The Systems Analysis And Design Elias M Awad of content is apparent, presenting a dynamic array of PDF eBooks that oscillate between profound narratives and quick literary getaways.

Quality: Each eBook in our inventory is meticulously vetted to ensure a high standard of quality. We strive for your reading experience to be pleasant and free of formatting issues.

english.al-akhbar.com is committed to upholding legal and ethical standards in the world of digital literature. We prioritize the distribution of Un Isis Systematically Murders Children Uses Child Suicide Bombers that are either in the public domain, licensed for free distribution, or provided by authors and publishers with the right to share their work. We actively oppose the distribution of copyrighted material without proper authorization.

Gratitude for opting for english.al-akhbar.com as your reliable source for PDF eBook downloads. Happy perusal of Systems Analysis And Design Elias M Awad

A critical aspect that distinguishes english.al-akhbar.com is its dedication to responsible eBook distribution. The platform rigorously adheres to copyright laws, assuring that every download Systems Analysis And Design Elias M Awad is a legal and ethical endeavor. This commitment brings a layer of ethical complexity, resonating with the conscientious reader who appreciates the integrity of literary creation.

Navigating our website is a piece of cake. We've designed the user interface with you in mind, guaranteeing that you can easily discover Systems Analysis And Design Elias M Awad and retrieve Systems Analysis And Design Elias M Awad eBooks. Our exploration and

categorization features are easy to use, making it straightforward for you to find Systems Analysis And Design Elias M Awad.

Variety: We regularly update our library to bring you the latest releases, timeless classics, and hidden gems across genres. There's always a little something new to discover.

The download process on Un Isis Systematically Murders Children Uses Child Suicide Bombers is a concert of efficiency. The user is welcomed with a direct pathway to their chosen eBook. The burstiness in the download speed assures that the literary delight is almost instantaneous. This effortless process aligns with the human desire for fast and uncomplicated access to the treasures held within the digital library.

In the domain of digital literature, burstiness is not just about assortment but also the joy of discovery. Un Isis Systematically Murders Children Uses Child Suicide Bombers excels in this dance of discoveries. Regular updates ensure that the content landscape is ever-changing, presenting readers to new authors, genres, and perspectives. The surprising flow of literary treasures mirrors the burstiness that defines human expression.

An aesthetically pleasing and user-friendly interface serves as the canvas upon which Un Isis Systematically Murders Children Uses Child Suicide Bombers portrays its literary masterpiece. The website's design is a reflection of the thoughtful curation of content, offering an experience that is both visually engaging and functionally intuitive. The bursts of color and images blend with the intricacy of literary choices, forming a seamless journey for every visitor.

At english.al-akhbar.com, our aim is simple: to democratize knowledge and encourage a passion for literature Un Isis Systematically Murders Children Uses Child Suicide Bombers. We are of the opinion that each individual should have entry to Systems Analysis And Design Elias M Awad eBooks, encompassing different genres, topics, and interests. By offering Un Isis Systematically Murders Children Uses Child Suicide Bombers and a varied collection of PDF eBooks, we aim to enable readers to explore, acquire, and plunge themselves in the world of literature.

Hello to english.al-akhbar.com, your hub for a wide assortment of Un Isis Systematically Murders Children Uses Child Suicide Bombers PDF eBooks. We are enthusiastic about making the world of literature available to every individual, and our platform is designed to provide you with a effortless and pleasant for title eBook obtaining experience.

Regardless of whether you're a dedicated reader, a student seeking study materials, or someone venturing into the realm of eBooks for the very first time, english.al-akhbar.com is available to provide to Systems Analysis And Design Elias M Awad. Join us on this reading adventure, and allow the pages of our eBooks to transport you to new realms, concepts, and experiences.

One of the distinctive features of Systems Analysis And Design Elias M Awad is the arrangement of genres, creating a symphony of reading choices. As you navigate through the Systems Analysis And Design Elias M Awad, you will encounter the complexity of options — from the structured complexity of science fiction to the rhythmic simplicity of romance. This variety ensures that every reader, no matter their literary taste, finds Un Isis Systematically Murders Children Uses Child Suicide Bombers within the digital shelves.

