to many outside observers of the israeli palestinian conflict there would appear to be one eminently sensible solution in exchange for recognition and adequate security guarantees israel should return the west bank and the gaza strip subject to minor boundary modifications to the palestinians led by a moderate plo the palestinians would then exercise their right to self determination and establish an independent state with or without a link to jordan and yet this solution has found favor neither with successive israeli governments nor with the plo first published in 1985 israel and the creation of a palestinian state now with a new preface by the author analyses the reasons for the rejection of this solution by the protagonists it then sets up a vision of a possible solution which by taking account of the subjective fears and aspirations of the parties may be regarded as more feasible the author s vision draws inspiration from the experience of reconstructing a new transnational order in europe after the ravages of the second world war the underlying theme focuses on the limitations of the purely national context as a framework for resolving the current political

problems of the israeli palestinian dilemma

containing the public messages speeches and statements of the president 1956 1992

tens of thousands of palestinians migrated to the americas in the final decades of the nineteenth century and early decades of the twentieth by 1936 an estimated 40 000 palestinians lived outside geographic palestine transnational palestine is the first book to explore the history of palestinian immigration to latin america the struggles palestinian migrants faced to secure palestinian citizenship in the interwar period and the ways in which these challenges contributed to the formation of a palestinian diaspora and to the emergence of palestinian national consciousness nadim bawalsa considers the migrants strategies for economic success in the diaspora for preserving their heritage and for resisting british mandate legislation including citizenship rejections meted out to thousands of palestinian migrants they did this in newspapers social and cultural clubs and associations political organizations and committees and in hundreds of petitions and pleas delivered to local and international governing bodies demanding justice for palestinian migrants barred from palestinian citizenship as this book shows palestinian political consciousness developed as a thoroughly transnational process in the first half of the twentieth century and the first articulation of a palestinian right of return emerged well before 1948

the israeli palestinian conflict is the longest on going hot and cold war in the 20th and 21st century in this book the author argues that human rights standards are the key to a just and sustainable solution and that tragically no one has ever made serious use of them in trying to end the conflict the reader will have a comprehensive view of

the conflict its relationship to surrounding world events and its similarities to and differences from other conflicts especially those embedded in american race relations

this first of a kind collection brings together in one volume the strongest available evidence of successful transfer effects from unofficial third party work to official peacemaking using comparative case analysis from several real world interventions paving the way offers insights into the conditions and qualities of successful programs of interactive conflict resolution from experts in the field editor ronald j fisher has assembled a collection of seminal case studies that illustrate interactive approaches to conflict resolution from the malaysia indonesia conflict in the 1960s to the peru equador peace process of the late 1990s integrating theory research and practice the cases posit that interactive conflict resolution can make a significant and sometimes essential contribution to the resolution of protracted and violent identity conflicts the methods and solutions offered in paving the way will serve as best practices for those in the field and as training tools and resources for scholars and policymakers

this book is a collection of essential essays on resolving the israeli palestinian conflict by eminent social psychologist herbert c kelman few experts or practitioners know the israeli palestinian conflict as well as kelman and for over forty years he has conducted interactive problem solving workshops at harvard university and elsewhere engaging more than one hundred israeli arab and palestinian political activists journalists and intellectuals in constructive dialogue spanning the years 1978 to 2017 the essays gathered here are still relevant today and attest to the author s broad empathy for palestinians and israelis and his passionate pursuit of a resolution of their conflict based on consistent principles

that satisfy the essential psychological needs and minimum political interests of both the selected essays are not only insightful academic papers but also serve as snapshots in time of the ebb and flow of conflict and peace efforts as well as guideposts for future would be negotiators and facilitators this volume will be of much interest to students of middle eastern politics peace and conflict studies and international relations and will help would be negotiators and mediators in practice

contains public messages and statements of the president of the united states released by the white house from january 1 to june 30 2002

for most of the twentieth century considered opinion in the united states regarding palestine has favored the inherent right of jews to exist in the holy land that palestinians as a native population could claim the same right has been largely ignored kathleen christison s controversial new book shows how the endurance of such assumptions along with america s singular focus on israel and general ignorance of the palestinian point of view has impeded a resolution to the arab israeli conflict christison begins with the derogatory images of arabs purveyed by western travelers to the middle east in the nineteenth century including mark twain who wrote that palestine s inhabitants were abject beggars by nature instinct and education she demonstrates other elements that have influenced u s policymakers american religious attitudes toward the holy land that legitimize the jewish presence sympathy for jews derived from the holocaust a sense of cultural identity wherein israelis are like us and arabs distant aliens she makes a forceful case that decades of negative portrayals of palestinians have distorted u s policy making it virtually impossible to promote resolutions

