of the revolution itself he examines such factors as the military s internal cohesion the regime s treatment of its armed forces and the size composition and nature of the demonstrations how armies respond to revolutions and why explains how generals decide to support or suppress domestic uprisings

a free ebook version of this title is available through luminos university of california press s open access publishing program visit luminoso.org to learn more after the deaths of antony and cleopatra rome finally took control of egypt this occupation simultaneously facilitated and circumscribed the exchange of goods people and ideas along the paths carved across rome s burgeoning empire in this book edward kelting sets out to recapture one of these systems of exchange the vibrant literary tradition known as aegyptiaca or egyptian things in which culturally mixed authors wrote about egypt for a greek and roman audience these authors have been dismissed as not really egyptian and their contemporary popularity has been ignored but as kelting powerfully argues this genre in fact constitutes a vibrant intellectual tradition developed from heterogeneous influences but deeply engaged with egypt s pharaonic past in contrast to usual narratives of roman domination kelting uncovers a complex project of political engagement and cultural translation in which egyptians greeks and romans all participated

this masterful history of the monumental architecture of alexandria as well as of the rest of egypt encompasses an entire millennium from the city s founding by alexander the great in 331 b c to the years just after the islamic conquest of a d 642 long considered lost beyond recall the architecture of ancient alexandria has until now remained mysterious but here judith mckenzie shows that it is indeed possible to reconstruct the city and many of its buildings by means of meticulous exploration of archaeological remains written sources and an array of other fragmentary evidence the book approaches its subject at the macro and the micro level from city planning building types and designs to architectural style it addresses the interaction between the imported greek and native egyptian traditions the relations between the architecture of alexandria and the other cities and towns of egypt as well as the wider mediterranean world and alexandria s previously unrecognized role as a major source of architectural innovation and artistic influence lavishly illustrated with new plans of the city in the ptolemaic roman and byzantine periods reconstruction drawings and photographs the book brings to life the ancient city and uncovers the true extent of its architectural legacy in the mediterranean world

this important new study looks at the intersection of greek and egyptian art forms in the funerary sphere of roman egypt a discussion of artistic change cultural identity and religious belief foregrounds the detailed analysis of more than 150 objects and tombs many of which are presented here for the first time in addition to the information it provides about individual works of art supported by catalogue entries the study explores fundamental questions such as how artists combine the iconographies and representational forms of different visual traditions and why two distinct visual traditions were employed in roman egypt

this lavishly illustrated book offers a comprehensive analysis of clothing in late period egypt 750 to 332 bc by examining works of art and archaeological remains it includes a detailed classification of clothing for the purpose of dating art

isaiah jeremiah and ezekiel share much in common they address the pivotal times and topics associated with the last stages of the monarchical history of israel and with the development

of new forms of communal and religious life through exile and beyond one important structural component of all three books is a substantial section which concerns itself with a range of foreign nations commonly called the oracles against the nations which form the focus of this book these chapters together present the most up to date scholarship on the oracles an oft neglected but significant area in the study of the prophetic literature the particular characteristics of isaiah jeremiah both masoretic text and septuagint versions and ezekiel are discussed showcasing the unique issues pertinent to each book and the diverse methods used to address them these evident differences aside the oracles against the nations are employed as a springboard in order to begin the work of tracing similarities between the texts by focusing on these unique yet common sections a range of interrelated themes and issues of both content and method become noticeable for example though not exhaustively pattern structure language comparative history archaeology sociology politics literature imagery theme theology and hermeneutical issues related to today s context as a result this collection presents a range of cutting edge approaches on these key prophetic books and will provide a basis for further comparative study and reflection

this volume explores the earliest appearances and functions of the five major egyptian goddesses neith hathor nut isis and nephthys although their importance endured throughout more than three millennia of ancient egyptian history their origins earliest roles and relationships in religion myth and cult have never before been studied together in detail showcasing the latest research with carefully chosen illustrations and a full bibliography susan tower hollis suggests that the origins of the goddesses derived primarily from their functions as shown by their first appearances in the text and art of the protodynastic early dynastic and old kingdom periods of the late fourth and third millennia bce the roles of the goddess bat are also explored where she is viewed both as an independent figure and in her specific connections to hathor including the background to their shared bovine iconography hollis provides evidence of the goddesses close ties with royalty and in the case of neith her special connections to early queens vital reading for all scholars of egyptian religion and other ancient religions and mythology this volume brings to light the earliest origins of these goddesses who would go on to play major parts in later narratives myths and mortuary cult

this ground breaking work presents original research on cultural politics and battles in egypt at the turn of the twenty first century it deconstructs the boundaries between high and low culture drawing on conceptual tools in cultural studies translation studies and gender studies to analyze debates in the fields of literature cinema mass media and the plastic arts anchored in the egyptian historical and social contexts and inspired by the influential work of pierre bourdieu it rigorously places these debates and battles within the larger framework of a set of questions about the relationship between the cultural and political fields in egypt

