i firmly declare that i am not an atheist but an advocate of advaita i e world is one and all of us are one atheists also call the world as an illusion but as an advaitist i do believe that all of us are god just veiled by senses as german mystic meister eckhart says the eye in which i see god is the same eye in which god sees me atheist denies the existence of god which could lead to immorality in our life though under illusion i do believe in contacting various levels of energies available in the cosmos as per vedic shastras for various types and levels of happiness to live a good life though it is illusion the cosmos to me is an

illusory field beyond the concept of cosmos lies the web wave field which is discussed extensively in this book. Atheist defines the final power as infinite which has no motive and thereby does not grant human wishes whereas I do believe in the infinite Atman called as Paramaatma which absorbs us in its web wave field of pure bliss and never again to give us the illusion of birth death cycles. If one merges with it he escapes the illusion of birth and death to the question of existence of God. I had explained in this book that during the cycles of birth and death through the illusory field there are various degrees and levels of cosmic power which does help to mitigate the illusory effects and come out of the illusory field to merge with Paramaatma. I do make a distinction between consciousness and illusion both are same but marginally different in consciousness. One has the awareness whether inside or outside the body. Consciousness permits to have awareness outside the body; it could have a motive but illusion exists inside a body and not necessarily outside the body. Illusion is a particle that pertains to the matter and its awareness is inside a body only but consciousness is not

consciousness exists outside the body too but inside the illusory field outside the body there is no illusion. Illusion gets dissipated when the body no longer exists totally with its senses. All senses pertain to illusion. All our scope, our sciences and philosophy particularly life, death, rebirth beliefs pertain to the body which gets the illusion because the body is matter. Vedas and Adi Shankar Acharya call illusion as Maya and consciousness as Prajna. The illusion has to be perfect for all of us during the illusory life giving us the utmost happiness in all walks of this life. Everything to us happens only in illusion and so we must evoke the divine power to be happy in this illusion in the short life and thereafter free us from this illusory world. On this score the invocation of divine or cosmic energies are absolutely a must though it is easier to talk about illusion in theory. In practical life it is not easy either everyone has their daily routine to follow like attending their work, begetting children, raising children, getting them married, owning property, engagement in business or agriculture or profession and so on. No one can quit these and gloat on illusion except for a very few. No one would sacrifice anything or give up their

rights based on a concept called illusion or the illusory field. They feel real during their sojourn in this worldly life and they would like to feed their senses with pleasures. One would not gift his house to charity because of the fact that everything is illusion as they find these philosophical talks are not practically appealing. They feel they are living a real life, a life in which they own and have to own properties, joy, children, education as if they are going to live for long. The idea to write this book came to me as I went through Vedic Upanishad teachings whether the world we live is real or illusory. Therefore the main idea of this book is to make an honest attempt to investigate who is behind our lives and if so why is he required to play the drama of creating us and what he wants to achieve through our creation. More fully what is that cosmic code that is behind creation. Physics describes it as fermions and bosons but it is more than that. It is illusion. Fermions and bosons themselves come from illusion. Particularly illusion of existence. Everything we feel, see, hear, touch and smell is illusion. This illusion defines an impartial God or infinities. The illusion can alone define an impartial God. Many religions have

come out with answers recently during the last 2200 years or so but i find the upanishads and other spiritual texts and teachers in india offer answers to this question conforming to modern physics and experiments this is what this book is all about an inquiry into secret of human life most of the religious texts describe god in human form the prophets or teachers are described as an incarnation or children of god or to whom god revealed himself in a place at a time and handed over the words of wisdom the main purpose of all religious texts is to tell humanity that there is a super power who is watching us and he would guide us to heaven where he lives if we live our human lives conforming to the teachings laid down by his messengers or prophets if such conformity is not accepted then we would be doomed to hell or in other terms there would be no salvation for such person the biggest irony is god also permits them to kill persons who do not follow such religious teachings god treats them as enemies the enemies of god must be killed the tribes who are enemies of god can be killed well this is the irony when god must be all love one fails to understand that such god asks for killing

when he can kill them himself why seek the help of other humans to kill fellow humans when he can himself do the killing and again why should he kill after creation if so why create at all why create such evil persons at all in this earth who steal or cheat or commit adultery or who murder others what is the purpose of such creation and evaluation what is the purpose of god having such a character persons who are responsible in writing these texts know very well that unless you use the name of god no one is going to believe their own writings every piece of their own advice has to be stated as if they come from the mouth of god himself for mankind to believe their own opinions are stated as if they originated from god therefore god is a convenient tool this book goes into the semantics of the main topic that cosmic code is illusion and i have used scientific philosophical mathematical and vedic teachings to prove clearly my conviction that the world we live is only illusion it is not for the sake of writing a book i have written but it is out of my own strong feeling that the universe has to be illusory to have an impartial god i trust the readers will find it interesting and get convinced
