the eruption of the anti assad revolution in syria has had many unintended consequences among which is the opportunity it offered sunni jihadists to establish a foothold in the heart of the middle east that syria s ongoing civil war is so brutal and protracted has only compounded the situation as have developments in iraq and lebanon ranging across the battlefields and international borders have been dozens of jihadi islamist fighting groups of which some coalesced into significant factions such as jabhat al nusra and the islamic state this book assesses and explains the emergence since 2011 of sunni jihadist organizations in syria s fledgling insurgency charts their evolution and situates them within the global islamist project unprecedented numbers of foreign fighters have joined such groups who will almost certainly continue to host them thus external factors in their emergence are scrutinized including the strategic and tactical lessons learned from other jihadist conflict zones and the complex interplay between al qaeda and the islamic state and how it has influenced the jihadist sphere in syria tensions between and conflict within such groups also feature in this indispensable volume

sob o título relations of the self reúnem se neste volume textos de grande qualidade escritos para dar uma expressão mais exata às intervenções orais no congresso internacional ocorrido na universidade de coimbra em março de 2009 promovido pelo grupo de investigação a individuação da sociedade moderna da unidade de investigação em filosofia da universidade l i f linguagem interpretação e filosofia em colaboração com o projeto de investigação bezüge des selbst da universidade de potsdam o propósito foi o de examinar o tema da auto referência mediante um conjunto variado de pesquisas sectoriais que vão desde as análises histórico filosóficas aos estudos sistemáticos nas áreas de estética antropologia filosofia da mente filosofia social e política integrando ainda investigações teóricas sobre o significado da auto referência na cibernética nos mais recentes progressos sobre a inteligência artificial e sobre os sistemas sociais o carácter multi disciplinar do livro final é manifesto do ponto de vista formal um dos aspetos atraentes da obra reside no equilíbrio entre as abordagens sectorial e sinótica sobretudo porque raras são as circunstâncias em que nestes trabalhos o rigor analítico deu lugar a apressadas visões de conjunto o leitor julgará por si this volume brings together high quality texts from the international conference that took place in the university of coimbra in march 2009 organized by the research group individuation in modern society of the philosophy research unit of that university l i f language interpretation and philosophy in collaboration with the research project bezüge des selbst at the university of potsdam the purpose was to examine the subject of self reference using a varied cluster of sectorial studies ranging from historical philosophical analyses to systematic studies in the areas of aesthetics anthropology philosophy of the mind social and political philosophy it also included theoretical investigations into the significance of

self reference in cybernetics in the most recent progress about artificial intelligence and social systems the final book is manifestly multidisciplinary in character from the formal perspective one of the most attractive aspects of the work lies in the balance between the sectorial and synoptic perspectives particularly because of the rarity of the circumstances in which these works of analytical rigour gave way to hurried overviews the reader will judge for him herself

how america s failed wars in afghanistan iraq libya syria have resulted in increased threats at home from jihadist terrorism to the rise of western ultra nationalism in the management of savagery max blumenthal excavates the real story behind america s dealings with the world and shows how the extremist forces that now threaten peace across the globe are the inevitable flowering of america s imperial designs washington s secret funding of the mujahedin provoked the russian invasion of afghanistan in 1979 with guns and money the united states has ever since sustained the extremists including osama bin laden who have become its enemies the pentagon has trained and armed jihadist elements in afghanistan syria and libya it has launched military interventions to change regimes in the middle east in doing so it created fertile ground for the islamic state and brought foreign conflicts home to american soil these failed wars abroad have made the united states more vulnerable to both terrorism as well as native ultra nationalism the trump presidency is the inevitable consequence of neoconservative imperialism in the post cold war age trump s dealings in the middle east are likely only to exacerbate the situation

this book focuses on the propaganda war between the syrian government and the opposition movement which excludes the islamic state and the kurdish led sdf drawing on international relations psychology and media studies the book encourages readers to question the dominant discourse on the war the core of the book outlines the propaganda battles over the main paradigms and narratives that framed the war exploring the shortcomings of those paradigms and narratives identifying who won the propaganda war and why and assessing what impact it had on the military side of the war in particular it focuses on the role of cognitive bias amongst primary and secondary sources in determining the outcome of the propaganda war and whether the influence of this propaganda is best explained by effects or limited effects theory through explaining the dynamics of the propaganda war the book encourages readers to critically question the dominant discourse on the war assists them in understanding primary and secondary reporting on the war and shows that the impact of the propaganda war is best understood in terms of limited effects theory the book s main findings are that i the opposition won the international propaganda war but failed to win the propaganda war inside syria ii propaganda had relatively little effect on shaping attitudes either inside syria or internationally instead its main effect was to reinforce attitudes that had already been shaped by other factors and iii the reality of the war lies between the conflicting paradigms and narratives being promoted by each side

