this book compares islamic and western ideas of human rights in order to ascertain which human rights if any can be considered universal this is a profound topic with a rich history that is highly relevant within global politics and society today the arguments in this book are formed by bringing william talbott s which rights should be universal 2005

and abdulaziz sachedina s islam and the challenge of human rights 2014 into conversation by bridging the gap between cultural relativists and moral universalists this book seeks to offer a new model for the understanding of human rights it contends that human rights abuses are outcomes of complex systems by design and or by default therefore it proposes that a rigorous systems thinking approach will contribute to addressing the challenge of human rights engaging with islamic and western historical and contemporary and relativist and universalist thought this book is a fresh take on a perennially important issue as such it will be a first rate resource for any scholars working in religious studies islamic studies middle east

studies ethics sociology and law and religion providing up to date information for general readers as well as those well informed about the islamic state this book offers an essential understanding of the rise of isis and its current influence in the middle east as well as worldwide isis also referred to as isil the islamic state or daesh began to assert its power and gain recognition for its militant and terroristic activities in april 2013 after the coordinated attacks in paris on november 13th 2015 isis has captured the full attention of observers in the west this accessible book explains what isis is what the group s goals are what their members believe and why their ranks are growing readers will

gain an understanding of how isis is a unique group one seeking to be the army of the righteous fighting to defeat the unbelievers and usher in the end of days but that the extremist views of isis are an expression of a growing frustration with life in the middle east and elsewhere shared by a larger community of non state and post state actors the book provides an introduction that documents the origins of isis within the larger al qaeda organization during the iraq war the following chapters discuss the origins development and territorial expansion of isis in syria and iraq and examine the ideological motivations behind the emergence of isis thereby enabling a nuanced understanding of the importance of isis in contemporary history

other entries discuss individuals events and organizations that put isis in historical context in terms of contemporary events since the iraq war into the present and explain the group s position within the complex conflict currently boiling in the middle east

notorious isis caliphate in the iraqi lands that the united states once occupied counter jihad is the first history of america s military operations against radical islamists from the taliban controlled hindu kush mountains of afghanistan to the sunni triangle of iraq to isis s headquarters in the deserts of central syria giving both generalists and specialists an overview of events that were followed by millions but understood by few williams provides the missing historical context for the rise of the terror group isis out of the ashes of saddam hussein s secular baathist iraq arguing that it is only by carefully exploring the recent past can we understand how this jihadist group came to conquer an area larger than britain and spread havoc from

syria to paris to san bernardino a tour de force on the evolution of jihadism essential reading mehran kamrava author of inside the arab state most violent jihadi movements in the twentieth century focused on removing corrupt repressive secular regimes throughout the muslim world but following the 1979 soviet invasion of afghanistan a new form of jihadism emerged global jihad turning to the international arena as the primary locus of ideology and action with this book glenn e robinson develops a compelling and provocative argument about this violent political movement s evolution global jihad tells the story of four distinct jihadi waves each with its own program for achieving a global end whether

a jihadi international to liberate muslim lands from foreign occupation al qa ida s call to drive the united states out of the muslim world isis using jihadi cool to recruit followers or leaderless efforts of stochastic terror to keep the dream alive robinson connects the rise of global jihad to other movements of rage such as the nazi brownshirts white supremacists khmer rouge and boko haram ultimately he shows that while global jihad has posed a low strategic threat it has instigated an outsized reaction from the united states and other western nations a remarkably comprehensive account foreign affairs

been in the world's headlines eventually ignited a jihadi civil war a period defined by internal tensions that ultimately turned global with devastating impact this fitna left the jihadi movement more polarized and fragmented than ever seriously threatening its internal cohesion jihadi politics presents the first exhaustive account of infighting within the global jihadi movement based on years of digital anthropology hundreds of primary documents and interviews with jihadis it offers an unprecedented glimpse into historic and current conflicts between and within jihadi groups this thorough examination of the years 2014-2019 offers a more nuanced understanding of the current state of jihadism with important insights into its future evolution including islamic state's role in afghanistan

in the first two decades of the twenty first century the events of 9 11 7 7 the war on terror and the caliphate and atrocities of the so called islamic state have dominated western consciousness and wreaked havoc in parts of the muslim majority world in their wake a spate of books has been written explaining the phenomenon of islamist radicalisation and jihadism nevertheless for normal citizens as well as scholars of religion and legal professionals the crucial question remains unanswered how is mainstream islam different from both islamism and the islamist extremism that is used to justify terrorist violence in this highly original book which draws upon the

every day riven by a civil war that has risked bringing the world's major powers into open conflict the caiw provides an essential background to a complex international problem

