The diversity of genres available on free ebook sites ensures there's something for everyone.

Sites like Project Gutenberg and Open Library offer numerous academic resources, including textbooks and scholarly articles.

Stick to reputable sites to ensure you're not downloading pirated content. Pirated ebooks not only harm authors and publishers but can also pose security risks.

These sites also enhance accessibility. Whether you're at home, on the go, or halfway around the world, you can access your favorite titles anytime, anywhere, provided you have an internet connection.

Downloading ebooks safely is crucial to avoid pirated content and protect your devices.

Always use antivirus software and keep your devices updated to protect against malware that can be hidden in downloaded files.

Efforts to expand internet access globally will help more people benefit from free ebook sites.

DRM can restrict how you use the ebooks you download, limiting sharing and transferring between devices.

Not all books are available for free, and sometimes the quality of the digital copy can be poor.

For homeschooling parents, free ebook sites provide a wealth of educational materials for different grade levels and subjects.

Whether it's a tablet, an e-reader, or a smartphone, choose a device that offers a comfortable reading experience for you.

In summary, free ebook sites offer an incredible opportunity to access a wide range of books without the financial burden. They are invaluable resources for readers of all ages and interests, providing educational materials, entertainment, and accessibility features. So why not explore these sites and discover the wealth of knowledge they offer?

BookBoon specializes in free textbooks and business books, making it an excellent resource for students and professionals.

Ebook sites often come with features that enhance accessibility.

Parents and teachers can find a plethora of children's books, from picture books to young adult novels.

The future looks promising for free ebook sites as technology continues to advance.

First and foremost, they save you money. Buying books can be expensive, especially if you're an avid reader. Free ebook sites allow you to access a vast array of books without spending a dime.

To make the most out of your ebook reading experience, consider these tips.

Students can access textbooks on a wide range of subjects, helping reduce the financial burden of education.

ManyBooks offers a large selection of free ebooks in various genres. The site is user-friendly and offers books in multiple formats.

You can adjust the font size to suit your reading comfort, making it easier for those with visual impairments.

Many sites offer audiobooks, which are great for those who prefer listening to reading.

There are countless free ebook sites, but a few stand out for their quality and range of offerings.

You can also find books on various skills, from cooking to programming, making these sites great for personal development.

Free ebook sites are invaluable for educational purposes.

Google Books allows users to search and preview millions of books from libraries and publishers worldwide. While not all books are available for free, many are.

Open Library aims to have a webpage for every book ever published. It offers millions of free ebooks, making it a fantastic resource for readers.

Despite the benefits, free ebook sites come with challenges and limitations.

Project Gutenberg is a pioneer in offering free ebooks. With over 60,000 titles, this site provides a wealth of classic literature in the public domain.

Improvements in technology will likely make accessing and reading ebooks even more seamless and enjoyable.

Accessing and downloading ebooks requires an internet connection, which can be a limitation in areas with poor connectivity.

Be aware of the legal considerations when downloading ebooks. Ensure the site has the right to

distribute the book and that you're not violating copyright laws.

From timeless classics to contemporary bestsellers, the fiction section is brimming with options.

As educational resources become more digitized, free ebook sites will play an increasingly vital role in learning.

Non-fiction enthusiasts can find biographies, self-help books, historical texts, and more.

Moreover, the variety of choices available is astounding. From classic literature to contemporary novels, academic texts to children's books, free ebook sites cover all genres and interests.

Many ebook platforms allow you to sync your library across multiple devices, so you can pick up right where you left off, no matter which device you're using.

Use tools and apps to organize your ebook collection, making it easy to find and access your favorite titles.

Text-to-speech features can convert written text into audio, providing an alternative way to enjoy books.

from an award winning journalist a brave and necessary immersion into the everyday struggles of palestinian life over the past three years american writer ben ehrenreich has been traveling to and living in the west bank staying with palestinian families in its largest cities and its smallest villages along the way he has written major stories for american outlets including a remarkable new york times magazine cover story now comes the powerful new work that has always been his ultimate goal the way to the spring we are familiar with brave journalists who travel to

