council where he noted the delay comes at a cost the security council's authority and credibility were severely undermined and the resolution is not being implemented there is an urgent need for reform in the un system such reforms are vital to confront challenges like the u.s. veto power ensuring the un's capacity to effectively prevent wars and maintain international peace and security at the end the world system has totally collapsed especially after the most recent violations of the system such as the invasion of ukraine by the russian federation and the israeli genocidal acts in the gaza strip against the innocent palestinians while the western states which are considered as the pro status quo powers fiercely opposed the russian invasion of ukraine they did not oppose the israeli atrocities on the contrary western countries particularly the u.s. have provided unconditional and limitless military political and economic support to israel as mentioned earlier such selective adherence exacerbates the crisis on this matter furthermore global international organizations such as the un as secretary general guterres underlined fail to prevent regional and global conflict and to punish the states who violates basic human rights and commit war crimes in this chaotic and unstable world many middle power states have been trying to form regional coalitions to increase their deterrent powers and to establish balance of power against real or potential threats ṫrkiye as a regional power and a global actor has also been trying to form bilateral and multilateral regional coalitions with certain countries to maximize its national interests and also to increase its regional effectiveness within this context the ak party government under the leadership of president erdoğan has declared the establishment of a turkish axis at the beginning of the second century of the turkish republic when examined closely it can be easily inferred that there are two main groups of states that ṫrkiye can improve its relations to form the turkish axis namely turkic and muslim states ṫrkiye has accordingly tried to improve its relations with the turkic states in the context of ongoing geopolitical turbulence and shifts at the global and regional levels in alignment with its broader geopolitical strategy ṫrkiye has played a crucial role in shaping the osts particularly since the 8th turkic summit which took place in İstanbul on november 12 2021 this influential role was further highlighted in the wake of ṫrkiye's significant support to azerbaijan during the second karabakh war this involvement not only solidified ṫrkiye's relations with fellow turkic states but also expanded its

strategic and economic engagement in the turkestan region such developments are indicative of t rkiye s escalating influence within the eurAsian geopolitical sphere characterized by a harmonious blend of diplomatic economic and cultural cooperation under the auspices of the ots framework t rkiye recognizes the strategic significance of its engagement with the turkic states located in central asia and the caucasus the regions that have long attracted the attention of global powers due to their abundant natural resources strategic location potential for economic development transportation logistics and connectivity t rkiye has consistently nurtured and progressively strengthened its relationships with fellow turkic states since their independence as previously mentioned this bond was further reinforced by t rkiye s pivotal role in the second karabakh war highlighting its significant strategic influence in shaping the region s geopolitical landscape during this conflict ankara played an instrumental role in facilitating the liberation of azerbaijani territories and at the same time underscored t rkiye s strategic importance and bolstered its standing among these nations t rkiye s successful interventions in regional crises such as libya and syria also had a positive impact on its image in this context the turkic states decision to align with t rkiye can be seen as a strategic move to leverage t rkiye s increasing influence in regional geopolitics and global affairs this collaboration allows them to amplify their voice on the international stage enhancing their bargaining power and positioning in global geopolitics the alignment with t rkiye is not just about leveraging t rkiye s capabilities it s also about cultivating a unified front to address the complex dynamics of global challenges thereby fostering regional stability economic growth and cultural exchange among the turkic states the establishment of ots has increased expectations for the turkic states to initiate a multidimensional and multi-level relations within the turkic world considering that many states want to become part of ots as observer members it is clear that the organization will serve as the main locomotive of a possible regional integration of the turkic world and make a great contribution to the institutionalization of cooperation among the turkic states ots has a great potential in political economic strategic and social dimensions within international and regional systems the turkic nations who have a common language culture and religion are likely to collaborate economic and technical sectors such as in trade transport energy agriculture education and high

tech ventures and tackle common challenges such as water resource management furthermore the security and military dimension has become increasingly prominent within the multidimensional areas of cooperation among the turkic states in recent years in conclusion the ascendance of the ots in the eur asian geopolitical landscape signals a transformative phase in the region s dynamics with the ots poised to enhance economic and strategic connectivity between europe and asia this evolving role of the ots indicative of a new geopolitical order is significantly influenced by t rkiye s active participation and leadership t rkiye s role in the ots has been instrumental in transitioning the organization from a platform for dialogue to a powerful union of states committed to trade enhancement economic cooperation and bolstering regional stability this pivotal role played by t rkiye leveraging its unique geographical and cultural position as a linchpin between europe and asia has been crucial in steering the ots towards greater regional integration and a heightened global presence as mentioned above the 10th summit of the ots themed turk time encapsulates the essence of this transformation the acronym turktime symbolizes the core principles guiding the summit these principles reflect not only the summit s focal areas but also the overarching goals and aspirations of the ots with t rkiye s stewardship they highlight a commitment to preserving cultural heritage fostering unity driving meaningful reforms expanding knowledge building trust promoting strategic investments facilitating mediation in conflicts and prioritizing energy cooperation this thematic framework of turktime not only shapes the discourse of the summit but also mirrors the broader strategy of the ots in its quest for a more interconnected and influential role on the global stage thus the ots with t rkiye s significant influence stands as a testament to the evolving nature of regional alliances and their capacity to shape international relations in the 21st century in its special issue highlighting the importance of the turkic world insight turkey presents 4 commentaries and 4 research articles related to the subject additionally it includes 4 off topic publications which touch upon the palestinian issue focusing on the aftermath of october 7 operation and the role of energy in t rkiye russia relations our first commentary with the contributions of farid shafiyev begins by discussing the evolution of the ots emphasizing its transformation from a consultative mechanism to a powerful international organization of geostrategic importance in his analysis
