there are currently a record setting number of forcibly displaced persons in the world this number continues to rise as solutions to alleviate humanitarian catastrophes of large scale violence and displacement continue to fail the likelihood of the displaced returning to their homes is becoming increasingly unlikely in many cases their homes have been destroyed as the result of violence why are the homes of certain populations targeted for destruction what are the impacts of loss of home upon children adults families communities and societies if having a home is a fundamental human right then why is the destruction of home not viewed as a rights violation and punished accordingly from bureaucracy to bullets answers these questions and more by focusing on the violent practice of extreme domicile or the intentional destruction

of the home as a central and overlooked human rights issue

the 25th annual world report summarizes human rights conditions in more than ninety countries and territories worldwide reflecting extensive investigative work undertaken in 2014 by human rights watch staff with domestic rights activists in particular on the roles played by key domestic and international figures

exploring the way urbicide is used to un re make palestine as well as how it is employed as a tool of spatial dispossession and control this book examines contemporary political violence and destruction in the context of colonial projects in palestine the broader framework of the book is colonial and post urban destruction urbanism with a working hypothesis that there are links gaps and blind spots in the understanding of urbicide discourse drawing on several examples from the palestinian history of destruction and transformations such as jenin refugee camp hebron old town and nablus old town a methodological framework to identify urbicidal episodes is also generated advancing knowledge on one historical moment of the urban condition the moment of its destruction and enhancing the understanding of the palestinian israeli conflict from

urbanistic architectonic and urbicide spacio cide perspectives through the use of case studies this book will be essential reading for scholars and researchers with an interest in urban geography and middle east politics more broadly

provides detailed overview of israel s illegal measures to suppress the palestinian uprising

first published in 2004 routledge is an imprint of taylor francis an informa company

this book offers a much needed focus on palestine solidarity films supplying a critical theoretical framework whose intellectual thrust is rooted in the challenges facing scholars censored for attempting to rectify and reverse the silencing of a subject matter about which much of the world would remain uninformed without cinematic and televisual mediation its innovative focus on palestine solidarity films spans a selected array of works which began to emerge during the 1970s made by directors located outside palestine israel who professed support for palestinian liberation visualizing the palestinian struggle analyzes palestine solidarity films hailing from

countries such as canada the united kingdom egypt iran palestine israel mexico and the united states visualizing the palestinian struggle is an effort to insist constructively upon a rectification and reversal of the glaring and disproportionate minimization and distortion of discourse critical of zionism and israeli policy in the cinematic and televisual public sphere

the arab israeli conflict is a fundamental research tool for students of the middle east and for those responsible for u s policymaking in that area it is a successor to john norton moore s widely acclaimed three volume compilation of readings and documents on international law and the arab israeli conflict originally published in 1991 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

this book is about home and international law more specifically it is about the profound and frequently devastating transformations of home that are happening almost everywhere in the world today and what international law has to do with them through three stories of home the desert home the lake home and the city home this book traces how the everyday operations of international law shape the material affective and imaginative experience of home it argues that international law s homemaking work is characterised by acts of domination practices of resistance and the production of unhomey spaces however the book also considers whether and how the liberatory potential of international law could be unlocked through the metaphor of home this book draws from fieldwork conducted by the author in palestine cambodia and the united kingdom it takes a global socio legal approach to home and international law informed by feminist political theory feminist geography home studies and contemporary critical approaches to international law it is the first academic work to examine the relationship between home and international law this book s global socio legal approach to home and international law will be of interest to those teaching and studying in international law socio

a theory of international terrorism studies islamic militancy in the geopolitical contexts of chechnya kashmir palestine and the september 11 attacks on the united states these contexts have shaped a global ontology of islamic terrorism which asserts that puritan islam is inherently violent and muslim militants are addicted to carnage this ontology is significantly changing international law it defends the preemptive war on terror and disregards civil liberties prescribing extra judicial killings torture renditions indefinite detentions and numerous other human rights violations these normative shifts are considered inevitable to suppress muslim militants questioning these shifts the book argues that the policy of no negotiations with muslim militants is contrary to the un charter it also argues that terrorism cannot be eradicated unless the nation state evolves into the free state a concept developed in the extinction of nation states 1996 and a theory of universal democracy 2003 universities governments and international organizations will find this book a source of valuable information this book brings together an inter disciplinary group of palestinian