bleak or war torn places on a mission to listen and understand to gather the stories of people suffering from extremes of oppression and want katherine booryszard kapuściński ted conover and philip gourevitch among them palestine is by any measure whatever one's politics one such place ruled by the israeli military set upon and harassed constantly by israeli settlers who admit unapologetically to wanting to drive them from the land forced to negotiate an ever more elaborate and more suffocating series of fences checkpoints and barriers that have sundered home from field home from home this is a population whose living conditions are unique and indeed hard to imagine in a great act of bravery empathy and understanding ben ehrenreich by placing us in the footsteps of ordinary palestinians and telling their story with surpassing literary power and grace makes it impossible for us to turn away

the long journey takes us into the heart of jerusalemzion the site of the benedictine dormition monastery a place where pilgrims seekers and peacemakers come for

liturgies prayer and conversation our guide on this journey is james paharik who in nine closely woven essays leads us through the labyrinthine spaces of jerusalem he also reveals hearts damaged by violence but also brimming with hope that israel will one day soon live up to her calling as expressed in psalm 76

hezbollah and hamas are players in middle eastern politics and have a growing involvement in global events despite their different beginnings they share a common denominator in israel this title offers an analysis of their histories and political missions that moves beyond reductionist portrayals of the organizations military operations

a raid on the red sea is the thrilling real life tale of illegal gun running in the middle east in this firsthand account amos gilboa gives the harrowing details of the secret close working relations between israeli and american intelligence in the seizure of the karine a ship the most successful israeli intelligence operation since the legendary entebbe hostage rescue at 0400 hours january 3 2002

two fast boats of israel's naval commando unit closed in on the stern of the palestinian authority's karine a the iranian islamic revolutionary guard corps had clandestinely loaded its cargo fifty six tons of high grade long range weapons destined for the gaza strip the israelis plan to seize it went awry when they found nothing but a confused group of egyptians jordanians and palestinians had they boarded the wrong ship was there going to be an international incident disgracing israel this drama has more than its share of plot twists the story's hero a low level female intelligence analyst was the first to grasp the grave danger posed by the karine a analyzing piles of disinformation she kept on the scent of the ship tracking it from egypt to sudan to dubai only through the joint efforts of israeli and u s naval intelligence mossad and the cia was the ship stopped and calamity averted seizing the ship led to a fateful reorientation of u s policy regarding the middle east with consequences to this day from the israeli palestinian conflict to the 2020 assassination of islamic revolutionary guard corps quds force chief qasem soleimani

targeting terrorists a license to kill examines the political history and ethics of targeted killing a very plausible analysis addresses the questions of moral political and legal justification in the context of the current war on terror and of legitimate illegitimate forms of counter terrorism more generally given the increasing number of terrorist targetings conducted around the world today and the virtual absence of a sustained public and scholarly debate over the practice this study makes a crucial contribution to the examination of an increasingly important and troubling subject incorporating insights and arguments from a range of disciplines and approaches and offering an excellent balance between theory and case studies this book is highly relevant for courses on ethics politics international relations and international law

the conflict between palestinians and israelis has heightened since 2001 even as any perceived threat to israel from egypt jordan iraq or even syria has declined israel according to chaim herzog israel's sixth president had been born in battle and would be obliged to live by the sword

yet the israeli government's conquest and occupation of the west bank and gaza brought about a very difficult challenge although resistance on a mass basis was only taken up years later in the first intifada israel could not tolerate palestinian arabs resistance of their authority on the legal basis of denial of self determination<sup>2</sup> and eventually preferred to grant some measures of self determination while continuing to consolidate control of the occupied territories the west bank east jerusalem and gaza however a comprehensive peace shimmering in the distance has eluded all inter israeli and inter palestinian divisions deepened as peace danced closer before retreating israel's stance towards the democratically elected palestinian government headed by hamas in 2006 and towards palestinian national coherence legal territorial political and economic has been a major obstacle to substantive peacemaking the reasons for recalcitrant israeli and hamas stances illustrate both continuities and changes in the dynamics of conflict since the oslo period roughly 1994 to the al aqsa intifada of 2000 now more than ever a

long term truce and negotiations are necessary these could lead in stages to that mirage like peace and a new type of security regime the rise in popularity and strength of the hamas harakat al muqawama al islamiyya or movement of the islamic resistance organization and its interaction with israel is important to an understanding of israel's arab policies and its approach to counterterrorism and counterinsurgency the crisis brought about by the electoral success of hamas in 2006 also challenged western powers' commitment to democratic change in the middle east because palestinians had supported the organization in the polls thus the viability of a two state solution rested on an israeli acknowledgement of the islamist movement hamas and on fatah's ceding power to it shifts in israel's stated national security objectives and dissent over them reveal hamas' placement at the nexus of israel's domestic israeli palestinian and regional objectives israel has treated certain enemies differently than others iran hizbullah and islamist palestinians whether hamas supporters of islamic jihad or the islamic movement

