remarkable enough to be fiction a gripping insightful and often entertaining account of

one of europe s most complicated and fascinating men popmatters in 1981 françois mitterrand became france s first popularly elected socialist president by the time he completed his mandate he had led the country for fourteen years longer than any other french head of state in modern times mitterrand mirrored france in all its imperfections and tragedies its cowardice and glory its weakness and its strength in the wake of the observatory affair in which he orchestrated his own assassination attempt his secretiveness and mistrust grew more pronounced especially when details of a second family came to light he was a mixture of machiavelli don corleone casanova and the little prince said his doctor during the german occupation mitterrand hedged his bets by joining petain s vichy government later in 1943 under the nom de guerre of morland and thirty other aliases mitterrand quit vichy for the resistance and a paramilitary organization he changed the ground rules of french social and political debate in ways more far reaching and fundamental than any other modern leader before him helping set the agenda for france and europe for generations to come philip

short s a taste for intrigue will fill the gap and become the standard against which all other mitterrand biographies are set mitterrand was an elusive shape shifter whose goals remained unknown even to his closest aides his legacy is one of disturbing ambiguity an opacity for which the media called him the sphinx in a taste for intrigue the multiple lives of françois mitterrand philip short masterfully probes these contradictions the wall street journal

the terrorist threat remains a disturbing issue for the early 1990s this book explores whether terrorism can ever be morally justifiable and if so under what circumstances professor burleigh taylor wilkins suggests that the popular characterisation of terrorists as criminals fails to acknowledge the reasons why terrorists resort to violence it is argued that terrorism cannot be adequately understood unless the collective responsibility of organised groups such as political states for wrongs allegedly done against the groups which the terrorists represent is taken into account terrorism and collective responsibility provides an analysis of various

models of collective responsibility and it takes into account recent discussions of military responsibility and business ethics the book also explores the problems that terrorism poses for the just war tradition the arguments of prominent philosophers against terrorism are critically examined and the claim that terrorism necessarily violates the rights of innocent persons is considered wilkins sets forth an original definition of terrorism that is sure to provoke controversy

first published in 1990 richard clutterbuck s fascinating analysis of european security confronts the problems of internal european community frontiers and technological aids in combating terrorism and international crime he looks at what the ec countries have done in the past describes the technology now becoming available and makes radical proposals for airport security fighting drugs and overcoming the intimidation of witnesses and juries above all he foresees the exciting prospect of the ussr the usa and a united europe co operating for the first time to overcome the common enemies of terrorism and international crime

the american journalist discusses

marguerite duras james baldwin ernest hemingway jack kerouac gunter grass the spanish civil war and world war ii

pseudo martyr was donne s first published work and the only one he wrote as a lawyer it is also an autobiographical document which reveals how donne resolved his own lapse from catholicism so that he could remain loyal to the king a descendant of thomas more s sister donne had inherited a rich tradition from the counter reformation which he sought to reconcile with the political absolutes of his day anthony raspa provides a definitive critical edition of this long neglected work setting it in its historical context and making the forest of quotations and references given by donne in the main body of the text and its margins intelligible to the modern reader

aesthete sensualist bookworm politician of machiavellian cunning françois mitterrand was a man of exceptional gifts and exceptional flaws who during his fourteen years as president strove to drag his tradition bound and change averse country into the modern world as a statesman and as a human being he was the incarnation of

the mercurial contrarian france which britain and america find so perennially frustrating he embodied the ambiguities and the contradictions of a nation whose modern identity is founded on a stubborn refusal to fit into the anglo american scheme of things yet he changed france more profoundly than any of his recent predecessors arguably including even his great rival charles de gaulle during the war he was both the leader of a resistance movement and decorated for services to the collaborationist regime in vichy after flirting with the far right he entered parliament with the backing of conservatives and the catholic church before becoming the undisputed leader of the left as president he brought the french communists into the government the better to destroy them and all the while he managed to find time for an extraordinarily complicated private life this is a human as much as a political biography and a captivating portrait of a life that mirrored mitterrand s times

having worked for several decades in north africa anthropologist lawrence rosen is uniquely placed to ask what factors contribute to the continuity and changes characterizing the present day muslim world in the culture of islam he brings his erudition and his experiences to illuminating key aspects of muslim life and how central tenets of that life are being challenged and culturally refashioned through a series of poignant tales from the struggle by a group of friends against daily corruption to the contest over a saint s identity from nostalgia for the departed jews to salman rushdie s vision of doubt in a world of religious certainty rosen shows how a dazzling array of potential changes are occurring alongside deeply embedded continuity a process he compares to a game of chess in which infinite variations of moves can be achieved while fundamental aspects of the game have had a remarkably enduring quality whether it

is the potential fabrication of new forms of islam by migrants to europe creating a new euro islam as rosen calls it the emphasis put on individuals rather than institutions or the heartrending problems muslims may face when their marriages cross national boundaries each story and each interpretation offers a window into a world of contending concepts and challenged coherence the culture of islam is both an antidote to simplified versions of islam circulating today and a consistent story of the continuities that account for much of ordinary muslim life it offers in its human stories and its insights its own contribution as the author says to the mutual understanding and forgiveness that alone will make true peace possible
