The unexpected flow of literary treasures mirrors the burstiness that defines human expression.

Quality: Each eBook in our assortment is meticulously vetted to ensure a high standard of quality. We strive for your reading experience to be satisfying and free of formatting issues.

The download process on Matthew Gould Missing Link %E2%80%9Crogue%E2%80%9D Uk Foreign Policy is a harmony of efficiency. The user is acknowledged with a direct pathway to their chosen eBook. The burstiness in the download speed assures that the literary delight is almost instantaneous. This seamless process corresponds with the human desire for fast and uncomplicated access to the treasures held within the digital library.

Greetings to english.al-akhbar.com, your destination for a extensive assortment of Matthew Gould Missing Link %E2%80%9Crogue%E2%80%9D Uk Foreign Policy PDF eBooks. We are enthusiastic about making the world of literature available to every individual, and our platform is designed to provide you with a smooth and pleasant for title eBook getting experience.

In the grand tapestry of digital literature, english.al-akhbar.com stands as a vibrant thread that blends complexity and burstiness into the reading journey. From the nuanced dance of genres to the swift strokes of the download process, every aspect reflects with the changing nature of human expression. It's not just a Systems Analysis And Design Elias M Awad eBook download website; it's a digital oasis where literature thrives, and readers start on a journey filled with enjoyable surprises.

We comprehend the excitement of uncovering something novel. That is the reason we consistently refresh our library, ensuring you have access to Systems Analysis And Design Elias M Awad, renowned authors, and concealed literary treasures. With each visit, look forward to new opportunities for your perusing Matthew Gould Missing Link %E2%80%9Crogue%E2%80%9D Uk Foreign Policy.

Navigating our website is a piece of cake. We've developed the user interface with you in mind, guaranteeing that you can easily discover Systems Analysis And Design

Elias M Awad and retrieve Systems Analysis And Design Elias M Awad eBooks. Our lookup and categorization features are intuitive, making it straightforward for you to locate Systems Analysis And Design Elias M Awad.

Community Engagement: We cherish our community of readers. Engage with us on social media, exchange your favorite reads, and join in a growing community committed about literature.

Appreciation for choosing english.al-akhbar.com as your reliable destination for PDF eBook downloads. Joyful perusal of Systems Analysis And Design Elias M Awad

english.al-akhbar.com doesn't just offer Systems Analysis And Design Elias M Awad; it nurtures a community of readers. The platform provides space for users to connect, share their literary explorations, and recommend hidden gems. This interactivity injects a burst of social connection to the reading experience, raising it beyond a solitary pursuit.

Regardless of whether you're a passionate reader, a student seeking study materials, or someone venturing into the world of eBooks for the very first time, english.al-akhbar.com is available to provide to Systems Analysis And Design Elias M Awad. Follow us on this literary journey, and let the pages of our eBooks to transport you to fresh realms, concepts, and experiences.

english.al-akhbar.com is dedicated to upholding legal and ethical standards in the world of digital literature. We prioritize the distribution of Matthew Gould Missing Link %E2%80%9Crogue%E2%80%9D Uk Foreign Policy that are either in the public domain, licensed for free distribution, or provided by authors and publishers with the right to share their work. We actively dissuade the distribution of copyrighted material without proper authorization.

We take pride in curating an extensive library of Systems Analysis And Design Elias M Awad PDF eBooks, meticulously chosen to cater to a broad audience. Whether you're a supporter of classic literature, contemporary fiction, or specialized non-fiction, you'll discover something that captures your imagination.

A critical aspect that distinguishes english.al-akhbar.com is its dedication to responsible eBook distribution. the legendary spy thriller from bestselling author robert littell whose newest book the company is receiving rave reviews and acclaim is finally back in print fans reviewers and booksellers will cheer this first novel originally published in 1973 established littell as a master and immediately elevated him to the ranks of john le carré len deighton and graham greene the defection of a j lewinter is a masterpiece of irony and intrigue an unconventional and gripping anatomy of a defection a j lewinter is an american scientist for years an insignificant cog in america s complex defense machinery while at an academic conference in tokyo he contacts the kgb station chief and tells him he wants to defect he tantalizes the russians with u s military secrets he claims to possess but is his defection genuine neither the russians nor the americans are sure and lewinter is swept up in a terrifying political chess match of deceit and treachery each side struggles to anticipate its opponent s next move and the superpowers are locked in a deadly contest that exploits friendships destroys loyalties and manipulates human beings as expendable pawns deft and dazzlingly plotted this is the book that introduced robert littell the opening shot of a brilliant career