at the end of the cold war the proliferation of weapons of mass destruction replaced the soviet union as the new enemy of world peace the pariah wmd states became enemy no 1 the significance of militant islams growing disgust with western foreign policy and

apparent indifference to the suffering of muslims worldwide was missed until it was too late in rise of militant islam anthony tucker jones examines from an insiders perspective how western intelligence misinterpreted every landmark event on the road to 9 11 and ultimately failed to curb global jihad the 9 11 attack provoked a war on terror which has yet to fully curb the threat of global jihad or bring ringleader osama bin laden to justice anthony tucker jones who served in the defense intelligence staff the british ministry of defenses top intelligence assessment organization gained an unparalleled insiders view of the growing war on terror and how the wests intelligence agencies were wrong footed at almost every turn he traces the rise of international terrorism and its networks throughout the muslim world in afghanistan the balkans algeria chechnya somalia and across the middle east and he uncovers the connections between them he shows how the key to the growth of al qaeda as a global terrorist organization was not only the emergence of osama bin laden but also the growing understanding of asymmetrical warfare which the cia had taught anti soviet jihadists in afghanistan in the 1980s

the rise of the islamic state has dramatically forced a recalculation of political order and security in the persian gulf and broader greater middle east by the united states and its allies and adversaries including most notably iran israel and saudi arabia since the arab spring of 2011 the islamic state has altered the military balance in the syrian intra state conflict and captured significant territory in iraq its military successes has attracted foreign fighters from more than 100 countries drawn in some cases by a sophisticated recruitment strategy that effectively combines a jihadist message with a social media outreach program targeting vulnerable muslim populations in the region and the west the islamic state has prompted renewed american and allied military intervention in iraq and syria and complicated the us relationship with its iranian adversaries the new islamic state examines the rise of the religious extremist organization from the ashes of al qaeda in iraq to its current efforts in syria and iraq and is designed to provide a comprehensive overview of the islamic state its effects on the persian gulf and greater middle east and the response of both regional and great powers the book is suitable for academics policymakers and the general public

an unprecedented analysis of the crucial but underexplored roles the united states and other nations have played in shaping syria s ongoing civil war one of the best informed and non partisan accounts of the syrian tragedy yet published patrick cockburn independent syria s brutal long lasting civil war is widely viewed as a domestic contest that began in 2011 and only later drew foreign nations into the fray but in this book christopher phillips shows the crucial roles that were played by the united states russia iran saudi arabia turkey and qatar in syria s war right from the start phillips untangles the international influences on the tragic conflict and illuminates the west s strategy against isis the decline of u s power in the region and much more originally published in 2016 the book has been updated with two new chapters

foreign fighters and returning foreign fighters are among the most important security issues that the middle east and europe is facing today although this topic has gained more attention in recent years most of the academic studies on foreign fighters do not focus on the issue of classification this book is based on a master s thesis and focuses on

this somewhat neglected area of research by analyzing the discourse of foreign ypg fighters and finally proposing a classification for foreign ypg fighters based on their narratives david malet s phd dissertation which categorizes foreign fighters into four different types is particularly important and this study is based on malet s classification however unlike malet s thesis this study focuses on one armed organization the ypg instead of a general categorization

violence and gender in the globalized world expands the critical picture of gender and violence in the age of globalization by introducing a variety of uncommonly discussed geo political sites and dynamics the volume hosts methodologically and disciplinarily diverse contributions from around the world discussing various contexts including chechnya germany iraq kenya malaysia nicaragua palestine the former yugoslavia syria south africa the united states and the internet bringing together scholars and activists historicized and site specific perspectives this book bridges the gap between theory and practice concerning violence gender and agency in this revised and updated edition the scope of inquiry is expanded to incorporate phenomena that have recently come to the forefront of public and scholarly scrutiny such as internet based discourses of violence female suicide bombers and the islamic state s violence against women at the same time new data and developments are brought to bear on earlier discussions of violence against women across the globe in order to bring them fully up to date with an international team of contributors comprising eminent scholars activists and policy makers this volume will be of interest to anyone conducting research in the areas of gender and sexuality human rights cultural studies law sociology political science history post colonialism and colonialism anthropology philosophy and religion

