the Great War transformed the Middle East bringing to an end four hundred years of Ottoman rule in Arab lands while giving rise to the Middle East as we know it today a century later the experiences of ordinary men and women during those calamitous years have faded from memory a land of aching hearts traverses ethnic class and national borders to recover the personal stories of the civilians and soldiers who endured this cataclysmic event among those who suffered were the people of Greater Syria comprising modern Syria Lebanon Jordan Israel and Palestine as well as the people of Turkey Iraq and Egypt beyond the shifting fortunes of the battlefield the region was devastated by a British and French naval blockade made worse by Ottoman war measures famine disease inflation and an influx of refugees were everyday realities but the local populations were not passive victims Fawaz chronicles the initiative and resilience of civilian émigrés entrepreneurs draft dodgers soldiers villagers and townsmen determined to survive the war as best they could the right mix of ingenuity and practicality often meant the difference between life and death the war's aftermath proved bitter for many survivors nationalist aspirations were quashed as Britain and France divided the Middle East along artificial borders that still cause resentment the misery of the Great War and a profound

revised and updated fourth edition the world today rests on increasingly unstable fault lines from the conflict in ukraine or fresh upheavals in the middle east to the threats posed to humanity by a global pandemic climate change and natural disasters the world's danger

zones once again draw their battle lines across our hyperconnected yet fragmented globe join veteran economist journalist john andrews as he analyses the old enmities and looming collisions that underlie conflict in the twenty first century region by region discover the causes contexts participants and likely outcomes of every globally significant struggle now underway from drug cartels to cyber war this is the indispensable guide for anyone who wants to understand our perilous world

the social and economic forces that worked together to bring the ba thist party to power in 1963 the failure of traditional and liberal leadership an agrarian crisis the development of party ideology the politicization of the army and rural mobilization are examined in this study dr hinnebusch aims to show how the ba th s road to power shaped its ideology and the character of its rule attention is then given to the pillars of state power the army political organizations and the peasantry the author concludes that the regime has pursued a dual strategy for maintaining power placing kin and clientelist networks at the levers of coercive power and building structures based on the mass incorporation of the rural population

throughout the turbulent history of the levant the alawis a secretive resilient and ancient muslim sect have aroused suspicion and animosity including accusations of religious heresy more recently they have been tarred with the brush of political separatism and complicity in the excesses of the assad regime claims that have gained greater traction since the onset of the syrian uprising and subsequent devastating civil war the contributors to this book provide a complex and nuanced reading of syria s alawi communities from loyalist gangs shabiha to outspoken critics of the regime drawing upon wide ranging research that examines the

historic political and social dynamics of the alawi and the syrian state the current tensions are scrutinised and fresh insights offered among the themes addressed are religious practice social identities and relations to the ba ath party the syrian state and the military apparatus the analysis also extends to lebanon with a focus on the embattled alawi community of jabal mohsen in tripoli and state relations with hizballah amid the current crisis

shibley telhami and michael barnett together with experts on egypt iran iraq israel jordan and syria explore how the formation and transformation of national and state identities affect the foreign policy behavior of middle eastern states

this collection seeks to advance our understanding of intra islamic identity conflict during a period of upheaval in the middle east instead of treating distinctions between and within sunni and shia islam as primordial and immutable it examines how political economy geopolitics domestic governance social media non and sub state groups and clerical elites have affected the transformation and diffusion of sectarian identities particular attention is paid to how conflicts over distribution of political and economic power have taken on a sectarian quality and how a variety of actors have instrumentalized sectarianism the volume covering syria iraq lebanon saudi arabia and the gulf iran and egypt includes contributors from a broad array of disciplines including political science history sociology and islamic studies beyond sunni and shia draws on extensive fieldwork and primary sources to offer insights that are empirically rich and theoretically grounded but also accessible for policy audiences and the informed public

the alawis or alawites are a prominent religious minority in northern syria lebanon and southern turkey best known today for enjoying disproportionate political power in war torn syria in this book stefan winter offers a complete history of the community from the birth of the alawi nusayri sect in the tenth century to just after world war i the establishment of the french mandate over syria and the early years of the turkish republic winter draws on a wealth of ottoman archival records and other sources to show that the alawis were not historically persecuted as is often claimed but rather were a fundamental part of syrian and turkish provincial society winter argues that far from being excluded on the basis of their religion the alawis were in fact fully integrated into the provincial administrative order profiting from the economic development of the coastal highlands particularly in the ottoman period they fostered a new class of local notables and tribal leaders participated in the modernizing educational political and military reforms of the nineteenth century and expanded their area of settlement beyond its traditional mountain borders to emerge from centuries of sunni imperial rule as a bona fide sectarian community using an impressive array of primary materials spanning nearly ten centuries a history of the alawis provides a crucial new narrative about the development of alawi society

the first of a new series the contemporary archive of the islamic world this title draws on the resources of world of information a british publisher that since 1975 has published analyses of the politics and economics of all the middle east countries for decades syria lay at the heart of middle eastern affairs under assad rulers and sharing a border with israel syria's

fortunes have been complex strategic alliances were formed and fell apart domestic rebellions were quelled often violently since 2011 syria has been in the world's headlines every day riven by a civil war that has risked bringing the world's major powers into open conflict the caiw provides an essential background to a complex international problem

the first comprehensive field based study of the syrian conflict introducing a seminal approach to civil wars

syria has often lacked sympathetic observers this book tries to interpret the country and its people in terms of how they see their own history and of what they are trying to achieve more than a political or diplomatic history it discusses the economy society education and culture to help the reader understand and explain modern syria a description of the country deals with the physical and other factors which have influenced syria's development an historical survey concentrates mainly on the period after the second world war and explains why a knowledge of syrian history is important and why syrians look at their history in the way they do the achievements problems and failures of president asad are fully discussed further chapters explain the ideological factors which have been of vital importance in syrian politics the development of education the economy and society the author looks at examples of contemporary syrian literature and the way in which writers view the problems of their society and culture this is a clear succinct and readable account of modern syria which will be essential for all those studying the middle east the developing world or international relations