inside israel all fall into a particular rubric in which islamism the most salient and enduring socio religious movement in the middle east in the wake of arab nationalism is identified with terrorism and insurgency rather than with group politics and identity the antipathy to religious fervor was somewhat ironic in light of israel s own expanding religious haredim groups

settler native conflicts in northern ireland israel palestine and south africa serve as excellent comparative cases as three areas linked to britain where insurgencies occurred during roughly the same period important factors considered are settler parties settler mythology the role of native fighters settler terror the role of liberal parties and the conduct of the war by security forces settlers and natives in each area share similar attitudes liberal parties operate in similar fashions and there are common explanations for the formation of splinter liberation groups however according to mitchell the key difference between the cases lies in the behavior of british security forces in comparison to south african and israeli

forces mitchell s chapter on liberal parties includes an independent account of the progressive federal party of south africa the official parliamentary opposition from 1977 to 1987 along with the first major published account of the alliance party in northern ireland his study of splinter group formation contains the first major account since 1964 of the pan africanist party of azania including its insurgency campaign in the 1980s and 1990s mitchell also contrasts behavior among the inkatha party and labour party in south africa with the social democrat and labour party in northern ireland

the engagement of domestic courts with international law advances and develops a new paradigm for describing assessing and understanding the role of domestic courts in the international legal order

a moving account of the dispossessed children of palestine and the transformative power that music has had in giving them meaning and reason for hope reza aslan moving tolan is a scrupulous craftsman los angeles times it is an unlikely story ramzi hussein aburedwan

a child from a palestinian refugee camp confronts an occupying army gets an education masters an instrument dreams of something much bigger than himself and then through his charisma and persistence inspires others to work with him to make that dream real the dream a school to transform the lives of thousands of children as ramzi s life was transformed through music musicians from all over the world came to help a violist left the london symphony orchestra in part to work with ramzi at his new school daniel barenboim the eminent israeli conductor invited ramzi to join his west eastern divan orchestra which he founded with the late palestinian intellectual edward said since then the two have played together frequently children of the stone chronicles ramzi s journey from stone thrower to music student to school founder and shows how through his love of music he created something lasting and beautiful in a land torn by violence and war this is a story about the power of music but also about freedom and conflict determination and vision it s a vivid portrait of life amid checkpoints and

military occupation a growing movement of nonviolent resistance the prospects of musical collaboration across the israeli palestinian divide and the potential of music to help children everywhere see new possibilities for their lives

this timely reference book places the growing 20th century phenomenon of terrorism in an historical context starting with the use of assassination in ancient greece and including the recent bombing of the american military complex in dhahran saudi arabia this encyclopedia covers the globe in its presentation of all aspects of terrorism history theories of types of and responses to as well methods and techniques there is a chronology of major terrorist events from 1945 an a to z listing of terrorist groups and leaders a select bibliography and indexes general name and geographical

quigley law ohio state details the complex politics and agonizing struggles that have characterized the clash between jews and arabs in the 20th century examining the competing claims to palestine and the extent to which legitimate interests remain to be fulfilled annotation

copyrighted by book news inc portland or

the history of modern israel is a fiercely contested subject from the balfour declaration to the six day war to the recent assault on gaza ideologically charged narratives and counter narratives battle for dominance not just in israel itself but throughout the world in the united states and israel the israeli cause is treated as the more righteous one albeit with important qualifiers and caveats in mythologies without end jerome slater takes stock of the conflict from its origins to the present day and argues that us policies in the region are largely a product of mythologies that are often flatly wrong for example the israelis treatment of palestinians after 1948 undermined its claim that it was a true democracy and the argument that arab states refused to negotiate with israel for decades is simply untrue because of widespread acceptance of these myths in both the us and israel the consequences have been devastating to all of the involved parties in fact the actual history is very nearly the converse of the mythology it is israel and the us that have

repeatedly lost discarded or even deliberately sabotaged many opportunities to reach fair compromise settlements of the arab israeli and israeli palestinian conflicts as slater reexamines the entire history of the conflict from its onset at the end of wwi through the netanyahu era he argues that a refutation of the many mythologies that is a necessary first step toward solving the arab israeli conflict focusing on both the us role in the conflict and israel s actions this book exposes the self defeating policies of both nations policies which have only served to prolong the conflict far beyond when it should have been resolved