science in the study of ancient egypt takes an innovative and integrated approach to the use of scientific techniques and methodologies within the study of ancient egypt accessibly demonstrating how to integrate scientific methodologies into egyptology broadly and in egyptian archaeology in particular this volume will help to maximise the amount of information that can be obtained within a study of ancient egypt be it in the field museum or laboratory using a range of case studies which exemplify best practice within egyptian archaeological science science in the study of ancient egypt presents both the scientific methods of analysis available and their potential applications to egyptologists although egyptology has mainly shown a marked lack of engagement with recent archaeological science the authors illustrate the inclusive but varied nature of the scientific archaeology which is now being undertaken demonstrating how new analytical techniques can develop greater understanding of egyptian data

in the iconography of family members in egypt s elite tombs of the old kingdom jing wen

offers a comprehensive survey of how ancient Egyptians portrayed their family members in the reliefs of an elite tomb through the analysis of the depiction of family members this book investigates familial relations the funerary cult of the dead ancestor worship and relevant texts it provides a new hypothesis and perspective that would update our understanding of the Egyptian funerary practice and familial ideology the scenes of family members are not a record of family history but language games of the tomb owner that convey specific meaning to those who enter the chapel despite time and space

this book presents an in depth analysis of the architecture of tomb security in Egypt from the predynastic period until the early fourth dynasty by extrapolating data on the security features of published tombs from the whole of Egypt and gathering it together for the first time in one accessible database

this book describes the historical background of the middle east and in particular Turkey prior to the end of world war ii it takes up the various steps taken by the United States to combat Soviet moves after the war to take over this strategic area it describes the inception of the Truman doctrine to rearm and strengthen Greece and Turkey in the face of British withdrawal the unsuccessful efforts made by the United States and Britain to establish a middle east command or defense organisation and the successful US efforts to get Turkey into NATO which blocked Soviet entry Ambassador McGhee has chronicled the events which led to Turkey's accession to NATO with great clarity and in a most interesting and readable fashion he throws a fascinating light on the relationship between the United States of America and Turkey and the personalities involved this book not only deserves to be read but it deserves study by all of those who are interested in defence and foreign affairs Lord Carrington

an archaeological historical and art historical study of a remarkable early church excavated at Amheida in Egypt's Dakhla Oasis Early Christianity at Amheida Egypt's Dakhla Oasis a fourth century church volume 1 the excavations is an archaeological historical and art historical study of a remarkable basilica church excavated at Amheida in Dakhla Oasis this church excavated between 2012 and 2023 dates to the fourth century CE and therefore is among the earliest purpose built churches in Egypt it also contains one of the oldest if not the oldest excavated Christian funerary crypts in the country the church at Amheida thus offers a wealth of new data on early Christianity in Egypt particularly with respect to the earliest phases of Christian art and architecture and burial customs Aravecchia presents a systematic treatment of the stratigraphy building techniques materials features architecture decoration and finds of the church carefully contextualized in contemporary developments in early Christianity in the late antique Great Oasis and Egypt more broadly

based on interview material observations and content analysis this book captures the everyday life structures of a cohort of Muslim ex-Islamist female youth in Egypt who have joined or established new networks that share the common interest of doing good to the society based on their religious worldviews representing a broader societal movement female youth in contemporary Egypt posits that despite the fact that the 2011 Egyptian uprisings did not necessarily materialize with the political effects anticipated by some of its activists it seems to have led to the formation of a new generation of active youth with a distinct worldview four broad and intertwined theoretical considerations have been taken into account first the book delineates the emergence and continuous development of post and sometimes non bourgeois public spheres in Arabo Islamic contexts and conceptualizes multiple publics of overlapping Islamic structures rather than one Islamic public second it offers an empirical as well as a conceptual understanding of the positioning of religion as public private third it presents a critique of Islamist thought conducive to the rise of post Islamism and fourth it offers a critique of feminist thought to throw light on novel forms of Muslim women's discourses and activism in line with post Islamist worldviews this book will

be of interest to scholars in middle eastern studies women s studies and political studies

exile incorporated the body in the book of ezeziel demonstrates how the book of ezeziel makes rhetorical use of the human body to construct an exile centred judean identity this focus on the body is inextricable from the book s setting in the judean exile to babylonia during the sixth century bce in such a context of upheaval all that the displaced group reliably retains are their bodies even so the material surroundings of those bodies change completely calling into question previously accepted ways of being author rosanne liebermann reveals how the book of ezeziel holds acute awareness of this situation evoking bodily practices and embodied experiences that serve to construct a judean identity based on existence outside of the land of judah this identity excludes both non judeans as well as the judeans who remained in judah the book of ezeziel achieves this exclusion via descriptions of bodily practices including circumcision dress and the observance of a cultic calendar that distinguish its constructed in group of exiled judeans from outsiders ezeziel also evokes the embodied emotion of disgust regarding the bodies of those with outsider practices which in turn encourages the practice of segregation and endogamy within the in group focusing on the bodies depicted in the book of ezeziel also highlights how the text presents hierarchies within the exilic judean group which itself contains bodies differentiated by gender and priestly or non priestly descent reading the text in this way reveals how the book of ezeziel constructs a model of a variegated community able to embody a judean identity that not only survived but was based on life outside of the land of judah

includes abstracts of scientific and technical papers published in other middle east countries
