the west despite the many hidden ways that monotheistic thought continues to shape western outlooks in english usage the word polytheism comes from the seventeenth century writings of samuel purchas it was pejorative from the beginning a word to distinguish the belief system of backward peoples from the more theologically advanced religion of protestant christians today when monotheistic fundamentalisms too often drive people to commit violent acts polytheism remains a scandalous presence in societies still oriented according to jewish christian and muslim beliefs even in the multicultural milieus of twenty first century america and great britain polytheism finds itself marginalized yet it persists perhaps because polytheism corresponds to unconscious needs and deeply held values of tolerance diversity and equality that are central to civilized societies

bringing together cutting edge research from a range of disciplines this handbook argues that despite often being overlooked or treated as marginal the study of islam from an african context is integral to the broader muslim world challenging the portrayal of african muslims as passive recipients of religious impetuses arriving from the outside this book shows how the continent has been a site for the development of rich islamic scholarship and religious discourses over the course of the book the contributors reflect on the history and infrastructure of islam in africa politics and islamic reform gender youth and everyday life for african muslims new technologies media and popular culture written by leading scholars in the field the contributions examine the connections between islam and broader sociopolitical developments across the continent demonstrating the important role of religion in the everyday lives of africans this book is an important and timely contribution to a subject that is often diffusely

studied and will be of interest to researchers across religious studies african studies politics and sociology after the second world war in the 1950s and beyond we embraced revolutionary emancipation of women among other things which led to an unprecedented sexual and cultural revolution especially in the west we discarded some of the old ways of doing things and we opened the door to a brand new and modern civilization in the 1960s 1970s and early 1980s the sexual and cultural revolution led us to secularism which challenged many draconian mores including those in muslim countries such as pakistan malaysia turkey iran tunisia and morocco that was when i published one of my books sociology of religion changing conceptions in the structure of islam however in relatively recent times we have faced the backward process of reverting to traditional norms that reversed cultural change led to fundamentalism including

fundamentalism in religion which is a precursor to addiction to religion that has ultimately resulted in national and international terrorism that born again trend encouraged me to do research in this field including addiction to religion that led me to write this book i have concluded in this book that both addiction to drugs and addiction to religion are a disease a delirium and a psychic syndrome influenced by a mental disorder during the last two to three decades there has been a significant rise in religious fundamentalism leading to addiction to religion which has caused global havoc religion has been hijacked misused and abused largely by semiliterate believers in all organized religions religious addiction is perhaps worse than drug addiction other books by the author 1 the sociology of family an interdisciplinary approach 2 sociology of criminal behaviour 3 sociology of religion changing conceptions in the structure of islam 4 murder and

this text explores the theme  
of intra islamic tensions in  
north and west africa the  
result largely of the rise of  
radical islamist movements  
in countries such as egypt  
algeria and the sudan

increasingly islam struggles  
against negative stereotypes  
as a religion of intolerance  
extremism and fear which  
has failed to meet the  
challenges of modernity  
zidane meriboute here  
proposes a fresh perspective  
on the crisis facing muslims  
today his novel and original  
approach looks to the islamic  
sufi tradition and the  
progressive liberal thought  
of the 12th century  
philosophers ibn rushd  
averroes and ibn sina  
avicenna as holding the key  
to a successful transition  
towards modernity the  
humanity and questioning  
which both sufism and this

progressive thought  
engender can produce  
according to the author the  
foundations of a new  
muslim worldview contrary  
to the current and  
dangerous fundamentalisms  
salafi thinkers and others  
who claim to be returning  
to an austere and ascetic  
interpretation of early islam  
have in meriboute s view  
highjacked their faith and  
produced two negative  
outcomes firstly they have  
blocked the path towards  
the evolution of any kind of  
modernist thinking among  
muslims and secondly they  
have created a rhetoric and  
encouraged events most  
notoriously 9 11 which have  
resulted in the demonization  
of their tradition as the  
muslim and non muslim  
worlds grapple to  
understand how islam is  
likely to evolve in the 21st  
century the appearance of  
this book with its emphasis  
on the religion s progressive  
traditions marks a vital  
contribution to a better  
understanding of one of  
today s most intractable  
problems

minority within islam although co existence with violent fundamentalists is a hopeless task the questions islamists raise are serious and evoke echoes in the hearts of many more muslims to prevent a war of civilizations dialogue with the moderate majority of muslims is more urgent than ever this book is one step on that long road