first published in 2015 this collection holds three volumes terrorism is a term that defies easy definition and its meaning has also changed over the course of history because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence the encyclopedia is divided into six parts

kenneth m pollack formerly a persian gulf military analyst at the cia and director for persian gulf affairs at the national security council describes and analyzes the military history of the six key arab states egypt iraq jordan libya saudi arabia and syria during the post world war ii era he shows in detail how each arab military grew and learned from its own experiences in response to the specific objectives set for it and within often constrained political economic and social circumstances this first ever overview of the modern arab approach to warfare provides a better understanding of the capabilities and limitations of the arab militaries some of which are the united states most likely adversaries and some of which are our most important allies

this comprehensive new analysis goes far beyond today's headlines and the basic facts and figures on the military forces in the region tracing the origin of the military forces in each middle east country tony cordesman discusses current security developments and provides a qualitative and quantitative analysis of the strength and effectiveness of finding solutions to the

palestinians dilemma is to think fairly about palestine to think palestine is to understand the key to solving that region's problems including the us one sided and blind supports to israel the weekly articles reflects comments on occurring events and are full of knowledge and facts according to readers every article enhanced journalistic accuracy historical correctness and a living memory dr effarah started writing in 1952 while a student at the american university of beirut aub as an arab american independent thinker he judges events according to their merits while acting as a participant observer of the one sided american policy toward the middle east that serves the interests of israel he records and highlights the facts in an attempt to find the key to unlocking the palestinian arab and israeli conflicts his personal feelings as a survivor of the palestinian holocaust of 1948 and his interpretations of the proceedings represent a major part of the events that took place in that period

in the spring of 1863 union colonel abel d streight sought to raid and destroy parts of the

vital span of the western and atlantic railroad in north georgia with his mule riding infantry brigade determined to thwart the potentially deadly attack confederate general nathan bedford forrest fervently pursued streight's forces with the help of unlikely ally fifteen year old emma sansom of gadson alabama forrest falsely convinced streight he was vastly outnumbered foiled the raid and forced streight's surrender brandon h beck details streight's dubious plan and the exciting story of a running battle between hunter and quarry that colors history from the hills of northeast mississippi to the heart of georgia

a thorough history of the raf bomber command attack on the german city during world war ii by the author of the first day on the somme this book describes one twenty four hour period in the allied strategic bomber offensive in the greatest possible detail author martin middlebrook sets the scene by outlining the course of the bombing war from 1939 to the night of the nuremberg raid the characters and aims of the british bombing leaders and the

composition of the opposing bomber command and German night fighter forces the aim of the Nuremberg raid was not unlike many hundreds of other Royal Air Force missions but due to the difficulties and dangers of the enemy defenses and weather plus bad luck it went horribly wrong the result was so notorious that it became a turning point in the campaign the target the symbolic Nazi rally city of Nuremberg was only lightly damaged and 96 out of 779 bombers went missing Middlebrook recreates the events of the fateful night in astonishing detail the result is a meticulous dramatic and often controversial account it is also a moving tribute to the bravery of the RAF bomber crews and their adversaries praise for the Nuremberg raid employing hundreds of eyewitness accounts he shows the raid from the point of view of the German defenses and the civilians on the ground factual and analytical this is a portrait of mechanized warfare at the level of personal experience Simon Mawer Wall Street Journal

The Armed Conflict Survey 2023 provides an exhaustive review of the political military and

humanitarian dimensions of active armed conflicts globally in the period from 1 May 2022 to 30 June 2023 the review is complemented by a strategic analysis of regional and global drivers and conflict outlooks providing unique insights into the geopolitical and geo-economic threads linking conflicts regionally and globally as well as into emerging flashpoints and political risks to monitor this edition's regional focused approach also includes regional spotlight chapters on selected key conflict trends of regional and global importance reflecting the growing significance of geopolitical factors in shaping current conflict trends across the world the Armed Conflict Survey 2023 features the third edition of the IISS Armed Conflict Global Relevance Indicator which compares the global relevance of armed conflicts in terms of their geopolitical impact as well as their human impact and intensity this edition also includes maps infographics key statistics and the accompanying chart of armed conflict

