the shiites of lebanon under ottoman rule provides an original perspective on the history of the shiites as a constituent of lebanese society winter presents a history of the community before the 19th century based primarily on ottoman turkish documents from these he examines how local shiites were well integrated in the ottoman system of rule and that lebanon as an autonomous entity only developed in the course of the 18th century through the marginalization and then violent elimination of the indigenous shiite leaderships by an increasingly powerful druze maronite emirate as such the book recovers the ottoman era history of a group which has always been neglected in chronicle based works and in doing so fundamentally calls into question the historic place within lebanon of what has today become the country s largest and most activist sectarian community

the abduction of western citizens by hizb allah was motivated either by internal organisational requirements or in alignment with syrian and iranian interests and mechanisms for the resolution of the hostage crisis were subject to continuous interaction between hizb allah iran and syria influenced by internal lebanese regional and international events the western responses to the hostage crisis showed limited effectiveness as the crisis management techniques were poorly adjusted in timing and direction to the actual crisis environment with the exception of the french response the overall employment of western crisis management techniques showed disregard for the opportunities and constraints in the fluctuating relationship between syria and iran as well as the political environment

within lebanon which the hizb allah operates and exists this was clear by their failure to rely on either iran or syria as the only channel in negotiations over hostages without regard to their individual ability to exert its influence over the lebanese movement in accordance with shifts in their ties to hizb allah s command leadership between 1987 1991 and to the status of the iranian syrian relationship over time as displayed by the friction between 1986 92 this study provides a new approach in the study of terrorism by merging a case study of the dynamics of the lebanese hostage crisis with an evaluation of western responses through crisis management techniques in order to more closely resolve the dilemma of the fulfilment of these states duty to protect their citizens taken hostage abroad without major sacrifices in the conduct of foreign policy