based on equality and reciprocity between palestinians and israelis christison also challenges prevalent media images and emphasizes the importance of terminology two examples are the designation of who is a terrorist and the imposition of place names which can pass judgment on ownership christison s thoughtful book raises a final disturbing question if a broader frame of reference on the palestinian israeli conflict had been employed allowing a less warped public discourse might not years of warfare have been avoided and steps toward peace achieved much earlier for most of the twentieth century considered opinion in the united states regarding palestine has favored the inherent right of jews to exist in the holy land that palestinians as a native population could claim the same right has been largely ignored

israeli u s relations are an important factor in u s policy in the middle east and congress has placed considerable emphasis on the maintenance of a close and supportive relationship the main vehicle for expressing support for israel has been foreign aid israel currently receives about 3 billion per year in economic and military grants refugee settlement assistance and other aid israel is not economically self sufficient since 1976 israel has been the largest annual recipient of u s foreign assistance which helps economically support a country which has steadily supported the us in the region and also serves a leader in innovation in many fields such as medicine military electronics and other crucial areas of technological development

dr jamil effarah tackles the struggle between palestinians and israelis in three volumes under the title think palestine that exposes series of articles addressing various issues regarding the complex struggle between palestinians and israelis based on

developing events that took place involving the u s administrations and their policies of support for israel in the conflicts among palestinians arabs and israelis this volume iii is intended for those students teachers politicians executives policy makers and others who are interested or involved in the middle east affairs he interprets these events and policies as reflected by the last six years 2013 2018 dr effarah started writings since 1952 while student at the american university of beirut aub as an arab american independent thinker he judges events according to their merits while acting as a participant observer to the one sided american policy toward the middle east that serves the interest of israel he records and highlights the facts in an attempt to find the key to unlock the palestinian arab and israeli conflicts his personal feelings as a survival of the palestinian holocaust of 1948 and his interpretations toward the proceedings representing a major part in the events that took place in that period to find solutions to the palestinians dilemma is to be fair to think palestine to think palestine is to understand how to find the real key to just solutions to the problems in that region dr effarah attempts to create a voice for arab americans to stand up and be counted and act as an integral part of the american society he keeps pressing for more american arab participation in the political process for more transparency and for faster and farther reaching to the americans hearts and minds by trying to make them understand the arabs situations and arab christian patrimony culture and heritage dr effarah attempts to create an arab american balanced policy to reach americans and convince them that there are special interest groups and influential lobbyists in washington d c who misinform media and try to spin the story around while beholding to the fabricated israeli points of view to counterbalance the zionist efforts arab americans should think

palestine and ask the american citizens to find answers to why the american citizens the taxpayers give money outright to israel more than 8 5 million per day according to the cia factbook in 2012 it also was upgraded to 8 9 million per day with president trump administration giving 3 3 billion in 2019

schoenbaum s book is a history of one of the most remarkable liaisons in international experience a portrait of the special relationship between the last remaining superpower and the tiny jewish state between the jordan and the mediterranean and a study of how that relationship grew and works from truman to bush the united states has assured israel s existence while providing billions in military and economic support over the same period no u s president has ever submitted a formal treaty of alliance to the senate or even moved the american embassy from tel aviv to jerusalem in fact cross purposes and mutual doubts have always coexisted with shared values complementary interests great expectations and real achievements schoenbaum s book traces israeli american relations from their roots in both american and jewish experience to the risks and opportunities of the current peace process it also examines the relationship in the perspective of two world wars the cold war the gulf war european colonialism and middle eastern nationalisms global policy and domestic politics in both countries the result is the story of one of history s oddest international couples hard pressed to live together but unable to live apart

in september 1978 william Quandt a member of the white house national security council staff spent thirteen momentous days at camp david the presidential retreat in maryland where three world leaders were holding secret negotiations when u s president jimmy