this masterly new work spans an entire epoch in the history

of the contemporary Palestinian national movement from the establishment of Israel in Mandate Palestine in 1948 to the PLO-Israel Accord of 1993 contrary to the conventional view that national liberation movements proceed with state building only after attaining independence the case of the PLO shows that state building may shape political institutionalization throughout the previous struggle even in the absence of an autonomous territorial economic and social base that is the central argument of this insightful study which traces the political ideological and organizational evolution of the PLO and its constituent guerrilla groups taking the much vaunted armed struggle as its connecting theme it shows how conflict was used to mobilize the mass constituency assert particular discourses of revolution and nationalism construct statist institutions and establish the legitimacy of a new political class and bureaucratic elite the book draws extensively on PLO archives official publications and internal documents of the various guerrilla groups and over 400 interviews conducted by the author with the PLO rank

and file its span primary sources and conceptual framework make this the definitive work on the subject

dance in palestine has a history as complex and contentious as the land itself whether dismissed as bacchantic madness by bible tourists in the 19th century revived and glorified by zionists pan arabists and palestinian nationalists in the 20th century or rejected by islamic reformists in the 21st century dance in palestine has a rich and elusive story that remains to be told raising dust traces one dancer s journey into palestine s past and present through historical archives the memories of dancers of yesteryear and into today s vibrant performing arts scene nicholas rowe shows how dance has acted as a barometer of social change a forum for debate and a means of expressing forbidden ideas far from apolitical this most physical of art forms has often defined the political mood of the day sumptuously illustrated the author provides a unique rare and compelling cultural history of dance in palestine

the single most satisfactory scholarly study by far of the

united states israeli relationship richard falk author of the end of world order essays on normative international relations all of those concerned about the dangerous situation in the middle east and the protection of our vital interests there should read and benefit from this valuable book fred j khouri author of the arab israeli dilemma

political speeches and public rhetoric paint the phenomena of terrorism with a black and white brush presenting it as a clear cut battle between evildoers and heroes with the achille lauro hijacking michael k bohn who watched the incident unfold from the white house situation room uses one of the most infamous terrorist incidents of the past twenty five years to illuminate the folly of such oversimplified jingoisms the 1985 hijacking of the italian cruise ship the amazing capture of the terrorists and a previously untold story of american bigotry come together in this book as a case study in the complex forces that shape both terrorism and the responses that it triggers in october 1985 four palestinian men hijacked an italian cruise

ship achille lauro holding hundreds hostage for two days the hijackers killed a partially disabled sixty nine year old jewish american leon klinghoffer and threw his body into the sea many remember klinghoffer as death but few know of the other murder associated with the hijacking that of alex odeh odeh defended on television yasser arafatas apparent role in defusing the hijacking he was killed the next day by a terrorists bomb which exploded as he opened the door of his los angeles office the american arab anti discrimination committee palestinians killed klinghoffer because he was jewish yet jewish extremists killed odeh because he was a palestinian the klinghoffer familys long crusade to bring the hijacking mastermind abu abbas to justice was partially satisfied with his april 2003 capture in iraq the odeh family still waits for charges to be brought against alexas murderers a particularly disheartening situation as israel americaas friend and ally refuses to extradite two suspects these two deaths pale in comparison to the atrocities of september 11 2001 yet understanding both the achille lauro incident

and the extraordinary sequence of events that followed will help americans better understand the threat of terrorism terrorism is not an enemy it is a tactic chosen by some to further political goals terrorism is not just about crime and punishment it is about violence power politics prejudice hatred land religion greed money and a host of venal factors that influence human society all of these forces are present in the achille lauro hijacking and its aftermath

what does us aid buy in the middle east drawing on extensive primary source research this book examines the role and consequences of us aid to three countries in the middle east the author argues that the political survival strategies of incumbent leaders in egypt israel and jordan shaped not only the type of aid that these countries received from the us but also its developmental and geopolitical impact leaders who relied heavily on distributing selective benefits to their ruling coalitions were more likely to receive forms of us aid that complemented their distributive political economies and undermined

the state s developmental capacity which simultaneously rendered them more dependent on us resources and more likely to cede fragments of their sovereignty to their major donor non distributive leaders however could reap the full benefits of highly discretionary and technologically sophisticated aid incorporating it into developmental policies that rendered them progressively less dependent on washington and better able to say no when it was in their best interest

the analysis offers a local regional and global landscape of key issues and actors in regards to the new rounds of the american brokered peace process between israel and the palestinian authority under the kerry talks