We grasp the excitement of finding something novel. That is the reason we consistently refresh our library, ensuring you have access to Systems Analysis And Design Elias M Awad, acclaimed authors, and hidden literary treasures. On each visit, anticipate new possibilities for your reading Un Isis Systematically Murders Children Uses Child Suicide Bombers.

this book examines the reasons for which children join terrorist movements and how they eventually become peace activists fighting the very crimes that they once committed the transformation of child terrorists into peace activists has received scant attention from academics and practitioners alike particular focus is placed on child jihadism child terrorism in africa and latin america child separatist terrorism and white child supremacism these five groups of child terrorists represent about 80 of the problem across the world the text serves as a primer for anti terrorism and peace activism for global social change it includes original applied research and features personal accounts from former

child terrorists who became peace activists themselves one of the nine chapters provides an in depth thematic analysis of the lives of 24 subjects from all five aforementioned groups the analysis produced four main themes that encapsulate the time and effort that it takes to become a peace activist today metamorphosis terrorist behavior disillusionment and anti terrorist behavior the book ends with multiple solutions from the perspective of social work including the reintegration of former child terrorists into society from child terrorism to peace activism is a resource of deep and broad appeal the text is essential reading for upper level undergraduate and master s students in political science military studies international relations international law and peace and conflict studies it can be pertinent reading for students and instructors in international social work contemplating social work related solutions

to rehabilitate former child terrorists and child soldiers into society through peace activism anti terrorist endeavors and other socio psychological methods that will produce social change the text also would appeal to faculty and students in childhood studies with an interest in child terrorism child development and child trauma and resilience given the essentials depth and possibilities that the book offers it is a useful resource for audiences within counterterrorism institutes national security agencies and academic think tanks information on motives strategies radicalization processes and recruitment methods used by terrorist organizations as well as their effects on various audiences will draw readers from law enforcement agencies and institutions

as many as fifty non state armed groups nsags in countries such as afghanistan colombia the democratic republic of congo india iraq israel palestine libya mali pakistan

the philippines somalia south sudan syria thailand and yemen are engaged in the recruitment and use of children in armed conflict in somalia south sudan syria and yemen the situation continues to be perilous with many hundreds of children recruited used killed and maimed children have been used by the nsags as executioners and suicide bombers by an estimate there are 300 000 350 000 child soldiers worldwide and the alarming trend continues to grow according to the united nations there has been a fivefold increase in the number of children recruited in a few ongoing armed conflicts this book gives an up to date and comprehensive analysis of the recruitment and use of child soldiers worldwide and examines the inadequacy of international institutions and laws in protecting children it is an invaluable resource for anyone interested or working in the field of protecting children teachers students lawyers government officials military and

police personnel researchers and human rights activists

children at war is the first comprehensive book to examine the growing and global use of children as soldiers p w singer an internationally recognized expert in twenty first century warfare explores how a new strategy of war utilized by armies and warlords alike has targeted children seeking to turn them into soldiers and terrorists singer writes about how the first american serviceman killed by hostile fire in afghanistan a green beret was shot by a fourteen year old afghan boy how suspected militants detained by u s forces in iraq included more than one hundred children under the age of seventeen and how hundreds who were taken hostage in thailand were held captive by the rebel god s army led by twelve year old twins interweaving the voices of child soldiers throughout the book singer looks at the ways these children are recruited abducted

trained and finally sent off to fight in war torn hot spots from colombia and the sudan to kashmir and sierra leone he writes about children who have been indoctrinated to fight u s forces in iraq and afghanistan of iraqi boys between the ages of ten and fifteen who had been trained in military arms and tactics to become saddam hussein s ashbal saddam lion cubs of young refugees from pakistani madrassahs who were recruited to help bring the taliban to power in the afghan civil war the author national security fellow at the brookings institution and director of the brookings project on u s policy towards the islamic world explores how this phenomenon has come about and how social disruptions and failures of development in modern third world nations have led to greater global conflict and an instability that has spawned a new pool of recruits he writes about how technology has made today s weapons smaller and lighter and therefore easier for