carter egyptian president anwar sadat and israeli prime minister menachem begin emerged on september 17 they announced a monumental accomplishment the first peace agreement between israel and one of its arab neighbors praised by some for laying the foundations for peace between egypt and israel the accords have also been criticized for failing to achieve a comprehensive settlement including a resolution of the palestinian question but supporters and critics alike recognize the importance of what happened at camp david and both groups acknowledge the vital role played by the united states in reaching an agreement there are few eyewitness accounts of the camp david negotiations of the three leaders present only jimmy carter wrote specifically of the talks in *Keeping Faith* memoirs of a president 1982 neither sadat nor begin ever wrote about camp david quandt's book is not only an eyewitness account but a scholar's reconstruction of the event with insights into the people politics and policies his camp david has provided a comprehensive and lasting guide to the difficult negotiations surrounding the talks including the fraught scenario leading up to the meetings at the presidential retreat and the accord that would lead to sadat and begin jointly receiving the 1978 nobel peace prize praise for camp david peacemaking and politics the most authoritative account of a major historic event written with scrupulous scholarship by a key behind the scenes participant zbigniew brzezinski adviser to the president for national security affairs 1977-81 an excellent piece of work will represent a major contribution to the academe

this edited collection brings together a group of rhetoricians seeking to develop productive ways to discuss the israel-palestine conflict while avoiding the discursive impasses that so often derail attempts to exchange points of view

seventy one years ago in 1948 the nakba the catastrophe overturned life in palestine forcing three quarters of palestinians into exile depriving them of their land their homes their belongings today those who can bear witness to that period are becoming rare from different social backgrounds 19 men and women remember the coexistence that prevailed in palestine the war the exile as well as the strength and resilience which they had to muster to adapt to new realities life stories expressed in the first person are accompanied by black and white portraits where each look questions the coming generations for every palestinian jerusalem is charged with symbolic meaning of identity and of remembrance the more so because it has become inaccessible to most the city is made the focus of a compilation of color photographs presented for a contemporary look between shadow and light

this annual referential report has become an essential classic in the academic realm of palestinian studies it includes the latest and most recent statistical and analytic data on the various developments related to the palestinian issue al zaytouna centre for studies consultations has just released the palestinian strategic report 2011-12 psr 2011-12 it reviews the various developments concerning the palestinian question in a comprehensive objective and academic manner covering the period up until the end of 2011-12 as well as some developments in 2012 psr 2011-12 which is being published for the seventh consecutive year is one of the most important studies published on an annual basis by al zaytouna it has become a staple reference for specialists and those interested in palestinian affairs owing to its comprehensive coverage of the developments related to the palestinian question throughout the whole year psr 2011-12 observes strict professional and academic standards and offers a wealth of data up to

date statistics and tables and charts it also contains strategic assessments and offers an outlook of future events this 415 page book was co authored by 12 researchers specializing in palestinian affairs and was revised by four advisers and edited by associate professor dr mohsen mohammad saleh this year s psr contains seven chapters instead of eight with demographic and economic indicators having been merged into one chapter and added to educational indicators in the west bank wb and gaza strip gs distinguishing this year s report from its predecessors psr 2011 12 concludes that the palestinian political arena is still experiencing the same problems and obstacles seen in previous years most notably the failure to bring together the various factions and constituents of the palestinian people under one umbrella the palestine liberation organization plo the lack of a unified strategic vision the failure to agree on the priorities for national action in the current stage and the continuing conflict between the strategies of resistance and negotiated peace this is in addition to the fact that palestinian decision making centers remain in disarray coming under pressure from the israeli occupation in the wb and israeli blockade in gs as regards reconciliation psr 2011 12 argues that steps towards achieving it will continue to stumble expressing little optimism regarding the legislative and presidential elections and the elections for the palestinian national council pnc furthermore there remain significant hurdles before the reformation of the plo and the security forces where the insistence of the palestinian authority pa in ramallah on maintaining a high level of security coordination with the israel remains the biggest obstacle to achieving real palestinian reconciliation as concerns israel the psr states that 2011 12 did not witness any significant changes in relation to its internal political landscape except the fact that the