israeli american british and irish scholars who theorise the question of palestine critically committed to supporting the palestinian quest for self determination they present new theoretical ways of thinking about palestine these include the palestinization of ethnic and racial conflicts the theorization of palestine as camp ghetto and prison the tourist activist gaze the role of gendered resistance the centrality of the memory of the 1948 nakba catastrophe to the contemporary understanding of the conflict and the historic roots of the contemporary discourse on palestine the book offers a novel examination of how the palestinian experience of being governed under what giorgio agamben names a state of exception may be theorised as paradigmatic for new forms of global governance an indispensable read for any serious scholar

this book is the first comprehensive examination of un efforts to protect palestinian human rights in the territories occupied by israel more than 50 years ago in the 1967 war working through the un human rights council in geneva three top international legal experts served for six consecutive years as unpaid special rapporteurs with a un mandate to report on israeli violations of international humanitarian law and human rights standards being outside the

discipline that controls un bureaucrats they enjoyed a high measure of political independence in carrying out their factfinding and reporting missions strikingly despite their differences in background and political outlook they came to a unanimous consensus confirming the routine and various israeli violations of palestinian basic rights this book recounts their frustrations their trials their experiences and their conclusions this joint effort breaks new ground in studies by the un in several respects it demonstrates both the positive role played by the un in a politically controversial area and its blockage by geopolitical forces preventing it from securing the implementation of international law however the intense reactions of israel and pro israeli ngos to this un work most notably by un watch attest to the significance of a reliable accounting of israeli violations of palestinian human rights their consistent evasion of the substantive charges made by careful reporting and recourse by israeli supporters to discrediting defamatory attacks on the persons of these special rapporteurs with charges of anti semitism the core of which is subtly shifted from its proper usage as hatred of jews to justifiable criticism of the state of israel while some might argue that the un inability to enforce

international law as futile or worse view the un as merely a vehicle of power politics this book proves that international public opinion and international solidarity politics are influenced by persuasive expert findings as to international law such well evidenced conclusions encourage transnational activism as is evident from increased worldwide support for the bds campaign and other nonviolent external pressures this brilliant and authoritative account of the manner in which israel has administered the occupied palestinian territory during the past 20 years should be regarded as the definitive assessment of that situation

this book applies the dynamic field of transitional justice to conflict resolution in israel palestine around the globe diverse societies have pursued truth telling restorative justice and reconciliation to end conflict yet the language of transitional justice has been all but absent in israel palestine this volume squarely addresses how transitional justice could contribute to conflict transformation and accountability incorporating the questions of collective justice memory and human rights it covers the most important historical and legal issues facing israel palestine with a focus on civil societies in south africa northern ireland and latin america ultimately the

book proposes an unofficial israeli palestinian truth and empathy commission iptec to address gross human rights abuses committed by both nations transitional justice for israel palestine will be of interest to researchers ngos and policy makers working in transitional justice and societies with ongoing conflict

taking a multidisciplinary approach to examine the dynamics of ethno national contestation and colonialism in israel palestine this book investigates the approaches for dealing with the colonial and post colonial urban space resituating them within the various theoretical frameworks in colonial urban studies the book uses henry lefebvre s three constituents of space perceived conceived and lived to analyse past and present colonial cases interactively with time it mixes the non temporal conceptual framework of analysis of colonialism using literature of previous colonial cases with the inter temporal abstract lefebvrian concepts of space to produce an inter temporal re reading of them israeli colonialism in the occupied areas of 1967 its contractions from sinai and gaza and the implications on the west bank are analysed in detail by illustrating the transformations in colonial urban space at different temporal stages a new phase is proposed the trans colonial this

provides a conceptual means to avoid the pitfalls of neo colonial and post colonial influences experienced in previous cases and the book goes on to highlight the implications of such a phase on the palestinians it is an important contribution to studies on middle east politics and urban geography