children to carry and handle how one billion people in the world live in developing countries where civil war is part of everyday life and how some children without food clothing or family have volunteered as soldiers as their only way to survive finally singer makes clear how the u s government and the international community must face this new reality of modern warfare how those who benefit from the recruitment of children as soldiers must be held accountable how western militaries must be prepared to face children in battle and how rehabilitation programs can undo this horrific phenomenon and turn child soldiers back into children

child soldiers remain poorly understood and inadequately protected despite significant media attention and many policy initiatives this research handbook aims to redress this troubling gap it offers a reflective fresh and nuanced review of the complex issue of child soldiering the handbook brings

together scholars from six continents diverse experiences and a broad range of disciplines along the way it unpacks the life cycle of youth and militarization from recruitment to demobilization to return to civilian life the overarching aim of the handbook is to render the invisible visible the contributions map the unmapped and chart new directions challenging prevailing assumptions and conceptions the research handbook on child soldiers focuses on adversity but also capacity emphasizing the resilience humanity and potentiality of children affected rather than afflicted by armed conflict

children have served as soldiers throughout history they fought in the american revolution the civil war and in both world wars they served as uniformed soldiers camouflaged insurgents and even suicide bombers indeed the first u s soldier to be killed by hostile fire in the afghanistan war was shot in ambush by a fourteen year old

boy does this mean that child soldiers are aggressors or are they victims it is a difficult question with no obvious answer yet in recent years the acceptable answer among humanitarian organizations and contemporary scholars has been resoundingly the latter these children are most often seen as especially hideous examples of adult criminal exploitation in this provocative book david m rosen argues that this response vastly oversimplifies the child soldier problem drawing on three dramatic examples from sierra leone palestine and eastern europe during the holocaust rosen vividly illustrates this controversial view in each case he shows that children are not always passive victims but often make the rational decision that not fighting is worse than fighting with a critical eye to international law armies of the young urges readers to reconsider the situation of child combatants in light of circumstance and history before adopting

uninformed child protectionist views in the process rosen paints a memorable and unsettling picture of the role of children in international conflicts

this book offers an evaluation of female suicide bombers through postcolonial third world feminist and human rights framework drawing on case studies from conflicts in palestine sri lanka and chechnya among others women suicide bombers explores why cultural media and political reports from various geographies present different information about and portraits of the same women suicide bombers the majority of western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers abnormal mental conditions their physicality for example their painted fingernails or their beautiful eyes their sexualities and the various ways in which they have been victimized by their backward third world cultures especially by islam in contrast

propaganda produced by rebel groups deploying women bombers cultures supporting those campaigns and governments of those nations at war with sovereign states and western nations tend to project women bombers as mythical heroes in ways that supersedes the martyrdom operations of male bombers many of the books published on this phenomenon have revealed interesting ways to read women bombers subjectivities but do not explore the phenomenon of women bombers both inside and outside of their militant activities or against the patriarchal orientalist and western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures in contrast this book offers a corrective lens to the existing discourse and encourages a more balanced evaluation of women bombers in contemporary conflict this book will be of interest to students of terrorism gender studies and security

studies in general

this is a book that students and professionals from different disciplines and backgrounds including from academia international organisations non governmental organisations the medical community governments etc will find to be a valuable resource in their quest to learn more about an area of study that has long been neglected 2 volume set

drawing on a rich legacy of pictorial evidence images of childhood examines historical constructions of childhood and how they reinforce or challenge the prevailing view of childhood as a state of innocence each chapter explores how visual elements such as framing points of view and lighting as well as clothes accessories and body language help to construct our many different conceptions of children from members of the family unit and assumed gender roles to schooling and aesthetic

