august 21 2013 a chemical weapons attack on the suburbs of damascus reminds the world of the existence of the syrian war hundreds of journalists from every corner of the world rush to the frontier only to leave disappointed when obama decides not to bomb they leave behind 200 000 estimated victims and more than half of a population of 22 million people dispersed or refugeed in nearby countries the worst humanitarian crisis since wwii according to the un francesca borri is one of them but she does not leave she is thirty years old for months she covers the battle of aleppo as a freelance reporter and she quickly realizes that to report a war is to hide with dozens of women and children even a baby born there in a grave a piece of soil under the ground that is as expensive as three houses or to

scavenge for anything to burn for some warmth a broken slipper the plastic hand of a toy or to mistake bloody figments of skull for rubble to report a war is also to meet with officials more worried about the stain of snow on their clarks than the people they are supposed to help it is to explain what is happening in aleppo to journalists who have only been there once on vacation and bought a carpet it is risking one s life because of the jealousy of a fellow reporter and it is also about dreaming of driving at night with the windows open about remembering impossible little things the particular light on that day in that café at the beach when you were a kid the eyes of people you love all the minuscule simple joys that can be lost in a moment syrian dust is a raw and powerful account of the syrian war that throws the reader right in the middle of it without any shelter

determined to cover the syrian regime s brutal crackdown on dissent and the devastating impact of the war on syria s civilians veteran photographer paul conroy and marie colvin one of the

foremost war correspondents of her generation decided to smuggle themselves across enemy lines and into the blood and terror of homs but tragedy struck before the pair could finish documenting the slaughter a rocket killed colvin and ripped a hole in conroy s leg as syrian ground forces closed in on his position conroy was forced to make a terrifying last ditch attempt to escape from a regime that appeared determined to murder him under the wire is the epic untold account of conroy and colvin s last tragic assignment together a rare and touching portrait of an extraordinary woman driven by an unquenchable desire to bear witness it is as much a tale of courage and survival as it is the poignant account of a friendship forged amid the carnage of war

entitled *al kamil fi l ta rikh* is one of the outstanding sources for the history of the mediaeval world it covers the whole sweep of islamic history almost up to the death of its author and with the sources available to him he attempted to embrace the widest geographical spread events in iraq iran and further east run in counterpoint with those involving north africa and spain from the time of the arrival of the crusaders in the levant their activities and the muslim response become the focus of the work while continuing with the aim of comprehensive coverage the years in this part are dominated by the careers of nur al din and saladin the champions of the jihad sometimes called the counter crusade of special interest is the historian's partiality for the house of the former and his perceived hostility to saladin

this book examines hezbollah's transition from a domestic into a regional armed non state actor ansa taking its point of departure in hezbollah's historiography on the military and political levels in lebanon it focuses on

the participation of hezbollah's troops in syria's sect coded civil war initially limited hezbollah's intervention in the syrian conflict gradually increased into a full scale engagement across vast swathes of syrian territory with hezbollah instrumentalizing its sectarian shi'a identity to justify its engagement sect centric narratives and victimhood were a mere tool for what was a geopolitical confrontation and hezbollah's involvement launched it to becoming a regional ansa the book outlines that this transition was only plausible because of the interplay between three factors hezbollah's sectarian mobilization and instrumentalization of its sectarian identity the shift into a quasi army combining classical with guerrilla tactics and formations and its embedding as a partner in the axis which now extends from beirut to tehran it was in 2018 that a set of conditions impossible to reproduce allowed hezbollah to reach its culmination on both the domestic and regional theatres this book shows that ansas are playing prominent roles in the regional order in the middle east meticulously researched hezbollah is a

this volume focuses on interpreting the changing domestic and regional dynamics in the arab world and iran its chapters discuss an array of countries events actors and issues from an examination of the arab spring and the tunisian democratic transition to an exploration of the role of saudi iranian geostrategic rivalry to the impact of ethnic and sectarian politics in syria iraq and across the region chapters from

expert contributors are organized into three parts the first section of the volume covers the aspects and dynamics of change in the arab world the second examines the role of islam islamism islamic governance and sectarian and ethnic politics in the region the third section focuses on iranian domestic and regional politics yet the theme of transition is constant throughout as this multidisciplinary book draws connections across countries and events to not only inform about the prevailing regional situation but also to invite readers to draw their own conclusions as to the future of the middle east collectively the volume provides a fresh interpretation of the changing dynamics of the arab world and iran unpacking the complexities of the disputes conflicts rivalries failed goals and processes of change and development that have made the muslim middle east so turbulent directionless and perpetually contested by both regional and international actors the eu turkey and their common neighborhood are changing rapidly and

