in the wake of the september 11 attacks president george w bush drew a line in the sand saying either you are with us or you are with the terrorists since 9 11 many counterterrorism partners have been both with and against the united states helping it in some areas and hindering it in others this has been especially true in the middle east africa and south asia where the terrorist groups that threaten america are most concentrated because so many aspects of u s counterterrorism strategy are dependent on international cooperation the united states has little choice but to work with other countries making the most of these partnerships is fundamental to the success of the war on terror yet what the united states can reasonably expect from its counterterrorism partners and how to get more out of them remain too little understood in with us and against us stephen tankel analyzes the factors that shape counterterrorism cooperation examining the ways partner nations aid international efforts as well as the ways they encumber and impede effective action he considers the changing nature of counterterrorism exploring how counterterrorism efforts after 9 11 critically differ both from those that existed beforehand and from traditional alliances focusing on u s partnerships with algeria egypt mali pakistan saudi arabia and yemen against al qaeda isis and other terrorist organizations tankel offers nuanced propositions about what the u s can expect from its counterterrorism partners depending on their political and security interests threat perceptions and their relationships with the united states and with the terrorists in question with us and against us offers a theoretically rich and policy relevant toolkit for assessing and improving counterterrorism cooperation devising strategies for mitigating risks and getting the most out of difficult partnerships

us foreign policy in the middle east has for the most part been shaped by the eruption of major crises that have revealed the deficiency in and bankruptcy of existing consensus and conceptions crises generate a new set of ideas to address the roots of the crisis and construct a new reality that would best serve us interests further crises stimulate new ideological and ideational debates that de legitimate existing practices and prevailing ideas yakub halabi analyzes the way ideas and conceptions have guided us foreign policy in the middle east the erection of institutions through which these ideas were brought into practice and the manner in which these ideas became obsolete and were modified by new ideas the selection of crises examined is persuasive and provides a critical lens to observe important turning points in american foreign policy

during the chaotic evacuation of the United States from Afghanistan in 2021 a group of Congress members who were also military veterans of the war on terror leapt into action to assist vulnerable people in Afghanistan who had aided the American war effort this cohort of legislators and their staffs on Capitol Hill created hotlines and worked 24 hour shifts in an intense effort to save lives often coordinating between government agencies informal networks of veterans groups and contacts on the ground in Kabul in the process many veteran lawmakers also became vocal critics of presidential management of the crisis and said they felt a moral obligation to act in staying in the fight how war on terror veterans in Congress are shaping U.S. defense policy author Jeffrey S. Lantis shines a spotlight on this cohort of legislators and their unique position in the American government by using exclusive interview data archival sources statistics process tracing and comparative case methodology Lantis illustrates ways that policy interventions and activism by veterans on both sides of the aisle have shaped America's involvement in conflicts from Afghanistan to Ukraine the first study of its kind to focus on this new generation of military veterans and their role in foreign and security policy decision making staying in the fight speaks directly to debates in civil military relations veterans studies and research on congressional foreign policy advocacy

from the managing editor of the Washington Post a news breaking account of the CIA's involvement in the covert wars in Afghanistan that fueled Islamic militancy and gave rise to Bin Laden's Al Qaeda for nearly the past quarter century while most Americans were unaware Afghanistan has been the playing field for intense covert operations by U.S. and foreign intelligence agencies invisible wars which sowed the seeds of the September 11 attacks and which provide its context from the Soviet invasion in 1979 through the summer of 2001 the CIA KGB Pakistan's ISI and Saudi Arabia's General Intelligence Department all operated directly and secretly in Afghanistan they primed Afghan factions with cash and weapons secretly trained guerrilla forces funded propaganda and manipulated politics in the midst of these struggles Bin Laden conceived and then built his global organization comprehensively and for the first time Pulitzer Prize winning journalist Steve Coll tells the secret history of the CIA's role in Afghanistan from its covert program against Soviet troops from 1979 to 1989 to the rise of the Taliban and the emergence of Bin Laden to the secret efforts by CIA officers and their agents to capture or kill Bin Laden in Afghanistan after 1998 based on extensive firsthand accounts Ghost Wars is the inside story that goes well beyond anything previously published on U.S. involvement in Afghanistan it chronicles the roles of midlevel CIA officers their Afghan allies and top spy masters such as Bill Casey Saudi Arabia's Prince Turki al-Faisal and George Tenet and it describes heated debates within the American government and the often poisonous mistrustful relations between the CIA and foreign intelligence agencies Ghost Wars answers the questions so many have asked
