salafism comprised of fundamentalist islamic movements whose adherents consider themselves the only saved sect of islam has been little studied remains shrouded in misconceptions and has provoked new interest as salafists have recently staked a claim to power in some arab states while spearheading battles against infidel arab regimes during recent rebellions in the arab world robert g rabil examines the emergence and development of salafism into a prominent religious movement in lebanon including the ideological and sociopolitical foundation that led to the three different schools of salafism in lebanon quietist salafists haraki active salafists and salafi jihadists emphasizing their manhaj methodology toward politics the author surveys salafists ideological transformation from opponents to supporters of political engagement their antagonism to hezbollah which they denounce as the party of satan has risen exponentially following the party s seizure of beirut in 2008 and support of the tyrannical syrian regime salafism in lebanon also demonstrates how activists and

jihadi salafists in response to the political weakness of sunni leadership have threatened regional and international security by endorsing violence and jihad drawing on field research trips personal interviews and arabic primary sources the book explores the relationship between the ideologies of the various schools of salafism and their praxis in relation to lebanese politics the book should interest students and scholars of islamic movements international affairs politics and religion and radical groups and terrorism

as sectarian and political tensions rose after march of 2005 scholars and journalists began to speculate that lebanon was heading back into civil war much academic literature in fact showed that the probability of regressing into such a state was very high although tensions did escalate and violence broke out on a number of occasions culminating in several days of fighting in may 2008 the doha agreement provided a peaceful political solution to the country s crisis this book offers an answer to the question of why no renewed civil war occurred in lebanon as well as to the larger question of why civil wars

do or do not break out the author accomplishes this by developing and presenting a model of informal elite agreement which he terms consociational conflict

the ensuing clash between islamism and nationalism shi a and sunni and other factions within these communities

this book explores the rise of hizbullah as a direct consequence of both the iranian revolution and the entanglement of lebanon in the arab israeli conflict protracted civil war and overwhelming foreign intervention by lebanon s neighbors enabled hizbullah to emerge as the country s dominant politico military force hizbullah disabled the lebanese political system and in its capacity as iran s premier foreign proxy allowed the islamic republic to take the lead in the regional tug of war with israel in its quest for achieving a distinguished regional status commensurate with its ambitions iran used hizbullah to abort the syrian uprising actively contribute to its burgeoning influence in iraq and participate in its propaganda war against saudi arabia on a range of issues the renewed u s sanctions on iran

coincided with a worldwide campaign to dry up hizbullah's sources of funding and compromised its integrity as a critical provider of patronage to its lebanese shi'ite base of support. The emergence of russia as the real power player in syria made it extremely difficult for hizbullah to justify the high human cost it incurred to salvage the regime of bashar asad. This book examines the rise of hizbullah and the marginalization and repression of shi'ites that made them susceptible to exploitation by their sectarian leaders.

The time is ripe for the european union, its institutions and member states to undertake an explicit review of its current policy of benign neglect towards the broad collection of muslim democrat parties in the mediterranean arab states. The group of experts assembled to produce this new book adduces mounting evidence that this policy may lead to unintended consequences such as the reinforcement of anti-democratic regimes and radical islamism. Their arguments favour a broad inclusion of muslim democrats in eu initiatives aiming at the reform of

governance and the development of civil society without extending to them any singular exclusive or unsolicited privileges.

Lebanon Country Study Guide: Strategic Information and Developments, Volume 1: Strategic Information and Developments

In this book, author Nader Mounneh, a Canadian senior policy adviser of Lebanese descent, examines the research of the formation and evolution of the Christian resistance in Lebanon. He performed as a graduate student at the American University of Beirut in the early 1990s. He has conducted hundreds of lengthy interviews with senior Lebanese forces leaders who were thoroughly impressed by his communicative yet assertive personality, his scrupulous presentation of facts, his obsessive attention to detail, and most importantly, his unwavering determination to unveil behind the scenes events. Mr. Mounneh drew upon his self-acquired persuasion tactics and negotiation strategies to earn the Lebanese forces' trust and gain access to top secret never

before published information since then he has continually revised and expanded the manuscript to address the rapidly changing situation in Lebanon and the Middle East. The Lebanese forces emergence and transformation of the Christian resistance has taken twenty five years to produce and is unique in its own right. Mr. Moumneh's work is not a typical re-telling of the Lebanese crisis rather it is a magnificent blend of skillful craftsmanship, an unprecedented wealth of painstakingly referenced chronological research and now declassified intelligence information.

