written by a palestinian with intimate knowledge of the political and physical landscape of the region at its basic level the book advocates for a just peace based on the human rights and international law a peace which all parties to the century old conflict need in this history of palestine the author shows that both sides of the conflict as well as the international community share the blame for the failure to bring the issue to a just conclusion most of the responsibility he says lies at the door of the palestinian leaders themselves who seem to suffer from institutionalized incompetence in dealing with the israelis and the israelis are to be blamed for their

refusal to transform their colonial enterprise into reconciliation politics by acknowledging the claims of the indigenous palestinian people at the same time there is every sign that this impasse was deliberately created at the outset by the international community led by great britain in the endless game of divide and rule unlike many optimistic writers who expect us president barack obama and his administration to find a just solution to the conflict the author concludes that the obama administration would have to reverse the traditional us policy in the middle east entirely if it is to solve the palestinian israeli conflict delving into the historical background behind all the parties to the issue the book provides much needed background for understanding news events today and basic information that even human rights activists and peace organizations may not have fully appreciated throughout the

author seeks to transcend his ethnicity and deal fairly with the positions of people holding different worldviews

this book examines the portrayal of the palestinian israeli conflict by looking at the language used in its reporting and how this can in turn influence public opinion the book explores how language use helps frame an event to elicit a particular interpretation from the reader and how this can be manipulated to introduce bias sirhan begins the book by examining the history of the conflict and the many persistent myths that surround it she analyses how five events in the conflict two in which the palestinians are victims two in which the israelis are victims and operation cast lead are reported in five british newspapers the daily mail the guardian the independent the daily telegraph and the times by looking at these events across a range of newspapers the book investigates

differences in the way that the media report each side before exploring what factors motivate these differences including issues of bias censorship lobbying and propaganda

this is a book about palestine today it is neither apologetic nor romanticized but a powerful and brilliantly realized scream of a book scorching and tender from a journalist whose anger and empathy burn through every word over the past three years ben ehrenreich has shared the laughter fury and sorrow of people in cities and villages across the west bank young and old people men and women he has witnessed the extremes to which they are pushed the daily deprivation and oppression that they face the strategies they construct to survive it stoicism resignation rebellion humour and a stubborn defiant joy in the way to the spring he describes the cruel mechanics of the israeli occupation and the endless

absurdities and tragedies it engenders the complex and humiliating machinery of the checkpoints walls courts and prisons the steady strangling loss of lands that have been passed down for generations the constant ebb and flow of deadly violence blending political and historical context with the personal stories of the people ehrenreich meets the way to the spring is a testimony a provocation and a vital document written with grace and power it breathes fresh life and urgency to a place and a conflict that too easily disappears in the shouting this is a necessary book an unflinching act of witnessing

a compelling account and a reminder that a true peace can be built only on justice desmond m tutu tending one s fields visiting a relative going to the hospital for ordinary palestinians such activities require negotiating permits and passes curfews and closures sterile

roads and seam zones bureaucratic hurdles ultimately as deadly as outright military incursion in palestine inside out saree makdisi draws on eye opening statistics academic histories un reports and contemporary journalism to reveal how the peace process institutionalized palestinians loss of control over their inner and outer lives and argues powerfully and convincingly for a one state solution

this book examines the evolution of black leadership and politics since the civil rights movement it looks at the phenomenon of barack obama from his striking emergence as a successful candidate for the illinois state senate to president of the united states as part of the continuum of african american political leaders

in 1948 the state of israel was founded while the philosophy of zionism that

advocated for a jewish homeland in what was then known as palestine dates back to 1897 the creation of israel in 1948 was justified by the terrible crime of the holocaust committed by nazi germany during wwii many defenders of israel would like us to believe that the creation of israel was a peaceful process on a barely populated land however this is far from true rather the creation of israel was accompanied by what is known by the palestinians as the nakba catastrophe an operation in which 700 000 palestinians were violently expelled from their land and their homes since that time israel has continued to usurp more and more land from the palestinians who they falsely portray as a people without a history and without a culture israel has been particularly cruel to the people of gaza 70 percent of whom are refugees from the 1948 nakba gaza has been converted by israel into what some call a

giant open air prison surrounded by barbed wire it is in this context that we are currently witnessing the tragic violence between israel and the people of gaza violence on a scale not seen in this land since the nakba of 1948 indeed many palestinians are calling this a second nakba with around 1.5 million palestinians already displaced and thousands killed all of this is being accomplished by israel with critical military and diplomatic support from the united states this second nakba is also being facilitated by the mainstream press that both downplays and justifies what many believe to be genocidal violence against the palestinian people the case for palestine is written as a counternarrative with the hope that if the truth is told this violence and displacement can be stopped before it is too late before gaza is no more

advances theorization of childhood in

contexts of racialized settler colonial political violence while acknowledging children's power to interrupt it

makdisi describes how the peace process has made life impossible for ordinary palestinians through eye opening statistics and day by day reports he illustrates how palestinians have seen their hopes for freedom and statehood dashed 33 photographs 12 maps

an easily accessible account of the development of martyrdom barlow presents a masterful account of how religion death and sacrifice developed into the cult of martyrdom of today mia bloom university of georgia and author of *dying to kill the allure of suicide terror* thoroughly researched yet full of novel like gripping narratives this book succeeds in giving the reader a glimpse of what might happen in the mind of candidates to martyrdom while never

