fill the void of power from american soldiers on deadly street patrol to the highest ranking officers voyage to a stricken land offers a cogent personal history of one of america s most controversial conflicts

offering a global account of the long world war ii this book challenges conventional narratives that picture a clearly defined war period 1939 1945 followed by a distinct postwar era dominated by the encroaching cold war arguing instead that while some aspects of the war did end abruptly in 1945 in many corners of the world war bled directly and raggedly into the postwar such as allied occupation in italy the civil war in greece the rise of us hegemony and struggles for national liberation in india from world war to cold war shows how critical developments in the latter half of the 20th century were a direct result of the second world war and reconceptualizes the conflict as an intersecting series of regional wars as well as an overarching world war offering new ways to think about how the war shaped the second half of the 20th century this book reaches into those regions often overlooked in the study of wwii showing how wartime relations between the us and latin america played a crucial role in the worldwide development of us hegemony how wwii accelerated the retreat from empire in sub saharan africa and how it encouraged the growth of anti colonialism in regions around the world buchanan offers a truly global account of the outcomes of the largest conflict in human history and challenges the temporal boundaries in which we view it

the twentieth century saw dramatic changes in the once kurd dominated kirkuk region of iraq despite having repeatedly relied on the kurdish population of iraq for military support on three occasions the united states have abandoned their

supposed allies in kirkuk the great betrayal provides a political and diplomatic history of the kirkuk region and its international relations from the 1920s to the present day based on first hand interviews and previously unseen sources it provides an accessible account of a region at the very heart of america s foreign policy priorities in the middle east in september 2017 iraqi kurdistan held an independence referendum intended to be a starting point on negotiations with the iraqi government in baghdad on the terms of a friendly divorce though the us turkey and iran opposed it the referendum passed with 93 of the vote rather than negotiate iraq s prime minister heider al abadi issued an ultimatum and then attacked the region iraq s kurdish population have been abandoned once again by their supposed allies in the us in this book david l phillips reveals the failings of america s policies towards kirkuk and the devastating effects of betraying an ally

in this vivid first person narrative a special operations joint terminal attack controller jtac and his commanding general give fascinating and detailed accounts of america s fight against one of the most barbaric insurgencies the world has ever seen in the summer of 2014 three years after america s full troop withdrawal from the iraq war president barack obama authorized a small task force to push back into baghdad their mission protect the iraqi capital and u s embassy from a rapidly emerging terrorist threat a plague of brutality that would come to be known as isis had created a foothold in northwest iraq and northeast syria it had declared itself a caliphate an independent nation state administered by an extreme and cruel form of islamic law and was spreading like a newly evolved virus soon a massive and devastating u s military response had unfolded hear the ground truth on the senior military and political interactions that shaped

america's war against isis a war unprecedented in both its methodology and its application of modern military technology enter the world of the strike cell secretive operations centers where america's greatest enemies are hunted and killed day and night plunge into the realm of the special operations jtac american warfighters with the highest enemy kill counts on the battlefield and gain the wisdom of a cumulative half century of military experience as dana pittard and wes bryant lay out the path to a sustained victory over isis for more information about the book visit [huntingthecaliphate.com](http://huntingthecaliphate.com)

the so called islamic state is that has swept into power in parts of syria and iraq presents an imminent danger to the global community with its capacity as an effective ideologically motivated and bloodthirsty fighting force coupled with its expanding territorial reach on the ground and online the is has taken on a quasi state form that mixes modernity with ancient rites and aggressively promotes sectarian violence and religious extremism with a decidedly apocalyptic bent too it has introduced to the middle east a new level of extremism and brutality marked by volatile fluidity with far reaching dangerously destabilizing effects on state and non state actors regionally and globally this book offers insights into the nature of the is and what the international community can do to combat it in order to achieve this objective the origins intentions leadership capabilities and operations of the is are explored the islamic state's multifaceted efforts and effects in the region and beyond are described also national regional and global strategies that are being pursued to address the new threat are examined to this end a range of recommendations are offered on specific steps that governmental intergovernmental and non governmental bodies

can take to counter the is menace lastly additional insights are presented relevant to combating the is and undermining its potential future capabilities

in the beekeeper of sinjar the acclaimed poet and journalist dunya mikhail tells the harrowing stories of women from across iraq who have managed to escape the clutches of isis since 2014 isis has been persecuting the yazidi people killing or enslaving those who won't convert to islam these women have lost their families and loved ones along with everything they've ever known dunya mikhail weaves together the women's tales of endurance and near impossible escape with the story of her own exile and her dreams for the future of iraq in the midst of isis's reign of terror and hatred an unlikely hero has emerged the beekeeper once a trader selling his mountain honey across the region when isis came to sinjar he turned his knowledge of the local terrain to another more dangerous use along with a secret network of transporters helpers and former bootleggers abdullah shrem smuggles brutalised yazidi women to safety through the war torn landscapes of iraq syria and eastern turkey this powerful work of literary nonfiction offers a counterpoint to isis's genocidal extremism hope as ordinary people risk torture and death to save the lives of others

