this book focuses on the crises facing al qaeda and how the mass killing of muslims is challenging its credibility as a leader among islamist jihadist organizations the book argues that these crises are directly related to al qaeda s affiliation with the extreme violence employed against muslims in iraq syria afghanistan and pakistan in the decade since 9 11 al qaeda s public and private responses to this violence differ greatly while in public al qaeda has justified those attacks declaring that for the establishment of a state of true believers they are a necessary evil in private al qaeda has been advising its local affiliates to refrain from killing muslims to better understand the crises facing al qaeda the

book explores the development of central al qaeda s complex relationship with radical mis appropriations and manifestations of takfir which allows one muslim to declare another an unbeliever and its unique relationship with each of its affiliates in iraq syria afghanistan and pakistan the author then goes on to consider how the prominence of takfir is contributing to the deteriorating security in those countries and how this is affecting al qaeda s credibility as an islamist terror organization the book concludes by considering the long term viability of al qaeda and how its demise could allow the rise of the even more radical violent islamic state and the implications this has for the future security of the middle east north africa and central south asia this book will be of much interest to students of political violence and terrorism islamism global security and ir

but also right wing terrorism and counter terrorism a key objective of the work is to make the effects of prevention preemption de radicalization and non intervention both transparent and assessable as such it contributes well founded strategies feasible solutions and options for policy makers and counter terrorism experts this volume will be of great interest to students of terrorism and counter terrorism political violence and security studies

a fascinating account of the early years of the anti soviet insurgency in afghanistan and its role in rallying islamists from across the globe

one arab country after another is signing historic game changing peace trade investment and tourism deals with israel at the same time russia iran and turkey are forming a highly dangerous alliance that could threaten the western powers rosenberg explains the sometimes encouraging sometimes violent yet rapidly shifting landscape in israel and the arab muslim world he introduce readers to some of the most complex and controversial leaders in the world and explores the future of religion and peace in the middle east adapted from jacket

with more than 500 000 people killed and at least half the population displaced syria

s conflict is the most deadly of the twenty first century russia s decision to join the war has broken the long military and political stalemate but it looks unlikely to deliver any of the core demands that spawned the original uprising against the ba athist regime in this fully revised second edition of his acclaimed text samer abboud provides an in depth analysis of syria s descent into civil war the subsequent stalemate and the consequences of russian military involvement after 2015 he unravels the complex and multi layered drivers of the conflict and demonstrates how rebel fragmentation sustained regime violence international actors and the emergence of competing centers of power tore syria apart in wholly irreversible ways a resolution to the syrian catastrophe seems to have emerged in the aftermath of russia s intervention but as abboud argues this authoritarian peace contains the seeds of continued and future conflict in syria while the assad regime has so far survived the instability violence and insecurity that continue to shape everyday life for the syrian people portend an uncertain future that will have repercussions on the wider middle east for years to come

looking to the future in confronting the islamic state the islamic state best known

in the west as isis or isil has been active for less than a decade but it has already been the subject of numerous histories and academic studies all focus primarily on the past the future of isis is the first major study to look ahead what are the prospects for the islamic state in the near term and what can the global community including the united states do to counter it edited by two distinguished scholars at indiana university the book examines how isis will affect not only the middle east but the global order specific chapters deal with such questions as whether and how isis benefitted from intelligence failures and what can be done to correct any such failures how to confront the alarmingly broad appeal of islamic state ideology the role of local and regional actors in confronting isis and determining u s interests in preventing isis from gaining influence and controlling territory given the urgency of the topic the future of isis is of interest to policymakers analysts and students of international affairs and public policy

some of the world s most lethal terrorist organizations have become media centric enterprises while also hijacking a major world religion holding large swathes of physical territory and governing their own virtual states in this concise and penetrating book seib traces how

terrorism has proliferated and increased significantly in menace in the relatively brief period between the rise of al qaeda and the creation of islamic state with close attention to the linkages between media religion and violence the book offers incisive analysis of how organizations such as islamic state al qaeda and boko haram operate and reflects on how terrorism may continue to evolve seib argues that twenty first century terrorism is enabled by new media and depends on social networks as connective tissue while interacting simultaneously with religion and socio economic and political grievances as terrorism evolves prescribes new measures for counterterrorism efforts underscores the importance of soft power and makes a strong case for recognizing that we have entered an era of terrorism of undetermined duration

this book analyzes the impact and relevance of the syrian crisis on regional and international relations developing into a proxy war the syrian crisis has been a battleground for regional dominance it has also created an opportunity for new states to emerge on the world affairs scene russia for instance had been keeping a low profile since the fall of the soviet union but took a leading role in the syrian crisis reasserting itself against the

west regionally the syrian crisis has also been a catalyst in reshaping many interstate relations and allowing countries such as russia iran turkey and china to play an increasingly important geopolitical role there have been many international ramifications to the syrian crisis while the crisis led to an iranian russian rapprochement it was also a catalyst to more cooperation between russia and saudi arabia more importantly it also forced states with opposing views about the crisis turkey iran and russia to forge an alliance further the crisis created tensions between the us and turkey with china on the one hand balancing its interests between the gulf and iran whilst focusing on its ambitious belt and road initiative and trying on the other hand to contain islamic militancy in syria the book looks at issues that are usually ignored when discussing syria such as the strategic control over its hydrocarbon resources as well as the power of propaganda in portraying realities it features the use of non state actors by regional competing powers and the role of local councils in stabilizing the country the edited volume brings together contributions by authors with different backgrounds who present conflicting views reflecting the divergence between the various stakeholders about the syrian crisis

according to the author the greatest danger for americans confronting the islamist threat is to believe at the urging of u s leaders that muslims attack us for what we are and what we think rather than for what we do