objects through to their economic value and use in political propaganda skillfully navigating a multitude of perspectives on this topic paul duncum considers both how our ideas beliefs and values have changed throughout history and how some have remained unchanged he also explores the cultural notion of the child within and how this has contributed to the way adults perceive children the result is a text far broader in scope than any other in its field as art history is interweaved with contemporary popular culture to explore how we visually represent childhood in doing so the book highlights the real life implications that these representations have on children s rights

pirates warlords guerillas criminal organizations drug cartels apocalyptic religious extremists police agencies terrorists these are classic insurgents whose past present and future is dissected in this important book contributing writers

including martha crenshaw t x hannes russell howard gene cristy yosef kuperwasser and academics from naval war college marine corps war college and stanford university explore important insurgency related issues such as domestic terrorism globalization of armed groups children on the battlefield religious influence on armed fights and more this rich anthology offers scholars and citizens a new way to think about national and international security as it stands today and its future

available in an on line version which provides numerous additional reference and research tools additional multimedia and powerful search functions each topic includes cross referencing to related articles and case studies where further explanation is required along with references to external sources for further reading

why do terrorist organizations use children to support their cause and carry out their activities small arms uncovers the brutal truth behind the mobilization of children by terrorist groups mia bloom and john horgan show us the grim underbelly of society that allows and even encourages the use of children to conduct terrorist activities they provide readers with the who what when why and how of this increasingly concerning situation illuminating a phenomenon that to most of us seems abhorrent and yet they argue for terrorist groups the use of children carries many benefits children possess skills that adults lack they often bring innovation

and creativity children are in fact a superb demographic from which to recruit if you are a terrorist small arms answers questions about recruitment strategies and tactics determines what makes a child terrorist and what makes him or her different from an adult one and charts the ways in which organizations use them the unconventional focus on child and youth militants allows the authors to in essence give us a biography of the child terrorist and the organizations that use them we are taken inside the mind of the adult and the child to witness that which perhaps most scares us

concerns over the changing nature of gangs and cartels and their relationships to states in the late 20th and early 21st centuries has resulted in the emergence of a scholarly body of work focused on their national security threat potentials this body of work utilizing the third generation gangs and third phase cartel typologies represents an alternative to traditional gang and organized

crime research and one that is increasingly influencing the us defense community rather than being viewed only as misguided youth and opportunistic criminals or in their mature forms as criminal organizations with no broader social or political agendas more evolved gangs and cartels are instead seen as developing political mercenary and state challenging capacities this evolutionary process has emerged due to the growing illicit economy and other unintended consequences of globalization this important anthology of writings by robert j bunker and john p sullivan draws upon a collection of their works from the mid 1990s to the present with the addition of new essays written specifically for this publication the work will be of great interest to academics and students in the fields of political science and criminal justice and to military law enforcement and governmental professionals and policy makers this book is a collection of new and previously published

works from a variety of publications a full list of which is on the citation information page

we live in the age of the suicide bomber the suicide bomb itself takes more lives than any other type of explosive weapon moreover in the last 5 years more people have been killed by suicide attacks than at any other time in history how has this descent deep into the heart of terror escalated in such a way what drives people to blow themselves up and what are the consequences more importantly perhaps what can be done to combat the rising spread of this form of violence investigative journalist iain overton addresses the fundamental drivers of modern day suicide attacks in this fascinating and important book showing how the suicide bomber has played a pivotal role in the evolution of some of the most defining forces of the modern age from communism and the cold war to the modern day war on terror interviewing russian anarchists japanese kamikazes hezbollah militants survivors of

suicide bombings and countless other sources of valuable information while travelling to places such as iran irak and pakistan overton skilfully combines historical narrative travelogue interviews and testimonies and brings his research alive thanks to potent facts and visceral storytelling the result is a powerful and unforgettable read the first non academic attempt to chart the rise and rise of this weapon