through confrontations with israel and palestinians under watchful eye of united states the king managed to create a middle eastern nation state the jordanian country and its people this book focuses on hussein s concern for the future of the last hashemite monarchy together with his own set of personal and ideological convictions

established in 1977 the middle

east contemporary survey is designed to be a reference examining in detail the rapidly changing middle eastern scene in all its complexity subjects include inter arab relations islamic affairs economic developments and middle eastern relations with major powers

now in its 50th edition this title continues to provide the most up to date geo political and economic information for this important world area covers the middle east and north africa from algeria to yemen offers quick access to a wide range of data accurately and impartially records the latest political and economic developments provides comprehensive data on all major organizations in the region general survey introductory essays covering topics relating to the region as a whole including arab israeli relations 1967 2003 the jerusalem issue documents on palestine the removal of saddam hussain and the deconstruction of iraq natural gas in the middle east and north africa oil in the middle east and north africa and islamic banking and finance country surveys individual chapters on each country

containing articles on geography recent history and economy an economic and demographic survey using all the latest available statistics on population agriculture industry finance trade transport tourism and education directory sections with names addresses and contact numbers covering the constitution government legislature judiciary political organizations diplomatic representation religious groups the media finance trade and industry including petroleum and tourism regional information includes all major international organizations active in the region their aims activities publications and principal personnel research institutes specializing in the region bibliographies of books and periodicals covering the middle east and north africa

the congressional record is the official record of the proceedings and debates of the united states congress it is published daily when congress is in session the congressional record began publication in 1873 debates for sessions prior to 1873 are recorded in the debates and proceedings in the congress of the united states 1789 1824 the register of debates in congress 1824

1837 and the congressional globe 1833 1873

dictionary of wars third edition contains detailed summaries of all notable wars from throughout history spanning more than 4 000 years completely updated and expanded this volume is an authoritative source on the global conflicts civil wars mutinies punitive expeditions undeclared wars rebellions and revolutions that have occurred throughout the world this edition contains new and updated entries new illustrations and new front and back matter facts are presented in a lively and engaging manner and the scope of the book is truly impressive approximately 1 850 entries are extensively cross referenced to help readers find the information they want this book deals exclusively and concisely with military information often specifying political social economic and cultural influences on military operations new coverage includes battle of granicus chechen civil war of 1999 2002 cote d ivoire civil war of 2002 fijian rebellion of 2000 guinea bissauan civil war of 1998 99 haitian uprising of

2000 indonesian war in aceh macedonian civil war of 2001 nepalese insurgency of 1996 nigerian uprisings of 1999 palestinian uprising of 2000 solomon islands insurrection of 1999 2003 u s invasion of afghanistan u s invasion of iraq and uzbekistan uprising of 2005

a comprehensive look at the history of the israel navy from its inception in the early 1930 s through its 60th anniversary in 2008 organized chronologically the book covers all aspects of the israel navy s history including equipment peacetime and wartime operations organizational and conceptual development changing roles and missions as well as distinguished personnel going far beyond mere naval or maritime aspects the author also sketches the historical development of israel s ongoing conflict with both the palestinians and its neighbouring arab states

dictionary of wars highly praised in its first edition 1986 has now been published in a completely revised updated and expanded 2nd edition the dictionary provides summaries of all notable wars from earliest recorded history to the

present day it affords the general reader and student with quick useful and accurate information the who where when what why and how on the more than 1 800 recorded wars in human history from 2000 bc to the present completely updated the second edition includes an additional 70 entries on such major events as the gulf war the invasions of panama and haiti and the bosnian crisis

this publication offers the most wide ranging examination to date of an intriguing country one that is

often misunderstood it serves as a comprehensive reference for the growing field of israel studies and is also a significant resource for students and scholars of comparative politics recognizing that in many ways israel is not unique but rather a test case of democracy in deeply divided societies and states engaged in intense conflict the oxford handbook of israeli politics and society considers the role of external hostilities but this is not taken as the main determinant of israel s internal politics rather the handbook presents an overview of the

historical development of israeli democracy through chapters examining the country s history contemporary society political institutions international relations and most pressing political issues this comprehensive volume offers contributions by internationally recognized authorities on their subjects outlining the most relevant developments over time while not shying away from the strife both in and around israel it presents opposed narratives in full force enabling readers to make their own judgments