in february 2014 al qaida issued a statement that shocked the entire jihadi movement for the first time in its history the group declared that a local affiliate the islamic state in iraq was no longer part of al qaida the renegade iraqi group led by abu bakr al baghdadi had expanded its operations to syria taking over the regional branch jabhat al nusra but in the process the group had defied orders from al qaida's amir ayman al zawahiri islamic state's actions and increasingly aggressive posture towards fellow jihadis

author's experience as an expert witness in Islamic theology in 27 counter terrorism trials the author uses the idea of the worldview as well as traditional Islamic theology to answer this question the book explains not only what mainstream Islam ideological Islamism and Islamist extremism are in their broad philosophical characteristics and theological particulars but also explains comprehensively how and why they are both superficially related and yet essentially and fundamentally different in so doing the book also illuminates the cast of characters and the development of their ideas that constitute mainstream Islam ideological Islamism and the non-violent and violent Islamist extremists who constitute the genealogy of terror

this book analyzes the historical quest of the Islamic Republic of Iran to export its revolution to the Muslim countries in the Middle East and beyond the authors argue that Iran exported its revolution by using proxies such as Hezbollah the Iraqi Shiite militias and the Houthis the study unravels the causal chain behind less known cases of Iranian sponsorship of al Qaeda central and al Qaeda in Iraq it combines rigorous theory with detailed empirical analysis which can add to the current debate about ways to roll back Iran's revolutionary export

of both presents the story sharply and compellingly Washington Post excellent independent in August 2012 Syrian President Bashar al Assad was clinging to power in a vicious civil war concerned that Assad might resort to chemical weapons the international community warned that any such use would cross a red line warranting a military response when a year later Assad bombed the Damascus suburb of Ghouta with sarin gas killing hundreds global leaders were torn between living up to their word and becoming mired in another unpopular Middle Eastern war so when Russia offered to store Syria's chemical weapons the world leaped at the solution so begins a race to find remove and destroy 1 300 tons of chemical weapons in the middle

of syria s civil war told in harrowing detail the initial effort is a tactical triumph for the west but soon russia s long game becomes clear it has uncovered to assist assad s regime meanwhile the territory gains of isis further destabilise the country and the terrorist organisation seeks to secure syria s chemical arsenals for itself with horrifying consequences red line is a classic joby warrick true life thriller a character driven narrative with a cast of heroes and villains including weapons hunters politicians commandos diplomats and spies through original reporting and eyewitness accounts from direct participants joby warrick reveals how a well intentioned effort to save syrian lives became swept up in a

calamitous chain of events that would spawn a terrorist movement unleash torrents of refugees frustrate two u s presidents and empower the western alliance s most dangerous foes

how do aspiring and established rising global powers respond to conflict using china the book studies its response to wars and rivalries in the middle east from the cold war to the present since the people s republic was established in 1949 china has long been involved in the middle east and its conflicts from exploiting or avoiding them to their management containment or resolution using a conflict and peace studies angle burton adopts a broad perspective on chinese engagement by looking at its

involvement in the region s conflicts including israel palestine iraq before and after 2003 sudan and the darfur crisis the iranian nuclear deal the gulf crisis and the wars in syria libya and yemen the book reveals how a rising global and non western power handles the challenges associated with both violent and nonviolent conflict and the differences between limiting and reducing violence alongside other ways to eliminate the causes of conflict and grievance contributing to the wider discipline of international relations and peace and conflict studies this book will be of interest to students and scholars of peace and conflict studies chinese foreign policy and the politics and international relations of the middle east

this book provides a pioneering and original study of the regional effects of political islam it sets out the multifaceted interactions between islam and politics in the middle east and north africa mena region focussing in particular on the so called islamic state its organization in its broad discussion of political islam utilizing a trans disciplinary perspective the book interacts with social constructivism and complex realism theories to analyse the clash between the modern notion of the state and that of identity in the region looking at issues such as the rise of is and its attempts to establish a caliphate the book offers three different yet complementary levels of analysis for its discussion these being regional dis order the erosion of state power and its boundaries and the role of non state actors in shaping the politics of the mena region each of these levels are addressed in detail in turn in order to build a comprehensive picture of state and political islam in the arab core of the mena region what emerges is a comprehensive analysis of the interlinked relationships between political and islamic elements of arab polities and societies as such this book will be of great interest to academics and policymakers focusing on matters relating to the study of islam islam and politics study of religion more broadly and security studies and area studies particularly in the mena region this companion piece to susan hayward s film ecology focuses on ecology documentaries produced in the first 20 years of the new millennium 2000 19 using kate raworth s regenerative economic theoretical model as set out in doughnut economics this book examines 57 films emanating from europe and the 4 areas of concern they raise about energy production pollution and waste management agribusiness disrupted ecosystems and the migratory flow these ecology documentaries make explicit the damage done to our planet thanks to growth capitalism and neoliberal globalisation but they also provide the evidence that solutions to this planetary abuse exist the book demonstrates how these documentaries reveal the process of humankind s planetary plundering and explores the structuring of the
