international relations scholarship posits that legitimacy authority and violence are attributes of states however groups like hizballah clearly challenge this framing of global politics through its continued ability to exercise violence in the regional arena surveying the different and sometimes conflicting interpretations of state society relations in lebanon this book presents a lucid examination of the socio political conditions that gave rise to the lebanese movement hizballah from 1982 until the present framing and analysing hizballah through the perspective of the resistance society an articulation of identity politics that informs the violent and non violent political strategies of the movement abboud and muller demonstrate how hizballah poses a challenge to the lebanese state through its acquisition and exercise of private authority and the implications this has for other lebanese political actors an essential insight into the

complexities of the workings of hizballah this book broadens our understanding of how legitimacy authority and violence can be acquired and exercised outside the structure of the sovereign nation state an invaluable resource for scholars working in the fields of critical comparative politics and international relations

this book is a chapter by chapter analysis and documentation of the power of israel via the israeli jewish or pro zionist lobby on us middle east policy it raises serious questions as to the primary beneficiary of us policy and its destructive results for the united states the extraordinary extent of us political economic military and diplomatic support for the state of israel is explored along with the means whereby such support is generated and consolidated contending that zionist power in america ensured unconditional us backing for israeli colonization of palestine and its massive uprooting of palestinians it

the israeli army officially named the israel defence forces idf was established in 1948 by david ben gurion israel's first prime minister who believed that the whole nation is the army in his mind the idf was to be an army like no other it was the instrument that might transform a diverse population into a new people since the foundation of israel therefore

the idf has been the largest richest and most influential institution in israel s jewish society and is the nursery of its social economic and political ruling class in this fascinating history bresheeth charts the evolution of the idf from the nakba to wars in egypt lebanon iraq and the continued assaults upon gaza and shows that the state of israel has been formed out of its wars he also gives an account of his own experiences as a young conscript during the 1967 war he argues that the army is embedded in all aspects of daily life and identity and that we should not merely see it as a fighting force enjoying an international reputation but as the central ideological political and financial institution of israeli society as a consequence we have to reconsider our assumptions on what any kind of peace might look like

psychiatric epidemiological research in israel has been thriving over the years in recent decades it has expanded

its concerns from treated populations to community based studies

john pilger is one of the world s pre eminent investigative journalists and documentary film makers his best selling books of reportage which include heroes and hidden voices have in the words of noam chomsky been a beacon of light in often dark times in freedom next time he looks at five countries in each of which a long struggle for freedom has taken place in each the people having shed blood and dreams are still waiting in afghanistan

iraq and south africa there has been the promise of hope and even an official freedom but the reality of these divided societies is that they are still waiting for real freedom in palestine the cycle of violence continues with no resolution in sight and the island of diego garcia in the indian ocean is a microcosm of the ruthlessness of great powers the island was sold by the british to the american military in the 1960s the indigenous population descended from slaves were forcibly removed to the slums of port louis in mauritius they have continued to fight for the return of their homeland ever since three years ago the high court granted them the right of return but this has subsequently been blocked the island remains the us s third biggest military base a base from which they are able to launch attacks against the middle east once again john pilger gives a voice to the people living through these momentous times and in gripping detail shows us the

lives behind the headlines

in 2002 sixty prominent american intellectuals released an open letter defending the use of military force against al qa ida sparking an impassioned international debate unlike any other in which jihadists journalists liberal muslims and german pacifists engaged one another on the most pressing issues of our time terrorism u s policy and islam west relations this volume chronicles that debate and includes contributions from both sides of the political spectrum in america and the middle east and even from al qa ida

drawing on previously untapped documents interviews with key actors and his own experiences in the department of state nathan pelcovits takes a fresh look at the impact of un intervention as peacekeeper and peacemaker on the arab israeli conflict during the formative years between 1948 and 1960 he examines the reasons behind

the un assumption of a quasi custodial role in the dispute and how it is that israel and the arab states have come to hold diametrically opposed views of the value of engaging the un as intermediary with the un israel relationship cooling into one of mutual suspicion and mistrust most relevant to the current peace process pelcovits explains why un action shifted early in the game from an ambitious effort at peaceful settlement to keeping the peace of a long armistice pelcovits argues that the wounds of the formative years have affected the dynamic of the peace process to this day the un has been accorded a

marginal role in the negotiations ceremonial and passive and un peacekeepers are not likely to be enlisted as guarantors of the settlement

compilation of facsimiles of newspaper articles government documents and legal cases pertaining to legal issues surrounding the hijacking of the italian cruise ship achille lauro by the palestine liberation front in 1985