aiming to contribute to the reader's greater understanding of Lebanese government and politics, this book provides a comprehensive examination of the origin, development and institutionalization of sectarian consociationalism in Lebanon. A recurrent proposition advanced in this book is that Lebanese sectarian consociationalism has been both a cure and a curse in the formulation of political settlements and institution building on the one hand and in contrast to many surrounding Arab regimes, consociational arrangements

have provided the country with a relative democratic political life, a limited government with a strong confessional division of power and a built-in checks and balance mechanism. This prevented the emergence of dictatorship or monarchy. On the other hand, a chronic weak state has complicated efforts for nation building in favour of sectarian fragmentation, external interventions and strong polarization that periodically brought the country to the verge of total collapse and civil war. While examining Lebanese sectarian politics of conflict and concession during different historic junctures, many revelations are made that underlie the role of domestic and international forces shaping the country's future. Presenting an implicit description of the power and functions of the various branches of government within the context of sectarian consociationalism, this book is an important introductory text for students of Lebanese politics and Middle Eastern politics more broadly.

as the middle east descends ever deeper into violence and chaos sectarianism has become a catch all explanation for the region s troubles the turmoil is attributed to ancient sectarian differences putatively primordial forces that make violent conflict intractable in media and policy discussions sectarianism has come to possess trans historical causal power this book trenchantly challenges the lazy use of sectarianism as a magic bullet explanation for the region s ills focusing on how various conflicts in the middle east have morphed from non sectarian or cross sectarian and nonviolent movements into sectarian wars through multiple case studies including syria iraq lebanon saudi arabia bahrain yemen and kuwait this book maps the dynamics of sectarianisation exploring not only how but also why it has taken hold the contributors examine the constellation of forces from those within societies to

external factors such as the Saudi-Iran rivalry that drive the sectarianisation process and explore how the region's politics can be de-sectarianised featuring leading scholars and including historians, anthropologists, political scientists and international relations theorists. This book will redefine the terms of debate on one of the most critical issues in international affairs today.

This comparative ethnography of a Muslim and a Christian Palestinian refugee camp in Lebanon focuses on contrasting social belonging processes through a ritualization approach. Leonardo Schiocchet argues that contrasts emerge out of the intersectionality of religiosity, nationhood, refugeeness and politics and synthesizes academic research on piety and moral self-cultivation and on the everyday life of religious communities. He contributes to the literature on refugees at large and Palestinian refugees in particular with the unique, dense socio-historical portrait of two refugee camps for which there is almost no recorded literature.

eventually most terrorist and guerrilla groups are

defeated by governments or gradually die off, sometimes becoming political parties democratically participating in the non-violent governance of their states. Yet some terrorist and guerrilla groups maintain military capabilities using violence and democratic participation simultaneously. Here Krista E. Wiegand examines the different political strategies that Islamist terrorist and guerrilla groups use to achieve their political objectives, focussing on Hezbollah in Lebanon and Hamas in Palestine. Wiegand skilfully reveals the factors that determine why Islamist militant groups become involved in governance as political parties, how mainstream governments may or may not accept them as legitimate, why some groups like Al-Gama'a al-Islamiya in Egypt renounce guerrilla tactics and how some groups govern whilst employing political violence. Bombs and ballots is a valuable contribution to the study of state-society relations in the Middle East, exposing the blurred line between terrorist activity and governance.

An unprecedented look at social breakdown and Sunni-led jihad in northern Lebanon. Northern Lebanon is a land

in turmoil long under the sway of the Assad regime in Syria it is now a magnet for Sunni Muslim jihadists inspired by anti-Western and anti-Shi'a worldviews. The Sunni tragedy in the Middle East describes in harrowing detail the struggle led by an active minority of jihadist militants, some claiming allegiance to ISIS, to seize control of Islam and impose its rule over the region's Sunni Arab population. Bernard Rougier introduces us to men with links to the Mujahidin in Afghanistan, the Sunni resistance in Iraq, al-Qaeda, and ISIS. He describes how they aspire to replace North Lebanon's Sunni elites, who have been attacked and discredited by neighboring powers and jihadists alike, and explains how they have successfully positioned themselves as the local Sunni population's most credible defender against powerful external enemies such as Iran and the Shi'a militia group Hezbollah. He sheds new light on the methods and actions of the jihadists, their internal debates, and their evolving political agenda over the past decade. This riveting book is based on more than a decade of research, more than one hundred in-depth interviews with players at all levels

and Rougier's extraordinary access to original source material written by one of the world's leading experts on jihadism. The Sunni tragedy in the Middle East provides timely insight into the social, political, and religious life of this dangerous and strategically critical region of the Middle East.

The Political Handbook of the World by Tom Lansford provides timely, thorough, and accurate political information with more in-depth coverage of current political controversies than any other reference guide.