concerns over iran s nuclear programme

north korea s nuclear brinkmanship and in the past iraq s apparent pursuit of wmd have captured the world s attention and dominated the agenda of the american foreign policy establishment but what led policymakers and the us military to emphasise the threat of rogue states at the end of the cold war going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the clinton and george w bush administrations underpinning efforts to maintain us leadership and hegemony it offers a clear picture of the policymaking process taking a broad historical approach that places the actions of us officials towards iraq iran north korea libya and cuba in a wider context through an understanding of the long standing influences on the us approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of saddam hussein explaining in detail how the tackling of rogue states became a central aim of us foreign policy miles examines whether there was continuity between the clinton and bush approach he moves on to highlight the influence of congress on the implementation of us policies and the difficulties the us faced in selling its approach to allies and adapting its hard line strategies to reflect developments within the targeted states by considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike

african is rich in natural and human resources with the current youngest population globally ideally these social ingredients should facilitate burgeoning economies on a massive scale but there have only been pockets of individual

successes industrialization and large scale development with collective impact is pertinent to compete in an ever changing world r o g u e reality on ground undermining enterprise examines the issues affecting africa via the prism of foreign influences whilst also acknowledging the local peculiarities nigeria in particular is diagnosed as a microcosmic representation of the issues bedevilling africa of critical importance are the enduring colonial structures that have metamorphosed into neocolonial entities specially designed to keep the affected countries in a perpetual state of underdevelopment the western world especially cannot complain about immigration jobs and aid without proper consideration for the historic occupations via european colonialism and contemporary involvements through neocolonial economic imperialism that perpetuate sociopolitical instability and socioeconomic imbalances globally

this new study challenges the widely held view that many current us adversaries cannot be deterred maintaining that deterrence is not a relic of the cold war period and that it should shape us policies toward so called rogue states and terror groups james lebovic argues that deterrence principles continue to apply and focuses upon the three pillars of the bush administration s national security policy missile defence which preoccupied the administration until september 11 2001 pre-emption which became the us focus with the september 11 attacks and us success in overthrowing the taliban regime in afghanistan homeland security which the administration has portrayed as more a natural response to threat than an aspect of policy that must be reconciled with the other pillars deterring international terrorism and rogue states asserts that bad offences and defences have been endemic to the current us policy approach leading us policy makers to pursue policies that require them to do

everything without adequate concern for resource trade offs overreach and unintended consequences this book will be of great interest to students of us foreign policy national and international security terrorism and international relations in general

what if your own government deliberately creates terrorists what if their short term aims deposing regimes that no longer serve western interests justifying invasions of sovereign nations and expanding the security state at home have long term consequences for us all what if most of the horrific bombings stabbings and vehicle attacks of recent years are connected indirectly and sometimes directly to british french and american intelligence these and other hard hitting questions are posed by t j coles in this disturbing survey of secret political manoeuvrings and covert manipulation welcome to the world of manufactured terrorism backed by a wealth of documentation including court records parliamentary inquiries and little known but official publications the author exposes the role of the deep state in brutal acts of terror exploring operation gladio northern irish terror and predominantly islamic jihad he argues that intelligence agencies the military and governments employ six key methods to manufacture terrorism 1 blowback attacking other countries and provoking violent responses 2 proxies creating terrorists including al qaeda and using them against enemies 3 provocateurs provoking individuals from minorities into committing terrorist acts 4 green lighting allowing terrorists to commit attacks in order to justify specific policies 5 false flags committing terrorism and blaming it on designated enemies 6 simulations holding drills and exercises as covers for apparent terrorist acts contrary to claims that terrorism is caused by people who simply hate our way of life and in contrast to the simplistic narrative of conspiracy websites and talk shows coles

argues that each case of terrorism needs to be evaluated separately manufacturing terrorism presents a complex picture that distinguishes between cases of blowback proxies false flags simulations etc it offers an indispensable briefing to help readers make sense of our chaotic and dangerous world