editor arthur gillard has compiled fascinating stirring essays and articles that explain how the war in afghanistan impacts the american way of life readers will explore the issues surrounding the afghan war from 2001 to present both conservative and liberal points of view create an even balance on issues including whether the u s should continue fighting whether the counterinsurgency strategy is effective and whether the war is helping with the rights of afghan women readers will also evaluate

whether the u s should accept and learn to work with corruption in afghanistan personal narratives will make your readers feel for the plight of each essayist including a teenage son who talks about his father s military service

political violence has disrupted the lives of millions of children around the world responding to the gravity and scale of this phenomenon this volume is intended to stimulate discussion and research on children s exposure to political violence and its psycho social effects it brings together for the first time in a single volume three areas of scientific activity in different disciplines research on effects programs for intervention and laws and policy for prevention of political violence to children section i presents reviews of research on children exposed to political violence including child soldiers and refugee children as well as an examination of methodology and ethics section ii contains research on

interventions with children exposed to political violence including individual therapy and school family and community interventions section iii covers legal and social issues in deterring the recruitment of children to violent causes and protecting children in armed conflict pulling together the work of leading scholars and practitioners in the social sciences and international law this volume argues that the prevention of political violence to children is possible and it provides a crucial basis for ideas for prevention

the purpose of this book is to help researchers and professionals understand the possibilities for protecting children in violent political conflicts this is the first book to be published on this important complex and painful topic most other publications have concentrated on the effects of political violence on children and adults but have little or nothing to say on prevention from the point of view of the

social sciences this book represents the beginnings of a new field of inquiry and policy the book includes research on the effects of exposure to political violence on children reports by police and military experts of their experiences in protecting the public and children while keeping order observations from people in human rights and childrens rights organizations on issues of attempting to report to and observe both sides in a conflict and work by legal researchers on international law relating to the protection of children in political conflicts

following the western drawdown in afghanistan the global and regional security landscapes will change dramatically al qaeda the afghan taliban and their allies who are still posing a threat to the u s led coalition are poised to return to afghanistan further the mujahidin in the tribal areas of pakistan may once again draw the support of pools of fighters scholars from the

countries discussed use their own on the ground experience to explain the post 2014 key strategic decisions that face policymakers in afghanistan the united states and the region these diverse perspectives help grasp issues necessary to assess the strategic environment the book provides a roadmap for the strategy outlined along with predictive analysis of what is likely to happen particular attention is paid to the u s afghanistan bilateral security agreement as well as reconciliation talks with the afghan taliban overall the looming increases in global terrorism that may result warrant a continued focus and resource allocation to the afghanistan pakistan region

over one billion people under the age of eighteen live in territories affected by armed conflict despite this scholars and practitioners often lack a comprehensive knowledge of how children both struggle within and shape conflict zones children and

global conflict provides this understanding with a view to enhancing the prospects of conflict resolution and peacebuilding this book presents key ideas and issues relating to children s experiences of war international relations and international law the authors explore the political conceptual and moral debates around children in these contexts and offer examples and solutions based on case studies of child soldiers from vietnam child forced migrants in australia young peace builders in post conflict zones youth in the international justice system and child advocates across south asia and the middle east

this book exposes the role of children in war describing where why and how children are deployed the attempts made by international organizations to protect children and the underlying political and cultural issues that make this such a thorny issue in conflict torn countries such as myanmar and uganda the use of child

soldiers in military and paramilitary operations continues to occur despite widespread condemnation and the efforts of organizations such as the coalition to stop the use of child soldiers this book will allow readers to grasp the impact of this issue for both individuals and nations worldwide child soldiers a reference handbook traces the evolution of child soldiers from approximately 1940 onwards covering important historical to modern conflicts the subject is discussed from a global perspective with particular attention given to areas where the use of child soldiers is most prevalent the book covers the complex underlying reasons for the continued use of child soldiers in the modern world examines the political and psychological consequences of using children both male and female in military and paramilitary organizations and describes how this subject has been addressed by international law and various human rights organizations

