in this fascinating study carol hakim presents a new and original narrative on the origins of the lebanese national idea hakim s study reconsiders conventional accounts that locate the origins of lebanese nationalism in a distant legendary past and then trace its evolution in a linear and gradual manner she argues that while some of the ideas and historical myths at the core of lebanese nationalism appeared by the mid nineteenth century a coherent popular nationalist ideology and movement emerged only with the establishment of the lebanese state in 1920 hakim reconstructs the complex process that led to the appearance of fluid national ideals among members of the clerical and secular lebanese elite and follows the fluctuations and variations of these ideals up until the establishment of a lebanese state the book is an essential read for anyone interested in the evolution of nationalism in the middle east and beyond

this book is about a series of murders which recently occurred at the united states embassy in beirut lebanon the manner of death was caused by numerous knife like cuts where the wounded victims were left on the embassy streets sidewalks and parking lots to bleed out until they were dead the local forces were unable to solve these murder mysteries and the honorable ambassador madam margaret sullivan had no recourse except to seek outside assistance from the us army at nato headquarters in europe in exchange for a large grant from the us military nicolas and his investigative team were very happy to offer their services in this new challenge from and for the north atlantic treaty organization it was also the best method by which haig could afford to pay for their gulfstream g 550 jet liner

lebanon is a country whose domestic politics have even more than others in the region been at the mercy of changes on

the international stage having been under ottoman and french rule in the nineteenth and early twentieth centuries the post world war ii era has seen lebanon subjected to israeli syrian and american interventions which have all threatened the country s stability as a state joseph bayeh argues that it is this international dimension which holds the key to an in depth understanding of the country in support of this argument bayeh examines lebanese history from its early days under the ottomans to the present day in order to show how international shifts and conflicts have had their impact on lebanon with changes such as the fall of the ottoman empire the rise of us power after world war ii the end of the cold war and the new focus on the region in the aftermath of 9 11 lebanon has at various junctures been bolstered or undermined bayeh tracks all of this offering insights into the workings of lebanon s domestic politics which will appeal to researchers of the international relations of the middle east and lebanon s political history

one of the fundamental questions of middle eastern and lebanese studies in particular is the history of the relationship between the druze community and the state in modern lebanon arguing that the druze community has been politically alienated from the lebanese state this book explores the historical and political origins of this alienation the druze community and the lebanese state contends that the origins of this alienation lie in the state s national ideology its political confessional system and the druze s historical background during the medieval period moreover this book examines the extent to which the druze s attitude vis à vis the lebanese state has been influenced by their historical rivalry with the maronites particular emphasis is placed on the political and ideological practices adopted by the druze leadership and intelligentsia as they dealt with the changes taking place in their community s political status following the political settlements of 1920 and 1943 the establishment of greater lebanon and the national pact respectively a welcome addition to existing literature on lebanon this book will be an essential reference tool for students and researchers with an interest in nationalism identity and middle east politics more broadly

hosting over 30 000 inhabitants and governed by competing militias ayn al hilwe in the south of lebanon is one of the most contested refugee camps in the middle east known as the capital of the palestinian diaspora the camp has endured a long history of internal power struggles and external influence and intervention based on extensive ethnographic research in the camp focused on the actors who have shaped its modern political trajectory since the rupture caused by the 1993 oslo accords the palestinian national movement in lebanon places the attention on the role of exile leaderships camp based militia commanders and shape shifting networks of patronage in the political landscape of the palestinian movement in lebanon offering original empirical and theoretical findings this book will be essential reading for students of the palestinian movement and refugee politics in the middle east and beyond

charlotte dennett has written an excellent book summarizing the geopolitics of the middle east historically through to current events this is an amazing piece of historical writing students foreign affairs experts and officials should have this

work as required reading jim miles the palestine chronicle unraveling the mystery of a master spy s death by following pipelines and mapping wars in the middle east in 1947 daniel dennett america s sole master spy in the middle east was dispatched to saudi arabia to study the route of the proposed trans arabian pipeline it would be his last assignment a plane carrying him to ethiopia went down killing everyone on board today dennett is recognized by the cia as a fallen star and an important figure in us intelligence history yet the true cause of his death remains clouded in secrecy in the crash of flight 3804 investigative journalist charlotte dennett digs into her father s postwar counterintelligence work which pitted him against america s wartime allies the british french and russians in a covert battle for geopolitical and economic influence in the middle east through stories and maps she reveals how feverish competition among superpower intelligence networks military and big oil interests have fueled indiscriminate attacks and targeted killings that continue to this day from jamal khashoggi s murder to drone strikes the book delivers an irrefutable indictment of these devastating forces and how the brutal violence they incite has shaped the middle east and birthed an era of endless wars the crash of flight 3804 provides important context for understanding the region while bringing new questions to the fore to what lengths has the united states negotiated with the taliban al qaeda and isis to secure big oil s holdings in syria iraq and yemen was the pentagon s goal of defeating isis a fraudulent pretext for america s occupation of syrian eastern provinces and a land grab for oil what part does ukraine play in the energy dominance struggle between the us and russia did the infamous double agent kim philby who worked for the british while secretly spying for the russians have anything to do with dennett s death why have the us and china made north africa the next major battleground in the great game for oil part personal pilgrimage part deft critique dennett s insightful reportage examines what happens to international relations when oil wealth hangs in the balance and shines a glaring light on what so many have actually been dying for

