the routledge handbook of energy law provides a definitive global survey of the discipline of energy law capturing the essential and relevant issues in energy today each chapter is written by a leading expert and provides a contemporary overview of a significant area within the field the book is divided into six geographical regions based on continents with a separate section on russia an energy powerhouse that straddles both europe and asia each section contains highly topical chapters from authors who address a number of core themes in energy law and regulation energy security and the role of markets regulating the growth of renewable energy regulating shifts in traditional forms of

energy instruments in regulating disputes in energy impact of energy on the environment key issues in the future of energy and regulation offering an analysis of the full spectrum of current issues in energy law the routledge handbook of energy law is an essential resource for advanced students researchers academics legal practitioners and industry experts chapter 12 of this book is freely available as a downloadable open access pdf at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 4.0 license

thought leaders and experts offer the most current information and insights into energy finance energy finance and economics offers the most up to date information and compelling insights into the finance and economics of energy with contributions from today's thought leaders who are experts in various areas of energy finance and economics the book provides an overview of the energy industry and addresses issues concerning energy finance and economics the book focuses on a range of topics including corporate finance relevant to the oil and gas industry as well as addressing issues of unconventional renewable and alternative energy a timely compendium of information and insights

centering on topics related to energy finance written by betty and russell simkins two experts on the topic of the economics of energy covers special issues related to energy finance such as hybrid cars energy hedging and other timely topics in one handy resource the editors have collected the best thinking on energy finance

this book delves into the major developments triggered by the hydrocarbon discoveries in the eastern mediterranean over the last twenty years focusing on maritime boundary delimitation examining the impact that the hydrocarbon discoveries have had on the application of the law of the sea rules by the east med states the book looks at the new trends concerning the implementation of the law of the sea in the region the book analyses regional state practice in terms of maritime delimitation namely the conclusion of bilateral agreements based on the law of the sea rules both conventional and customary reflecting the east med states willingness to cooperate in order to reap the benefits of the energy windfall alongside this analysis an outline of the hydrocarbon discoveries and the pertinent maritime activities is given as well as further coverage of the overlapping maritime claims and disputes between greece cyprus and

turkey on one side and lebanon and israel on the other moreover the book examines the validity of maritime claims made by or through non state entities in the region namely the state of palestine the uk sovereign base areas and the so called turkish republic of northern cyprus and their potential impact on the delimitation agreements already in place the book argues that the east med paradigm concerning the successful application of the pertinent norms in maritime delimitation proves that international law is resilient and capable of providing solutions in other turbulent regions around the globe this book will be of interest and importance to academics and students of international law professionals in the oil and shipping industries legal professionals and government agencies

what requirements must turkey the largest country among the candidate and accession countries meet to join the european union what progress has been made toward meeting them this timely volume analyzes the economic challenges confronting turkey in its quest to accede to the european union eu it focuses on the extent to which turkey is ready to join the single market comply with the eu s body of economic regulations and directives the acquis

communautaire and meet the maastricht criteria for fiscal monetary and exchange rate policies this book also provides an assessment of turkey s national program to meet the accession requirements it describes briefly what turkey needs to achieve on the economic policy front to satisfy the conditions for accession the progress to date and the likely consequences of implementing the full body of eu requirements the book is divided into four parts an analysis of the macroeconomic policies for eu accession an analysis of the effects of integration on key sectors agriculture manufacturing services industries including banking telecommunications transportation and natural gas and network industries an exploration of key economic policy challenges including labor market regulation foreign direct investment challenges and the costs and benefits of meeting the eu environmental acquis the quantification of the impact of eu accession and consideration of the welfare effects of integration while the focus is on the specific situation of turkey the subject will be of value to all researchers with an interest in the challenges of deeper integration through regional agreements

because the eu depends on a very small number of external suppliers for its natural gas energy security

issues inevitably arise in theory competition law should regulate and adjudicate such issues yet because contracts between eu companies and producers are highly sensitive and politically charged the application of eu competition law to natural gas contracts is far from clear this important book drawing on ecj case law commission administrative cases and inquiries and the full range of relevant legal and economic theory provides an

extremely valuable and detailed study of how eu competition law can be applied to long term natural gas capacity reservation and commodity contracts issues and topics such as the following arise in the course of the analysis third gas market directive provisions article 102 tfeu cases on strategic investment pre liberation or legacy gas contracts e g with algeria and russia right of first refusal take or pay requirement third party access ownership

unbundling effect of elimination of priority access regimes short term trading spot markets and law and economics of vertical restraints focusing on the foreclosing effect of long term upstream commodity contracts the author recommends restrictions on the use of capacity reservation contracts and analyses the efficacy of security of supply as a competition law defence in cases relating to such contracts