the most multi perspective succinct and applied guide to international business environments

future of the uk s strategic nuclear deterrent the white paper ninth report of session 2006 07 vol 2 oral and written evidence

this is the story of an attempted coup d'état by rogue intelligence agents the goal to overthrow the presidency of donald trump and subvert the will of the electorate donald trump s first 100 days in office were roiled by allegations of treasonous contacts between his campaign team and the kremlin to rig the election these outrageous charges first surfaced in the notorious trump dossier an unverified document of suspect provenance full of wild and salacious accusations this dossier filled with little more than gossip rumor and innuendo was compiled by christopher steele a former british intelligence operative who teamed up with the fbi and anti trump partisans hillary clinton supporters paid for steele s work when no news media would publish the unverified dossier the ex spook enlisted the help of a former uk ambassador to russia who arranged in turn for a former u s assistant secretary of state to get the document to senator john mccain in the hope that he would then bring it to fbi director james comey s attention mccain did just that comey himself played a critical role in the dossier ultimately going public giving a confidential summary to president obama and congressional leaders it was immediately

leaked by rogue spooks in order to demean destabilize and destroy donald trump s nascent presidency the dossier and this mythical intelligence are the basis for the phony claims about a russia trump collusion to steal the election no proof was found no substantiation uncovered even comey told trump he was not under investigation for the russian meddling charges but that didn t end the leaks or the allegations working in concert with liberal news outlets these rogue spooks have formed a new intel media complex that threatens our democracy rogue spooks will reveal how it works readers of rogue spooks from bestselling authors dick morris and eileen mcgann will be shocked to learn the truth about the false accusations against president trump in the flawed dossier they ll be interested to know how leaks to the media fueled the phony scandal and how intelligence agencies will try to use the newly appointed special prosecutor to oust president trump

britain has been a significant voice in global politics in the last two decades and its impact on world events far outweighs its material resources but how does a small island on the edge of europe continue to exercise this level of power on an international scale what kind of actor is britain internationally and what future challenges will confront british foreign policymakers in a multi polar world of emerging powers in this comprehensive introduction to british foreign policy today jamie gaskarth addresses these and other key questions against a rich historical backdrop he examines the main actors and processes involved in british foreign policy making as well as the role played by identity in shaping such choices later chapters focus on the relationship between economics and foreign policy what it means to be ethical in this policy sphere and the justification for and benefits of the uk s continued use of force to achieve its foreign policy goals combining interview

research theoretical insight and analysis of contemporary and historical trends this book charts how british foreign policy has come to be understood and practised in the 21st century it will be an invaluable guide for students of british politics foreign policy international relations and related courses

a unique analysis of the evolving north korean threat and the challenges facing the south korea u s alliance

this book provides an analysis of how penal discourses are used to legitimate post cold war military interventions through three main case studies kosovo iraq and libya these cases reveal the operation of diverse modalities of punishment in extending the ambit of international liberal governance the argument starts from an analysis of these discourses to trace the historical arc in which military interventions have increasingly been launched through reference to both the human rights discourse and humanitarian sentiments and a desire to punish the perpetrators the book continues with the analysis of practices involved in the post intervention phase looking at the ways in which states have been established as modes of governance kosovo how punitive atmospheres have animated soldiers violence in the conduct of war iraq and finally how interventions can expand moral control and a system of devolved surveillance in conjunction with both border control and the engagement of the international criminal court libya in all these case tensions and ambiguities emerge these practices underscore how punitive intents were also present in the expansion of liberal governance demonstrating how the rhetoric of punishment was useful in legitimating western state powers and recomposing the borders of the liberal world at the periphery war as protection and punishment ends with a number of critical comments on the diffusion of

punitive discourse in the international arena considering how issues of crime and justice have also animated at least in part the current engagement with the russian invasion of ukraine an accessible and compelling read this book will appeal to students and scholars of criminology sociology politics and those interested in how penal discourses are used to legitimize military conventions