israeli society has continued to lurch to the extreme right in general in tandem with increased racist manifestations targeting the palestinians of 1948 the psr discounted the possibility of the negotiations making any serious breakthroughs in the remainder of 2012 especially as the causes and factors leading to the failure of the efforts to resume negotiations remain extant chiefly as a result of israeli ongoing settlement activities reduced american interest in the palestinian issue in light of the preoccupation with the presidential elections and continuing changes unfolding in many arab countries most notably egypt at the arab level psr 2011 12 indicates that the palestinian cause was not absent from the agendas of the arab uprisings of 2011 12 albeit it was not prominently present in them either the emergence of democratic systems that reflect the will of the populaces and with the rise of political factions that are faithful to the palestinian cause and are not subservient to foreign agendas hope remains that the palestinian question will receive more attention from these new regimes with respect to international affairs the report concludes that international diplomatic efforts concerning the palestinian question declined further in 2011 12 as a result of several factors and developments these include the uprisings and transformations in several arab countries the resurging tension surrounding the iranian nuclear program and the prospects of a military confrontation and the repercussions of the global financial crisis which has particularly hit countries in the european union psr 2011 12 points out that 2012 marks the year of the us presidential elections during which american diplomatic efforts in the middle east traditionally wane while the stances of both the democratic and republican parties converge towards the israeli position with a view to win over the jewish vote the report also collates many statistics concerning

israeli violations at various levels including the fact that 118 palestinians had been killed by the israeli forces and settlers in gs and the wb including jerusalem in 2011 12 while 554 palestinians and international solidarity activists were wounded on the other hand israel security agency isa recorded 21 israeli deaths in the same year as a result of attacks carried out by palestinians while 122 israelis were wounded on the subject of settlement building the pa information center concerning colonization and annexation wall affairs in the ministry of state recorded the existence of 474 settlement sites in the wb until the end of 2011 including 184 settlements 171 unauthorized outposts 26 other settlement sites and 93 buildings which were partially or fully appropriated by the settlers in east jerusalem in addition psr 2011 12 draws attention to the fact that the pace of attacks in jerusalem has been surging year after year to stress that the battle for the judaization of the holy city remains israel s first priority in conjunction with a trend of growing obsession with the jewishness of the state dominating public thinking in the state of israel the report also adds that 2011 saw a marked upsurge in attacks against islamic and christian holy sites in palestine by jewish extremists and israel mostly as part of the price tag wave of attacks by settlers in the wb as for demographic indicators the number of palestinians in the world stood at the end of 2011 at about 11 22 million people with half of whom i e 5 63 million 50 1 living in the diaspora the other half i e 5 6 million people 49 9 live in historic palestine including around 1 37 million in the territories occupied in 1948 and 4 23 million people in the wb and gs according to psr 2011 12 if current population growth levels of both palestinians and jews remain the same the populations of palestinians and jews in historic palestine will equalize in 2016 when the number of both jews and palestinians will

be approximately 6 4 million in 2020 the jewish population will be 6 9 million and will represent about 48 9 percent of the total population compared to 7 2 million palestinians concerning economic indicators in the wb and gs the report states that 2011 did not see any new developments concerning the direct dependency of the palestinian economy in the wb and gs on the israeli economy or the fact that this economy is isolated from the arab world and the rest of the world owing to israel s control of all international ports and palestinian border crossings this is in addition to the fact that palestinian foreign trade is mostly done with israel psr 2011 12 also highlights the enormous disparity between the economic conditions of the palestinians in the wb and gs on one hand and those of the israelis on the other indeed the per capita income in 2011 was 1614 in the wb and gs around 1981 in the wb and 1073 in gs compared to 31 291 in israel the gdp in the wb and gs reached around 6 34 billion in 2011 while the israeli gdp totaled 242 92 billion

strongdocuments from the classified papers leaked to al jazeera in january give the clearest account yet of what really goes on in middle east peace talks including revealing off the record remarks made by condoleezza rice tony blair mahmoud abbas and other key players in january 2011 al jazeera television published 1 600 pages of confidential papers and memoranda from the last five years of peace negotiations between israel and the palestinians this book presents complete texts of a number of the most important papers along with an analysis that reveals a complex tortuous and so far unproductive palestine israeli peace process in a rare unfiltered look at a current topic as it unfolds issues discussed include the israeli illegal settlements the hamas rockets the israeli wall the invasion of gaza the rights of palestinian refugees and the move to define

israel as an exclusively jewish state for the first time it is possible to compare public utterances such as the settlements must go from palestine and we want the palestinians to have a viable state from israel and the u s with the very different views expressed in confidential meetings and memoranda

