the legal system is often denounced as

kafkaesque but what does this really mean this is the question douglas e litowitz tackles in his critical reading of franz kafka s writings about the law going far beyond kafka s most familiar works such as the trial litowitz assembles a broad array of works that he refers to as kafka s legal fiction consisting of published and unpublished works that deal squarely with the law as well as those that touch upon it indirectly as in political administrative and quasi judicial procedures cataloguing explaining and critiquing this body of work litowitz brings to bear all those aspects of kafka s life that were connected to law his legal education his career as a lawyer his drawings and his personal interactions with the legal system a close study of kafka s legal writings reveals that kafka held a consistent position about modern legal systems characterized by a crippling

nihilism modern legal systems in kafka s view consistently fail to make good on their stated pretensions in fact often accomplish the opposite of what they promise this indictment as litowitz demonstrates is not confined to the legal system of kafka s day but applies just as surely to our own a short clear comprehensive introduction to kafka s legal writings and thought kafka s indictment of modern law is not uncritical even as he clarifies kafka s experience of and ideas about the law litowitz offers an informed perspective on the limitations of these views his book affords rare insight into a key aspect of kafka s work and into the connection between the writing the writer and the legal world