in this vivid first person narrative a special operations joint terminal attack controller jtac and his commanding general give fascinating and detailed accounts of america s fight against one of the most barbaric insurgencies the world has ever seen in the summer of 2014 three years after america s full troop withdrawal from the iraq war president barack obama authorized a small task force to push back into baghdad their mission protect the iraqi capital and u s embassy from a rapidly emerging terrorist threat a plague of brutality that would come to be known as isis had created a foothold in northwest iraq and northeast syria it had declared itself a caliphate an independent nation state administered by an extreme and cruel form of islamic law and was spreading like a newly evolved virus soon a massive and devastating u s military response had unfolded hear the ground truth on the senior military and political interactions that shaped america s war against isis a war unprecedented in both its methodology and its application of modern military technology enter the world of the strike cell secretive operations centers where america s greatest enemies are hunted and killed day and night plunge into the realm of the special operations jtac american warfighters with the highest enemy kill counts on the battlefield and gain the wisdom of a cumulative half century of military experience as dana pittard and wes bryant lay out the path to a sustained victory over isis for more information about the book visit huntingthecaliphate.com

explores the historical origins of syria s religious sects and their dominance of the syrian social scene it identifies their distinct beliefs and relates how the actions of the religious

authorities and political entrepreneurs acting on behalf of their sects expose them to sectarian violence culminating in the dissolution of the nation state

using the authors many years of experience in emergency services and his skills as a hazardous materials consultant prepares the first responder to handle everything from re establishing control and on scene triage to investigating the crime including information on pre incident and avoidance tactics the author also discusses monitoring and detection techniques protective equipment and decontamination and an extensive list of resource organizations and training opportunities this up to date 3rd edition is written to provide concise information for emergency responders who might be called upon to confront explosive chemical nuclear biological or incendiary acts of terrorism

this three volume reference work provides an up to date presentation and analysis of the u s wars of the 21st century addressing their backgrounds causes courses and consequences it serves as an indispensable resource for students seeking to understand the role of the united states in the world today addressing the u s conflicts in iraq afghanistan and the global war on terror from the year 2001 to the present this comprehensive three volume encyclopedia covers the significant individuals key events and important places involved in these recent military events beginning with the rise of al qaeda in the 1990s and the attacks on september 11 2001 and covering events through isis s dramatic surge in iraq and syria the hundreds of detailed entries also examine historical trends nations and ethnicities involved in the conflicts influential figures and organizations economic political diplomatic and cultural influences wars campaigns and battles and important weapons systems the set s a z organization makes it an easy to use ready reference for high school and college students perspective essays on several controversial topics such as the use of torture and the effects of the patriot act serve to inspire readers to apply critical thinking a detailed chronology is provided to help students place all the important events that have occurred in the afghanistan war iraq war and war on terror each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context

this book analyses the issue of child soldiers in order to understand how armed groups engage with international organizations to gain international legitimacy the work examines why some armed groups follow the rules of international humanitarian law and others do not it argues that armed groups in conflicts around the world engage with international organizations in order to gain international legitimacy and to show they are following the laws of war by examining the issue of child soldiers in contemporary armed conflict the volume establishes a typology of which groups will engage with international actors and follow the laws of war and which will not the main aim of the book is to understand the rationality of even the most violent of actors and to understand when and how armed groups can be encouraged to follow the laws of war the work draws from extensive primary research conducted among armed groups in syria and myanmar including al qaeda the islamic state and the many small ethnic insurgent groups of myanmar this book will be of much interest to students of war and conflict studies security studies international humanitarian law and international relations

the world was standing at the crossroads in 2015 as globalization propelled human beings into an increasingly integrated community of common destiny in the meantime the world witnessed the strategic competition among major powers this annual publication offers views opinions and predictions on global political and security issues and china s strategic choices by chinese scholars it covers almost all the significant issues that took place in the international security arena in 2015 besides the relations among major powers it studies the international community s fight against islamic state is the strategic situation in the korean peninsula political situation in myanmar the joint comprehensive plan of action on the iranian nuclear issue free navigation in the south china sea china s belt and road initiative and its grand diplomacy this book argues that the strategic competition among major powers is heightening and smaller countries as well as extremist forces like the is are seeking strategic space by taking advantage of the conflicts among major powers the book concludes that to address this major historic challenge in international politics it is essential that some major powers drop the hostile stance towards each other and enhance partnership to foster international cooperation

this book analyses the islamic state is within a comparative framework of past sunni jihadist movements it argues jihadist failure to overthrow muslim apostate states has led to a progressive radicalization of violent islamist terror networks this outcome has contributed over time to more brutal jihadist doctrines and tactics contributing to a total war doctrine strategy targeting muslim apostate states the near enemy non muslim civilizations the far enemy and sectarian minorities heterodox muslims and christians these extremist tendencies have been building for over a generation and have reached their culmination in the rise and fall of the islamic state s caliphate given past tendencies the emergence of yet even more radical sunni jihadist movement is probable

on the 29th of june 2014 isis declared the establishment of a caliphate stretching across territories in iraq and syria in response operation inherent resolve a us led 77 nation coalition was launched to respond to the threat of islamic state the west s war against islamic state offers the first history of operation inherent resolve and the west s war against isis from its inception in 2014 to the fall of raqqa in 2017 andrew mumford offers a comprehensive analysis and assessment of the military campaign deployed against isis in syria and iraq by examining the west s strategic objectives as well as the conflicting interests of rival powers namely russia iran and turkey by examining individual operational components of this military engagement such as drone usage cyber warfare special forces operations and sponsorship of guerrilla forces this book offers a unique insight into the nature of modern warfare

in this timely and fascinating account of us military power in the era of barack obama a renowned historian with more than a decade inside the us department of defense reveals the true nature of the president s political legacy as his two terms in office draw to a close in stunning detail mark moyar illustrates how the mounting global catastrophes of obama s second term are the direct result of the president s first term decisions to shrink us defense and replace large overseas military commitments with light footprints the rise of isis the benghazi attack and murder of a us ambassador the growing threats of russia china and iran moyar reveals how these and other tragic occurrences are the

consequences of obama s withdrawal of us military in iraq rapid drawdown in afghanistan hands off policy with syria cuts to defense spending reliance on drone strikes in pakistan yemen and somalia failure to deliver on his substitutes for military power political self interest international image as a weak and passive leader most disturbing according to moyar s penetrating analysis is the clear message that obama s military drawdown places all americans at risk with conditions primed for future cataclysms at home and abroad drawing upon the lessons of obama s strategic failures moyar identifies methods for recovering and strengthening us national security in the years and the administrations to come

examines the perspectives of democrats and republicans on dozens of major foreign policy issues of the 21st century illuminating both areas of consensus and issues where partisan divisions are wide from the earliest days of the republic through the cold war and to the present day american foreign policy has been colored by the beliefs and values of america s major political parties surveying the breadth and depth of partisan divisions on a variety of key foreign policy issues yields a better understanding of how partisanship has helped define u s leadership in the modern era this book treats 38 individual foreign policy issues each chosen for its timeliness and importance to american interests in the 21st century for example readers will learn about the partisan feelings regarding u s foreign policy toward cuba that surfaced in the wake of president obama s visit to cuba in 2016 and his decision to resume diplomatic relations these feelings serve as an excellent example of both partisan and intergovernmental divisions on a key u s foreign policy issue each entry contains an historical overview that will quickly bring readers up to speed on the issue followed by an authoritative survey of positions and statements held by presidents key leaders of congress and other important voices in both the republican and democratic parties the book will serve as a vital and highly accessible reference for anyone undergraduate university students advanced high school students and general readers who needs a one stop source for information about partisanship and u s foreign policy

the number one international bestseller the dramatic story of freelance photographer daniel rye who was held hostage for 13 months by isis as told by an award winning writer in may 2013 freelance photographer daniel rye was captured in syria and held prisoner by islamic state for thirteen months along with eighteen other hostages the isis hostage tells the dramatic and heart breaking story of daniel s ordeal and details the misery inflicted upon him by the british guards which included jihadi john this tense and riveting account also follows daniel s family and the nerve wracking negotiations with his kidnappers it traces their horrifying journey through impossible dilemmas and offers a rare glimpse into the secret world of the investigation launched to locate and free not only daniel but also the american journalist and fellow hostage james foley written with daniel s full cooperation and based on interviews with former fellow prisoners jihadists and key figures who worked behind the scenes to secure his release the isis hostage reveals for the first time the torment suffered by the captives and tells a moving and terrifying story of friendship torture and survival