from the madrid invitation in 1991 to the introduction of the oslo process in 1993 to the present a negotiated settlement has remained the dominant leitmotiv of peacemaking between israel and the palestinian people that the parties have chosen negotiations means that either side s failure to comply with its obligation to negotiate can result in an internationally wrongful act and in response countermeasures and other responses this monograph seeks to advance our understanding of the international law of negotiation and use this as a framework for assessing the israeli palestinian dispute with the palestinian people s unsuccessful attempt to join the united nations as a member state in autumn 2011 and the successful attempt to join the same institution as a non member observer state in november 2012 providing a case study for this the legal consequences of these applications are not merely of historical interest they inform the present rights and obligations of israel and the palestinian people this work fills a significant gap in the existing international law scholarship on the israeli palestinian dispute which neither engages with this means of dispute settlement generally nor does so specifically within the context of the palestinian people s engagements with international institutions based on primary research this book explores materials that were not analyzed before it treats a highly political issue with

scientific objectivity that strikes a balance between various points of view the book will be an essential reading to all those involved in peace studies international negotiations and israeli palestinian conflict mutaz m qafisheh associate professor of international law hebron university a compelling and innovative account of the legal aspects of the palestinian israeli conflict a must read efraim karsh king s college london and bar ilan university author of palestine betrayed a superbly imagined and executed study on palestine that puts the negotiation imperative at the heart of its narrative fully interrogating the involvement of public international law at each step of the long and layered history that is vigorously brought to life in these pages a study that also promises texture nuance and depth to the legal analysis it offers and it delivers handsomely on each of these fronts dino kritsiotis chair of public international law head of the international humanitarian law unit university of nottingham

during the last decade of the british mandate for palestine 1939 1948 arabs and jews used the law as a resource to gain leverage against each other and to influence international opinion the parties invoked transformational legal framing to portray the essentially political religious conflict as a legal dispute involving claims of justice injustice and victimisation and giving rise to legal equitable remedies employing this form of narrative and framing in multiple trials during the first 15 years of the mandate the parties continued the practice during the last and most crucial decade of the mandate the term trial provides an appropriate typology for understanding the adversarial proceedings during those years in which judges lawyers witnesses cross examination and legal argumentation played a key role in the conflict the four trials between 1939 and 1947 produced three different outcomes the one state solution in favour of the palestinian

arabs the no state solution and the two state solution embodied in the united nations november 1947 partition resolution culminating in israel s independence in may 1948 this study analyses the role of the law during the last decade of the british mandate for palestine making an essential contribution to the literature on lawfare framing and narrative and the arab israeli conflict

this book tells the full inside story of the bush administration and the israeli palestinian conflict written by a top national security council officer who worked at the white house with bush cheney and rice and attended dozens of meetings with figures like sharon mubarak the kings of jordan and saudi arabia and palestinian leaders it brings the reader inside the white house and the palaces of middle eastern officials how did 9 11 change american policy toward arafat and sharon s tough efforts against the second intifada what influence did the saudis have on president bush did the american approach change when arafat died how did sharon decide to get out of gaza and why did the peace negotiations fail in the first book by an administration official to focus on bush and the middle east elliot abrams brings the story of bush the israelis and the palestinians to life

in this clearly written and balanced volume longtime middle east expert don peretz examines the current conditions and future prospects of the palestine refugees and the members of the palestinian diaspora he reviews their demographics living conditions political identity and perspectives on the peace process including the gaza jericho plan he explores a variety of proposed solutions including repatriation compensation and resettlement

this annual referential report has become an

essential classic in the academic realm of palestinian studies it includes the latest and most recent statistical and analytic data on the various developments related to the palestinian issue al zaytouna centre for studies and consultations issued its palestinian strategic report 2010 11 psr 2010 11 which addresses the developments of the palestinian issue in 2010 11 the psr is considered one of the most important scientific studies published annually by al zaytouna centre the report is rich with information analyses tables and charts besides strategic visions and future outlooks it is published for the sixth year in a row and it has become one of the major sources for experts and those interested in the palestinian issue it provides a comprehensive coverage of the developments of the palestinian issue that happened over a year while abiding by strict scientific and professional standards the report is 444 medium sized pages it is co authored by 15 researchers specialized in the palestinian issue reviewed by four consultants and edited by dr mohsen m saleh the psr 2010 11 stresses that the uprisings witnessed in the arab world since early 2011 especially in egypt will have a direct impact on the palestinian issue the impact will most likely be positive if the uprisings achieved their goals and yielded political regimes which express the real will of the arab peoples however the report notes that the internal affairs would most probably be the primary concern during the coming period regarding the inter palestinian reconciliation psr 2010 11 asserts that the reconciliation agreement signed in cairo last may still needs more serious steps to end the division and achieve real reconciliation on the ground it needs to resolve many obstacles through cooperation between the different parties away from external interventions and pressures on the israeli level the report mentions that 2010 has continuously

