on the arab revolts and the iranian revolution power and resistance today is the first comparative analysis of two central political events that have altered our world forever the arab uprisings which started in tunisia and the

iranian revolution in 1979 adib moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function in a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in tehran to cairo can be entirely linked to the same act in new york london madrid and athens breaking through the east west north south divide adib moghaddam shows how the arab revolts promise to shift the discourse away from the idea that arabs and muslims are peculiar that middle eastern studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here adib moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected in order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform these terms and concepts are

discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east

the middle east has been the arena of three cataclysmic events since 1979 the iranian revolution the iran iraq war and the gulf war all of these have brought about major changes in the inter regional politics and relations between middle east countries and the outside world this book seeks to analyze the impact of these events on iranian arab relations the authors examine iran s relations with the arab states of the gulf in detail and sheds light on the changing patterns of iranian egyptian and lebanese relations

this textbook helps students and readers navigate the various factors ranging from the legacy of the past ethnic sectarian differences and cultural rivalry to the impact of colonial rule modernization and state building plus the evolving nature of the international political system and great power policies in shaping arab iranian relations

in the last seven decades the first part of this book looks into factors such as history ethnic sectarian and cultural issues that have shaped iran s relations with arab states it explores the impact of the process of modernization and state building in the arab world on these relations plus the legacy of colonialism and the shifting dynamics of international politics and the evolution key global players policies towards iran and the arab states the second part examines case studies in the evolution of iran s relations with several key arab states including egypt syria and lebanon iraq saudi arabia and the smaller persian gulf arab states by highlighting the complex set of factors and their interactions that have shaped arab iranian relations the book hopes to be a corrective to the simplistic and reductionist interpretations of these relations this approach shows how a variety of factors and their interactions have shaped these relations sometimes they have exacerbated the conflictual aspects of these relations and at other times have fostered accommodation and even cooperation

as the administration and

congress move forward to pursue engagement harsher sanctions or both regional actors are evaluating their policies and priorities with respect to iran because iran and other regional concerns the arab israeli peace process stability in lebanon and iraq terrorism and the ongoing war in afghanistan have become increasingly intertwined understanding the policies and perspectives of iran s neighbors could be crucial during the consideration of options to address overall u s policy toward iran this report provides a description of iran s neighbors policies and interests options for congressional consideration and an analysis of potential regional implications map

the enduring alliance between iran and syria which came about after iran s 1979 revolution proved to be a feature of the middle east s political landscape in the 20th and early 21st centuries moreover its impact in moulding events and bringing about major changes in this troubled region proved enormously significant jubin m goodarzi provides us with the first in depth study on the syrian iranian nexus which traces the origins and

development of the strategic partnership between damascus and tehran from 1979 until the present he argues that contrary to prevailing views due in large part to the authoritarian and unpopular nature of the syrian and iranian regimes the alliance between them was conceived as essentially defensive in nature he puts forth an empirical survey with a chronology of events and analyses the key phases in the evolution of the alliance in the process he explains their significance both in terms of how they affected bilateral relations between the two states and their regional implications through careful research and analysis goodarzi reveals linkages between major events in the middle east and crucial decisions that were made in tehran and damascus particularly ones that have been overlooked or ignored by regional analysts and scholars these include the impact of the israeli invasion of lebanon in 1982 and the subsequent syrian iranian consultations on iran s position regarding the war with iraq the effects of us iraqi actions in the persian gulf in 1988 and iran s moves in lebanon against the wishes of syria goodarzi analyses the

stability and security of this partnership and assesses its prospects for the future

a comprehensive exploration of postrevolution Iranian foreign policy analyzes the country's relations with key nations and regions and the impact of both Iran's domestic situation and the developing global system. Iran's foreign policy in the post-Soviet era, resisting the new international order, provides the first truly comprehensive in-depth survey of Iranian foreign policy, issue by issue and country by country, since the Islamic Revolution. To help readers understand both the what and the why of Iran's role in the world and formulate useful responses to that role, the author provides a detailed analysis of Iranian foreign policy in all its dimensions. The first part of the book places Iranian actions, particularly its relations with the United States and other key players, within the context of the emerging international system while also showing how domestic developments impact foreign policy. The second part surveys Iranian relations with specific actors, notably the United States and Russia, and with key regions, including Europe, Central Asia, the Arab World,

Latin America, and Africa, providing an antidote to existing preconceptions. This incisive analysis lays an analytically sound basis for shaping policies toward Iran, policies with potentially high payoff in terms of regional security and stability.

This book examines the foreign policy of the Islamic Republic of Iran towards the Persian Gulf states from 1979 to 1998.

The mesmerizing story of two countries caught in history whose rivalry can destroy the world or restore its peace, this is the first book to untangle the complex relationship of Saudi Arabia and Iran by rejecting heated rhetoric and looking at the real roots of the issue to promise pathways to peace.

Providing an unbiased analysis of the past, present, and future of the hostile relationship between Iran, Israel, and the United States, this book presents an up-to-date discussion of the security implications for each of the two states, as well as the entire region. Ongoing tensions between Iran and Israel are highly dangerous for the Middle East and have the potential to spark another major war in the region.

perhaps on a much larger scale than prior conflicts. Such a confrontation between the two nations would jeopardize regional and international security and is of immediate concern for the United States. In this new book, noted scholar Jalil Roshandel provides an in-depth look at topics such as Iranian state support for terrorism, its pursuit of nuclear capability and weapons, the implications of this activity for Israel and their relations with the Iraqi Kurdish region, the United States' role in this conflict, and also details, including a history of its relations with Iran, policy with Israel, and position as potential mediator. This book offers valuable context that explains the evolution of these relationships rather than simply summarizing the past and present situations and concludes with thought-provoking policy alternatives for decision makers.