the arab uprisings that emerged in reaction to unemployment high inflation corruption

and the lack of liberty under authoritarian rule in the middle east and north africa paved the way for social and political transformations in the region as a consequence of these uprisings new actors have gained prominence while regional issues have become more aggravated and complicated challenging existing national borders the involvement of a broad range of regional and external actors in various parts of the region has created new conflicts and alliances new actors and issues in the post arab uprisings examines how the post arab uprisings period with its diversity of issues and actors challenges existing policies and national borders in the middle east this collection provides readers with a deeper understanding of the political and social changes that are underway through diverse perspectives on various critical issues

the syrian conflict constitutes one of the most covered events in this century although the coverage of the syrian uprising and civil war alternated between periods of saturation and silence it is indisputable that they received an enormous amount of media attention the syrian conflict in the news analyses the coverage of the syrian conflict in the new york times the washington post and the wall street journal focusing on how the three newspapers framed six key events in syria from march 2011 to april 2018 including the ghouta chemical attack the russian intervention in syria and us led airstrikes gabriel huland argues that us foreign policy dominates the frames of the conflict which suggests that mainstream newspapers are excessively indexed to elite narratives in the united states the syrian crisis prompted an intense debate about the appropriate degree of us involvement in the civil war and how the country should behave in the face of growing russian and iranian influence in the middle east the overreliance on elite narratives resulted in the underrepresentation of local voices and other players who were in a more advantaged position to devise solutions to the conflict by analysing the frames of the syrian uprising and civil war in three mainstream newspapers and the relationship between media and international conflicts the syrian conflict in the news sheds light on crucial aspects of the crisis currently pervading us journalism

the future of religious minorities in the middle east addresses the domestic and international politics that have created conditions for contemporary religious cleansing in the middle east it provides a platform for a host of distinguished scholars journalists human rights activists and political practitioners the contributors come from diverse political cultural and religious backgrounds each one drawing on a deep wellspring of scholarship experience sobriety and passion collectively they make a major contribution to understanding the dynamics of the mortal threat to the social pluralism upon which the survival of religious minorities depends

what are islamic state is seeking to create a civil war in france that syrian president bashar al assad used chemical weapons that vladimir putin is trying to destabilise our democracies that terrorism has struck france not for what it does but for what it is that the genocide in darfur has claimed 400 000 victims literally none but these assertions are enough to establish the foreign policy of western countries the author a former agent of the swiss strategic intelligence service reviews the main contemporary conflicts that western countries have managed with fake news over the last thirty years jacques baud a colonel chemical and nuclear weapons expert trained in counter terrorism and counter

guerrilla warfare designed the geneva international centre for humanitarian demining gichd and its information management system for mine action imsm in the service of the united nations he served as chief of doctrine for peacekeeping operations in new york and was engaged in africa in nato he led the fight against the proliferation of small arms he is the author of several books on intelligence asymmetric warfare and terrorism

this work is the third small wars journal anthology focusing on radical sunni islamic terrorist and insurgent groups it covers this professional journal s writings for 2015 and complements the earlier global radical islamist insurgency anthologies that were produced as vol i 2007 2011 published in 2015 and vol ii 2012 2014 published in 2016 this anthology which offers roughly five hundred pages of additional analysis follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sections one focusing on jihadi terrorism insurgency and the islamic state in context and the other focusing on us allied policy and counter jihadi and counter islamic state strategies

this book provides a synopsis of the past four years of u s policy in syria it brings together the major turning points of this policy since the beginning of the arab spring and positions that different actors endorsed since 2009 the first section is dedicated to explaining president obama s attempt to restore ties with the syrian government after the 2008 presidential election in order to resolve the foreign fighters problem in iraq this effort was also aimed at launching a subsequent peace process between arab states and israel as well as the issue of weapons of mass destruction despite opposition from congress and some segments of washington president obama appointed an ambassador to damascus and official talks were launched during his first two years in office however this process was disrupted by the arab spring and the assad regime s heavy handed response towards the demonstrations particularly the use of force during some demonstrations and the increasing number of casualties drove the u s to change its course of action in its relations with syria this book illuminates u s policy in syria over the last four years chapters 1 and 2 provide context for the obama administration s treatment of the syrian civil war by analyzing the status of relations in the years preceding the conflict they conclude that the obama administration worked cohesively to try to reverse george w bush s deliberate antagonizing of the syrian regime and to launch a rapprochement with assad to achieve its main goals in the middle east chapters 3 through 6 address u s syrian relations since the arab spring and demonstrate the chokehold that risk aversion has held over the obama administration despite ample if imperfect opportunities to strengthen the syrian opposition and foster a possible transition to democracy in syria the final chapter assesses what changes if any stakeholders may expect in u s syria policy during the obama administration s remaining two years

