with a rich comparative case study approach that spans europe asia and the middle east building militaries in fragile states unearths provocative findings that suggest the traditional way of working with foreign militaries needs to be rethought

as sectarian and political tensions rose after march of 2005 scholars and journalists began to speculate that lebanon was heading back into civil war much academic literature in fact showed that the probability of regressing into such a state was very high although tensions did escalate and violence broke out on a number of occasions culminating in several days of fighting in may 2008 the doha agreement provided a peaceful political solution to the country s crisis this book offers an answer to the question of why no renewed civil war occurred in lebanon as well as to the larger question of why civil wars do or do not break out the author accomplishes this by developing and presenting a model of informal elite agreement which he terms consociational conflict

lebanon seems a country in the grip of permanent crisis in recent years it has suffered blow after blow from rafiq hariri s assassination in 2005 to the 2006 july war to the current syrian conflict which has brought a million refugees streaming into the country this is an account not just of lebanon s high politics with its endless rows walk outs machinations and foreign alliances but also of the politics of everyday life all the stresses and strains the country s

inhabitants face from electricity black outs and uncollected rubbish to stagnating wages and property bubbles andrew arsan moves between parliament and the public squares where protesters gather between luxury high rises and refugee camps and between expensive nightclubs and seafront promenades providing a comprehensive view of lebanon in the twenty first century where others have treated lebanon s woes as exceptional a by product of its sectarianism and particular vulnerability to regional crises arsan argues that there is nothing particular about lebanon s predicament rather it is a country of the age one of neoliberal economics populist fervor forced displacement rising xenophobia and public disillusion lebanon in short offers us a lens through which to look on our times

the past two decades have seen an increasing association between lebanese salafism and violence with less attention being paid to salafis who focus on peaceful proselytization in reality it is these salafis whose influence has dramatically grown since the eruption of the syrian conflict that profoundly affected lebanon as well based on extensive fieldwork zoltan pall offers insights into the dynamics of non violent lebanese salafi groups and examines the importance of transnational links in shaping the trajectory of the movement in particular he shows how the internal transformation of salafism in kuwait qatar and saudi arabia led to the fragmentation of the lebanese salafi community by analysing salafism as a network we see how the movement creates and mobilizes material and symbolic resources and how it contributes to reshaping the structures of authority within the country s sunni muslim community

seeking to explain lebanon s behavior in the international arena during the 2006 war between hezbollah and israel this book offers a critique of both systemic and sub state factors in determining foreign policy decisions the making of lebanese foreign policy illustrates how systemic theories are limited in terms of explaining foreign policy decisions because they largely ignore the role of internal or sub state factors within lebanon foreign policy is split between the interests of different internal lebanese groups working in alliance with external actors the competing interests of these internal groups compromise the cohesion of the lebanese state and its capacity to promote its own interests above those of the different internal groups the example of lebanon during the 2006 war thus demonstrates the importance of these sub state factors in influencing state behaviour on an international level arguing that a more pluralistic approach is necessary in order to understand the conditions that affect the foreign policy making of the lebanese state this book fills an important gap in the literature on the topic and will be of interest to students of international relations middle east studies and islamic studies amongst others

of all the issues in international relations disputes over territory are the most salient and most likely to lead to armed conflict understanding their endurance is of paramount importance although many states have settled their disagreements over territory seventy one disputes involving nearly 40 percent of all sovereign states remain unresolved in this study krista e wiegand examines why some states are willing and able to settle territorial disputes while others are not she argues that states may purposely maintain disputes over territory in order to use them as bargaining leverage in negotiations over other important unresolved issues this dual strategy of issue linkage and coercive diplomacy allows the challenger state to benefit from its territorial claim under such conditions it has strong incentive to pursue diplomatic and militarized threats and very little incentive to settle the

dispute over territory wiegand tests her theory in four case studies three representing the major types of territorial disputes uninhabited islands and territorial waters as seen in tensions between china and japan over the senkaku and diaoyu islands inhabited tracts of territory such as the north african enclaves of ceuta and melilla affecting morocco and spain and border areas like the shebaa farms dispute between lebanon and israel a fourth case study of a dispute between china and russia represents a combination of all three types settled in 2008 it serves as a negative example all these disputes involve areas that have key strategic and economic importance both region ally and globally

syria was once one of the middle easts most stable states today it is a country on its knees almost 200 000 people are estimated to have died in its bloody internal conflict and as the violence intensifies syrias future looks bleak in this timely book samer abboud provides an in depth analysis of syrias descent into civil war he unravels the complex and multi layered causes of the current political and military stalemate from rebel fragmentation to the differing roles of international actors and the rise of competing centers of power throughout the country rebel in fighting and the lack of a centralizing authority he contends have exacerbated syrias fragmentation and fragility this in turn has aided the survival of the assad regime contributed to the upsurge of sectarianism and led to a major humanitarian crisis as nine million syrians have been forced to flee their homes a resolution to the syrian conflict seems unlikely in the short term as the major actors remains committed to a military solution as this situation persists the continued fighting is reshaping syrias borders and will have repercussions on the wider middle east for decades to come

winslow provides a comprehensive history and political analysis of lebanon from ancient times to the present day he focuses on the civil and sectarian strife that has characterized the country s past and contemporary history

in this book alaolmolki an expert on the transnational politics of central asia and the persian gulf provides a global view of militant islamist ideologies activities and connections unlike many extant books on this topic militant islamists does not examine only one particular factor or driving force in political violence such as suicide bombings rather this work studies transnational militant islam on several levels domestic e g the role of poverty and lack of democracy in arab and muslim nations regional e g the palestinian israeli conflict hizbullah in lebanon jemmah islamiyan in southeast asia hizb al tahrir in central asia global e g the role of the united states and western europe in inadvertently helping transnational islamists ultimately the author traces the effects of the u s led invasions of afghanistan and iraq on militant islamist terrorism concluding that militant islam is spreading not receding and that the united states would better rely on soft rather than hard military power to overcome it