the handbook of terrorism in the asia pacific provides a historical overview of terrorism in the asia pacific the evolution of threat and the present threat faced by countries with the rise of the islamic state is this is a concise and readable handbook which examines the origins of the current wave of terrorism across countries in southeast asia south asia northeast asia and the pacific and identifies emerging trends and new forms of terror that have altered the landscape and rendered the region increasingly vulnerable to asymmetric attacks comprising of more than 20 chapters this handbook will be a useful source of reference for undergraduate and graduate students focused on understanding the causes of terrorism and insurgency in the asia pacific

this interdisciplinary book analyzes the nature of child justice administration in africa particularly focusing on nigeria and south africa the author uses a comparative

approach in analyzing the legal regime and practice of child justice administration in africa by recommending south africa as inspiration for nigeria since the justice sector in south africa is significantly more developed it further investigates various problems and challenges associated with children in the criminal justice system in africa thereby contributing to the cross fertilization and collaboration among african nations that contributes to the development of the continent as a whole the monograph shows that children are not only neglected by academics and practitioners but also that there is no access to scholarly materials in this area of law in africa this work contributes to knowledge in the area of law and methodology on the issue of child justice administration development studies political science and african studies

children make up half of the world s refugees and over 40 per cent of the world s asylum seekers however children are

largely invisible in historical and contemporary refugee law furthermore there has been very limited interaction between the burgeoning children s rights framework in particular the convention on the rights of the child crc and the 1951 convention relating to the status of refugees refugee convention this book explores the possibility of a children s rights approach to the interpretation of the refugee convention and within that what such an approach might look like in order to construct a children s rights approach the conceptualisations of children outside the legal discipline within international children s rights law and then within refugee law and refugee discourse are analysed the approach taken is socio legal and comparative in nature and the suitability of the refugee convention as a framework for the interpretation of child claims is examined the book analyses to what extent the refugee convention is capable of dealing with claims from children

based on the modern conceptualisation of children which is underscored by two competing ideologies the child as a vulnerable object in law to be protected and the child as subject with rights and the capacity to exercise their agency the influence each regime has had on the other is also analysed the work discusses how a children s rights approach might improve outcomes for child applicants the book makes an original contribution to child refugee discourse and as such will be an invaluable resource for academics researchers and policymakers working in the areas of migration and asylum law children s rights and international human rights law

it s not just osama bin laden anymore it s the people all around you from coworkers to your next door neighbor from domestic terrorists and serial killers to troubled students and homicidal exes violent people are living right here among us but we don t

have to count on patience and providence to get us through in a guide to identifying terrorists through body language renowned body language expert and bestselling toxic people author dr lillian glass reveals the visual cues characteristics and behaviors we need to identify the most dangerous people in our midst in only seconds in this book she teams up with former fbi special agent d vincent sullivan where they both draw upon decades of experience her expertise in body language vocal forensics and behavioral analysis and his experience as a former member of the joint terrorist task force provide you with the the same instruction information and insight they have provided to law enforcement the justice system and homeland security among others complete with real life scenarios and case studies this groundbreaking handbook is the protection we upstanding citizens need to keep ourselves our families and our society free from harm

this book examines how african states can build the institutional capacity to better prevent manage and cope with the new security challenges posed by violent religious extremism despite the evidence that violent religious extremism is exacerbated by underlying social political economic and governance factors many states have focused their efforts only on reactive and coercive response strategies overlooking more long term measures this comparative study of nigeria and kenya reflects on why insurgency in kenya has not escalated to full blown terrorism as it has with boko haram in nigeria in spite of the similarities in relatively weak institutions of governance and colonial legacies across the two countries the book interrogates the policy and institutional responses that have been put in place in both countries to address security challenges and the extent of their efficacy in light of the intricate networks of politics governance corruption

poverty and violence and the relative fragility of state institutions the authors highlight the areas of convergence and divergence in institutional capacities and recommend policies to enhance the capacity of institutions to manage violent religious extremism this book will be of interest to scholars of african politics security peace studies and terrorism