winner of the national book critics circle award for nonfiction nominated for the national book award for nonfiction from the pulitzer prize winning author of ghost wars and the achilles trap the epic and enthralling story of america s intelligence military and diplomatic efforts to defeat al qaeda and the taliban in afghanistan and pakistan since 9 11 prior to 9 11 the united states had been carrying out small scale covert operations in afghanistan ostensibly in cooperation although often in direct opposition with i s i the pakistani intelligence agency while the us was trying to quell extremists a highly secretive and compartmentalized wing of i s i known as directorate s was covertly training arming and seeking to legitimize the taliban in order to enlarge pakistan s sphere of influence after 9 11 when fifty nine countries led by the u s deployed troops or provided aid to afghanistan in an effort to flush out the taliban and al qaeda the u s was set on an invisible slow motion collision course with pakistan today we know that the war in afghanistan would falter badly because of military hubris at the highest levels of the pentagon the drain on resources and

provocation in the muslim world caused by the u s led invasion of iraq and corruption but more than anything as coll makes painfully clear the war in afghanistan was doomed because of the failure of the united states to apprehend the motivations and intentions of i s i s directorate s this was a swirling and shadowy struggle of historic proportions which endured over a decade and across both the bush and obama administrations involving multiple secret intelligence agencies a litany of incongruous strategies and tactics and dozens of players including some of the most prominent military and political figures a sprawling american tragedy the war was an open clash of arms but also a covert melee of ideas secrets and subterranean violence coll excavates this grand battle which took place away from the gaze of the american public with unsurpassed expertise original research and attention to detail he brings to life a narrative at once vast and intricate local and global propulsive and painstaking this is the definitive explanation of how america came to be so badly ensnared in an elaborate factional and seemingly interminable conflict in south asia nothing less than a forensic examination of the personal and political forces that shape world history directorate s is a complete masterpiece of both investigative and

narrative journalism

with more than 1 100 cross referenced entries covering every aspect of conflict in the middle east this definitive scholarly reference provides readers with a substantial foundation for understanding contemporary history in the most volatile region in the world this authoritative and comprehensive encyclopedia covers all the key wars insurgencies and battles that have occurred in the middle east roughly between 3100 bce and the early decades of the twenty first century it also discusses the evolution of military technology and the development and transformation of military tactics and strategy from the ancient world to the present in addition to the hundreds of entries on major conflicts military engagements and diplomatic developments the book also features entries on key military political and religious leaders essays on the major empires and nations of the region are included as are overview essays on the major periods under consideration the book additionally covers such non military subjects as diplomacy national and international politics religion and sectarian conflict cultural phenomena genocide international peacekeeping missions social movements and the rise to prominence of international terrorism the reference entries are augmented by a

carefully curated documents volume that offers primary sources on such diverse topics as the greco persian wars the crusades and the arab israeli wars now in a premium edition a ripped from the headlines thriller about an act of nuclear terrorism plotted by al qaeda and the cia officer who must find the weapon before it causes the middle east to go up in flames the devil s light tells the story of an al qeda operative named amer al zaroor who on orders from osama bin laden directs the theft of a nuclear weapon from the pakistani military and then transports it toward its intended target israel meanwhile bin laden announces to the world that he will make a major terrorist strike on 9 11 10 the tenth anniversary of 9 11 deep inside washington brooke chandler a cia operative whose cover was blown by an incompetent colleague in lebanon thinks he knows how the bomb is being moved toward its target and how to find it first he must overcome the skepticism of the cia and the white house and then he must find the bomb and disable or detonate it before it causes the middle east to go up in flames

this book seeks to understand the obligations of the international community to promote and protect state and human security in situations of international

humanitarian crises in Iraq and Syria as well as in neighbouring states the rise of ISIL has raised serious state and human security challenges this study explores the relationships between the global regional partnership the United Nations and nine organizations in their attempt to deal with the challenges presented by ISIL each organization is analyzed in terms of how it has responded in the past and how it is now responding to the ISIL threat based on three perspectives resource capacities military political economic technological normative willingness and readiness and impediments to capacity and abilities the overall aim is to discern what capacities and abilities international organizations have to protect state and human security and prevent civilians from mass atrocities inflicted by ISIL forces the study addresses the role of international organizations when the UNSC is unable or unwilling to uphold the most fundamental norms and values in the UN Charter this approach acknowledges that within the international community there is an overall acceptance on security for a partnership between the UN and regional organizations but that there is also a contested call for a renegotiated international contract on state and human security this volume will be of much interest to students of international relations human rights peace and conflict studies terrorism studies and

the Algerian Islamist Abdullah Anas perhaps the greatest warrior of the Afghan Arabs fought the Soviet Union for a decade as one of the earliest Arabs to join the Afghan Jihad he counted as brothers in arms the future icons of Al Qaeda's global war from Abdullah Azzam to Osama bin Laden to Omar Abdel Rahman and befriended key Afghan jihadi figures such as Gulbuddin Hekmatyar and Ahmad Shah Massoud the Lion of Panjshir to the mountains is an intimate portrait of this brutal war tracing Anas's involvement in the conflict as well as his experiences of the Algerian civil war 1992-8 and his sojourn in London brushing shoulders with everyone from Abu Musab al Zarqawi to Jalaluddin Haqqani Anas opted for his own independent route seeking to persuade the Afghan Arabs that they should not be distracted by attacks on the West paradoxically he remains committed to the broader Islamist movement believing that Jihad will continue till the end of time yet has also spent years talking to the Taliban seeking to build a lasting peace in Afghanistan this is his story co-written with investigative journalist Tam Hussein Anas's memoir will doubtless become a seminal primary source on the rise of global jihadism
