this monumental study examines issues of anthropomorphism in the three abrahamic faiths as viewed through the texts of the hebrew bible the new testament and the qur an throughout history

christianity and judaism have tried to make sense of god while juxtaposing the islamic position against this the author addresses the judeo christian worldview and how each has chosen to framework its encounter with god to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and absorption of hellenistic philosophy shah also examines islam s heavily anti anthropomorphic stance and islamic theological discourse on tawhid as well as the ninety nine names of god and what these have meant in relation to muslim understanding of god and his attributes describing how these became the touchstone of muslim discourse with judaism and christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism as secularism debates whether god is dead the issue of anthropomorphism has become of immense importance the quest for god especially in this day and age is partly one of intellectual longing to shah anthropomorphic concepts and corporeal depictions of the divine are perhaps among the leading factors of modern atheism as such he ultimately draws the conclusion that the postmodern longing for god will not be quenched by pre modern anthropomorphic and corporeal concepts of the divine which have simply brought god down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what god is and represents causing the soul to detract from a sense of the sacred and thereby belief in him

three distinct and very different ethnic groups malays chinese and indians combined to form the populous of malaysia the nation evolved from a feudal colonial

society into a singular modern day peaceful country malaysia s contributions to world affairs are significant but as a country it s often overlooked as a player on the world stage during the past one hundred twenty years malaysia has made huge strides into the twenty first century the country s global evolvment from a shambled and discombobulated piecemeal feudal system into a modern unified powerhouse is a remarkable feat incredibly despite undue external political pressures from the west and religious pressures from the middle east malaysia has somehow mastered the technique of blending the best of the east and the west to form its own singular independent identity the characters in the short stories of malaya house reflect the temperament and social commentary of the times as well as the gradual evolvment and eventual maturity of a developing nation they also illustrate how the citizens of malaysia have decided that they can get along put past hatred and racism aside and show the world that people from all persuasions can live in relative peace and tolerance with islam as their central core

in his travel narrative travels with a donkey in the cevennes 1879 robert louis stevenson declares i travel not to go anywhere but to go i travel for travel s sake the great affair is to move taking up the concepts of time place and memory the contributors to this collection explore in what ways the dynamic view of life suggested by this quotation permeates stevenson s work the essays adopt a wide variety of critical approaches including post colonial theory post structuralism new historicism art history and philosophy making use of the vast array of literary materials that stevenson left across a global journey that began in scotland in 1850 and ended in samoa in 1894 these range from travel journals letters and classic literary staples such as treasure island and the strange case of dr jekyll and mr hyde to rarely read masterpieces such as the master of ballantrae or the ebb tide while much recent scholarship on stevenson foregrounds geography the present volume also examines the theme of movement across memory time and generic boundaries taken together the essays offer a view of stevenson that demonstrates how the protean nature of his literary output reflects the radical developments in science technology and

culture that characterized the age in which he lived