dr charles henderson s newly released news commentary essays book ii poignant responses to fourth estate rancor is a vivid collection of sociopolitical writings the years 2014 to 2015 were significant in american history because they were filled with news stories about epic and sometimes controversial events the presidential campaign began to slowly heat up and the news media reporters were caught flat footed when two inexperienced candidates donald trump and ben carson surprisingly jumped into the lead

the military conflict in the middle east shifted to syria causing the op ed foreign policy writers to berate president obama for hesitating to enter into a third insurgency war and last but not least the supreme court finally heard arguments on the constitutionality of overturning state bans on same sex marriage that ruling both epic and controversial is expected to lead to the challenging of religious liberty henderson s book ii is an entertaining and insightful volume of over four hundred essays touching on all manner of complex political policies and social issues it contains eighteen different topics arranged in chapters alphabetically from drones to women in the military encompassing other chapters involving controversial subjects such as homosexuality morality race and social issues pursuit of the unbiased truth is the hallmark of this book s narratives published by christian faith publishing dr henderson s new book is a grippingly eloquent and mind broadening work of educated opinion with many of the essays written in response to the rather conservative op ed pieces in the liberally inclined washington post in his writings henderson offers a rare mind of clarity along with a serene strength of conviction secure in his foundation in god s word amid the raging din of the modern world s political drama and ethical battlefields

the 2014 edition of the global community yearbook both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law this edition includes expert introductory essays by prominent scholars in the realm of international law on topics as diverse and current as the intervention of the united states and coalition partners in territories under the control of the islamic state of iraq and the levant isil to the weak area in the institutional and normative framework of the revised treaty of chaguaramas

senator rand paul leading national politician and 2016 presidential candidate presents his vision for america from his electrifying thirteen hour filibuster against administration orchestrated drone strikes against u s citizens to leading the discourse on criminal justice senator rand paul has taken washington by storm his outreach to this country s minority communities alone championing reforms of mandatory minimum sentencing school choice and the creation of enterprise zones for economically depressed areas distinguishes him as a politician and republican the likes of which are rarely seen what lies ahead is senator paul s plan for america where lower taxes and smaller government empower a muscular and expansive middle class an america that doesn t engage in nation building or fight wars where the best outcome is stalemate an america that believes in constitutionally protected liberty and the separation of powers

this book offers a historical analysis of the geopolitical and geoeconomic competition between the usa and russia which has recently heated up again due to the eastward expansion of nato the analysis departs from an exploration of the usa s foreign policy and geopolitical ambitions by illustrating the influence of wall street and the military industrial complex on the country s political decision making the historical review covers a wide timespan from the second world war and the birth of nato to the wars against iraq and afghanistan to the rebellions that erupted in eurasia northern africa and the middle east in the 2010 s as well as the wars in the ukraine and in syria by doing so it reveals the influence of us neocons the us intelligence services and the military complex on the arab

spring the color revolutions and the armed conflicts in ukraine and syria ultimately the book depicts a new era of worldwide instability and disorder dominated by violence and arbitrariness

this book considers the liberal conception of peace within western philosophy and the principle of peaceful coexistence supported in the east it investigates there is a right to peace by tracing the evolution of the international law of peace through its historical and philosophical origins

based on interviews with islamic state insiders abdel bari atwan reveals the origins and modus operandi of the fastest growing and richest terrorist group in the world outlining its leadership structure and strategies atwan describes the group s ideological differences with al qa ida and why is appear to pose a greater threat to the west he shows how it has masterfully used social media hollywood blockbuster style videos and even jihadi computer games to spread its message and to recruit young people from tunisia to bradford as islamic state continues to dominate the world s media headlines with acts of ruthless violence atwan considers its chances of survival and offers indispensable insight into potential government responses to contain the is threat