loosing sight of the overall context that brings this phenomenon into being and fuels it gilbert achcar author of *the clash of barbarisms* hugh barlow is a gifted writer in this book he uses his skills as a renowned sociologist to bring the reader a refreshing and engaging analysis this is a must read for anyone who is interested in understanding martyrdom operations from a broad historical and cultural perspective ami pedahzur university of texas at austin *dead for good* vividly describes how history gave rise to the suicide bombers of today the passionate submission of ancient jewish and christian martyrs was largely supplanted by militant self sacrifice as islam spread and holy war erupted in the crusades in the indian punjab the khalsa sikhs made warrior martyrdom an instinct and policy in their defense of community and of justice in a last ditch effort to defeat the allies in world war ii the

japanese transformed warrior martyrs into martyr warriors trained to sacrifice themselves in attacks on enemy carriers the current suicide bomber is the latest phase whether motivated by nationalism religious ideology or a combination of both the new predatory martyr dies for the cause while killing indiscriminately exploring martyrdom across cultures and throughout history this book gives us new insights into today s suicide bombers and answers the common question why do they do it

in this scathing analysis of israel palestine coverage in the us media howard friel and richard falk reveal the persistent ways the new york times has ignored principles of international law in order to shield its readers from israel s lawlessness while the times publishes dozens of front page stories and extensive commentary on the killings of israelis it publishes very few such stories

on the killings of palestinians and mostly ignores the extensive documentation of massive violations of palestinian human rights by the government of israel furthermore the times regularly ignores or under reports a multitude of critical legal issues pertaining to israel s policies including israel s expropriation and settlement of palestinian land the two tier system of laws based on national origin evocative of south africa s apartheid regime the demolition of palestinian homes and use of deadly force against palestinians these journalistic practices have not only shielded the extent of israel s transgressions from the american electorate which is israel s main source of financial and military support it has severely diminished our understanding of the middle east and of us foreign policy in general

constructed distributed and reinforced in the print news media this study provides a detailed linguistic analysis of print news media coverage of four recent events in the palestinian israeli conflict in order to examine ideological patterns present in print news media coverage the two news communities are compared for lexical choices in news stories about the conflict attribution of agency in the discussion of conflict events the inclusion or exclusion of historical context in explanations of the conflict and reliance upon essentialist elements during and within print representations of palestine israel the book also devotes space to first hand testimony from journalists with extensive experience covering the conflict from within both news media institutions unifying various avenues of academic enquiry reflecting upon the acquisition of information and the development of knowledge this book will be of interest to

those seeking a new approach to the palestinian israeli conflict

this book brings together an interdisciplinary group of palestinian israeli american british and irish scholars who theorise the question of palestine critically committed to supporting the palestinian quest for self determination they present new theoretical ways of thinking about palestine these include the palestinization of ethnic and racial conflicts the theorization of palestine as camp ghetto and prison the tourist activist gaze the role of gendered resistance the centrality of the memory of the 1948 nakba catastrophe to the contemporary understanding of the conflict and the historic roots of the contemporary discourse on palestine the book offers a novel examination of how the palestinian experience of being governed under what giorgio agamben names a state of exception may be

theorised as paradigmatic for new forms of global governance an indispensable read for any serious scholar

post millennial palestine literature memory resistance confronts how palestinians have recently felt obliged to re think memory and resistance in response to dynamic political and regional changes in the twenty first century and asks in what ways do contemporary palestinian writers critically and creatively consider the possible future s of their nation

why is it so difficult to advocate for palestine in canada and what can we learn from the movement s successes this account of palestine solidarity activism in canada grapples with these questions through a wide ranging exploration of the movement s different actors approaches and fields of engagement along with its connections

to different national and transnational struggles against racism imperialism and colonialism led by a coalition of students labour unions church groups left wing activists progressive presses human rights organizations academic associations and palestinian and jewish community groups palestine solidarity activism is on the rise in canada and canadians are more aware of the issues than ever before palestine solidarity activists are also under siege as never before the movement advocating for palestinian rights is forced to contend with relentless political condemnation media blackouts administrative roadblocks coordinated smear campaigns individual threats legal intimidation and institutional silencing through this book and the experiences of the contributing authors in it many seasoned veterans of the movement advocating for palestine in canada offers

an indispensable and often first hand view into the complex social and historical forces at work in one of our era s most urgent debates and one which could determine the course of what it means to be canadian going forward

since the start of the occupation of palestinian territories in 1967 israel s domination of the palestinians has deprived an entire population of any political status or protection but even decades on most people speak of this rule both in everyday political discussion and in legal and academic debates as temporary as a state of affairs incidental and external to the israeli regime in the one state condition ariella azoulay and adi ophir directly challenge this belief looking closely at the history and contemporary formation of the ruling apparatus the technologies and operations of the israeli army the general security services and the legal system

imposed in the occupied territories azoulay and ophir outline the one state condition of israel palestine the grounding principle of israeli governance is the perpetuation of differential rule over populations of differing status israeli citizenship is shaped through the active denial of palestinian citizenship and civil rights though many israelis on both political right and left agree that the occupation constitutes a problem for israeli democracy few ultimately admit that israel is no democracy or question the very structure of the israeli regime itself too frequently ignored are the lasting effects of the deceptive denial of the events of 1948 and 1967 and the ways in which the resulting occupation has reinforced the sweeping militarization and recent racialization of israeli society azoulay and ophir show that acknowledgment of the one state condition is not only a prerequisite for

considering a one or two state solution it is a prerequisite for advancing new ideas to move beyond the trap of this false dilemma
