benjamin pogrund who spent 26 years as a journalist in south africa investigating apartheid and who has been living in israel for the past 15 years investigates the accusation that israel is practicing apartheid and the motives of those who make it his study is founded on a belief in israel combined with frank criticism to provide a balanced view of israel s strengths and problems to understand israel today one must first look at the past and so the book first outlines key foundational events to explain current attitudes it then explores the contradictions found in the region including discrimination against israeli arabs and among jews before concluding that it is wrong to affix the apartheid label to israel inside the green line of 1948 1967 it also deconstructs the criticisms of israel and the boycott movement before arguing for two states israeli and