deeply exposing the european turkish relationship to new challenges and opportunities in diverse policy areas such as energy migration citizenship and civil society this collective volume explores how the eu and turkey can enhance their cooperation in these policy domains and so aims to contribute to a comprehensive discussion on shaping a common turkish european future in the world

applying fresh tools from economics to explain puzzling behaviors of religious radicals muslim christian and jewish violent and benign how do radical religious sects run such deadly terrorist organizations hezbollah hamas lashkar e taiba and the taliban all began as religious groups dedicated to piety and charity yet once they turned to violence they became horribly potent executing campaigns of terrorism deadlier than those of their secular rivals in radical religious and violent eli berman approaches the question using the economics of organizations he first dispels some myths radical religious terrorists are not generally motivated by

the promise of rewards in the afterlife including the infamous seventy two virgins or even by religious ideas in general he argues that these terrorists even suicide terrorists are best understood as rational altruists seeking to help their own communities yet despite the vast pool of potential recruits young altruists who feel their communities are repressed or endangered there are less than a dozen highly lethal terrorist organizations in the world capable of sustained and coordinated violence that threatens governments and makes hundreds of millions of civilians hesitate before boarding an airplane what's special about these organizations and why are most of their followers religious radicals drawing on parallel research on radical religious jews christians and muslims berman shows that the most lethal terrorist groups have a common characteristic their leaders have found a way to control defection hezbollah hamas and the taliban for example built loyalty and cohesion by means of mutual aid weeding out free riders and producing a cadre of members they

could rely on the secret of their deadly effectiveness lies in their resilience and cohesion when incentives to defect are strong these insights suggest that provision of basic social services by competent governments adds a critical nonviolent component to counterterrorism strategies it undermines the violent potential of radical religious organizations without disturbing free religious practice being drawn into theological debates with jihadists or endangering civilians

the syrian crisis is not over yet but the period of full fledged civil war in that country appears to be drawing to a close and it is now possible to view this calamity with some perspective this short book will address the following questions about the conflict how and why did quiet demonstrations in southern syria develop into a brutal civil war why did the political opposition to the regime of bashar al assad remain weak and divided how did radical jihadi islamists take over the main military opposition to the syrian regime how did the syrian conflict become a main arena

of the saudi iranian regional rivalry what explains the ambivalent western attitude towards the syrian rebellion how did us policy under the obama administration evolve and why did both obama and trump decide not to make a major investment in it how stable is the status quo and how could the conflict re erupt in a different form according to rabinovitch the syrian regime and its supporters including the russians and the iranians have indeed emerged as victors but it's a limited victory at best the syrian state under assad controls only about 60 percent of the national territory and the potential for renewed violence is considerable assad's continued survival has come at the cost of deep dependency on iran and russia his is now arguably a vassal state this means that the country will remain in crisis for the foreseeable future even if the full scale civil war phase has come to an end in his last chapter rabinovich will recommend policy options for the u s

the post christian west is in decline revived islam is on the rise and mesopotamia syria iraq the cradle of civilization has become ground zero in a battle for civilization despised as infidels unbelievers and kafir unclean mesopotamia s indigenous christian

peoples are targeted by fundamentalist muslims and jihadists for subjugation exploitation and elimination pushed deep into the fog of war buried under a mountain of propaganda and rendered invisible by a shroud of silence they are betrayed and abandoned by the west s progressive political academic and media elites who cling to utopian fantasies about islam while nurturing deep seated hostility towards christianity if they are to survive as a people in their historic homeland the christians of mesopotamia will need all the help they can get if western civilization is to survive as a force in its

in recent years the term sectarianism has been widely used to explain contemporary affairs across the middle east and north africa a range of assumptions about the nature of sectarianism have become prevalent amongst scholars and policy makers who engage with these areas in part driven by the rivalry between saudi arabia and iran the two dominant sunni and shi a states and the emergence of isis despite its prevalence few scholars

have engaged critically with the meaning of the term and its application across the middle east whilst many associate sectarianism with islam sectarianism in the contemporary middle east interrogates the political economic and security factors surrounding the term within both islam and judaism leading to a better understanding of the contemporary politics of the middle east this book was originally published as a special issue of global discourse