this book explores the application of the work of the philosopher giorgio agamben to the post arab uprisings in the middle east considering the evolution of regime society relations that ultimately erupted in violence in the early months of 2011 agamben's ideas of the state of exception and bare life provide important intellectual tools to understand the nature of sovereignty and the regulation of life which has largely been missing in the study of the region

filling a theoretical and empirical gap by exploring the concept of the state of exception via a multidisciplinary approach simon mabon sanaa alsarghali and contributors in the fields of political science law and philosophy offer a unique set of perspectives analysing how politics and law combine to facilitate the misuse of executive powers

filled with recently declassified material first hand accounts and unique photographs this book offers a rare look at the largest mobilisation of special forces in recent history the companion volume to elite 163 special operations forces in afghanistan leigh neville now turns his expert analysis to the special operations forces of the us and coalition allies serving in iraq since 2003 examining in detail the us delta force the british sas australian and canadian special forces as well as cia and mi6 operational units this book provides a crucial study of their skills and success in iraq from the battle of debecka to storming the safe house of uday hussein in a controversial war that was plagued by high fatalities and military blunders this book highlights the successes enjoyed by special forces operatives

this volume is a collection of articles that critically examine the efficacy ethics and impact of the war on terror as it has evolved since 9 11 during the decade and a half of the global war on terror gwot numerous books have considered the political psychosocial and economic impacts of terrorism however there has been little systematic effort to examine the effectiveness of the gwot in achieving its goals furthermore there is virtually nothing that presents a comparative analysis of the gwot by the people most directly affected by it citizens and scholars from conflict zones in the middle east there is therefore great

need for a book that analyzes the strategies tactics and outcomes of the gwot and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives the contributions in this volume were chosen to specifically address this need in doing so it uniquely provides not only western perspectives of the gwot but also importantly includes perspectives from the middle east and those most directly affected by it including contributions from scholars and policy makers overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving war on terror the book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy middle eastern politics security studies and ir as well as policy makers

the military victories of isis have overturned the geopolitical map of the middle east media attention has focused on isis savage treatment of its enemies and its ability to attract foreign fighters however in order to explain its success a dispassionate account of its innovations in insurgency ideology and governance is needed the first effort to build an islamic state in iraq was defeated by us and iraqi forces in 2011 that the second attempt dating from 2014 has been more successful calls for explanation hashim argues that by focusing their ideology first and foremost on extreme anti shia sectarianism rather than on western infidels isis founders were able to present themselves as the saviours of what they saw as the embattled sunni nation in iraq this enabled them to win the support of sunni communities moreover isis stunning ability to take major cities is a result of its innovative tactics it sows terror in advance of its attacks by using targeted assassinations to kill key city

leaders and its decentralised regional command structure facilitates an unusual degree of coordination between small assault units meanwhile it is making a serious effort to engage in state building and population control

underground warfare a tactic of yesteryear has re-emerged as a global and rapidly diffusing threat this book is the first of its kind to examine tunnel warfare in a systematic and comprehensive way addressing the legal issues while keeping in mind operational and strategic challenges like many other aspects of contemporary warfare the renewed use of the subterranean in armed conflict presents a challenge for democracies wishing to abide by the law to dr richmond barak this challenge has not only been under explored it is also largely underestimated by the community of states security experts and public opinion she analyzes traditional concepts of the laws of war as they relate to tunnels and underground operations contemplating questions such as whether tunnels constitute legitimate targets the assessment of proportionality in anti tunnel operations and the availability of advanced warning in this complex terrain she also identifies issues that are unique to underground warfare including those that arise when cross border tunnels burrow under a state s own civilian infrastructure

the sudden emergence of the islamic state of iraq and greater syria or most commonly known as isis is one of the most profound and alarming phenomenon in the middle east awash in sheer violence on this account there is no doubt that isis is one of the most powerful jihadist groups in the modern world this group brings a very tremendous level of fear not only in the middle east but also on other parts of the world being one of the terrorist insurgent groups in the world

a harrowing political history of kurdish iraq told through the extraordinary rags to riches story of a childhood refugee in the iran iraq war of the 1980s iraqi president saddam hussein used chemical weapons against his own people the iraqi kurds five thousand people died in what became known as the halabja massacre which has been deemed the worst chemical attack in history nicole f watts a former journalist and now professor of political science has spent over a decade researching the struggles of the kurdish

people in Iraq and in vivid lyrical prose she tells their story through the eyes of Peshawa a young Muslim Kurd whose family barely survived the bombing and then fled for their lives. *Republic of Dreams* is a harrowing portrait of Iraqi Kurdistan and its history as it weathers Hussein's genocidal campaign against the Kurds, a civil war, the US invasion of Iraq, the Arab Spring and the sustained neglect of the city of Halabja throughout the book. The thread of Peshawa's story immerses readers in the everyday and extraordinary world of Iraqi Kurds between the late 1980s and 2022, exploring the meaning of home and dislocation in the wake of war and genocide. Based on over a hundred in-depth interviews with Iraqi Kurdish activists, journalists, elected officials and community organizers and hundreds of hours of conversations with Peshawa and his family, *Republic of Dreams* brings to vivid life the story of modern Kurdistan and the Kurdish national dream to have their own homeland.

This book analyses under what conditions and with what developmental effects armed organizations shift their coercive profile during civil wars, with a focus on the recent conflicts in Syria and Iraq. The work begins with an operationalisation of the term political settlement, focusing on how power is organized in fragile and conflict-affected countries and then uses this operationalization to analyse the political settlements of contemporary Syria and Iraq, including their breakdown and transformation during recent civil wars of 2011 in Syria and 2014-17 in Iraq. It subsequently examines why and how elite factions have used armed organizations in times of conflict. This approach links an understanding of the broad evolution of power relations at the national level with the specific effects of the use of armed organizations on such relations. It argues for a shift from

assigning fixed labels to armed organizations during civil wars to studying their coercive profile in a dynamic fashion, i.e. how armed organizations behave in terms of their use of threats and coercive force. The book introduces five profiles of coercive behaviour that demonstrate how the same organization can behave very differently at various points in time. One of these, the hybrid coercive profile, fills a gap in the existing civil war typology of organized armed violence by opening up the possibility of elite factions deliberately combining collaborative and competitive modes of behaviour. As an evidence base, the book provides in-depth analysis of the origins, evolution and operations of four armed organizations that have acted under a hybrid coercive profile during the Syrian and Iraqi civil wars: the Syrian Kurdish People's Defence Forces, the Eagles of the Whirlwind of the Syrian Social Nationalist Party, the Iraqi Kurdish Peshmerga and the Badr Organization. By connecting the concepts of political settlement and civil war and applying them to specific armed organizations operating in Syria and Iraq, the book offers new insights into this nexus. This book will be of much interest to students of civil wars, conflict studies, Middle Eastern studies and international relations.

Ezidi people, Yazidi Yazidi and their culture suffered greatly at the hands of Daesh before and after the 2014 Sinjar Shingal genocide. Since the resulting forced migration, the Ezidi community, as one of the most marginalised societies in the Middle East, has undergone a significant amount of society-wide transformation. New avenues for agency have opened and Shingali Ezidi women have taken these opportunities to express transformed identities, filling spaces previously unavailable and altering traditional gender roles. This first extensive

ethnographic work ever conducted with ezidi women examines origins and developments of transformations in their female identity and agency the analysis of their expressions and performances is particularly notable because of the subaltern position under numerous layers of minority e.g. ethnicity geography religion politics culture language as well as gender the aim of this study is to investigate the utilisation of subaltern identity to actualise agency among women after genocide

relations in Iraq from the adoption of the new federal constitution in 2005 to the Kurdistan independence referendum in 2017. The book highlights the dysfunctionality of the Iraqi federal system even after the independence referendum and shows the true picture of the key issues between the Kurdistan region and the Iraqi government in Baghdad. This informative content is presented in an easy-to-grasp manner originating primarily from face-to-face interviews with relevant elites and decision makers in Iraq as well as foreign diplomats. A valuable source for academics, researchers, journalists, and students of politics and international relations at the undergraduate and postgraduate levels in all universities, especially in the West and Middle East.

This book proposes and tests a theory of separatism to determine if there are key commonalities as to why separatist movements rise and what fuels them in the post-cold war period. Separatism has been on the rise today; there are more than 100 active separatist movements with around 70 of them engaging in violence. This book focuses on examples from Europe, the Middle East, Africa, and Asia to highlight the commonalities found across the case studies. It examines the idea of separatism to better understand what drives movements to break away from preexisting states, demonstrates the factors which produce both violent separatism and the rise of armed non-state actors, and shows the options for the resolution of such conflict based on considering claims for separatism from the perspectives of separatist movements. This book will be applicable for undergraduate and postgraduate students of international relations and international politics as well as conflict, peace studies, anthropology, and post-colonial studies.