eventually most terrorist and guerrilla groups are defeated by governments or gradually die off sometimes becoming political parties democratically participating in the non violent governance of their states yet some terrorist and guerrilla groups maintain military capabilities using violence and democratic participation simultaneously here krista e wiegand examines the different political strategies that islamist terrorist and guerrilla groups use to achieve their political objectives focussing on hezbollah in lebanon and hamas in palestine wiegand skilfully reveals the factors that determine why islamist militant groups become involved in governance as political parties how mainstream governments may or may not accept them as legitimate why some groups like al gama a al islamiya in egypt renounce guerrilla tactics and how some groups govern whilst employing political violence bombs and ballots is a valuable contribution to the study of state society relations in the middle east exposing the blurred line between terrorist activity and governance

this second comprehensive chronology of international terrorist attacks covers three eventful years during which the islamic state supplanted al qaeda as the most active well financed and well armed terrorist group worldwide domestic and international incidents around the globe are covered outlining several trends and exploding a number of media myths the author examines the enigmas of contemporary terrorist behavior and offers indicators and predictions to watch for in the coming years

this book presents shiite leaderships as pragmatic entities with the potential to form fruitful relationships with the non shiite world

combining insider and outsider perspectives women in lebanon looks at christian and muslim women living together in a multicultural society and

facing modernity while the arab spring has begun to draw attention to issues of change modernity and women s subjectivity this manuscript takes a unique approach to examining and describing the lebanese alternative modernities thesis and how it has shaped thinking about the meaning of terms like evolution progress development history and politics in contemporary arab thought the author draws on extensive ethnographic research as well as her own personal experience

this book provides a comprehensive analysis of the complexities of change and continuity in west asia its society religion and politics an overview of the region s political social and economic characteristics brought into sharper relief with the on going turmoil in the region constitutes the introduction of the book while the subsequent two chapters along with the introductory text constitute the thematic overview and orientation of the book the different chapters dedicated to specific countries explore the recent transformative developments in the region these chapters chart the emergence of islamist and post islamist politics in iran and lebanon elaborate upon the prevailing civil war conditions in iraq syria yemen and libya examine the impact of the arab uprisings that began in 2011 on egypt jordan and the arab gulf countries and explore the intricate interplay between islam and democracy in the present day politics of turkey while highlighting politics the texts of the chapters also delve into history religion and foreign policy this book will be as useful for the students of west asian affairs as it will be for policymakers and any interested reader please note taylor francis does not sell or distribute the hardback in india pakistan nepal bhutan bangladesh and sri lanka

morning headlines announce renewed violence and fresh calls for peace negotiations while pundits on talk radio and cable tv shout conflicting opinions at anyone who will listen between perplexing contradictions and inflammatory rhetoric it is often difficult to find out what s really going on in the middle east former time magazine jerusalem bureau chief david aikman who has spent decades reporting on mid east issues takes a sober balanced look at a region aflame he brings a journalist s mind and a believer s heart to his exploration of the political and religious factors in play and goes beyond the media s chronic oversimplification to carefully examine recent history and the leaders who have made that history aikman turns a critical eye on the policies of the region s prime players resorting neither to blind pro israeli sentiment nor to reactionary pro palestinian bias he challenges fellow christians to a similar approach to the middle east respect reason and love rather than unqualified tolerance on the one hand or religious crusading on the other discover the truth behind the headlines god s restoring hand is at work in a region of the world torn apart by centuries of strife

the egyptian press has a large readership and potential influence on public opinion in egypt and the arab world the egyptian press and coverage of local and international events analyzes this understudied area written in egypt the book is formed of five chapters and analyzes in qualitative and quantitative methods close to 300 newspaper and magazine articles it studies the egyptian press and investigates the challenges it faces to be compatible with that in the west and evaluates the renowned book four theories of the press and whether today s egyptian press can fit in one of those theories it also looks at the concepts of framing and discourse analysis adopted later the author examines how the egyptian press framed the sudanese refugees riot in cairo in december 2005 by the top thirteen egyptian national independent and party newspapers it found that independent and party newspapers enjoy

more freedom than national ones in criticizing government and the way police tackled the protest however independent newspapers were more vigorous in their criticism than party ones the author observes that the weekly magazines tended to frame their coverage in a somewhat anti government slant accusing authorities and ferry owners of failure and corruption finally the book compares coverage of the israeli war in lebanon in july 2006 by egypt s giant semi official daily newspaper al ahram with that by two prominent non egyptian pan arab dailies al hayat and asharq al awsat he finds that while al hayat and asharq al awsat which are owned by saudi businessmen portrayed hizbullah in an unfavorable manner al ahram was somewhat favorable in its coverage of the lebanese resistance group

tripoli lebanon s sunni city is often presented as an islamist or even jihadi city however this misleading label conceals a much deeper history of resistance and collaboration with the state and the wider region based on more than a decade of fieldwork and using a broad array of primary sources tine gade analyses the modern history of tripoli exploring the city s contentious politics its fluid political identity and the relations between islamist and sectarian groups offering an alternative explanation for tripoli s decades of political troubles rather than emphasizing islamic radicalism as the principal explanation she argues that it is lebanese clientelism and the decay of the state that produced the rise of violent islamist movements in tripoli by providing a corrective to previous assumptions this book not only expands our understanding of lebanese politics but of the wider religious and political dynamics in the middle east
