this book is the first and only comprehensive examination of current and future legal principles designed to govern oil and gas activity in iraq this study provides a thorough going review of every conceivable angle on iraqi oil and gas law from relevant provisions of the iraqi constitution of 2005 to legislative measures comprising the oil and gas framework law the revenue sharing law and the laws to reconstitute the iraq national oil company and reorganize the ministry of oil to the kurdistan regional government s 2007 oil and gas law no 22 and its accompanying model production sharing contract and to the apposite rules of international law distilled from both controlling un resolutions addressing iraq and more generally applicable principles of international law this text is essential to the reading collection of every practitioner business executive government official academic public policy maven and individual citizen with an interest in the details and controversial aspects of iraqi energy law

world war in syria answers questions that will have continued relevance beyond the country s borders for years to come impressive in its scholarship pondered in its judgements above all searing in its dissection of western powers war on syria waged over many decades the book is a must have on the bookshelves of any serious fair minded student of syria peter ford british ambassador to syria from 2003 to 2006 the most detailed history of the war in syria so far providing a richness of highly interesting details as well as a critical analysis of its complex international and domestic dimensions rarely encountered in other western publications nikolaos van dam former special envoy for syria 2015 16 ambassador of the netherlands to iraq egypt turkey germany and indonesia author of destroying a nation the civil war in syria a b abrams explores the widening scope of the syrian conflict in his important book solving syria s civil war will require a regional approach engaging stakeholders whose interests are

fundamentally opposed david l phillips director program on peace building and rights columbia university institute for the study of human rights abrams is a meticulous guide to the labyrinth of syria s modern political history richard w murphy u s ambassador to syria 1974 to 1978 consul in aleppo syria 1960 to 1963 a b abrams has written an extremely informative and illuminating account on the international dimension of the origins outbreak and evolution of the syrian conflict his empirically rich analysis in this nuanced and comprehensive study make it one of the best books if not the best book written about the syrian crisis this book is a must read for anyone who wants to understand the syrian conflict the middle east and the role of the great powers in the region jubin goodarzi professor and deputy head of international relations webster university geneva former consultant and political adviser on middle eastern affairs for the unhcr an insightful and dispassionate record of the syrian maelstrom and the west s role as the sorcerer s apprentice john holmes major general and director special forces ret british army

once again chinese missile exports are the subject of international concern recent reports indicate that the people s republic of china prc shipped chemicals suitable for production of solid fuel missiles to syria and guidance systems for the m 11 missile to pakistan in order to provide a basis for informed debate on the sensitive issue of china s missile export policy the international missile proliferation imp project has compiled a chronology of prc missile related developments the chronology is based on an extensive list of publicly available sources held by the imp project database as well as on interview data from other sources

this masterly new work spans an entire epoch in the history of the contemporary palestinian national movement from the establishment of israel in mandate palestine in 1948 to the plo israel accord of 1993 contrary to the conventional view that national liberation movements proceed with state building only after

attaining independence the case of the plo shows that state building may shape political institutionalization throughout the previous struggle even in the absence of an autonomous territorial economic and social base that is the central argument of this insightful study which traces the political ideological and organizational evolution of the plo and its constituent guerrilla groups taking the much vaunted armed struggle as its connecting theme it shows how conflict was used to mobilize the mass constituency assert particular discourses of revolution and nationalism construct statist institutions and establish the legitimacy of a new political class and bureaucratic elite the book draws extensively on plo archives official publications and internal documents of the various guerilla groups and over 400 interviews conducted by the author with the plo rank and file its span primary sources and conceptual framework make this the definitive work on the subject

the political handbook of the world provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide the updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system it also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and un agencies and this annual update includes coverage of current events issues crises and controversies from the course of this year

egypt energy policy laws and regulations handbook volume 1 strategic information and developments

these days one would have a difficult time picking up a newspaper or watching a newscast that did not have a lead story dealing with some aspect of oil from instability in the middle east to stock market crashes and concerns over the health of the world economy to wars that seem to break out unexpectedly around the world to discussions of global warming and even speculation over the fate of mankind oil is usually lurking somewhere in the background to many oil markets and their linkages to a whole spectrum of events remain something of a mystery unfortunately most of the easily obtained information on oil is deeply flawed whole web conspiracy sites depict ruthless insiders and reckless dictators

manipulating energy markets at will the 30 essays in this volume written by the leading experts in the field attempt to set the record straight while their assessments may lack the sensationalism of many popular pundits serious readers will find their insights invaluable in the years to come in providing a framework for understanding many of the events of the day the volume is divided into sections part i provides a broad overview of the political dimensions underlying the supply of oil some of the key questions addressed include is the world running out of oil and if so is the cause physical scarcity or political policy failure why are many of the oil producing countries in the developing world so unstable can oil markets be made to provide more stability to the world system part ii examines some of the political responses to oil related developments here the key questions concern the role of the political process in the development of alternative sources of energy the various means through which countries approach their energy security is assessed as is the problem of climate change the section ends with the provocative question do governments really need to go to war for oil oil production energy markets and the political environment produce distinct regional patterns part iii examines oil and political power in africa latin america the middle east and south east asia part iv expands some of the main regional themes through a series of case studies on specific countries iraq iran saudi arabia egypt russia and brazil a final section looks to the future will the oil curse continue for many countries how will the growth and expansion of china affect oil prices and availabilities will oil based sovereign wealth funds contribute to global stability or will they create increased political tensions between consuming and producing countries will volatile oil markets undermine the us dollar as well as the global financial system perhaps appropriately the volume ends with an assessment of the future of oil in a carbon constrained world all in all the essays in this volume cover the whole spectrum of the politics of oil hopefully they will help shed light on this vital yet still often misunderstood topic the book does not represent any particular political or ideological position instead each author has sought to objectively seek a deeper understanding as to the