this book examines the phenomenon of the post civil war anglophone lebanese fictional narrative

throughout history and across cultures the spy chief has been a leader of the state security apparatus and an essential adviser to heads of state in democracies the spy chief has become a public figure and intelligence activities have been brought under the rule of law in authoritarian regimes however the spy chief was and remains a frightening and opaque figure who exercises secret influence abroad and engages in repression at home this second volume of spy chiefs goes beyond the commonly studied spy chiefs of the united states and the united kingdom to examine leaders from renaissance venice to the soviet union germany india egypt and lebanon in the twentieth century it provides a close up look at intelligence leaders good and bad in the different political contexts of the regimes they served the contributors to the volume try to answer the following questions how do intelligence leaders operate in these different national institutional and historical contexts what role have they played in the conduct of domestic affairs and international relations how much power have they possessed how have they led their agencies and what qualities make an effective intelligence leader how has their role differed according to the political character of the regime they have served the profiles in this book range

from some of the most notorious figures in modern history such as feliks dzerzhinsky and erich mielke to spy chiefs in democratic west germany and india

we believe al qaeda continues to have a terrorist infrastructure in canada one with documented links to the u s while many border security measures have been implemented since 9 11 the vast expanse of the 4 000 mile long u s northern border with eighty six points of entry and various unofficial crossings may still provide opportunities for operatives to penetrate u s national security particularly if western passports are used the fbi in a classified bulletin cold terror will shock the conscience of a nation in terrifying detail it shows how the world s terrorists have made themselves at home in canada and how they have been made welcome by cowardly politicians david frum resident fellow at the american enterprise institute and author of with richard perle an end to evil what s next in the war on terror stewart bell s clarion call for action needs to be heeded before the ticking canadian terrorist time bomb blows up closer to home if canadian terrorists aren t stopped before they use weapons of mass destruction in the united states we ll have far bigger problems than keeping the border open for trade patrick grady the globe and mail

the first volume deals with the political institutions of the ottoman empire beginning with the life of mohammed excerpts from the koran and a discussion of the ethnic history of turkey before delving into the various rulers and regimes the last two chapters of volume i discuss the causes and results of the russo turkish war and the finances economic value of turkey the second volume is more concerned with christianity that is nations under turkey s influence specifically christian communities as either minorities within each state or as subject to the influence of russia and or the ottoman empire syria in particular gets a lot of attention as does armenia and greece a whole chapter is devoted to the history of the orthodox church in the region a long discussion of the order of the assassins of persia and syria of the 11th and 12th centuries and their secret sects

the shiites of lebanon under ottoman rule provides an original perspective on the history of the shiites as a constituent of lebanese society winter presents a history of the community before the 19th century based primarily on ottoman turkish documents from these he examines how local shiites were well integrated in the ottoman system of rule and that lebanon as an autonomous entity only developed in the course of the 18th century through the marginalization and then violent elimination of the indigenous shiite leaderships by an increasingly powerful druze maronite emirate as such the book recovers the ottoman era history of a group which has always been neglected in chronicle based works and in doing so fundamentally calls into question the historic place within lebanon of what has today become the country s largest and most activist sectarian community

this new edition provides biographical information on 2 000 prominent and distinguished persons in lebanon including

foreign residents who by virtue of their achievements in their respective fields or by the influential positions they hold have gained recognition in public life or in private sections

lebanon experienced serious instability and ethno national conflict following the syrian withdrawal in 2005 compounded by the arab spring which led to regional instability and civil war in iraq and syria why did consociational democracy fail was failure inevitable what impact could external powers play in creating an environment where consociationalism might be successfully implemented this book addresses these key questions and provides a comprehensive analysis of how internal and external elite relations influence the chances of a successful regulation of ethno national conflict through power sharing exploring the roles played by syria qatar iran saudi arabia the united states and france it argues that external actors in the lebanese conflict largely determined whether power sharing was successfully established and shows that the consociational democratic model cannot provide long term conflict regulation in their absence the author argues that relationships between internal and external actors determine the prospects for successful conflict regulation and pinpoints the crucial role of the external forces in the creation of power sharing agreements in lebanon concluding that future success is dependent on the maintenance of positive exogenous pressures this book will be of key interest to students and scholars studying politics international relations and middle east studies

