lebanon is facing a difficult global regional and domestic environment simultaneously for the first time in more than a decade domestic policies should aim at instilling confidence and tackling key policy challenges such as preserving macroeconomic stability and paving the way for a more resilient dynamic and inclusive economy the banque du liban bdl relied on its large foreign reserves build up during the upswing to intervene forcefully when the lebanese pound came under pressure from deposit outflows and currency conversions in the wake of the government crisis

seeking to explain lebanon s behavior in the international arena during the 2006 war between hezbollah and israel this book offers a critique of both systemic and sub state factors in determining foreign policy decisions the making of lebanese foreign policy illustrates how systemic theories are limited in terms of explaining foreign policy decisions because they largely ignore the role of internal or sub state factors within lebanon foreign policy is split between the interests of different internal lebanese groups working in alliance with external actors the competing interests of these internal groups compromise the cohesion of the lebanese state and its capacity to promote its own interests above those of the different internal groups the example of lebanon during the 2006 war thus demonstrates the importance of these sub state factors in influencing state behaviour on an international level arguing that a more pluralistic approach is necessary in order to understand the conditions that affect the foreign policy making of the lebanese state this book fills an important gap in the literature on the topic and will be of interest to students of international relations middle east studies and islamic studies amongst others

i wrote the book to tell of my experiences as i grew up living on a farm in north central kansas i wanted my grand children to know some of the things that i had endured and events that had an impact later in life it is not possible to sit down and tell them stories as in years past so a book may suffice

lebanon seems a country in the grip of permanent crisis in recent years it has suffered blow after blow from rafiq hariri s assassination in 2005 to the 2006 july war to the current syrian conflict which has brought a million refugees streaming into the country this is an account not just of lebanon s

high politics with its endless rows walk outs machinations and foreign alliances but also of the politics of everyday life all the stresses and strains the country s inhabitants face from electricity black outs and uncollected rubbish to stagnating wages and property bubbles andrew arsan moves between parliament and the public squares where protesters gather between luxury high rises and refugee camps and between expensive nightclubs and seafront promenades providing a comprehensive view of lebanon in the twenty first century where others have treated lebanon s woes as exceptional a by product of its sectarianism and particular vulnerability to regional crises arsan argues that there is nothing particular about lebanon s predicament rather it is a country of the age one of neoliberal economics populist fervor forced displacement rising xenophobia and public disillusion lebanon in short offers us a lens through which to look on our times

since the adoption of the un charter in 1945 the use of cross border force has been frequent this volume invites a range of experts to examine over sixty conflicts from military interventions to targeted killings and hostage rescue operations and to ask how powerful precedent can be in determining hostile encounters in international law

the official monthly record of united states foreign policy

in architecture power and religion in lebanon ward vloeberghs explores rafiq hariri s patronage and his posthumous legacy to demonstrate how religious architecture becomes a site for power struggles in contemporary beirut by tracing the 150 year long history of the muhammad al amin mosque lebanon s principal sunni mosque and the subsequent development of the site as a commemoration venue this account offers a unique illustration of how architecture religion and power become discursively and visually entangled set in a multi confessional society marked by social inequalities and political fragmentation this interdisciplinary study analyses how architectural practice and urban reconfigurations reveal a nascent personality cult communal mourning and the consolidation of political territory in relation to constantly shifting circumstances

although over six years have passed since the lebanon intervention ended american leaders appear to be no closer to an appreciation of what went wrong than they were in 1984 ralph hallenbeck's authoritative account of the american intervention in lebanon fills this significant void his study goes a long way toward explicating those factors that contributed most to this foreign policy failure america's role in lebanon is examined in four chapters with each chapter recounting the events that occurred during the successive phases of the intervention at various junctures in the analysis hallenbeck compares his findings to those of other authors writing about the vietnam war an intervention that he feels strongly parallels the american experience in lebanon he also refers to the relevant body of politico military and decision making theory the author's ultimate purpose in using this comparative approach is to suggest that conclusions derived from the study of the lebanon intervention may be relevant both to an understanding of the past and to future attempts to achieve limited ends through the measured application of military force hallenbeck's case study is useful as both source material for students and scholars concerned with examining national security policy making and as a critical discussion of recent events

the complex history of lebanese shi'ites has traditionally been portrayed as rooted in religious and sectarian forces the abisaabs uncover a more nuanced account in which colonialism the modern state social class and provincial politics profoundly shaped shi'i society the authors trace the sociopolitical economic and intellectual transformation of the shi'ites of lebanon from 1920 during the french colonial period until the late twentieth century they shed light on the relationship of contemporary islamic militancy with traditions of religious modernism and leftism in both lebanon and iraq analyzing the interaction between sacred and secular features of modern shi'ite society the authors clearly follow the group's turn toward religious revolution and away from secular activism this book transforms our understanding of twentieth century lebanese history and demonstrates how the rise of hizbullah was conditioned by shi'ites consistent marginalization and neglect by the lebanese state

based on comprehensive interviews with survivors extensive military records as well as personal letters diaries and photographs the full story is revealed behind the deadly truck bomb that exploded at the u.s. marine corp barracks in beirut lebanon in 1983