Operation Hotel California is the definitive inside account of the secret CIA mission that paved the way for the Iraq war based on exclusive interviews with the team leader Charles S. Faddis, who retired in 2008 and whose name was publicly revealed in this book for the first time. It is also the most blistering indictment by any U.S. counterterrorism officer of America's blunders vis-à-vis al-Qaeda and Iraq. Its lessons are vital as a new administration seeks to withdraw securely from Iraq and fight extremists in Afghanistan and elsewhere.

This book explains the dynamics and nature of Iraqi Kurdistan's de facto statehood since its inception in 1991. In particular, the vicissitudes of de facto independence since then. The work examines de facto statehood in Kurdistan and uncovers the dynamics of de facto statehood in Kurdistan at internal, national, and international levels. Kurdistan's de facto statehood is shown to be inherently characterized by fluidity. In this book, fluidity is defined as a highly unstable feature of de facto statehood in the relational context of non-recognition. The book includes interviews with a number of high-profile politicians and policy makers from the region. These provide unique insights into such issues as the four main factors at play in the fluidity of the de facto state of Kurdistan, the balance of power between Erbil and Baghdad, the level and form of internal fragmentation, the change of strategies to gain international recognition, and the uncertain and fluctuating external support. This book will be of much interest to students of statehood studies, Middle Eastern politics, and international relations.

the ability of terrorist groups to inflict death and destruction has markedly increased with technological advances in the areas of communication transportation and weapon capability using these new tools and networks terrorists now seek to inflict mass casualties

worldwide given these realities it is essential to research the factors that underlie a terrorist group's origins, grievances, and demands. Such insights might help others respond more effectively to insurgencies, especially when military campaigns to capture or kill every terrorist have proven unsuccessful. The freedom fighter, a terrorist's own story, explores why so many Kurdish people, especially young adults, join the Kurdistan Workers' Party (PKK) and conduct terrorist acts. Inspired by the ground-breaking classic *The Jack-Roller: A Delinquent Boy's Own Story* by Clifford R. Shaw, the author explores the issue of radicalization into terrorist organizations through the life history method, enabling a PKK terrorist or freedom fighter to tell his story over a five-month period. The author interviewed Deniz, a high-level PKK terrorist in a Turkish prison who, during his time in the PKK, rose from the lowest level to near the top in terms of terrorist operations. This riveting life history, told in Deniz's own words, provides unique insights into why someone becomes a freedom fighter and what such a life entails. The account provides extensive information on the PKK, including the group's recruitment, ideological, and military training, armed strategies, internal structures, and code of ethics, treatment of women, and goals for peace. Deniz's story not only explains why more Kurdish freedom fighters will be recruited to engage in terrorist acts but also facilitates understanding of how normal people can become involved in conflict and organizations that are designated as terrorist groups. A foreword by renowned criminologist Francis T. Cullen helps contextualize the material. This book will interest students of criminology, terrorism, counterterrorism, political violence, and security.

In this urgent and timely book, Patrick Cockburn writes the first draft of the history of the current

crisis in the Middle East. Here he charts the period from the recapture of Mosul in 2017 to Turkey's attack on Kurdish territory in November 2019 and recounts the new phase in the wars of disintegration that have plagued the region, leading to the assassination of Iranian General Soleimani. Cockburn offers panoramic ground analysis as well as a lifetime's study of the region, as author of *The Rise of Islamic State and the Age of Jihad*. He has proved to be a leading critical commentator of US intervention and the chaos it has wrecked, and here he shows how, since Trump entered the White House promising an end to the forever war, peace appears a distant possibility with the continuation of conflict in Syria, Saudi Arabia's violent intervention in Yemen, the fall of the Kurds, riots in Baghdad, and the continued aggression towards Iran. While ISIS has been defeated, it is not clear whether it has disappeared from the region. Trump's policies have appeared to pour petrol on the flames, emboldening the other superpowers involved in the proxy wars. Following the collapse of the deal with Iran, the threat of war crimes is a new balance of power possible.

The Kurdish people and the Kurdish regional government faced huge challenges rebuilding their nation and identity after the atrocities and human rights abuses committed by Saddam Hussein and his regime in 2005. A new Iraqi constitution recognized the genocide, the persecution of Yazidi Kurds, the disappearance of 8,000 males belonging to the Barzani, and the chemical attacks of Anfal and Halabja, paving the way to the investigations and claim by the Kurdish people. This book provides an in-depth analysis of the tensions caused by the Kurdish experience, the claim for the independence of a united Kurdistan, and the wider tendency towards political and social fragmentation in Iraqi society.