by means of interviews with and contributions from prominent international figures axis of freedom examines the dramatic world events which unfolded from 11 september 2001 to the end of occupation of iraq in the summer of 2004 many books have been written on the war on terror but none include the personal views and opinions of so many top military and political leaders the contributions are linked by a series of essays to form a compelling narrative of the new way of war in their own words the key decision makers such as donald rumsfeld richard perle and geoff hoon talk about the strategic dilemmas the military implementation of the political decisions are discussed by leaders such as the head of the us air force the former british chief of defence staff lord guthrie and the royal navy s first sea lord highly charged critiques by george galloway mp are also included as well as iraq s deputy prime minister tariq aziz who was interviewed on the eve of the war senior foreign correspondents such as channel four s lindsey hilsum add their own frontline assessments in addition leading academic analysts such as dr paul cornish put the political and military debates in context

this book provides an original examination of current european union eu republic of korea rok security relations it brings together analysis and original material on relations in the fields of nuclear non proliferation and disarmament cybersecurity and data protection space policy and technology

and preventive diplomacy and crisis management these represent areas of particular interest to examine the extent to which the eu and rok are able to successfully or otherwise cooperate relations between the eu and the rok have been growing in quantity and quality over recent years alongside the economic dimension the political and security elements of the relationship have shown promise for further collaboration between the two sides not least within the context of north korea s nuclear threat and east asia s wider evolving security environment all contributors are leading experts in their respective fields and each chapter is co authored by a european and korean expert for a balanced assessment the volume will be essential reading for students scholars and policy makers interested in eu korea relations eu foreign policy and security area studies and more broadly to eu politics studies security studies and international relations

this book proposes fresh approaches and concrete proposals to overcome one of the most intractable security problems of the twenty first century visit our website for sample chapters

survival the iiss s bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment in this issue gigi kwik gronvall examines the contested origin of sars cov 2 and argues that scientific work should be apolitical and globally cooperated including with china lawrence freedman contends that while liberalism is in crisis it should still be better than authoritarianism at adapting to new circumstances acknowledging salient problems and choosing among alternatives robert s ross argues that chinese strategists believe beijing can challenge a strategically weakened united states on the korean peninsula ondrej rosendorf michal smetana and

marek vranka assess that persuading the public that nuclear abolition is feasible could strengthen disarmament advocacy and nine more thought provoking pieces as well as our regular book reviews and noteworthy column editor dr dana allin managing editor jonathan stevenson associate editor carolyn west assistant editor jessica watson

this book uses the strategic relational approach to explain how the labour governments of tony blair and gordon brown integrated the united kingdom into the us ballistic missile defence system in order to maintain national security and to uphold the special relationship while at the same time recognising that voters were in general opposed to missile defence labour s ballistic missile defence policy 1997 2010 examines how the labour administration was tasked with navigating a domestic political environment in which they had to appear tough on defence in general in order to appeal to a broader range of the electorate while recognising that voters were opposed to missile defence in particular this book seeks to answer the question of why the centre left government of tony blair and gordon brown elected on a mandate of multi lateralism in international relations and espousing an ethical dimension to foreign policy committed the united kingdom to us ballistic missile defence an internationally divisive military project associated with the us republican party and george w bush in particular this book is essential for students and researchers interested in british military history international relations strategic studies british politics labour politics and political theory

the objective of this work is to restate the requirements of democratic legitimacy in terms of the deliberative ideal developed by jürgen habermas and apply the understanding to the systems of global governance the idea of democracy

requires that the people decide through democratic procedures all policy issues that are politically decidable but the state is not a voluntary association of free and equal citizens it is a construct of international law and subject to international law norms political self determination takes places within a framework established by domestic and international public law a compensatory form of democratic legitimacy for inter state norms can be established through deliberative forms of diplomacy and a requirement of consent to international law norms but the decline of the westphalian political settlement means that the two track model of democratic self determination is no longer sufficient to explain the legitimacy and authority of law the emergence of non state sites for the production of global norms that regulate social economic and political life within the state requires an evaluation of the concept of international law and the legitimate authority of non state actors given that states retain a monopoly on the coercive enforcement of law and the primary responsibility for the guarantee of the public and private autonomy of citizens the legitimacy and authority of the laws that regulate the conditions of social life should be evaluated by each democratic state the construction of a multiverse of democratic visions of global governance by democratic states will have the practical consequence of democratising the international law order providing democratic legitimacy for international law