the west bank barrier is expected to be completed in 2010 declared illegal by the united nations international court of justice this network of concrete walls trenches and barbed wire fences could permanently redraw one of the most disputed property lines in the middle east the green line that separates israel and the west bank to israel the security fence is intended to keep palestinian terrorists from entering its territory but to palestinians the apartheid wall that sliced through orchards and houses and cuts off family members from one another is a land grab in this comprehensive book backmann not only addresses the barrier s impact on ordinary citizens but how it will shape the future of the middle east though it promises security to an israeli population weary of terrorism it also is responsible for the widespread destruction of palestinian homes and farmland with its byzantine checkpoint regulations it has also severely crippled the palestinian economy

and most urgent the barrier often deviates from the green line appropriating thousands of acres of land effectively redrawing the boundary between the west bank and israel backmann interviews israeli policy makers politicians and military personnel as well as palestinians living throughout the west bank telling the stories not only of the barrier s architects but also of those who must reckon with it on a day to day basis on the ground with bold brilliant and often impassioned reportage a wall in palestine renders the west bank barrier its purpose its efficacy its consequences as no book before

israel s half a century long rule over the west bank and gaza strip and some of its surrounding legal issues have been the subject of extensive academic literature yet to date there has been no comprehensive theoretically informed and empirically based academic study of the role of various legal mechanisms norms and concepts in shaping legitimizing and responding to the israeli control regime this book seeks to fill this gap while shedding new light on the subject through the format of an a z legal lexicon it critically reflects on challenges and redefines the language knowledge and practices surrounding the israeli control regime

taken together the entries illuminate the relation between global and local forces legal political and cultural in israel and palestine the study of the terms involved provides insights that are relevant to other situations elsewhere in the world particularly with regard to belligerent occupation the law s role in relation to state violence and justice

portland at the end of world war ii was an international port and a powerhouse of the timber and shipbuilding industries oregon s largest city grew and changed in the decades that followed adding new industries and population it also endured reductions in shipbuilding capacity a devastating flood a declining timber industry urban renewal freeway construction and social change by the 1990s a wave of globalization and big box retail marketing swelled shipping at the city s port and swept away a surprising number of portland s businesses which remain in the fond memories of portlanders a few of these memorable icons include the stores meier and frank j k gill payless drug and sprouse reitz the restaurants henry theile jolly joan tik tok yaw s top notch and waddle s the jantzen beach amusement park the portland hotel the broadway fox and orpheum theaters henry weinhard s brewery the

israel s next great crisis may come not with the palestinians or iran but with young american jews a dramatic shift is taking place in israel and america in israel the deepening occupation of the west bank is putting israeli democracy at risk in the united states the refusal of major jewish organizations to defend democracy in the jewish state is alienating many young liberal jews from zionism itself in the next generation the liberal zionist dream the dream of a state that safeguards the jewish people and cherishes democratic ideals may die in the crisis of zionism peter beinart lays out in chilling detail the looming danger to israeli democracy and the american jewish establishment s refusal to confront it and he offers a fascinating groundbreaking portrait of the two leaders at the center of the crisis barack obama america s first jewish president a man steeped in the liberalism he learned from his many jewish friends and mentors in chicago and benjamin netanyahu the israeli prime minister who considers liberalism the jewish people s special curse these two men embody fundamentally different visions not just of american and israeli national interests but of the mission of the jewish people itself beinart concludes with provocative

proposals for how the relationship between american jews and israel must change and with an eloquent and moving appeal for american jews to defend the dream of a democratic jewish state before it is too late

this volume offers an overview of the history politics and economics of this fascinating country its main focus being on king hussein s reign his quest to modernise his internal struggle with the palestinians and his pursuit of peace in the area

biblical zoara is located in the ghor as safi precisely at the lowest place on earth its environmental and cultural history is therefore unique during two decades an archaeological project was conducted which discovered many significant finds of human occupations spanning some 12 000 years these have been meticulously studied and the results are now presented here in volume i volume ii will follow and will complete and complement volume i