secret wars is the first book to systematically analyze the ways powerful states covertly participate in foreign wars showing a recurring pattern of such behavior stretching from world war i to u s occupied iraq investigating what governments keep secret during wars and why austin carson argues that leaders maintain the secrecy of state involvement as a response to the persistent concern of limiting war keeping interventions backstage helps control escalation dynamics insulating leaders from domestic pressures while communicating their interest in keeping a war contained carson shows that covert interventions can help control escalation but they are almost always detected by other major powers however the shared value of limiting war can lead adversaries to keep secret the interventions they detect as when american leaders concealed clashes with soviet pilots during the korean war escalation concerns can also cause leaders to ignore covert interventions that have become an open secret from nazi germany s role in the spanish civil war to american covert operations during the vietnam war carson presents new insights about some of the most influential conflicts of the twentieth century parting the curtain on the secret side of modern war secret wars provides important lessons about how rival state powers collude and compete and the ways in which they avoid outright military confrontations

the book acidly tells us a story of the rise and decline of one of the greatest empires ever and surely the most prominent empire as the existing one in our life time the most prominent and as the statistical abstracts and documents of the us congress reveal the most addicted of all empires to an old and continuous military interventionism in every corner of the world at the beginning of his book the author lists and examines closely the new and century old principles and doctrines incorporated into american foreign policy as a combination between diplomacy and war and almost always the latter being the winner i e american exceptionality monroe doctrine teddy roosevelt s speak soft and carry a big stick diplomacy show the flag strategic idiom gunboat diplomacy truman and reagan

doctrines the domino theory the neoconservative project for a new american century bush jr doctrine of preventive wars etc then quoting highly qualified american sources the author shocks the reader as he concludes that the us is no longer a truly democratic state but one led by oligarchy an elite that no longer represent the will of the population he also emphasizes with logical arguments the existence of the us military industrial complex the deep state the financial cartel etc he unveils an america in the twilight zone of secretive planning and leadership strictly controlled global institutions wars and neocolonialism in the middle east latin america and east europe and of 75 years of soviet union russia incisive and limitless budgeted strategies of confrontation basically in his book mr atudorei exposes a perpetual chain of historical misdeeds having america as its originator america addicted to militarism an american militarism addicted to aggression war and imperial supremacy 240 years long and continuous american wars addicted to millions of victims finally millions of victims forgotten by a political propaganda machine addicted to falsehood deception and lies and calling invasions coup d états and aerial bombings as humanitarian interventions bringing peace freedom and democracy radu toma when referring to the world hegemony of the us the author points out that in fact the first victim of such a policy is the american people itself who became captive of more or less hidden centers of power called in various ways global oligarchy the military industrial complex the financial banking elite etc centers that usurped the real power in the state and transformed the democratic political system into a simulacrum for the use of masses subject to sophisticated social engineering calistrat m atudorei shows that the us as an empire with pretention of absolute global supremacy tends to impose its dominance both through non military wars cultural ideological media economic as well as through direct military invasions aiming to punish regimes and nations that do not want to be subjected to them working with consistent arguments the author emphasizes that the plans of subjugation of the whole world are neither recent nor do they relate to the preferences of people who become us presidents on closer examination the so called hosts of the white house appear to us like ordinary puppets in the hands of forces behind the curtain see in this regard for example the current us president donald trump case who abandoned his electoral rhetoric being shaped by the deep state on the line of serving the interests of this all powerful nebula to the detriment of the american people and peace in the world iurie roșca

over the last two decades the united states has supported a range of militias rebels and other armed groups in afghanistan iraq and syria critics have argued that such partnerships have many perils from enabling human rights abuses to seeding future threats policy makers however have sought to mitigate the risks of partnering with irregular armed groups militia group leaders in far flung corners of these war torn countries were subjected to background checks and instructed about international law and human rights and their funding was cut when they crossed red lines to what extent have such mechanisms curbed the dangers of proxy warfare and what unforeseen consequences has this approach unleashed drawing on a decade of field research and hundreds of interviews with stakeholders erica l gaston unpacks the dilemmas of attempting to control proxy forces she demonstrates that although the tools u s policy makers used to constrain partners behavior increased in number and sophistication they never fully addressed the range of political security and legal concerns surrounding these

forces moreover by shifting policy makers calculations the use of proxy forces introduced additional moral hazards and may have enabled riskier decision making featuring substantial empirical detail and close analysis of key internal debates illusions of control offers new perspectives on some of the most significant and controversial elements of recent u s security policy in addition to nuanced insights about proxy relationships this book provides a novel analytical toolkit for exploring transnational bargaining and foreign policy deliberations in hybrid political environments