most studies on islamic arab and ottoman societies and civilizations are trapped into the evidentiary role of the texts that researchers have at their disposal considerably reducing the role of text and language to a mimetic description of what happened this book argues that an understanding of social relations primarily implies taking into consideration the textual production of society in terms of the meanings that could be ascribed to the texts themselves and second that the analysis of texts whatever their societal and institutional contexts should look at its sources as discursive practices in order not to reduce them to their preliminary role of bearers of factual evidence drawing from a large variety of ottoman legal texts from nineteenth century beirut and damascus this book avoids ascribing such texts to the normative values of islamic law by documenting instead how various discursive practices concretely operate within a particular terrain different levels of practises therefore emerge all of which documented by the social actors that made their existence possible

in the mid eighteenth century most of the mediterranean coastline and its hinterlands were controlled by the ottoman empire a vast islamic power regarded by christian europe with awe and fear by the end of the first world war however this great civilisation had been completely subjugated and its territories occupied by european powers sea of troubles is the definitive account of the european conquest of the levant and north africa over three centuries ian rutledge reveals the intense imperial rivalry between six european powers britain france italy spain austria hungary and russia who all jostled for control of the trade lands and wealth of the islamic mediterranean the competition between these states made their conquest a far more difficult and extended task than they encountered elsewhere in the world yet as new contenders

entered the contest and as rivalries intensified in the early twentieth century events would spiral out of control as the continent headed towards the first world war

three full length novels featuring captain jihad merhi of the lebanese internal security service and captain fadi lattouf of the palestinian civil police the baalbeck decision what links a series of murders in the bourj el barajneh refugee camp with the assassination of prime minister rafic hariri merhi and lattouf race against time to prevent the event which will change lebanon forever the byblos discovery sajida was right a cryptic message leads to murders in new york and lebanon and sends merhi and lattouf on a chase to find al mahdi is the world ready for the second coming which could blow the middle eastern order apart the beirut confession as civil war rages in next door syria merhi and lattouf have to find a spy in the security services before the spy finds them

originally published in 1964 this volume focuses on the history of england s relations with the near east from the death of canning until the day when disraeli brought back peace with honour from berlin the period begins with the british fleet s destruction of turkish sea power at naarino and ends with its protection of the turkish capital against russia the aim is not a study of diplomatic or naval history but a general narrative in which these speical features are found side by side with a study of oriental institutions and of balkan nationalities

seminar paper from the year 2009 in the subject politics international politics region near east near orient grade 1 4 free university of berlin center for global politics course international negotiation language english abstract a serious political crisis almost led to another civil war in lebanon thanks to qatar s mediating efforts a workable solution to the problems was achieved resulting in the doha agreement the talks were examined along various concepts of negotiations theory negotiations with lebanese are a vivid evidence how complicated such a process might be last but not least each bargaining situation is unique and doesn t necessarily apply to any general theories but rather to a good mix of all

this work is a combination of an account of lebanese personality etienne sakr with a penetrating analysis of the historical and religious contours of lebanon

browning upon arabia charts robert browning s early and enduring engagement with the east particularly the arab east this book highlights the complexities of browning s poetry revealing browning s resistance to triumphalist and imperialist forms of orientalism generated by many nineteenth century british and european literary and scholarly portrayals of the east hédi a jaouad argues that browning extensively researched the literature history philosophy and culture of the east to produce poetry that is sensitive to its eastern resources and devoted to confirming the interrelation of northern and eastern knowledge in pursuit of a new form of transcendental humanism

a stunning history of lebanon over five centuries skillfully weaving together social political cultural and economic history this deeply informed and penetrating study provides a rich understanding of the vibrant tragic but ever hopeful leban

this book combines a vast encyclopaedic history of the war in lebanon with a penetrating sociological analysis tracing the war to its origins the author shows that it has been primarily a surrogate war over palestine which escalated into a conflict between the diverse lebanese communities each afraid of being the player left standing in a macabre game of musical chairs hanf s central theme is the problem of conflict and conflict regulation between these groups how were conflicts regulated peacefully before the war how did the country come to be the battlefield of both a surrogate war and a civil war how do the lebanese view what has happened in their country what are their aspirations and how do they conceive a realistic settlement is there any prospect of reestablishing coexistence between different elements of lebanese society the author sets out to answer these and other important questions using a wide range of literature as well as his own extensive research in the country he writes optimistically suggesting that although fear can breed a vicious circle of hatred and violence it can also produce reason and compromise