the world of protracted conflicts seeks to frame the models to answer three crucial questions about interstate protracted conflict what are the most likely conditions for the onset of a protracted conflict its escalation persistence and its termination it presents the findings on protracted conflict occurrence continuation and resolution through testing these models and their derived hypotheses against the evidence from 33

interstate protracted conflicts in the last century these findings will in turn shed further light on the conflict crisis war linkage this book examines and explains patterns that exist in the eruption evolution and winding down of these conflicts through a systematic comparison of recent and contemporary pcs

explores u s foreign policy with regard to nations such as iran iraq syria and libya uncovering the reasons why these countries are so menacing to the united states

an introduction to british politics with a unique emphasis on political science to analyse the fundamental features of british politics and the key changes post brexit what caused the increased turbulence of british politics in recent years how do policy blunders occur and why how powerful are political parties in british politics why did brexit happen and what is the future of the uk eu relationship british politics answers these fundamental questions putting political science and public at its core to provide an analytical approach to british politics it gives a clear view of the british political system covering the basic institutions of government political behavior and citizenship policy making delegation and devolution key methods and theories such as the principal agent model rational choice theory and bulpitt s framework of territorial politics are explore to help you analyse key issues and events such as brexit and the covid 19 pandemic book jacket

the sixth edition of textbook on international law offers a concise and focused introduction to the essential topics of international law dixon guides students through legal principles and areas of controversy bringing the subject to life with the use of topical examples to illustrate key concepts the book incorporates helpful features including a

glossary chapter summaries and suggestions for further reading the sixth edition includes further discussion of topical issues such as Guantanamo the international criminal court and the use of force purchase of the book provides complementary access oxford s online resource center website providing updates on case law and legislative developments as well as annotated links to relevant websites

this book analyzes the role of human rights in the foreign policy of the George W. Bush administration's references to human rights freedom and democracy became prominent explanations for post 9/11 foreign policy yet human rights have been neither impartially nor universally integrated into decision making Jan Hancock addresses this apparent paradox by considering three distinct explanations the first position holds that human rights form a constitutive foreign policy goal the second that evident double standards refute the first perspective this book seeks to progress beyond this familiar discussion by employing a Foucaultian method of discourse analysis to suggest a third explanation through this analysis the author examines how a discourse of human rights has been artificially produced and implemented in the presentation of US foreign policy this illuminating study builds on a wealth of primary source evidence from human rights organizations to document the contradictions between the claims and practice of human rights made by the Bush administration as well as the political significance of denying this disjuncture human rights and US foreign policy will be of interest to advanced students and researchers of US foreign policy human rights international relations and security studies

this book covers in one handy volume all the major topics associated with ship operations carefully coordinated to

ensure breadth relevance and lack of overlap the topics covered are addressed by authors are the very top of their profession whether in legal practice or academia and are presented in a manner which is topical and clear part i offers a detailed and critical analysis of issues of contemporary importance concerning new liability regimes and developments part 2 discusses how parties in particular ship operators attempt in contemporary practice to allocate their risks concerning ship operations part 3 evaluates the legal position of those involved in more back office operations the book provides an invaluable guide to recent legal and practical developments and offers a comprehensive well informed and thoroughly practical guide on what is a very complex and developing area of law it will therefore be of great use to legal practitioners and administrators of ship operations worldwide as well as students in this area and academics associated with maritime law generally

this volume incisively analyzes the foreign policy of george w bush examining the legacy of the forty third president author ilan peleg explains the complex factors underlying the bush doctrine neoconservative ideology real and perceived challenges to us world supremacy bush s personality the white house s unique decision making process and the impact of september 11 peleg argues that in its shift from deterrence and containment to prevention and preemption from multilateral leadership to unilateral militarism and from consensual realism to radical neoconservatism the bush administration has effected a true revolution in the foundational goals as well as in the means of us foreign policy peleg also offers a series of judicious recommendations for future administrations including the reestablishment of a bipartisan consensus on foreign policy increased emphasis on multilateralism the

demilitarization of us foreign policy renewed focus on the resolution of serious regional conflicts and more realistic expectations about noncoerced democratization around the world

