this statement reflects the underlying purpose of the new international commentary on the new testament begun in the late 1940s by an international team of new testament scholars the nicnt series has become recognized by pastors students and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical protestant tradition while based on a thorough study of the greek text the commentary introductions and expositions contain a minimum of greek references the nicnt authors evaluate significant textual problems and take into account the most important exegetical literature more technical aspects such as grammatical textual and historical problems are dealt with in footnotes special notes and appendixes under the general editorship of three outstanding new testament scholars first ned stonehouse westminster theological seminary philadelphia then f f bruce university of manchester england and now gordon d fee regent college vancouver british columbia the nicnt series has continued to develop over the years in order to keep the commentary new and

conversant with contemporary scholarship the nicnt volumes have been and will be revised or replaced as necessary the newer nicnt volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text and they also exhibit concern for the theology and application of the text as the nicnt series is ever brought up to date it will continue to find ongoing usefulness as an established guide to the new testament text