complexity and subtlety of forces that have all too often eluded policymakers around the world

egypt labor laws and regulations handbook strategic information and basic laws

three quarters of our current electricity usage and transport methods are derived from fossil fuels and yet within two centuries these resources will dry up energy economics covers the role of each fossil and renewable energy source in today's world providing the information and tools that will enable students to understand the finite nature of fossil fuels and the alternative solutions that are available this textbook provides detailed examinations of key energy sources both fossil fuels and renewables including oil coal solar and wind power and summarises how the current economics of energy evolved subsequent chapters explore issues around policy technology and the possible future for each type of energy in addition to this readers are introduced to controversial topics including fracking and global warming in dedicated chapters on climate change and sustainability each chapter concludes with a series of tasks providing example problems and projects in order to further explore the proposed issues an accompanying companion website contains extensive additional material on the history of the major types of fuel as well as technical material relating to oil exploration the development of solar power and historical environmental legislation this textbook is an essential text for those who study energy economics resource economics or energy policy

north korea and the united states have been officially at war for over 70 years one of the longest lasting and most unbalanced conflicts in world history in which a small east asian state has held its own against a western superpower for over three generations with the western world increasingly pivoting its attention towards northeast asia and the region likely to play a more central role in the global economy north korea's importance as a strategically located country potential economic powerhouse and major opponent of western regional

hegemony will only grow over the coming decades this work is the first fully comprehensive study of the ongoing war between the two parties and covers the history of the conflict from the first american clashes with korea s nationalist movement in 1945 and imposition of its military rule over southern korea to north korea s nuclear deterrence program and ongoing tensions with the u s today the nature of the antagonism between the two states one profoundly influenced by both decolonisation and wartime memory and the other uncompromising in its attempts to globally impose its leadership and ideology is covered in detail northern korea is one of very few inhabited parts of the world never to have been placed under western rule and its fiercely nationalist identity as a deeply confucian civilization state has made it considerably more difficult to tackle than almost any other american adversary this work elucidates the conflicting ideologies and the discordant designs for the korean nation which have fueled the war and explores emerging fields of conflict which have become increasingly central in recent years such as economic and information warfare prevailing trends in the conflict and its global implications including the multiple wars that have been waged by proxy are also examined in detail an in depth assessment of the past provides context key to understanding the future trajectories this relationship could take and how a continuing shift in global order away from western unipolarity is likely to influence its future to understand where the korean peninsula might go in the rest of the 21st century abrams telling of the story of how the two countries got to where they are today is essential ankit panda senior editor the diplomat even those who find his conclusions unpalatable will be forced to weigh them carefully john everard former british ambassador to north korea

babylon the great is one of the greatest mysteries of the bible while there are many popular suggestions most of them don t meet all of the biblical criteria no babylon the great isn t an allegory or a system it s a rich morally bankrupt city that s just the tip of the iceberg in great babylon the case for london as babylon the

great the mystery city s characteristics are examined in detail as you might have guessed from the title one candidate stands out london

geopolitical upheaval has gripped the world since collapse of the soviet union during the 1990s the west focused on eliminating the resurgence of russia as a great power this led to the assimilation of warsaw pact countries into nato two chechen wars and political systems in the central asian republics aligned with the west russia s economic destruction was managed by the harvard boys shock therapy which left russian resources in the control of a few oligarchs aligned with the west by the end of the 1990s russia was a weak bankrupt country of marginalized influence in the world then the west s focus turned to china as a potential challenger to western global hegemony it was thought to suffice to control global energy resources and sea lanes to china to prevent china from challenging western global hegemony hence the first two decades of the millennium were focused on controlling west asia and north africa s energy resources for most the collapse of the soviet union in 1991 signaled the victory of the self denominated free world why the west can t win however addresses how events in the three following decades signal the end of a millennium of west european expansionism a plundering and oppression initially labeled crusades when the popes embodied political power morphing into colonialism then to the free world when colonialism went out of fashion post world war ii and at last to the international community after the collapse of the soviet union this book s geopolitical analysis includes a historical overview an understanding of the financial systems established at the bretton woods conference that continue dominating the global economy how they are used as a powerful geopolitical instrument an economic analysis based on real goods production global energy dynamics alliances and strategies of key global players it addresses the emerging division of the world into two geopolitical groups western europe north america australia new zealand and africa asia and latin america the current global geopolitical clash is in essence a struggle between the colonial powers wishing to

preserve the bretton woods system that allows siphoning wealth of nations and sovereign nations striving for independence and an end to a millennium of oppression this work compares the geopolitical forces since the turn of the millennium with a view to providing insight into their relative strengths and the likely outcome of this strugg