a frequent assumption of the american led war on terror and its accompanying discourse originated largely with the george w bush administration and that there was a counterterrorism policy revolution in the u s political arena challenging these assumptions through a genealogical analysis of u s terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of u s counterterrorism policy from ronald reagan to bill clinton and through to george w bush the book focuses on president clinton s discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the clinton administration while simultaneously comparing it with president reagan s and president george w bush s approaches to counterterrorism it shows how the war on terror can be traced to earlier periods and that the so called bush revolution was largely built upon the existing framework established by president reagan and president clinton prior to the 2001 terrorist attacks clinton had expanded reagan s first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats home grown terrorism wmd terrorism cyberterrorism and rogue states clinton s new terrorism discourse provided a useful framework for george w bush to discursively respond to the terrorist attacks on september 11th 2001 aiming to uncover the myth of president george w bush s foreign policy revolution and contribute to a deeper historical understanding of the u s led war on terror it will be of great use to postgraduates and scholars of us foreign policy security studies and terrorism studies

outstanding and thought provoking this book provides up to date and in depth analyses of current developments in international politics it highlights the unilateral use of force in international relations and its implication for international law the chances and risks of international criminal justice and the question of epistemic violence with regard to dominant discourses in the theory of international relations such as nation building and intercultural dialogue furthermore the book focuses on conditions for global social and ecological justice in international economics against the background of financial crisis it contributes in particular to a better understanding of the relation between power and justice in view of current global tensions while reflecting the work of the internationally acclaimed philosopher hans köchler

in the realm of international relations there are seemingly few states like north korea whether it is the country's human rights situation its precarious everyday life or its so called foreign policy of coercion and nuclear brinkmanship no matter what this pariah nation says and does it affects the state and stability of regional and global politics but what do we know about north korea and how do we come to know it this book argues that visual imagery plays a decisive role in this operation by discussing two exemplary areas everyday photography and satellite imagery the book takes into account the role of images in the way that particular issues related to north korea are understood in contemporary geopolitics images work they do something by evoking a particular perspective of what is shown in them allowing only specific ways of seeing and knowing in this sense images are deeply political individual methodological usages in the book can provide a procedural basis from which to start or rethink further studies on visibility both in ir and beyond it also opens an

innovative path for future studies on east asia making the book attractive to a range of specialists and thus holding an appeal beyond the boundaries of a single discipline

economic crime is a significant feature of the uk's economic landscape and yet despite the government's bold mission statements to hold those suspected of financial wrongdoing to account as part of their day of reckoning and serious about white collar crime agenda there is a sense that this is still not being done effectively this book examines the history of the creation of the uk's anti economic crime institutions and accompanying legislation providing a critique of their effectiveness the book analyses whether the recent regulatory regime is fit for purpose as well as being appropriate for the future in order to explore how the uk's economic crime strategies could be improved the book takes a comparative approach analysing policy and legislative responses to economic crime in the united states and australia in order to determine whether the uk could or should import similar structures or laws to improve the enforcement of uk economic crime

this book investigates whether so called rogue states assumed antagonists of a western liberal world order could also act as norm entrepreneurs by championing the genesis and evolution of global norms the author explores this issue by analyzing the arms control policies of the islamic republic of iran a comparison with the prototypical norm entrepreneur sweden and the democratic people's republic of north korea a notorious norm breaker reveals interesting insights for norm research apparently norm entrepreneurship manifests itself in different degrees and phases of the norm life cycle the finding that iran indeed acts as a norm entrepreneur in some cases also sheds light on those factors that might account for the

success or failure of norm advocacy lastly the book offers a new perspective on rogue states by not only regarding them as irrational antagonists of the current world order but also as legitimate participants in a discourse on what the ruling order should look like this book will appeal to scholars interested in critical norm research in international relations this book offers cutting edge norm research highlighting how norm breakers can function as norm makers maria rost rublee associate professor of international relations monash university australia so called rogue states are typically understood as norm breakers but carmen wunderlich makes a persuasive conceptual case backed by empirical research that we need to consider the extent to which they are in fact norm entrepreneurs in their own right in an era characterized by much concern over the status of liberal norms this is a very timely study richard price department of political science the university of british columbia canada at a time when the world order is under pressure this cutting edge analysis of how dissatisfied states challenge existing global norms illuminates a topic crucial to understanding contemporary international relations nina tannenwald director watson institute for international and public affairs brown university rhode island usa