boko haram is now the deadliest terrorist organization operational in the world by virtue of the sheer number of people the group have killed together with al shabaab the two groups account for a substantial amount of carnage on the african continent analyzed here are the ideologies of these two infamous organizations utilizing information from breadcrumbs that they leave behind in videos media releases and various correspondence this book searches for clues within the historical and contemporary social context that explain their existence it explores the ideological

roots the two organizations share and examines the goals and objectives of each group in order to calculate the nature of the threat posed in the broader international realm it is argued that through applying strategic theory and specifically the concept of strategic terrorism it is possible to form a deeper understanding of two of the most dangerous militant organizations in operation today

from childhood onwards humans use their environment's responses to construct models or schemata to link feelings and impulses with actions and effects if the environment during those formative years is unreliable frustrating or violating the construction of those internal models can be disrupted and create a disjointed perception of the world where violence is the only way to feel strong or good about oneself before and after violence explores the complex network of experiences and relationships that contribute to both the

origins and consequences of violence starting in the early stages of life and compounding over time the contributors to this collection examine the different settings in which violence takes place look at the variables that propel its occurrence in local and global instances and depict how each can be traced back to profound feelings of betrayal helplessness and anger that manifest in the physical discharges of aggression towards a single person or a whole group through a psychoanalytic lens the contributors analyze and explain violence in its many forms delve into its myriad of causes as well as offer a variety of solutions that can be applied to various instances of violence whether it be physical or mental self directed or other directed

when we hear the term child soldiers most americans imagine innocent victims roped into bloody conflicts in distant war torn lands like sudan and sierra leone yet our own history is filled with examples of

children involved in warfare from adolescent prisoner of war andrew jackson to civil war drummer boys who were once viewed as symbols of national pride rather than signs of human degradation in this daring new study anthropologist david m rosen investigates why our cultural perception of the child soldier has changed so radically over the past two centuries child soldiers in the western imagination reveals how western conceptions of childhood as a uniquely vulnerable and innocent state are a relatively recent invention furthermore rosen offers an illuminating history of how human rights organizations drew upon these sentiments to create the very term child soldier which they presented as the embodiment of war's human cost filled with shocking historical accounts and facts and revealing the reasons why one cannot spell infantry without infant child soldiers in the western imagination seeks to shake us out of our pervasive historical amnesia it

challenges us to stop looking at child soldiers through a biased set of idealized assumptions about childhood so that we can better address the realities of adolescents and pre adolescents in combat presenting informative facts while examining fictional representations of the child soldier in popular culture this book is both eye opening and thought provoking

verbal attacks against israel for human rights violations have turned into physical attacks against the jewish community worldwide how has that happened this book attempts to explain the phenomenon anti zionists whose primary goal is destruction of the state of israel use accusations of the worst forms of human rights violations against israel to delegitimize the state these accusations criminalize the jewish population worldwide for actual or presumed support of the state of israel the contemporary international human rights system and the existence of the state of

israel are twin legacies of the holocaust the failure of the human rights system to prevent attacks on israel and the jews is an aftershock of the holocaust

a comprehensive analysis of the rise of boko haram from a small religious cult to a major terrorist group placing them within the context of nigerian politics and the international war on terror in 2009 nigerian security forces stormed a religious cult by the name of boko haram killing its leader and thousands of followers six years later boko haram is an enemy to reckon with boasting 15 000 members and taking credit for 20 000 deaths this book looks at the successful rise of this terrorist group probing the religious and political environment that enabled a relatively small cult to threaten a nation the study draws on the author's fieldwork in nigeria where she had access to officials activists psychologists and military personnel written in a clear and accessible manner it offers a

micro to macro investigation of the boko haram as a phenomenon it also provides readers with an understanding of the regional dynamics that obstructed political and military cooperation among neighboring countries enabling boko haram's success this book traces the group's religious origins in the early 2000s and documents its violent political claims in nigeria and across the border in northern cameroon niger and chad finally it examines the impact of the international war on terror and presents a comparative study of other contemporary terrorism movements and their networks

