Java Code Style Guidelines One goal of a programming course is for you to learn to write programs that are not only correct but also understandable. These guidelines should help you toward that goal. They will give you a good basis for developing a style of your own as you become a more experienced programmer.

Google's Java Coding Standards - InfoQ

This document provides a style guide for .proto files. By following these conventions, you'll make your protocol buffer message definitions and their corresponding classes consistent and easy to read. Note that protocol buffer style has evolved over time, so it is likely that you will see .proto files written in different conventions or styles.