this volume examines the conditions necessary for a stable nuclear weapons free world and the implications for nuclear disarmament policy the nuclear non proliferation treaty npt is a road map to nuclear zero but it is a rudimentary one and it says nothing about the kind of zero to aim for preferably this would be a world where the inhibitions against reversal are strong enough to make it stably non nuclear what then are the requirements of stable zero the literature on nuclear disarmament has paid little attention to this question by and large the focus has

been on the next steps and discussions tend to stop where the npt stops with the elimination of the weapons this book seeks to fill a lacuna by examining the requirements of stable zero and their implications for the road map to that goal starting from the vision to the present day the volume highlights that a clear conception of the goal not only is important in itself but can shed light on what kind of disarmament process to promote this book will be of much interest to students of nuclear proliferation global governance security studies and ir

the 9 11 terrorist attacks starkly recast the u s debate on rogue states in this new era of vulnerability should the united states counter the dangers of weapons proliferation and state sponsored terrorism by toppling regimes or by promoting change in the threatening behavior of their leaders regime change examines the contrasting precedents set with iraq and libya and provides incisive analysis of the pressing crises with north korea and iran a successor to the author s influential rogue states and u s foreign policy 2000 this compelling book clarifies and critiques the terms in which today s vital foreign policy and security debate is being conducted

this edited book explores the multi layered relationships between public diplomacy and intensified uncertainties stemming from transnational political trends it is the latest wave of political uncertainty that provides the background as well as yields evidence scrutinised by authors contributing to this book the book argues that due to a state of perpetual crises the simultaneity of diplomatic tensions and new digital modalities of power international politics increasingly resembles a networked set of hyper realities embracing multi polar competition superpowers such as russia flex their muscles over their neighbours celebrated success stories of

democratisation hungary poland and czechia move towards illiberal governance old players of international politics such as britain and america reclaim greatness while other states like china adapt expansionist foreign policy goals the contributors to this book consider the different ways in which transnational political trends and digitalisation breed uncertainty and shape the practice of public diplomacy

this volume brings together a diverse collection of essays that critically examine issues relating to crime and justice in the united nations 2030 agenda for sustainable development chapters examine the issues that practitioners face in working to advance this agenda and the possibilities that exist to advance sustainable development outcomes

statement of president george w bush regarding his intention to introduce national missile defence nmd has given rise to a lively discussion on the subject all over the world in this book an attempt has been made to present the viewpoints of eminent experts from different countries particularly those from countries directly affected by the nmd e g the united states of america russia china the united kingdom north korea india etc it is hoped that the book would be of great value to the researchers and students of defence studies parliamentarians senior executives concerned with defence and the common readers

this book is a tale of two towers two wars and two visions the two towers are those of the world trade center in new york destroyed by a terrorist attack on 11 september 2001 the two wars are the war against terrorism and the war on iraq the two visions are of the international legal and political order for the twenty first century the issues involved in the war against terrorism and the war on iraq

are of fundamental importance because they may define the shape of international order for the twenty first century the book has a number of themes first it considers the principal international law and international order issues involved in the war against terrorism and in the war on iraq in 2003 specific attention is given to the application of international humanitarian and international human rights law in the wars secondly it asks how the international debate on the iraq war was conducted and why finally it questions whether the post 1945 system of international laws and organizations is capable of surviving and in what form chapter one outlines how the relationship between war and the international legal order has evolved and introduces the idea of complexity theory as a framework for understanding the events and issues considered in this book chapter two considers the pattern of events from the attacks on the us on 9 11 to the iraq war 2003 chapter three addresses the issues of law and morality involved in the war against terrorism and the war on iraq chapter four focuses on the moral and legal debate around the war on iraq and chapter five considers the systemic consequences for international law doctrine and practice giving particular weight to us policy and approaches and how other states have responded to them chapter six appraises the post war situation in iraq in terms of political and economic organisation and human rights it also assesses the consequences of the status of post war iraq for the wider region chapter seven concludes the book by examining the possible implications of the war against terrorism and the war on iraq for world order in the twenty first century