nurturing our humanity offers a new perspective on our personal and social options in today's world showing how to structure our environments from family and gender relations to politics and economics to support our great capacities for consciousness caring and creativity it examines where societies fall on the partnership domination scale and how this

impacts equity sustainability peace and how our brains develop combining cutting edge findings from biological and social science it explains regressions to strongman rule and other dangerous trends re examines our past including societies that for millennia oriented toward partnership and outlines actions to move us in this life sustaining and enhancing direction

in children and the responsibility to protect bina d costa and luke glanville bring together more than a dozen academics and practitioners from around the world to examine the intersections of the responsibility to protect r2p principle and the theory and practice of child protection contributors consider themes including how the agency and vulnerability of children is represented and how their voices are heard in discussions of r2p and child protection and the merits of drawing together the r2p and children and armed conflict caac agendas as well as case studies of children

s lives in conflict zones child soldiers and children born of conflict related sexual violence this collection of essays was first published in the journal global responsibility to protect vol 10 1 2 2018 as a special issue contributors are j marshall beier letícia carvalho bina d costa myriam denov luke glanville michelle godwin erin goheen glanville cecilia jacob dustin johnson atim angela lakor katrina lee koo ryoko nakano jochen prantl jeremy shusterman hannah sparwasser soroka timea spitka jana tabak shelly whitman

wat een kind nodig heeft is aan het veranderen en ook de wereld verandert en is duidelijk veel kleiner geworden met de steun van plan netherlands willen de auteurs bevindingen uit de ontwikkelingspsychologie en eigen participerend onderzoek in india kenia nicaragua en nederland aanreiken aan humanitaire organisaties de nieuwe noden zien ze vooral in de gelijke behandeling van

de vrouw en de opkomst van girl power het verdwijnen van traditionele structuren waardoor maatschappelijke instabiliteiten ontstaan de schrikbarende groeiende seksuele exploitatie van kinderen de vermenging van het reële en virtuele de mogelijkheid van totaal nieuwe levensstijlen in een geglobaliseerde wereld de auteurs verbinden concrete ontwikkelingen steeds met de veranderende visies en theorieën over kinderen

in this timely multidimensional study historian jouni suistola and psychoanalyst vamik d volkan draw on their respective disciplines and their own personal and professional experiences to investigate the historical and psychological roots of terrorism specifically what is it in human nature that allows people to terrorize and kill the other and what societal factors whether political economic or religious lead to terrorism and in turn how might terrorist ideologies and groups be defeated

especially when a society's realistic fears are contaminated with xenophobia racism and fantasized dangers focusing specifically on modern day radical islamist terrorism the authors argue that studying the minds of individual terrorists can tell us something about those individuals but that only by examining the deeper historical political and society wide psychological processes at work will we be able to uncover the core causes of terrorism only through such understanding they conclude will the world be positioned to prevent further radicalization and create lasting and peaceful solutions to the seemingly intractable problem of terrorist violence

this book articulates a practice and theory of education that aims to facilitate the emergence of sustainable peace and conflict resilient communities in societies plagued by conflict it does so by examining the agency of conflict resilient communities and the dynamic processes of their interactions with larger societal structure although education is seen as a human right the design of education policies schooling models and curricula has primarily been the prerogative of elites be they governments academics or international actors this book argues for a different approach to education contending for more inclusivity and open deliberation in modeling education frameworks drawing on case studies and

interviews with practitioners scholars activists and policymakers it applies the lenses of conflict resolution to a variety of education issues within fragile societies

in kiswahili the east african language spoken by black african people wananchi means the ordinary people or the public the origin in kiswahili of wananchi the plural of mwananchi is inhabitant or citizen kiswahili is the african language spoken used and understood by majority of africans in sub saharan africa in the view of arthur livington who wrote the introduction section of gaetano moscas *elementi di scienza politica* 1939 his the plain man fits kiswahilis mwananchi
