a fresh interpretation of the contexts meanings and consequences of the revolutions of 1989 coupled with state of the art reassessment of the significance and consequences of the events associated with the demise of communist regimes the book provides an analysis that takes into account the complexities of the soviet bloc the events impact upon europe and their re interpretation within a larger global context departs from static ways of analysis events and their significance bringing forth approaches that deal with both pre 1989 developments and the 1989 context itself while extensively discussing the ways of resituating 1989 in the larger context of the 20th century and of its lessons for the 21st emphasizes the possibility for re thinking and re visiting the filters and means that scholars use to interpret such turning point the editors perceive the present project as a challenge to existing readings on the complex set of issues and topics presupposed by a re evaluation of 1989 as a symbol of the change and transition from authoritarianism to democracy

a wealth of knowledge for every incident chasing kornilov or dealing with admiral kolchak the reader has a 360 degree view roads to the great war the russian civil war was one of the most fateful of the 20th century s military conflicts a bloody three year struggle whose outcome saw the establishment of a totalitarian communist regime within the former russian empire as such it commands the attention of the military specialist and layman alike as we mark the one hundredth anniversary of the

war's end this work is the third volume of the three volume soviet official history of the russian civil war which appeared during 1928-1930 just before the imposition of stalinist orthodoxy while the preceding volumes focused on the minutiae of the red army's organizational development and military art this volume provides an in depth description and analysis of the civil war's major operations along the numerous fronts from the north caucasus the don and volga rivers the white sea area the baltic states and ukraine as well as siberia and poland it also offers a well argued case for the political reasons behind the bolsheviks military strategy and eventual success against their white opponents and while it is a certainly a partisan document with a definite political bias it is at the same time a straightforward military history that manages to avoid many of the hoary myths that later came to dominate the subject as such it is easily the most objective account of the struggle to emerge from the soviet union before the collapse of the communist system in 1991

despite the large number of books and studies written about metternich there is still a period of his political career that scholars neglect to this day the 1840s this book offers an analysis of metternich's german policy in the years 1840-1848 and thus fills a gap in metternich studies analysing this period is important due to the fact that over the course of those less than nine years metternich lost his influence within the german confederation he represented a certain way of behaving

moderate calm and reconciliatory but it was an attitude which was rejected during the period of rising mass nationalism nevertheless he continued to endeavour to steer this escalating nationalism and by applying calming policies prevent it from causing armed conflicts in europe since metternich conceived the german confederation at the congress of vienna in 1815 as one of the pillars of the european peace settlement the issue is viewed from the perspective of european crises of the time from the rhine crisis to the swiss civil war similarly it presents his policy in a broader context of economic and social history the book follows revisionist research on metternich and refutes some of the clichés still associated with his policy

over the past decade the caspian sea region has risen from relative obscurity to considerable prominence in global affairs located at the crossroads of traditional trade routes between europe and asia and possessing vast natural resources oil and natural gas among them it attracts widespread international interest the emergence of new sovereign states in the region has fundamentally transformed its political landscape the future of the caspian region is far from certain however as it is challenged by a wide variety of political socio economic and military threats which include the declining living standards of vast segments of local populations inter ethnic and inter confessional tensions and conflicts militant separatism international terrorism and illegal trade in arms and drugs the security of the region is also affected by the intensifying

strategic competition among major outside powers over establishing their political and economic influence in regional affairs the book offers a competent analysis of the major political economic and security developments in the region by a diverse group of highly qualified experts from the caspian littoral states the usa and the european union

has any good come out of the efforts to mediate the conflicts in the former yugoslavia the short answer is yes but mediation has brought about agreements that halted the fighting in slovenia croatia and bosnia yet the negotiations took too long and their achievements came too late between 1991 and 1995 some two hundred thousand people lost their lives and close to two million were uprooted from their homes saadia touval examines why the efforts to reach a negotiated solution have not been more effective he calls attention to two lessons that collective mediation faces much greater obstacles than mediation by individual states and that a mediator s priority should be saving lives rather than aiming at other objectives or even pursuing justice

for the last seventy years experts have tried to define the nature of turkey s partnership with the us while turkish us relations have always been susceptible to different crises they enjoyed a brief golden era in the 1950s this book argues that a false nostalgia about that period when the strategic interests of two countries fully converged has distorted analyses by scholars and

policymakers ever since to provide a more accurate assessment this book look at the patterns of crises between the two countries throughout history and how these relate to the current points of tension in turkish american relations today it coins a new conceptual framework to understand the turkey us partnership the vulnerable partnership the book outlines the key causes of this vulnerability showing that for the last 70 years there have been recurring frictions and faultlines that have been repeated across different political periods these especially involve the us congress public opinion russia and crises in the middle east based on journalistic archival and scholarly sources the topic of the book is at the intersection foreign policy studies middle east politics the history of turkish american relations and foreign policy making

this book argues that in the twenty first century eastern eurasia will replace europe as the theatre of decision in international affairs and that this new geographic and cultural context will have a strong influence on the future of world affairs for half a millennium the great powers have practised what might be called world politics yet during that time europe and small portions of the near east and north africa strategically vital to europe were the centres of gravity in international politics this book argues that the unipolar moment of the post cold war era will not be replaced by a us china cold war but rather by a long period of multipolarity in the twenty first century examining the policy goals and possible military political strategies of several powers this study explains how washington may play a key role in eastern eurasian affairs if it can learn to operate in a very different political context dale walton also considers the rapid pace of technological change and how it will impact on great power politics considering india china the us russia japan and other countries as part of a multipolar system he addresses the central questions that will drive us policy in the coming decades geopolitics and the great powers in the 21st century will be of interest to students of international security military history geopolitics and international relations

vladimir putin has a master plan to destroy europe divide nato reclaim russian influence in the world and most of all to marginalize the united states and the west in order to achieve regional hegemony and global power putin s unified strategy and vision for europe has not been thoroughly discussed or articulated in any meaningful way until now putin s master plan is the first comprehensive attempt to systematically explain putin s global strategy which could inevitably and inexorably lead to the breakup of the nato alliance and potentially to war with the west currently the west has no strategy no plan and no tactics to confront putin s master plan other than imposing limited economic sanctions which have done little to deter putin s aggression and may well have encouraged and facilitated it the viewpoint taken here is not just alarmism but an accurate and for the first time clear and sober portrayal of a frightening

situation that more and more serious observers of european and russian politics are openly recognizing and acknowledging putin s master plan makes the case that it is essential to wake up to putin s strategy to destroy europe divide nato and build a new empire in the former soviet union russia has demonstrated an extraordinary level of aggression most boldly in its outright invasions of georgia and ukraine american weakness and a divided europe have left russia s terrified neighbors without an alternative to russian domination and even once stalwart american allies such as the republic of georgia are on the brink of becoming part of putin s new empire in europe putin has made it clear that he sees nato expansion as a fundamental threat to russian nationhood and he is systematically challenging the nato alliance as well as the united states so far he is winning