There is a saying in Arabic: "Me and my brother against my cousin, and me and my cousin against the outsider." Iran's influence is the first comprehensive analysis of the role that Iran plays both in Middle Eastern and global politics. Expert Iranian author Elaheh Rostami Povey provides

aimed at the general reader this book is a scriptural and convincing presentation of christian hope against a background of political economic and social disintegration religious fanaticism or aberration in the end time climate which prevails in the world today this is the essential guide to the end of the millennium presenting and analysing the latest events that we have all faced and their influence on the world that is due to start next year from the ancient and more recent history of jerusalem and the problems of the middle east through the prospect of a world wide economic collapse to the view that happiness and sexual gratification have become an inalienable right and the spoliation of the environment the author examines the current and forthcoming problems that the world faces finding the links between them he draws a picture that could move the reader to despair but the almost unalloyed bleakness of the world s way to global catastrophe is not the main burden of the book for the christian who is faithful to god there is hope even more the sure promise of deliverance from the last great tribulation philip blair

are we on the cusp of détente with Iran conventional wisdom certainly seems to believe so since the start of diplomacy between the Islamic Republic and the P5+1 powers the United States France England Russia China Germany in November 2013 hopes have been running high for a historic reconciliation of Iran's clerical regime with the West yet there is ample reason for skepticism that the United States and its allies can truly curb Iran's nuclear ambitions by diplomatic means moreover the West's current

focus on iran s nuclear program is deeply dangerous insofar as it fails to recognize let alone address iran s other international activities or its foreign policy aims those objectives are global and they continue to grow in scope and menace in this sobering book ilan berman illuminates the multiple dimensions of the iranian threat and exposes the perils of lodging confidence in diplomacy with the islamic republic

the strategic studies institute is pleased to offer this monograph as a contribution to the national security debate on this important subject as our nation continues to grapple with a variety of problems associated with the future of the middle east and the ongoing challenge of advancing u s interests in a

time of middle east turbulence this book analyzes both domestic and international factors that have influenced iran s foreign policy since 1979 it looks not only at the perspectives of the ruling elite but also of civil society and opposition groups furthermore it also analyzes the interactions among iran s policies and those of regional and global powers since the 1979 revolution iran s foreign policy has appeared both threatening and puzzling some have described it as ideological whereby the regime has been attempting to export its islamist rule to neighbouring countries and challenging the international order others consider iran s foreign policy to be primarily pragmatic concerned with survival of the regime and expanding its power not unlike other powers in the system this book attempts to go deeper than most conventional analyses it demystifies iran s foreign policy by describing in great detail foreign policy decision making in iran iran is not a one man dictatorship rather it is rule by an oligarchy of shia fundamentalists the regime s ideology has not been cohesive nor has it remained

consistent in the past 41 years nor all members of the ruling oligarchy have articulated an identical version of it the book describes foreign policies of various factions and their leading figures as well as analysing their evolutions since 1979 it explains how various intra elite configurations of power have influenced the regime s foreign policy regarding the nuclear weapons program and the relations with the united states iran s foreign policy elite factionalism ideology the nuclear weapons program and the united states adds fresh and critical perspectives on scholarly and policy debates on iran s foreign policy the chapters in this book were originally published in the following journals comparative strategy american foreign policy interests and the terrorism law report

the main advantage of this monograph is that it attempts to conduct the most up to date analysis possible of the present political situation in egypt and the middle east therefore we receive a monograph which allows us not only to look at the arab spring from a historical perspective but primarily to reflect on the consequences of

these past events that it was hoped would spark political reforms in arab states and facilitate greater public participation in the system of governance thus this publication allows the verification of many of the judgments and opinions expressed during the arab spring on the possible direction of development of the political processes initiated by the massive social revolts in arab countries

the quickening pace of iran s nuclear activities has produced an international sense of urgency sanctions have intensified while fears of an israeli strike abound talks

have briefly eased the tension before failing due to fundamental differences between iran and the west there seem to be dim prospects for peaceful resolution the worry is that this long running dispute could become a permanent crisis this whitehall paper tackles the iranian nuclear dispute in its full context to determine what possible compromises may exist and how they may be achieved while the crisis is embedded in a set of overlapping security disputes between iran on the one hand and the united states arab regional powers israel and the broader west on the other it is also important to analyse it in a comparative and thematic context iran s programme is not sui generis previous experience can help to inform our assessments of how iran will be affected by and respond to intense multilateral economic and political pressure and what its nuclear posture might be this study also examines how policy responses by the west should evolve were iran to resume its alleged nuclear weapons programme continue to undertake some degree of near weaponisation or weaponisation or test and deploy nuclear weapons the

permanent crisis questions the assumptions and logic of alarmist studies those which see a nuclear iran as fanatical unresponsive to deterrence and certain to precipitate a wave of unstoppable nuclear proliferation whilst outlining the very real risks that would flow from such a failure of western policy

a unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations when do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear in revolutionary contagion chad e nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations to do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and islamism he further explains

that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries according to the theory nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents in other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state a powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion
