long before mexico colombia and afghanistan became notorious for their contributions to the global drug traffic lebanon was a special target of u s drug agents for harboring the world s greatest single transit port in the international traffic in narcotics in the words of one american official certain of the largest traffickers are so influential politically and certain highly placed

officials so deeply involved in the narcotic traffic that one might well state that the lebanese government is in the narcotics business using previously secret government records the lebanese connection uncovers for the first time the story of how lebanon s economy and political system were corrupted by drug profits and how by financing its many ruthless militia lebanon s drug trade contributed to the country s greatest catastrophe its fifteen year civil war from 1975 to 1990 in so doing this book sheds new light on the dangerous role of vast criminal enterprises in the collapse of states and the creation of war economies that thrive in the midst of civil conflicts taking a regional approach to the drug issue jonathan marshall assesses the culpability of syria israel and of palestinian factions and other groups that used lebanon as their battleground on the international level he documents lebanon s contribution to the hard drug problem of major consuming countries from the days of the french connection through the pizza connection as well as lebanon s unrivaled place in the global hashish market

matthew preston returns politics to its rightful place at the heart of the study of internal conflict rejecting approaches that emphasise economics or ethnicity this comparative investigation of the wars in rhodesia and lebanon sets out the complex

political dynamic that eventually produced the ultimately successful peace agreements of lancaster house and taif respectively it was a dynamic though in which the ebbs and flows of events at the negotiating table and on the battlefield played only a supporting role rather more significant were power struggles within belligerent parties that brought consolidated yet unscrupulous leadership growing disempowerment and suffering of civilians of all communities and the acquisition and subsequent leverage over the belligerents by regional powers yet the years of negotiation over seats in parliament failed to usher in a democratic era in either country peace brought a de-escalation in violence but the political struggle continued to be won decisively by robert mugabe s zanu pf in independent zimbabwe and by syria and her allies in lebanon at a time when western leaders proclaim the political necessity of addressing failed states ending civil war provides a salutary reminder that the competing elites of those failed states possess their own political agendas ones frequently resistant to the command of great but distant powers the primary agendas of civil war in rhodesia and lebanon were not those of economic greed nor of ethnic hatred but of the age old phenomenon of the struggle for control of organisations of civilians and ultimately of the state the idioms of violence were those of the time cyclical bouts of

fighting massacres assassinations and kidnappings but the deployment of limited violence for political ends was one which Carl von Clausewitz would clearly have recognised