witnessed the inclination of the israeli society towards the extreme right it further notes the absence of any breakthroughs in 2011 especially in the light of israel s rejection for the negotiations with president mahmud abbas the agreement signed with hamas and the pa s attempts to obtain international recognition of the palestinian state in september 2011 hindered such negotiations on the international level the psr says that the international diplomatic efforts towards the palestinian issue have failed again in 2010 they could not achieve any significant progress regarding the peace settlement track or the siege imposed on the gaza strip moreover psr 2010 11 includes a large number of figures and statistics on israeli violations on different levels during 2010 98 palestinians were killed in the west bank and gaza strip including jerusalem by israeli forces and settlers while 967 palestinians and international solidarity activists were wounded on the other hand israel s internal security service mentioned that during 2010 9 israelis were killed and 28 were wounded in operations carried out by the palestinians concerning settlement building the report shows that despite the 10 month israeli moratorium on settlement building israel established 1819 buildings apartments in 133 settlements all over the west bank including jerusalem in addition to 1433 mobile homes caravans psr 2010 11 also discusses the increased israeli attacks on the islamic and christian holy sites in jerusalem and historic palestine during 2010 it further shows that the developments during that year revealed that the judaization of jerusalem has become the primary battle for israel due to the obsession with the jewishness of the state dominating the israeli mind concerning demographic indicators psr 2010 11 mentions that at the end of 2010 the number of palestinians around the world was around 11 14 million people more than half of them i e 5 75 million 51 6 live in diaspora

while the rest i e 5 39 million 48 4 live in historic palestine the latter are distributed by 1 28 million people in the territories occupied in 1948 and 4 11 million in the 67 territories the report mentions that if the current growth rates of the palestinians and the jews persist the number of palestinians and jews will become on par by 2017 where each will reach around 6 53 million thus in 2020 around 49 2 of the population will be jews as their number will reach 6 87 million compared to 7 09 million palestinians regarding the economic indicators in the west bank and the gaza strip the report shows that events during 2010 has not affected the direct dependence of the palestinian economy on the israeli economy in addition the isolation of the palestinian economy from the outside world continued due to the israeli control of all international exits and palestinian border crossings besides the palestinian foreign trade psr 2010 11 also refers to the enormous difference between the palestinian economy in the west bank and the gaza strip on one hand and the israeli economy on the other thus it shows for example that in 2010 the palestinian gdp per capita was 1500 around 1925 in the west bank and 877 in the strip compared to 28 500 in israel in addition the gdp amounted to 5 73 billion for the palestinians compared to 217 13 billion for the israelis

this book argues that domestic israeli politics have been a key factor in determining israeli palestinian peacemaking in the period from 1988 to the present

madiha madfai explores jordan s role in the usa s peacemaking efforts during the carter reagan and bush administrations

this volume addresses the changes in the middle east and in the united states as well that has significantly affected the us middle eastern dynamic it provides an objective cross cultural assessment of u s foreign policy in the middle east

the 1947 un resolution to partition palestine irrevocably changed the political landscape of the middle east giving rise to six full fledged wars between arabs and jews countless armed clashes blockades and

terrorism as well as a profound shattering of palestinian arab society its origins and that of the wider arab israeli conflict are deeplyrooted in jewish arab confrontation and appropriation in palestine but the isolated occasions of violence during the british mandate era 1920 48 suggest that the majority of palestinian arabs yearned to live and thrive under peaceful coexistence with the evolving jewish national enterprise so what was the real cause of the breakdown in relations between the two communities in this brave and groundbreaking book efraim karsh tells the story from both the arab and jewish perspectives he argues that from the early 1920s onward a corrupt and extremist leadership worked toward eliminating the jewish national revival and protecting its own interests karsh has mined many of the western soviet un and israeli documents declassified over the past decade as well as unfamiliar arab sources to reveal what happened behind the scenes on both palestinian and jewish sides it is an arresting story of delicate political and diplomatic maneuvering by leading figures ben gurion hajj amin husseini abdel rahman azzam king abdullah bevin and truman over the years leading up to partition through the slide to war and its enduring consequences palestine betrayed is vital reading for understanding the origin of disputes that remain crucial today
